

A new era of outsourcing

2022 ANNUAL REPORT

flex

Message from our CEO

Revathi Advaiti
CEO

June 30, 2022

"We have so much to be proud of for what we have accomplished and are excited about the journey ahead."

Dear fellow shareholders and colleagues,

We have been through another year of the pandemic as the world grappled with the ongoing health and humanitarian crisis that caused so much hardship to many across the globe. Even amid this crisis, my Flex colleagues delivered for our customers and supported each other and their communities with tenacity and empathy. We have so much to be proud of for what we have accomplished and are excited about the journey ahead.

This year, we expanded our position in critical markets, demonstrated strong financial discipline and execution, and continued to invest in our businesses for sustainable growth and margin expansion. We strengthened our partnerships with our customers and suppliers as we navigated through the dynamic supply chain and Covid-19 environments. In addition, we further advanced our sustainability and governance agendas and implemented initiatives to cultivate a high-performing and inclusive culture.

For our fiscal year 2022, the second year of our Flex Forward long-term strategy, we returned to growth, achieving 7.9% in revenue growth, and reached several record financial milestones:

- 4.5% full-year adjusted operating margin
- \$1.96 adjusted EPS and \$1.94 GAAP basis EPS
- \$686 million in stock buybacks

Our progress

We improved our mix, growing our Reliability segment revenue by 12%, which increased the segment by 2% of our total revenue. Our Agility segment revenue grew 4% this year and achieved record operating margins of 4.3%.

We have invested in manufacturing technology to maintain our leadership position in advanced manufacturing and leveraged our supply chain know-how to help our customers navigate the logistics challenges and the ongoing supply shortages. Our global footprint has enabled our customers to place their manufacturing closer to end markets, making their supply chains more resilient and increasingly more sustainable.

See Annex A to our proxy statement for a reconciliation of non-GAAP and GAAP financial measures.

In recognition of our progress, we are honored to have recently been recognized with three Manufacturing Leadership Awards for outstanding leadership and achievements in Enterprise Integration and Technology, Operational Excellence, and Sustainability and Circular Economy. Flex was also admitted into the World Economic Forum Global Lighthouse Network this year, starting with our Althofen facility. This achievement is a testament to our industry 4.0 capabilities that help our customers design, build, and deliver at scale. These advanced factories enable our customers to manufacture their products in regions close to their customers, more cost-effectively and with high quality.

In support of our long-term strategy to increase our technology capability and expand our portfolio of higher-margin solutions, this year, we also completed the acquisition of Anord Mardix, a global leader in critical power solutions. The addition adds to our technology portfolio of power products, expands our offerings in the hyperscale cloud market, and creates cross-selling opportunities with our core data center business.

We also progressed on our Nextracker business, a valuable part of our portfolio. We believe the right way to unlock the full value of Nextracker long-term is for it to operate as an independent company, and we continue to have a confidential S1 on file. This year, we announced an important partnership with TPG Rise Climate, TPG, Inc's dedicated renewables and climate fund for our Nextracker business. This partnership is an important step in unlocking significant value.

Our opportunity

Looking ahead, we see Flex continuing to grow and increasing our strategic value in the industry. As we recently discussed at our Investor and Analyst Day meeting, we see demand for global, advanced manufacturing and outsourcing growing for the next several years and beyond. This growth is driven by large, macro trends, including the digitization of everything, regionalization, and sustainability requirements. These trends are complex and make it harder for companies to manage on their own. More than ever, leading brands are looking for outsourcing partners to help them navigate these complex challenges and increase their competitive advantage.

Many secular trends are also accelerating growth in various industries and markets. Whether it is 5G infrastructure, renewable energy, automation, electrification, hyperscale cloud, smart living, and more, these growth drivers are impacting most of the industries we serve. Our domain expertise combined with our full suite of manufacturing and supply chain capabilities positions us well to address these secular trends and help our customers effectively compete in these markets.

Flex is one of the few global companies well-positioned to address these macro and secular trends and give them new ways to differentiate. Our vast experience in manufacturing advanced electronics and integration, combined with a full suite of manufacturing capabilities and services, enables our customers to manufacture at scale and bring differentiated products to market anywhere in the world. Our global manufacturing, logistics, and service locations allow our customers to address the need for resilient supply chains and bring their production closer to their end customers. As customer demands for greener products and sustainability requirements increase, Flex can help our customers manage their complete product life cycles and build end-of-life strategies that address sustainability requirements.

We believe we are in a new era of outsourcing, driven by the unprecedented challenges we are facing on a global scale. Our unique capabilities put us at the forefront of being able to address and capitalize on this complex environment. Building on the momentum we created in the fiscal year 2022, we see continued long-term, profitable growth for Flex.

Our culture

Our culture is what makes us who we are. At Flex, the journey of building an inclusive and diverse culture continues to grow stronger every day. On our journey to create a high-performing and inclusive culture, we rolled out our Ways of Working initiative that brought our culture to life through behaviors that we will continue to measure ourselves against to drive accountability.

Diversity is an important priority for us, and to lead this effort from the top, we have added exceptional senior executives across operations, business, human resources, and strategy roles to my leadership team. These leaders bring a new perspective and expertise and will help us accelerate progress on our long-term strategy.

Another critical part of our journey at Flex is our commitment to sustainability. In fiscal 2022, we introduced our most ambitious sustainability goals for 2030. I am incredibly proud of our acceptance into the Science-based Targets initiative, a global movement comprised of leading companies working to reach the Paris Agreement's goal of limiting global temperature rise to 1.5°C above preindustrial levels. Flex is in a unique position in the value chain not only to drive action to prevent the effects of climate change across our ecosystem but also, to help our customers and suppliers achieve their sustainability goals through sharing best practices and our circular economy solutions.

Beyond climate change, we also demonstrated our commitment to the communities in which we operate through our Flex Foundation and our sites worldwide. We have seen the horrors of the war in Ukraine and the need to support our communities and colleagues engulfed in tragedy. Through the generosity of our Flex employees and the Flex Foundation, we have supported refugee and relief efforts in Ukraine and surrounding countries through our partnerships with the Red Cross, Global Giving, and Save the Children. I am proud and grateful for how we have responded to this crisis and want to thank our employees and partners for how they have lived our values and taken care of our Ukrainian community.

I am very pleased with our progress on our journey to transform Flex into a high-performing, diversified advanced manufacturer.

I am very proud of how the entire Flex organization performed this year and am excited about the tremendous opportunity in front of us to grow and deliver even more value to our stakeholders. Thank you for your continued trust and partnership this year, and I look forward to continuing this incredible journey together.

Warm regards,

A handwritten signature in black ink, appearing to read "Rena Reddy". The signature is fluid and cursive, with a large initial "R" and "D".

Notice of Annual General Meeting of Shareholders

To Be Held on August 25, 2022

To Our Shareholders:

You are cordially invited to attend, and notice is hereby given of, the annual general meeting of shareholders of Flex Ltd., which will be held at our offices located at 6201 America Center Drive, San Jose, CA 95002, U.S.A., at 9:00 a.m., Pacific time, on August 25, 2022, for the purposes summarized below and described in more detail in the accompanying proxy statement.

Special notice regarding COVID-19. If you are not feeling well or think you may have been exposed to COVID-19, we ask that you vote by proxy for the 2022 annual general meeting. Should further developments with the COVID-19 situation necessitate that we change any material aspects of the annual general meeting, we will make public disclosure of such changes. We thank you for your cooperation as we prioritize the safety of our community and our shareholders.

We urge you to read the entire proxy statement carefully before voting. Unless the context requires otherwise, references in this notice and the proxy statement to "Flex," the "Company," "we," "us," "our" and similar terms mean Flex Ltd. or, as the case may be, Flex Ltd. and its subsidiaries. Flex is incorporated in the Republic of Singapore under the Companies Act 1967, which we refer to as the "Singapore Companies Act" or the "Companies Act 1967".

Important Notice Regarding Electronic Availability of Proxy Statement and Annual Report

We are pleased to furnish proxy materials to our shareholders on the Internet, as permitted by Securities and Exchange Commission (“SEC”) rules. Commencing on or about June 30, 2022, we will make available to our shareholders (including all of our registered shareholders) a Notice of Availability of Proxy Materials on the Internet (referred to as the Notice) containing instructions on how to: (i) access the proxy statement and our annual report, (ii) submit their proxies via the Internet, and (iii) request a printed copy of our proxy materials.

Proxy Voting Matters

You may revoke your proxies at any time before they are voted. Registered shareholders who are present at the meeting may revoke their proxies and vote in person or, if they prefer, may abstain from voting in person and allow their proxies to be voted.

Voting Matters at the Annual General Meeting

We are asking shareholders to vote on five proposals at the meeting:

- To re-elect all ten directors of the Company nominated for re-election (*Proposal No. 1*);
- To approve the re-appointment of Deloitte & Touche LLP as our independent auditors for the 2023 fiscal year and to authorize the Board of Directors, upon the recommendation of the Audit Committee, to fix their remuneration (*Proposal No. 2*);
- To approve, on a non-binding, advisory basis, our executive compensation (*Proposal No. 3*);
- To approve a general authorization for the Board of Directors to allot and issue ordinary shares (*Proposal No. 4*); and
- To approve a renewal of the Share Purchase Mandate permitting Flex to purchase or otherwise acquire its own issued ordinary shares (*Proposal No. 5*).

Resolutions Proposed for Shareholder Approval as Ordinary Business

Each of the resolutions proposed for approval by our shareholders is as follows:

1. To re-elect each of the following Directors, who will retire pursuant to Article 94 of our Constitution, to the Board of Directors:
 - (a) Revathi Advaiti;
 - (b) Michael D. Capellas;
 - (c) John D. Harris II;
 - (d) Michael E. Hurlston;
 - (e) Erin L. McSweeney;
 - (f) Marc A. Onetto;
 - (g) Charles K. Stevens, III;
 - (h) Lay Koon Tan;
 - (i) Patrick J. Ward; and
 - (j) William D. Watkins.
2. To consider and vote upon a proposal to re-appoint Deloitte & Touche LLP as our independent auditors for the fiscal year ending March 31, 2023, and to authorize our Board of Directors, upon the recommendation of the Audit Committee of the Board of Directors, to fix their remuneration.

Resolutions Proposed for Shareholder Approval as Special Business

Each of the resolutions proposed for approval by our shareholders is shown below:

3. To consider and vote on the following non-binding, advisory resolution:

"RESOLVED THAT, the shareholders of Flex approve, on a non-binding, advisory basis, the compensation of the Company's named executive officers, as disclosed pursuant to Item 402 of SEC Regulation S-K, including the Compensation Discussion and Analysis and the compensation tables and related disclosures contained in the section of the accompanying proxy statement captioned 'Executive Compensation'."

This resolution is being proposed to shareholders as required pursuant to Section 14A of the U.S. Securities Exchange Act of 1934, as amended. The shareholders' vote on this resolution is advisory and non-binding in nature, will have no legal effect and will not be enforceable against Flex or its Board of Directors.

4. To pass the following resolution as an Ordinary Resolution:

"RESOLVED THAT, pursuant to the provisions of Section 161 of the Companies Act 1967, but subject otherwise to the provisions of the Companies Act 1967 and our Constitution, authority be and hereby is given to our Directors to:

- (a) (i) allot and issue ordinary shares in our capital ("Ordinary Shares"); and/or
 (ii) make or grant offers, agreements, options, performance shares, performance units, restricted share units, or other compensatory equity awards that might or would require Ordinary Shares to be allotted and issued, whether after the expiration of this authority or otherwise (including but not limited to the creation and issuance of warrants, debentures or other instruments convertible into Ordinary Shares),

at any time to and/or with such persons and upon such terms and conditions and for such purposes as our Directors may in their absolute discretion deem fit, and with such rights or restrictions as our Directors may think fit to impose and as are set forth in the Constitution of the Company; and

- (b) (notwithstanding that the authority conferred by this resolution may have ceased to be in force) allot and issue Ordinary Shares in pursuance of any offer, agreement, option, performance share, performance unit, restricted share unit, or other compensatory equity award made or granted by our Directors while this resolution was in force, and unless revoked or varied by the Company in general meeting, that such authority shall continue in force until (i) the conclusion of our next annual general meeting or (ii) the expiration of the period within which our next annual general meeting is required by law to be held, whichever is the earlier."

5. To pass the following resolution as an Ordinary Resolution:

"RESOLVED THAT:

- (a) for the purposes of Sections 76C and 76E of the Companies Act 1967, the exercise by our Directors of all of our powers to purchase or otherwise acquire issued Ordinary Shares in the capital of the Company not exceeding in aggregate the number of issued Ordinary Shares representing 20% of the total number of issued Ordinary Shares outstanding as of the date of the passing of this resolution (excluding treasury shares and any Ordinary Shares which are held by our subsidiary(ies) under Sections 21(4B) or 21(6C) of the Companies Act, as at that date) at such price or prices as may be determined by our Directors from time to time up to the maximum purchase price described in paragraph (c) below, whether by way of:

- (i) market purchases on the Nasdaq Global Select Market or any other stock exchange on which our Ordinary Shares may for the time being be listed and quoted; and/or
 (ii) off-market purchases (if effected other than on the Nasdaq Global Select Market or, as the case may be, any other stock exchange on which our Ordinary Shares may for the time being be listed and quoted) in accordance with any equal access scheme(s) as may be determined or formulated by our Directors as they consider fit, which scheme(s) shall satisfy all the conditions prescribed by the Companies Act 1967,

and otherwise in accordance with all other laws and regulations and rules of the Nasdaq Global Select Market or, as the case may be, any other stock exchange on which our Ordinary Shares may for the time being be listed and quoted as may be applicable, be and hereby is authorized and approved generally and unconditionally;

- (b) unless varied or revoked by our shareholders in a general meeting, the authority conferred on our Directors pursuant to the mandate contained in paragraph (a) above may be exercised by our Directors at any time and from time to time during the period commencing from the date of the passing of this resolution and expiring on the earlier of:
- (i) the date on which our next annual general meeting is held; or
 (ii) the date by which our next annual general meeting is required by law to be held;

- (c) the maximum purchase price (excluding brokerage commission, applicable goods and services tax, and other related expenses) that may be paid for an Ordinary Share purchased or acquired by us pursuant to the mandate contained in paragraph (a) above, shall not exceed:
 - (i) in the case of a market purchase of an Ordinary Share, the highest independent bid or the last independent transaction price, whichever is higher, of our Ordinary Shares quoted or reported on the Nasdaq Global Select Market or, as the case may be, any other stock exchange on which our Ordinary Shares may for the time being be listed and quoted, or shall not exceed any volume weighted average price, or other price determined under any pricing mechanism, permitted under SEC Rule 10b-18, at the time the purchase is effected; and
 - (ii) in the case of an off-market purchase pursuant to an equal access scheme, at a premium of up to but not greater than 5 percent above the average of the closing price per Ordinary Share over the five trading days before the day on which the purchases are made; and
- (d) our Directors, acting independently or individually, be and hereby are authorized to complete and do all such acts and things (including executing such documents as may be required) as such Director(s) may consider expedient or necessary to give effect to the transactions contemplated and/or authorized by this resolution."

Notes

Singapore Financial Statements

At the 2022 annual general meeting, our shareholders will have the opportunity to discuss and ask any questions that they may have regarding our Singapore audited financial statements for the fiscal year ended March 31, 2022, together with the directors' statement and auditors' report thereon, in compliance with Singapore law. Shareholder approval of our audited financial statements is not being sought by the accompanying proxy statement and will not be sought at the 2022 annual general meeting.

Eligibility to Vote at Annual General Meeting

Receipt of Notice. The Board of Directors has fixed the close of business on June 27, 2022 as the record date for determining those shareholders of the Company who are entitled to receive copies of this notice and accompanying proxy statement. However, all shareholders of record on August 25, 2022, the date of the 2022 annual general meeting, will be entitled to vote at the 2022 annual general meeting.

Quorum

Representation in person or by proxy of at least 33-1/3% of all outstanding Ordinary Shares of the Company is required to constitute a quorum to transact business at a general meeting of our shareholders.

Proxies

A shareholder entitled to attend and vote at the 2022 annual general meeting is entitled to appoint a proxy to attend and vote on the shareholder's behalf. A proxy need not also be a shareholder. **Even if you plan to attend the meeting, we encourage you to vote promptly. You may vote your shares through one of the methods described in the enclosed proxy statement. A proxy card submitted by mail must be received by Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717 not less than 48 hours before the time appointed for holding the 2022 annual general meeting. Please review the instructions on the proxy card and notice of availability of proxy materials regarding the submission of proxies via the Internet, which provide, among other things, for the transmission of voting instructions up until 11:59 p.m. Eastern time on the day before the meeting.** You may revoke your proxy at any time before it is voted. Registered shareholders who are present at the meeting may revoke their proxies and vote in person or, if they prefer, may abstain from voting in person and allow their proxies to be voted.

Disclosure Regarding Share Purchase Mandate Funds

Only funds legally available for purchasing or acquiring our issued Ordinary Shares in accordance with our Constitution and the applicable laws of Singapore will be used by us to purchase or acquire our own issued Ordinary Shares pursuant to the proposed renewal of the Share Purchase Mandate referred to in this notice. We intend to use our internal sources of funds and/or borrowed funds to finance the purchase or acquisition of our issued Ordinary Shares. The amount of financing required for us to purchase or acquire our issued Ordinary Shares, and the impact on our financial position, cannot be ascertained as of the date of this notice, as these will depend on, among other things, the number of Ordinary Shares purchased or acquired, the price at which such Ordinary Shares are purchased or acquired, and whether the Ordinary Shares purchased or acquired are held in treasury or cancelled. Our net tangible assets and the consolidated net tangible assets of the Company and its subsidiaries will be reduced by the purchase price (including any expenses) of any Ordinary Shares purchased or acquired and cancelled or held as treasury shares. We do not anticipate that the purchase or acquisition of our Ordinary Shares in accordance with the Share Purchase Mandate would have a material impact on our financial condition and cash flows.

Personal Data Privacy

By submitting an instrument appointing a proxy or representative to attend, speak and vote at the 2022 annual general meeting and any adjournment thereof, a shareholder of the Company (i) consents to the collection, use and disclosure of the shareholder's personal data by us (or our agents or service providers) so we (or our agents or service providers) can process, administer and analyze proxies and representatives appointed for the 2022 annual general meeting (including any adjournment thereof) and prepare and compile the attendance lists, minutes and other documents relating to the 2022 annual general meeting (including any adjournment thereof), and in order for us (or our agents or service providers) to comply with any applicable laws, listing rules, take-over rules, regulations or guidelines (collectively, the "Purposes"), (ii) warrants that where the shareholder discloses the personal data of the shareholder's proxy or representative to us (or our agents or service providers), the shareholder has obtained the prior consent of such individual for the collection, use and disclosure by us (or our agents or service providers) of such personal data for the Purposes, and (iii) agrees that the shareholder will indemnify us in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the shareholder's breach of warranty.

By order of the Board of Directors,

Tay Hong Chin Regina
Company Secretary
Singapore
June 30, 2022

You should read the entire proxy statement carefully before you return your proxy card or otherwise submit your proxy appointment through electronic communications in the manner set out in the accompanying proxy statement.

Important Notice Regarding the Availability of Proxy Materials for the 2022 Annual General Meeting of Shareholders to Be Held on August 25, 2022. This notice of the annual general meeting and the accompanying proxy statement and our annual report to shareholders are available on our website at <https://investors.flex.com/financials/annual-reports-and-proxy/>.

Vote in Person at the Meeting		If you are a beneficial holder and hold your shares through a bank, broker, or other nominee, you must request a "legal proxy" from the nominee in order to vote at the meeting. You will find instructions on how to request a "legal proxy" at www.proxyvote.com .
Vote via Internet		at www.proxyvote.com Follow the instructions on your Notice. If you are a beneficial holder and hold your shares through a bank, broker, or other nominee, your nominee may not permit you to vote online.
Vote by Mail		Sign and return your proxy card. If you do not have a proxy card, you can request one by contacting us at: Flex Ltd. 6201 America Center Drive San Jose, California 95002 (408) 577-4632

Business Summary

Who We Are and What We Do

Flex is the diversified manufacturing partner of choice that helps market-leading brands design, build and deliver innovative products that improve the world. Through the collective strength of a global workforce across approximately 30 countries with responsible, sustainable operations, Flex delivers advanced manufacturing solutions and operates one of the most trusted global supply chains, supporting the entire product lifecycle with fulfillment, after-market, and circular economy solutions for diverse industries including cloud, communications, enterprise, industrial, consumer devices, lifestyle, healthcare, and energy.

Our purpose is to make great products that create value and improve people’s lives. **Our vision** is to be the most trusted global technology, supply chain and manufacturing solutions partner to improve the world, and **our mission** is to achieve our vision and fulfill our purpose. People are at the heart of everything we do. We believe in creating a work environment that empowers every team member to thrive, while prioritizing employee safety, well-being and inclusiveness. Flex continues to further a dynamic, ever-evolving culture where employees embody behaviors aligned with our values. Our values define and drive us and our Ways of Working bring our values to life through actions and provide a framework for how we make decisions.

Our values and ways of working

Learn and adapt

Honor commitments

Respect and value others

Collaborate and share openly

Our strategy is to continue investing in areas where we can differentiate and add value, whether through engineering and design services, product technologies or developing differentiated processes and business methods. We are strengthening our abilities in software, robotics, AI, factory automation, and other disruptive technologies. We select ethical partners and integrate the supply chain so that our customers can operate efficiently and responsibly. We are committed to investing in our employees and communities, which includes addressing critical environmental issues.

Our three reporting business segments are as follows:

Flex Reliability Solutions			Flex Agility Solutions			Nexttracker ⁽¹⁾
Automotive, including next generation mobility, autonomous, connectivity, electrification, and smart technologies	Health Solutions, including medical devices, medical equipment, and drug delivery	Industrial, including capital equipment, industrial devices, and renewables and grid edge	Communications, Enterprise and Cloud, including data infrastructure, edge infrastructure, and communications infrastructure	Lifestyle, including appliances, consumer packaging, floorcare, micro mobility, and audio	Consumer Devices, including mobile and high velocity consumer devices	Solar Tracker and Software Solutions, used in utility-scale and ground-mounted distributed generation solar projects

(1) Beginning in the fourth quarter of fiscal year 2022, Flex now reports Nexttracker as a separate reporting business segment. Nexttracker was previously included in the Industrial reporting unit within the Flex Reliability Solutions segment.

Fiscal Year 2022 Highlights

Performance and Company Highlights for Fiscal Year 2022

During fiscal year 2022, we achieved record performance, reflective of our execution and dedication to deliver for our customers and all our stakeholders. Key financial highlights from the fiscal year include:

Sustainability Highlights (pg. 21)

We strive to make a lasting positive impact for our employees, customers and shareholders and aim to follow social and environmental practices that make our partners and shareholders proud. Our efforts have been widely recognized, garnering awards for sustainability including the Manufacturing Leadership Awards and inclusion in S&P Global's Sustainability Yearbook. Below are some highlights of our sustainability practices.

2030 Sustainability Goals	Continuing our purpose-driven journey, we established new sustainability goals through 2030 against a refreshed framework centered on our world, our people and our approach spanning several pillars.
Science Based Targets initiative	This past year, we joined the Science Based Targets initiative (SBTi), the global movement of leading companies working to reach the Paris Agreement's goal of limiting global temperature rise, setting ambitious goals, including a commitment to cut operational emissions in half by 2030.
Diversity, Equity and Inclusion (DE&I)	We re-committed to our mission to provide a safe environment with growth opportunities for our employees to prosper by establishing clear diversity, equity and inclusion goals and investing in supporting initiatives. As of March 31, 2022, women represent 43% of our global employees, and underrepresented minorities represent 47% of our U.S. employees.
Flex Foundation	We partnered with nonprofit organizations, community leaders and governments to promote inclusive and sustainable economic growth, employment, and decent work for all through grants, corporate and employee donations, and volunteerism. For example, in calendar year 2021, our Flex Foundation donated \$1.5 million in grants to support COVID-19 relief efforts as well as associations that support environmental efforts and vulnerable groups around the globe.

Corporate Governance Highlights (pg. 28)

Flex strives for excellence in corporate governance practices, which we recognize is fundamental to maintaining the trust of our shareholders, customers, and employees. Flex's management and Board of Directors continually evaluate processes and implement procedures designed to maintain strong governance and operational standards. Below are some highlights of our corporate governance practices.

Board Structure and Independence

- Maintain a diverse and independent Board, with a highly engaged independent Chair with clearly delineated duties
- All directors are independent except for our CEO; all 3 committees fully independent
- Continuously evaluate the composition of the Board, and perform an annual review and determination of Board leadership structure
- Purposefully nominate directors with diverse backgrounds and skillsets to best oversee the management of Flex
- Balance of new and experienced directors. Four new directors have joined our Board in the past three years, and average tenure of our nominees is 5.3 years. The current slate of directors represents a balance of short-, mid- and longer-term tenures of service.
- Regular executive sessions of independent directors without management present

Board Oversight

- We regularly assess our corporate governance structure to ensure comprehensive oversight of Flex's management, practices, and operations
- Board fully engaged in Flex's strategic planning process, conducting an in-depth strategy review and overseeing progress throughout the year
- The Audit Committee oversees the integrity of the Company's financial statements, as well as management of enterprise-wide risks and legal, compliance and cybersecurity risks
- The Compensation and People Committee oversees the Company's executive compensation programs to align with long-term Company strategy, human capital management, as well as key talent metrics
- The Nominating, Governance and Public Responsibility Committee oversees the application of the Company's environmental, social and corporate governance (ESG) policies
- Directors have significant interaction with senior business leaders and access to other employees

Strong Corporate Governance Practices

- Annual elections for all directors
- Responsive, active and ongoing shareholder engagement. Recent topics include our ESG commitments including our diversity, equity and inclusion (DE&I) initiatives
- Prohibit hedging and pledging transactions by executive officers and directors
- Annual Board, committee and individual director performance evaluations
- Limits on other public company board service by our directors
- Clawback policy for our executive officers
- Share ownership requirements for executive officers and directors
- Comprehensive director orientation and continuing education programs

Nominees to our Board of Directors (pg. 43)

Our Board believes that its composition appropriately reflects the knowledge, experience, skills, diversity, and other characteristics required to fulfill its duties. As discussed in further detail below, Jennifer Li and Willy C. Shih, Ph.D. are not being nominated for re-election and will be retiring from the Board pursuant to Article 94 of our Constitution, as amended, effective as of the conclusion of the 2022 annual general meeting.

The following provides information about our nominees.

Name and Principal Occupation	Independent	Director Since	Flex Committees			Other Public Company Boards
			Audit	NG&PR	Compensation and People

Annual Report

Shareholder Info

Executive Compensation Highlights (pg. 55)

Our pay-for-performance compensation philosophy aims to tie actual pay delivery to performance. We believe above-target performance should be rewarded when achieved, and below-target performance should lead to reduced compensation, including zero payouts for incentive elements when performance thresholds are not met. We also believe we should deliver a significant portion of executive pay in the form of equity awards, which are directly aligned with value delivered to shareholders.

Base salaries	Our named executive officers' (or NEOs') base salaries were increased for fiscal year 2022, as detailed in the CD&A. Prior to the increases, salaries had not been increased since fiscal year 2020, with the exception of Mr. Hartung who received an increase in fiscal year 2021 to align his salary to market and to recognize the increased responsibilities associated with his promotion to President, Agility Solutions. Salaries were decreased in fiscal year 2021 for six months (by 50% for our Chief Executive Officer, and 30% for other NEOs) due to COVID-19-related uncertainty and the need to preserve cash.
Bonus payouts	Bonus payouts under the incentive bonus plan were at 99% of target for all NEOs except Mr. Hartung (President, Agility Solutions), who received a payout of 92% of target, due to 50% of his bonus being tied to the results of the Agility Solutions segment.
Long-term incentive awards	Long-term incentive awards were increased for our Chief Executive Officer, Chief Financial Officer, and President, Agility Solutions. These increases resulted in total target compensation being competitively positioned versus our compensation peer group. Long-term incentive values for our President, Global Operations and Components, and EVP, General Counsel were held flat relative to the prior fiscal year.
Performance share plan (rTSR) payouts = 0%	No payouts were earned under the TSR performance stock units (PSUs) for the three-year performance cycle ending in fiscal year 2022 (PSUs vesting in June 2021), as the threshold performance level was not achieved.

Sustainability

Flex's purpose is to make great products for our customers that create value and improve people's lives. Sustainability is at the core of our purpose and is embedded in our culture. We work to have a lasting positive impact in the form of value for all our stakeholders by taking an ecosystem approach to sustainability. We seek to address material issues, risks, and opportunities by conforming to internal and external standards and thoughtfully executing our social and environmental management system, programs, and initiatives.

We strive for social and environmental betterment through our robust management systems. Our sustainability system, which is modeled largely on the Responsible Business Alliance (RBA) requirements, consolidates several management systems into one, and incorporates current environmental, labor, human rights, health, safety, and ethics standards. As a founding member of the RBA, Flex is committed to modeling its requirements.

In partnership with our customers and suppliers, we are committed to significantly lowering emissions through science-based targets, investing in our communities, advancing a safe, inclusive, and respectful work environment for all, and driving environmental, social and governance (ESG) focused practices with transparency.

Sustainability Governance and Strategy

Given our commitment to sustainability, we recognize the importance of a strong foundation of sustainability governance. Our Board of Directors engages in an annual review of Flex's sustainability program including our ESG efforts and participates in an annual ESG director education session. Our Nominating, Governance and Public Responsibility Committee oversees Flex's sustainability risks and remediation efforts, including the Company's sustainability, including environmental, social and governance policies and programs. These policies and programs also address human rights, climate change, and risk mitigation.

Our executive management team receives regular sustainability updates. In addition, we have a Corporate Sustainability Leadership Committee, a multidisciplinary group composed of global leaders throughout the Company who represent the key functional areas with responsibility for sustainability efforts, including operations, human resources, supply chain, regulatory compliance, account management, and communications. This committee meets quarterly to share information with people across various teams within Flex who are directly responsible for implementing and managing sustainability initiatives.

We endeavor to align our efforts with global sustainability organizations and initiatives, including the United Nations Global Compact, that contribute to broader calls to action and collective progress toward a healthier future. In the past year, we joined the Science Based Targets initiative, and in connection with joining such initiative, we have adopted greenhouse gas emissions reduction targets necessary to meet the Paris Agreement goals, including limiting global warming to 1.5°C above preindustrial levels.

2030 Sustainability Goals

In calendar year 2021, continuing our purpose-driven journey, we developed our next set of long-term sustainability goals that focus on key areas where we can make a measurable, direct, and positive impact. We've set new sustainability goals through 2030 against a refreshed framework centered on our world, our people and our approach spanning several pillars.

We are committed to:

- Significantly lowering emissions through science-based targets in partnership with our customers and suppliers⁽¹⁾;
- Investing in our communities;
- Advancing a safe, inclusive and respectful work environment for all; and
- Driving ESG-focused best practices with transparency.

(1) The target boundary includes biogenic emissions and removals from bioenergy feedstocks.

Notable 2030 goals include:

- We commit to reduce absolute scope 1 and 2 GHG emissions 50% by 2030 from a 2019 base year.
- We commit to reduce total health and safety case incident rate (TCIR) to below 0.2 by 2025.
- We commit that 50% of our 'Preferred Suppliers' will set their own GHG emissions reduction targets by 2025 and 100% by 2030.

Sustainability and Our People

Our approximately 170,000 global employees are at the core of who we are and what we do. We believe that our performance is driven by our workforce. To maintain competitiveness and world-class capabilities, we focus on hiring and retaining the world's best talent. We have focused on attracting the best engineering, functional and operational leaders and have accelerated efforts to develop the future leaders of the Company. We consistently review and refine our human capital management programs, policies, and procedures to ensure that they attract, select, develop, engage and retain strong, diverse talent. Our policies, philosophy and strategies support the inclusion of all people in our working environment. Further, we're committed to respecting the human rights of our employees and improving their quality of life.

Human Capital Management Governance

Because our employees are central to our success as a business, the Board plays an active role in overseeing our human capital management efforts. The Compensation and People Committee of our Board of Directors is responsible for assisting the Board in discharging this oversight duty and continues to work closely with the executive management team in helping to shape our culture and focus efforts on developing formal human capital management and talent development initiatives to better support our workforce as the Company continues to evolve.

The Compensation and People Committee's oversight activities in this area include, among other aspects, receiving periodic updates (not less than twice annually) regarding, and overseeing any significant change to, our human capital management strategy including corporate culture, inclusion, pay and opportunity equity, diversity, social initiatives and results, and talent training, development and retention programs and results. Additionally, the Compensation and People Committee reviews the performance of and succession planning for our CEO and executive officers.

**"Culture is the most important part of any organization, and building a strong culture that can stay with us for generations and decades is the most important contribution we can make to making Flex a really great company."
- Revathi Advaiti, CEO**

Workplace Culture and Talent Management

Recognizing the importance of a healthy workplace culture, we launched a culture initiative in 2019 designed to define and communicate who we are and who we want to be as a company. This process resulted in the promulgation of our vision, purpose, mission, values, and the development and launch of our "Ways of Working". We developed and continue to execute programs to embed our culture into our daily actions including employee engagement through surveys and round table discussions with our executive leadership; virtual development and volunteer programs; and recognition programs. In 2021, we launched a global training program for people managers to communicate, practice skills and share learnings related to our Ways of Working, which are behaviors that enable us to live our values every day. Each quarter, people leaders take training and hold discussions with their teams on Ways of Working and other culture topics, like leadership behaviors and inclusion. This initiative is an enterprise-wide priority to continue to create a culture that differentiates Flex in the market.

Diversity, Equity & Inclusion

A key aspect of our corporate mission is to provide a safe environment with growth opportunities for our employees to prosper. One way we pursue this goal is by prioritizing diversity, equity and inclusion. We recognize the value of our human capital as an asset to our business. We also recognize that the sum of the individual differences, life experiences, knowledge, inventiveness, innovation, self-expression, unique capabilities, and talent that our employees invest in their work represents a significant part of our culture, enhances our reputation and contributes to our success. We embrace and encourage our employees' differences, and nurture a sense of collective pride and belonging. We strive to ensure that all Flex employees are empowered to do their best and advance in their careers.

In the last year, we continued our progress on improving diversity, equity and inclusion through employee programs. Our employee resource groups ("ERGs") work to create a community that fosters freedom of self, build cultural awareness, and develop a new generation of diverse leaders at Flex by establishing a sustainable structure with executive support that challenges bias and promotes unity. With over 10,000 members, the Company maintains ERG chapters worldwide across eight identities: Asian and Pacific Islander, Black, LatinX, LGBTQ+, People with Disabilities, Women, Women in Tech, and Veterans. These groups help to create a sense of belonging and support retention and attraction. Each ERG has an executive sponsor and is supported by senior leaders across the Company. The Company also held cultural awareness activities throughout the year to highlight specific groups including People with Disabilities Awareness Weeks, Black History Month, Asian Pacific Heritage Month, PRIDE Month, LatinX Heritage Month, and Women's History Month.

In partnership with McKinsey, we offered leadership development opportunities through their Management Accelerator and Executive Leadership Program to 45 Asian, 16 Black and 36 Latinx employees. We also enhanced SheLeads, our global leadership development program for women employees, offered leadership coaching to 20 of our top gender and ethnically diverse leaders, and continued to implement inclusive leadership training for people managers to, among other things, provide tools to help managers lead more inclusively and improve diversity in recruiting. Furthermore, we leveraged external community partnerships with organizations such as Catalyst, the Business Roundtable, National Society of Black Engineers (NSBE), and The Valuable 500 to amplify our impact in recruiting and retaining diverse talent.

As of March 31, 2022, women represent 43% of our global employees, and underrepresented minorities (those who identify as Black/African American, Hispanic/Latinx, Native American, Pacific Islander and/or two or more races) represent 47% of our U.S. employees. Approximately 19% of our executive team and approximately 22% of our leadership team (director level and above) are female. Approximately 23% of our executive team and approximately 32% of our U.S. leadership team (director level and above) are comprised of underrepresented minorities.

We are proud of the success we have had in making Flex a more inclusive and diverse workplace. Looking forward, we plan to execute on our commitment to diversity, equity and inclusion by establishing, publishing, and working towards corporate goals including:

- Increasing female representation at the director level and above globally;
- Increasing racial and ethnic diverse representation at the director level and above in the United States so our leadership will reflect our organization and the communities in which we operate;
- Holding leadership accountable for inclusion and diversity outcomes; and
- Remaining committed to parity in pay and opportunity.

Human Rights

We are committed to respecting the human rights of all people throughout our operations and in our value chain. Accordingly, the Company works to foster a culture that respects and promotes human rights. Our commitment to human rights is outlined in our Code of Business Conduct and Ethics. We have also adopted a Human Rights Policy to, among other things, create awareness and establish expectations related to legal requirements, ethical practices and human rights. Our Human Rights Policy is aligned with the United Nations Guiding Principles on Business and Human Rights and is inclusive of rights outlined in the United Nations Universal Declaration of Human Rights to the extent those rights apply to business operations. It applies to our Company, all employees on a worldwide basis and to our value chain, including our suppliers and vendors. We have also adopted a Company statement on forced labor and human trafficking which describes our global practices to address forced labor.

In addition to these policies, Flex is an active member of the Responsible Business Alliance (or RBA), the world's largest industry coalition dedicated to corporate social responsibility in global supply chains. Through this organization's efforts, including its Responsible Labor Initiative, we work with others across industries aimed to ensure that the rights of workers vulnerable to forced labor in global supply chains are consistently respected and promoted. Flex is also an active member of the Global Business Initiative on Human Rights. The mission of this organization is to advance human rights in a business context through cross-industry peer learning, outreach, and thought-leadership to shape policy and practice.

Talent Attraction, Development, and Retention

Talent attraction, development, and retention are critical to our success and core to our mission as a company. To support the advancement of our employees, we provide training and development programs and opportunities encouraging advancement from within while we continue to fill our team with strong and experienced external talent. We leverage both formal and informal programs, including in-person (as health and safety practices and policies allow), virtual, social and self-directed learning, mentoring, coaching, and external development to identify, foster, and retain top talent. Employees have access to courses through our learning and development platform, Flex Learn. In 2021, over 36,000 of our employees completed approximately 1 million hours of training programs. Flex has undertaken initiatives to keep employees who are working from home engaged during COVID-19, including virtual learning programs and check-in sessions.

We are also focused on completing talent and performance reviews. Our in-depth talent reviews serve to identify high potential talent to advance in roles with greater responsibility, assess learning and development needs, and establish and refresh succession plans for critical leadership roles across the enterprise. Our performance review process promotes transparent communication of team member performance, which we believe is a key factor in our success. The performance and the talent reviews enable ongoing assessments, reviews, and mentoring to identify career development and learning opportunities for our employees.

As a part of our efforts to improve employee experiences at Flex, we conduct the annual enterprise-wide employee engagement "Flex Voice" survey. Our leadership uses the results of the survey to continue developing our strengths and measure opportunities for improvement. This year, 85% of employees completed the Flex Voice survey and the results reflected increased enthusiasm and engagement.

Compensation and Benefits

Our total rewards are designed to attract, motivate and retain employees at all levels of the Company. Our compensation philosophy is driven by the desire to attract and retain top talent, while ensuring that compensation aligns with our corporate financial objectives and the long-term interests of our shareholders. Our pay structures offer competitive salaries, bonuses, and equity awards in the countries where we operate.

In each of the countries where we have operations, our comprehensive benefit plans offer a locally competitive mix of some or all of the following: medical, dental and vision insurance, short and long-term disability, flexible spending accounts, various types of voluntary coverage, and other benefit programs. We routinely benchmark our salaries and benefits against market peers to ensure our total rewards package remains competitive.

Employee Health, Safety and Wellness

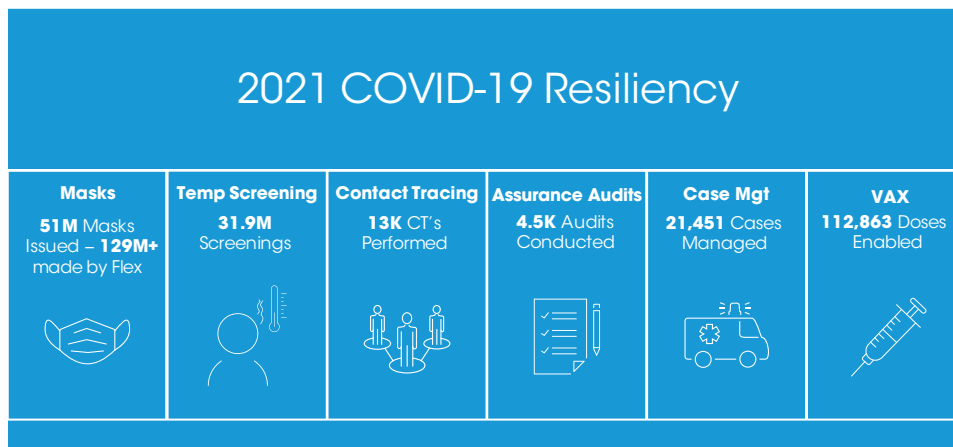

Flex is committed to providing a safe and injury-free workplace. We promote a “zero-injury” culture through health and safety management systems that implement a data-driven and risk-based approach in monitoring and reporting performance regularly. In calendar year 2021, we decreased our health and safety incident rate by 17% compared to 2020. Furthermore, as a part of our 2030 Sustainability Goals, we have committed to reducing total case incident rate to below 0.2 by 2025 and to certifying all manufacturing operations as ‘RBA factory of choice’ by 2025.

We provide programs and tools aimed at improving physical, mental, financial, and social well-being, with increased focus during the COVID-19 pandemic. Our programs give our employees access to a variety of innovative, flexible, and convenient health and wellness programs, including on-site health centers in some of our major factories, which were once again increasingly critical this year for our essential workers who have worked on site since the start of the COVID-19 pandemic.

The COVID-19 pandemic continues to have an impact and is felt by every citizen, country, community, and company. At Flex, our first priority continues to be ensuring the health and safety of our employees, suppliers and business partners, while supporting essential manufacturing for infrastructure services and critical healthcare products to aid in the global response to the pandemic.

We took several actions in response to the COVID-19 pandemic:

- ✓ On a company-wide basis, we established Regional and Site Crisis Management Teams to assure dedicated operational management of COVID-19 at all workplaces. We deployed resiliency plans based in science and focused on the well-being of our workforce while keeping our workplaces operating safely.
- ✓ Our leadership teams initiated enhanced health and safety measures at all workplaces and in accordance with the local risk conditions as COVID-19 waves ebbed and flowed worldwide. Our focus is the health and safety of our employees.
- ✓ We modified practices at our manufacturing locations and offices to require personal protective equipment, sanitization measures, temperature checks, assurance audits, contact tracing, social distancing, and on-site access to vaccinations well before these measures were mandated.

As one of the world's largest medical device manufacturers, we recognized that we had a responsibility to do our part to join the fight against COVID-19. With many of the products we make for our healthcare customers related to critical care in high demand, we continued our efforts to deliver critical products, personal protective equipment, oxygen concentrators, patient monitors, infusion pumps, and ICU beds. At the heart of this extraordinary effort are the tens of thousands of Flex workers in our factories who continue to work around the clock to live up to our purpose.

2021 Sustainability Impact

During the 2021 calendar year, we continued our focus on ESG activities as highlighted below.

Our World: Environmental and Community Achievements

- There was a reduction of 14% in absolute Scope 1 and 2 greenhouse gas emissions from our 2019 baseline.⁽¹⁾
 - From 55 sites around the world, over 40,000 employees participated in our fifth annual Earth Day Challenge by planting gardens and trees, restoring farm and forest land, cleaning parks and community benches, recycling waste and spreading awareness and education in their communities to help advance a more sustainable future.
 - We completed 807 community activities, despite the challenges of COVID-19.
 - Approximately 14,000 of our volunteers gave over 56,000 hours back to their local communities.⁽²⁾
 - 97% of our major sites partnered with local non-governmental organizations in 2021.⁽³⁾
 - In 2021, we donated 600,000 masks to our local communities to prevent the spread of COVID-19.
- (1) Our revenue grew 8% during fiscal year 2022. With that growth, we saw an increase of our absolute scope 1 and 2 emissions from 2020 to 2021. We are developing an energy management strategy to account for growth and remain on track with our greenhouse gas emission reduction commitments. While we experienced an increase year over year, our absolute scope 1 and 2 market-based emissions in 2021 decreased from our 2019 baseline year.
- (2) Number of volunteers are counted as participants of volunteering activities throughout the year (may include repeated employees).
- (3) Sites with 1,000 or more employees.

Our People: Employee, Health and Safety, and Diversity, Equity & Inclusion Achievements

- We re-committed ourselves to fostering a safe, ethical, and inclusive work environment for all employees.
- We engaged our employees and received their feedback through coffee talks and town halls, lunch and learn sessions, management workshops, leadership skills trainings, recognition programs and annual surveys, and continue to undertake such employee engagement.
- For more than 10 years, we have supported our employees with access to life-long learning through our employee scholarship program (ESP). Depending on the specifics of a site and the employee program, we provide full or partial funding for our employees to receive external education and fulfill credentials including technical certifications, undergraduate and graduate degrees.
- We ensure all of our sites have a health and safety management system, which we verify through audits, which follow RBA methodology and are performed by our EHS team. Additionally, all sites are required to convene committees to address safety issues and concerns and we undertake targeted respect and dignity audits of high-risk sites.
- In calendar year 2021, we decreased our health and safety incident rate by 17% compared to 2020.
- We participate in RBA Task Forces on the UN Guiding Principles, Trafficking and Forced Labor, Transparency, and Environmental Compliance, which set guidelines for working hours and conditions for employees.
- As of March 31, 2022, 43% of our global workforce and 25% of the members of our Board of Directors were female.
- During our global People with Disabilities Awareness Weeks, over 25,000 employees participated in over 200 initiatives in several countries.
- We continued the work of our cross-functional Global Inclusion Counsel, first established in 2020, to provide internal advising on our diversity, equity and inclusion strategy at global, regional and functional levels. Council members are representative of different regions, backgrounds, areas of expertise, gender identities and community outreach experiences.
- In partnership with McKinsey, we offered leadership development opportunities through their Management Accelerator and Executive Leadership Program to 45 Asian, 16 Black, and 36 Latinx employees.
- We continued to make progress with SheLeads, our global leadership development program for women employees.
- We continued our Inclusive Leadership Experience program for U.S. and Canadian people managers, which focused on leading with inclusion and unconscious bias training. 97% of our U.S. and Canadian managers undertook such training in 2021. In 2021, our Inclusive Leadership Experience was awarded a coveted Brandon Hall Group's Human Capital Management Excellence Award in the category of Best Results of a Learning Program.

- We partnered with organizations such as the Business Roundtable, Catalyst, The Valuable 500, and NSBE to amplify our impact in recruiting and retaining diverse talent.
- We invested in eight employee resource groups designed to help to create a sense of belonging and support retention and attraction. These groups have steadily grown in membership and held several cultural awareness activities throughout the past year. Our ERGs include Asian Pacific Flex Network, Black Flex Network, LatinX, People with DiversAbilities, Flex PRIDE, Women in Flex, Women in Tech, and Veterans at Flex.

Our Approach: Ethics, Supply Chain, Governance, and Partner Achievements

- We provide a number of ways for employees and partners to voice concerns and receive assistance, from our Ethics Hotline and Web Portal to our open door policy, through which we can provide guidance and prioritize the investigation and remediation of ethics and compliance issues that arise.
- Participation in our supplier due diligence assessment increased by 8.67% compared to the previous year, totaling 2,419 completed social and environmental assessments.
- We screened 100% of our new global suppliers using social and environmental criteria in calendar year 2021.
- Since 2017, we have screened 7,192 suppliers, using a tool provided by the RBA that integrates global risk analytics.
- In response to the COVID-19 global pandemic, our Brand Protection, Security and Resiliency Team deployed global resiliency protocols and tools, continued to adjust to a hybrid of mobile and on-site workforce, manufactured and distributed personal protective equipment, rolled-out COVID-19 specific monitoring and performance procedures, and stayed nimble as a global company navigating fast-evolving mandates and regulations worldwide.
- We made progress on our goal to partner with our customers and suppliers to reduce greenhouse gas emissions (GHG) through their own emissions reduction targets. In 2021, 29% of our preferred suppliers set their own GHG reduction targets.

Sustainability Partnerships and Recognition

In addition to being a founding member of the RBA, we are also a member of the Responsible Minerals Initiative, Global Business Initiative on Human Rights, GRI Community, the Business for Social Responsibility Network, the Business Ethics Leadership Alliance by Ethisphere Company, the UN Global Compact Network, the Silicon Valley Education Foundation, the Boston College Center for Corporate Citizenship, the Ellen MacArthur Foundation, and the Supplier Ethical Data Exchange. Additionally, Flex has signed the World Business Council for Sustainable Development Pledge for Access to Safe Water, Sanitation, and Hygiene at the Workplace. Finally, our CEO, who is a member of the Business Roundtable (“BRT”), signed the BRT Statement on the Purpose of a Corporation, which declares that corporations have a role beyond meeting investors’ financial expectations. Also, our CEO joined the World Economic Forum’s Alliance of CEO Climate Leaders.

Our commitment to sustainability has earned us positive feedback from shareholders and recognition from some of the most prestigious sustainability ratings agencies.

Flex Sustainability Rankings 2021

- Flex received an A- in CDP Climate Change for a second consecutive year and a historic A in Water Security
- Flex obtained EcoVadis’ “Platinum Recognition Level” ESG rating
- Flex received an AA rating from MSCI
- Flex was again awarded ISS’ Prime status for Corporate ESG performance
- For the 5th consecutive year, Flex is a constituent of Financial Times Stock Exchange-Russell Group’s FTSE4Good Index, receiving a score of 3.9 out of 5
- Flex again qualified for inclusion in S&P Global’s Sustainability Yearbook for the third consecutive year

Further information regarding our sustainability program and achievements, including demographic data, can be found in our annual sustainability reports at flex.com/about/sustainability. The information on our website and in the sustainability reports is not a part of this proxy statement and is not incorporated by reference.

Corporate Governance

We are proud of Flex's legacy of corporate governance throughout the past 50+ years. We continually build on that legacy with ethical business oversight, robust risk management, and pay-for-performance compensation programs in order to ensure accountability to our shareholders, customers, employees, and communities.

Board of Directors

Our Board of Directors oversees and provides policy guidance on our strategic and business planning processes, oversees the conduct of our business by senior management, and is principally responsible for the succession planning for our key executives, including our Chief Executive Officer. We strive to maintain optimal board composition to ensure diverse, insightful and dedicated oversight of our vision, purpose, and mission.

Board Leadership Structure

Our Board of Directors believes the most effective leadership structure for Flex at the present time is for the roles of CEO and Chair of the Board to be separated, and for the Chair of the Board to be an independent director. Flex has separated the roles of CEO and Chair of the Board since 2003. Our Board of Directors believes that having an independent Chair ensures a greater role for the independent directors in the oversight of the Company, and also provides the continuity of leadership necessary for the Board to fulfill its responsibilities. The Board retains the authority to modify this leadership structure as appropriate to best address the Company's needs at any given time and to serve the best interests of our shareholders, customers, and employees.

Ms. Advaiti has served as our Chief Executive Officer and a member of our Board of Directors since February 11, 2019. The Board appointed Mr. Capellas, an independent director, as Chair of the Board in 2017. The following chart demonstrates how the Company has separated these two leadership roles.

	Michael D. Capellas Board Chair		Revathi Advaiti Chief Executive Officer
	<ul style="list-style-type: none">• Oversees CEO succession• Oversees the Board evaluation process• Calls meetings of the Board and independent directors• Provides management with feedback regarding the information that is necessary for the independent directors to effectively and responsibly perform their duties• Acts as a liaison between the independent directors and the CEO on sensitive/critical issues		<ul style="list-style-type: none">• Sets strategic direction for the Company• Provides day-to-day leadership over Company operations• Focuses on execution of business strategy, growth and development• Sets the tone-at-the-top for company culture• Develops and oversees enterprise-wide initiatives

Meeting Attendance and Executive Sessions

Each of our directors is committed to providing prudent oversight of our business through regularly scheduled meetings, special meetings, ad hoc conversations, and time spent with management. In fiscal year 2022, our Board of Directors held a total of 8 meetings, and our Board committees held a collective total of 25 meetings. We have a rigorous attendance tracking program and recorded an average attendance rate of 98.4% (with every director attending over 75% of the Board and applicable committee meetings held during their period of service in fiscal year 2022).

All directors are encouraged to attend the annual general meeting, but attendance is not required. Every director who was on the Board at the time attended the Company's 2021 annual general meeting.

Our independent directors meet at regularly scheduled Board and committee meetings in executive sessions without management participation. During fiscal year 2022, our independent directors met 7 times in executive session during Board meetings.

Director Independence

As required by the listing standards of The Nasdaq Stock Market LLC ("Nasdaq"), a majority of the members of our Board must qualify as "independent," as affirmatively determined by our Board. Flex's director independence guidelines incorporate the definition of "independence" adopted by Nasdaq. Using these guidelines, our Board has determined that each of the Company's directors, other than Ms. Advaiti, is independent. This means that the directors designated as "independent" do not have any business or family relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director or has any otherwise disqualifying relationship.

In making the independence determinations, the Board and the Nominating, Governance and Public Responsibility Committee considered certain transactions, relationships, and arrangements involving some of the directors and concluded that such transactions, relationships, and arrangements did not impair the independence of the director. In particular, the following relationships were considered:

Mr. Hurlston is the President and Chief Executive Officer and a member of the board of directors of Synaptics Incorporated ("Synaptics"). Flex purchased or sold goods and services from Synaptics on an arms'-length basis in the ordinary course of its business during fiscal year 2022. The amount that Flex paid to Synaptics, and the amount received in each fiscal year by Flex from Synaptics, did not exceed the greater of \$200,000 or 5% of the recipient's consolidated gross revenues for that year.

In addition to the above, Messrs. Capellas, Harris, Stevens, and Watkins and Ms. Li are non-employee directors of other companies with respect to which Flex purchased or sold goods and services on an arms'-length basis in the ordinary course of its business during fiscal year 2022, including ABB Ltd., Avaya Holdings Corp., Cisco Systems, Inc., Eastman Chemical Company, and Maxim Integrated Products, Inc.

Process for Identifying and Adding New Directors and Succession Planning

Our Nominating, Governance and Public Responsibility Committee regularly considers the long-term makeup of our Board and how board composition changes over time. The committee also considers the skills needed on our Board as our business evolves, and strives to achieve a balance and diversity of knowledge, experience, and capabilities on our Board and to ensure that our Board has the benefit of a variety of skills derived from our directors' business and professional experiences. To that end, the Nominating, Governance and Public Responsibility Committee engages in Board succession planning by assessing the need to adjust the size of the Board or supplement the Board's expertise in a substantive area, and by determining whether prospective nominees have relevant skills and experience. For more information on specific qualities and skills we look for in potential directors, see Proposal 1, which begins on page 42.

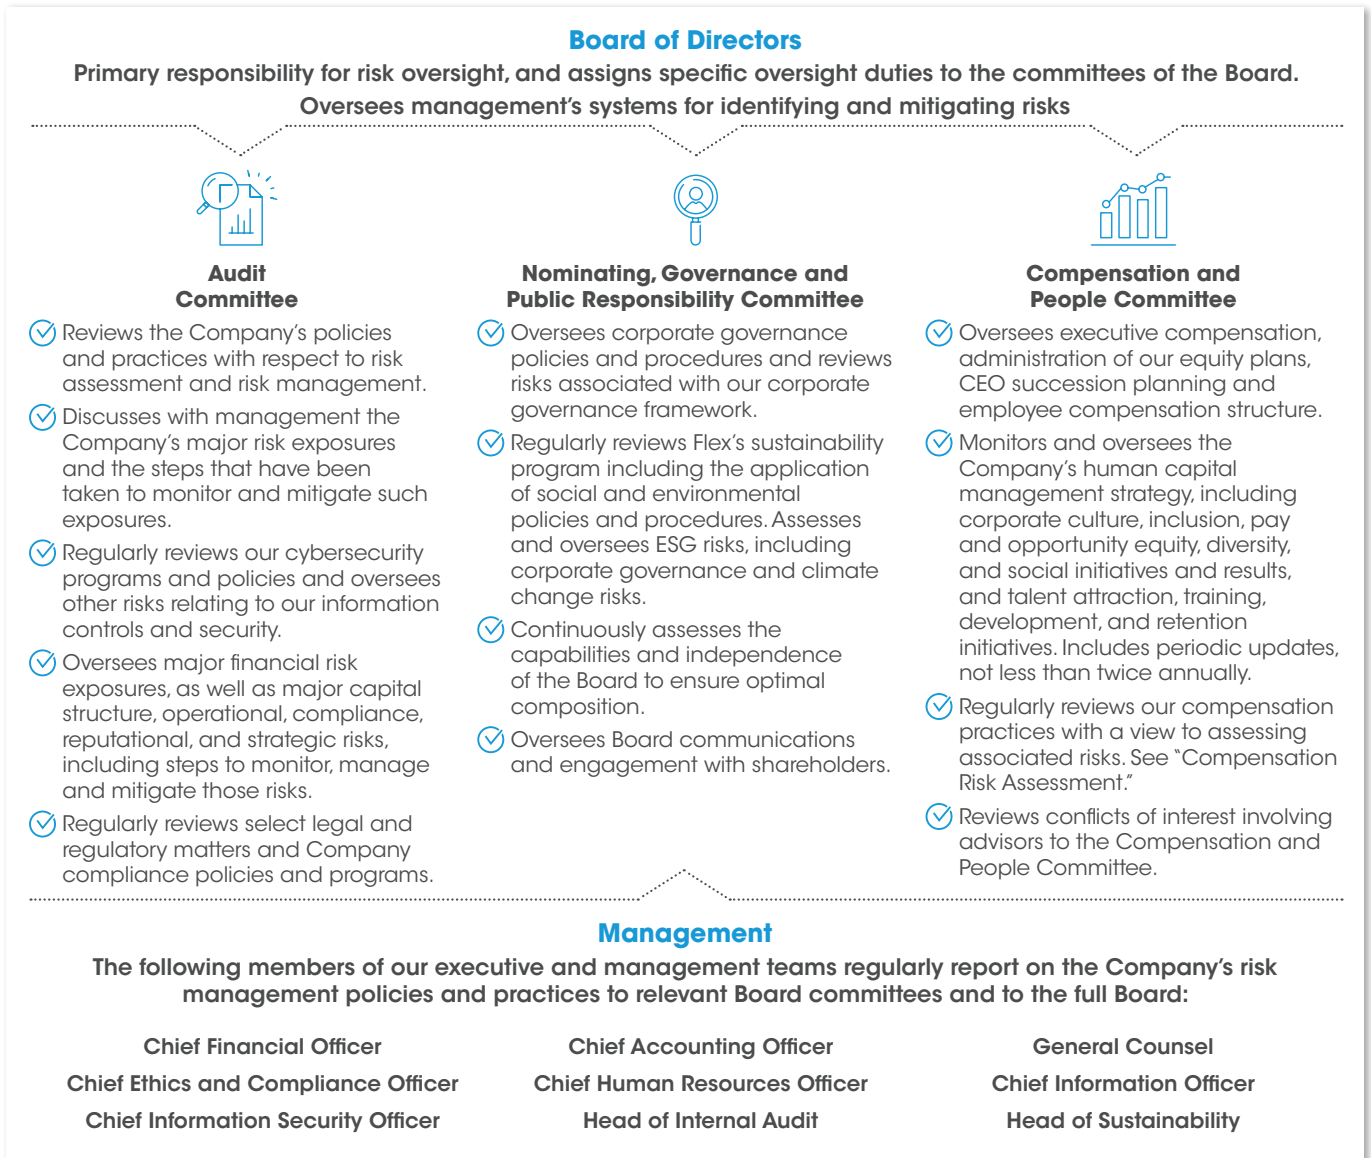

The Board seeks to balance the knowledge and experience that comes from longer-term board service with new ideas and perspectives that can come from new directors. Since 2020, we have added four new directors. The average tenure of the director nominees, under six years, reflects an appropriate balance between different perspectives brought by newer and longer-serving directors.

As part of its continuous review of our Board composition, the Nominating, Governance and Public Responsibility Committee decided that our Board would benefit from a broader array of perspectives and skills and engaged a third-party search firm to assist it in identifying and assessing potential director candidates. In January 2022, the Board appointed a new independent director, Mr. Patrick J. Ward. Mr. Ward was identified as a potential candidate by the third-party search firm. The addition of Mr. Ward brings additional financial and executive expertise to our Board. Mr. Ward is being nominated by the Board for re-election by our shareholders at our 2022 annual general meeting.

The Nominating, Governance and Public Responsibility Committee generally recruits, evaluates, and recommends nominees for our Board based upon recommendations from our directors and management. From time to time, we retain a third-party search firm to help identify potential candidates. The Nominating, Governance and Public Responsibility Committee will consider recommendations submitted by shareholders and will evaluate such prospective nominees using the same standards that are applicable for all Board candidates. Shareholders can recommend qualified candidates for our Board by contacting our corporate secretary at Flex Ltd., 2 Changi South Lane, Singapore 486123. Submissions for individuals who meet the criteria outlined above will be forwarded to the Nominating, Governance and Public Responsibility Committee for review and consideration. Shareholder recommendations for our 2023 annual general meeting should be made before March 2, 2023 to ensure adequate time for meaningful consideration. We did not receive any such recommendations from our shareholders for the 2022 annual general meeting.

Board's Role in Risk Oversight

Flex's enterprise risk management process is designed to identify risks that could affect our ability to achieve business goals and strategies, to assess the likelihood and potential impact of significant risks to the Company's business, and to prioritize risk control and mitigation. Risk management oversight is an essential Board responsibility. Our Board's role in risk oversight involves both the full Board and each of its standing committees. The Board as a group is regularly updated on specific risks in the course of its review of corporate strategy and business plans, and as part of reports to the Board by its standing committees. The Board believes that Flex's leadership structure, with an independent Chair, supports the Board's risk oversight function by ensuring a strong role for the independent directors.

Flex has a resiliency framework that includes crisis management, cybersecurity and information technology, disaster recovery and business continuity planning. Combined, these programs form a readiness umbrella for crisis situations designed to meet the needs of our Company. Every crisis is situational, and the framework we have adopted is adaptable. For example, to address the multifaceted implications of COVID-19, Flex assembled a worldwide crisis management team of senior leadership, which gives us both a centralized view of the global impact of COVID-19 and a single point of strategic orchestration. Our Board of Directors is regularly informed by our resiliency advisory, crisis management, and executive leadership teams and remains actively engaged in identifying, monitoring, and mitigating the risks to Flex's stakeholders that arise from time to time.

In addition to the general oversight of the Company's risks, during fiscal year 2022 the Board in particular continued its oversight of the risks presented by the COVID-19 pandemic and cybersecurity concerns, as well as ESG matters, as described further below.

COVID-19 Oversight

The Board continues to receive regular updates concerning the impact of and the Company's response to the COVID-19 pandemic. These updates focus on the supply chain interruptions caused by the pandemic, employee safety and protective measures, disruptions to the Company's plant operations, and supply chain resilience. The Board expects to continue to receive information from management relating to the effects of the pandemic on the Company, its operations and employees on a regular basis for the foreseeable future.

ESG Oversight

As discussed above, we recognize the importance of a strong foundation of sustainability governance. Our Nominating, Governance and Public Responsibility Committee has primary responsibility for shaping and overseeing the Company's corporate governance, including our corporate responsibility and sustainability policies and programs, considering such matters as human rights, social issues, and environmental risks and opportunities.

The Nominating, Governance and Public Responsibility Committee receives regular reports from Company management who review both recent activity and the Company's long-term sustainability strategies. Additionally, the committee reviews the Company's annual sustainability report, and regularly reviews and assesses current and emerging ESG issues, trends, regulatory developments, and best practices. Our Board engages in an annual review of the Company's sustainability program and participates in an annual ESG director education session.

Cybersecurity Oversight

We recognize that cyber risks are enterprise-wide issues for the Board to oversee. Our Audit Committee has primary responsibility for overseeing risks associated with our information technology, including cybersecurity. This includes reviewing the Company's risk profile and plans to improve its cybersecurity posture and responses to data breaches, as well as reviewing annually the adequacy and effectiveness of the Company's information and technology security policies and the internal controls regarding information and technology security and cybersecurity.

Our cybersecurity program is led by our Chief Information Security Officer and includes protocols for preventing, detecting, addressing, and responding to cybersecurity incidents. Our program includes business continuity, disaster recovery planning and testing, and security vulnerability assessments. As part of our information security training program, we provide cybersecurity awareness training to equip our employees with information they need to understand the dangers of social engineering, detect potential attacks, and take appropriate actions to protect our business with security best practices. From time to time, we engage independent security firms to assess, audit, and certify components of our cybersecurity program. Our global information security management program is ISO 27001:2013 certified.

Our Audit Committee receives regular reports (at least quarterly) from our Chief Information Officer and Chief Information Security Officer who review both quarterly activity and long-term cybersecurity strategies of the Company, as well as general cybersecurity trends for possible impact on the Company.

In addition to the above, our Board reviews these topics twice annually. Should a material cyber incident rise to the level of a corporate crisis, consistent with the Company's crisis response protocols, the Board would be engaged.

Board's Role in Succession Planning

The responsibilities of our Board, with the assistance of the Compensation and People Committee, include periodically reviewing and assessing succession plans for the Chief Executive Officer position and for other executive officers in order to ensure that Flex continues to have the talent we need to successfully develop and execute our strategy and conduct our business. Our Board has a long-term and continuing program for effective senior leadership development and active succession oversight.

On at least an annual basis, the Board, with the assistance of the Compensation and People Committee, performs this review and assessment which includes strengths, opportunities, and information regarding diversity. In another Board meeting, the Board also discusses development and retention of executive talent. Directors become familiar with potential successors for key executive positions through various means, including regular organization and talent reviews, presentations to the Board, and formal and informal meetings.

Board Evaluation Process

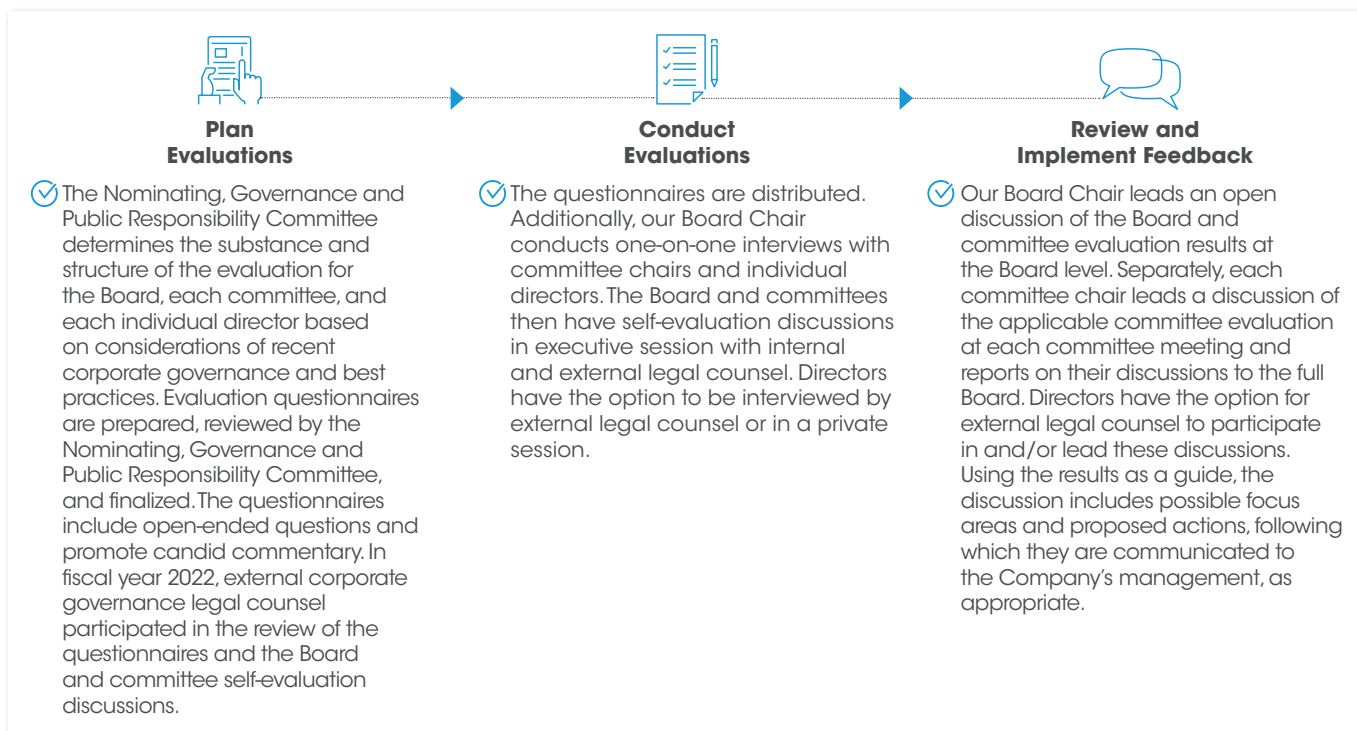

Our Board continually seeks to improve its performance, and self-evaluations are an annual undertaking at Flex. A comprehensive self-evaluation framework allows the Board to assess its performance and practices and identify areas for improvement, and is critical to maintaining optimal Board effectiveness.

Our Nominating, Governance and Public Responsibility Committee oversees the formal annual evaluation process. Each year, the Nominating, Governance and Public Responsibility Committee determines the substance and structure of the evaluation for the Board, the Board committees, and each individual director based on prevailing corporate governance practices. Our Board periodically engages an independent third-party evaluation firm to augment the Board's annual evaluation process. We believe that this continuous feedback cycle, along with our formal annual evaluation process, contributes to the overall functioning and ongoing effectiveness of our Board.

Our annual Board evaluations cover several areas, including the following:

- | | |
|---|---|
| ✓ Board and committee overall effectiveness | ✓ Quality and clarity of materials presented to directors |
| ✓ Board and committee structure and processes | ✓ Satisfaction with communication between meetings |
| ✓ Board and committee composition | ✓ Satisfaction with Board and committee meeting frequency and length |
| ✓ Quality of Board and committee discussions and balance between presentations and discussion | ✓ Satisfaction with Board and committee meeting agendas and meeting content |
| ✓ Board member access to the Chair of the Board, CEO and other members of Company management | ✓ View on Board and committee evaluation process itself, and how it might be improved |

Below is a summary of our Board evaluation process:

Board Committees

Our Board has delegated oversight responsibility for certain risks and operations to its three standing committees: Audit, Compensation and People, and Nominating, Governance and Public Responsibility. The directors who serve on each of these committees have in-depth and relevant experience, knowledge and expertise. In addition, all three standing committees are composed entirely of independent directors, including, for the Audit and Compensation and People Committees, directors who meet the heightened independence requirements prescribed by the SEC and Nasdaq for members of such committees. Our Board has adopted, and annually reviews, a charter for each standing committee. All three charters are available on our website under "Investor Relations—Corporate Governance." All committees regularly meet in executive session without members of management present.

Audit Committee

COMMITTEE HIGHLIGHTS

10 meetings in fiscal 2022

Attendance

100%

Members

- Charles K. Stevens, III (Chair)
- Michael E. Hurlston
- Marc A. Onetto
- Lay Koon Tan
- Patrick J. Ward

Independence

Each member of the committee is independent and financially literate.

Audit Committee Financial Expert

Our Board has determined that Messrs. Stevens, Hurlston, Tan and Ward qualify as "audit committee financial experts" as defined in SEC rules.

Purpose

To assist the Board in overseeing Flex's financial statements, accounting and financial reporting processes and systems of internal control, independent auditors, capital structure and financial risk, cybersecurity, and compliance with legal and regulatory requirements.

Key Responsibilities

- **Facilitate Communication:** Coordinate and facilitate communication regarding our financial statements and accounting and financial reporting processes and systems of internal control among our independent auditors, our financial and senior management and our Board.
- **Auditor Appointment & Pre-Approval of Audit Services:** Select, appoint and determine the compensation of our independent auditors.
- **Enterprise-Wide Risk Management, Legal, Ethical and Regulatory Compliance:** Regularly review and guide management's identification, monitoring, and mitigation of enterprise-wide risks. Regularly review select legal and regulatory matters and Company compliance policies and programs. Annually review the performance of the Chief Ethics and Compliance Officer (CECO) and the Head of Internal Audit. The committee has authority to appoint or remove the CECO and/or the Head of Internal Audit.
- **Cybersecurity:** Regularly review (at least quarterly) our cybersecurity programs and policies and oversee other risks relating to the Company's information controls and security. This includes reviewing the Company's plans to mitigate cybersecurity risks and to respond to data breaches, and reviewing annually the adequacy and effectiveness of the Company's information and technology security policies and the internal controls regarding information and technology security and cybersecurity.

Compensation and People Committee

COMMITTEE HIGHLIGHTS

8 meetings in fiscal 2022

Attendance

94%

Members

- Erin L. McSweeney (Chair)
- John D. Harris II
- Jennifer Li*
- Willy C. Shih, Ph.D.*

Independence

Each member of the committee is independent.

Purpose

To assist the Board in overseeing Flex's compensation and succession of executive officers, administer equity plans, and direct our global human capital management strategy.

Key Responsibilities

- **NEO Compensation:** Determine the compensation of the Company's Chief Executive Officer and the other NEOs.
- **CEO Succession:** Assist the Board of Directors in succession planning for our CEO and other executive officers.
- **Equity Compensation:** Administer our equity compensation plans, including the granting of our incentive, equity-based compensation awards.
- **Human Capital Management Strategy:** Oversee the Company's global human capital management strategy, including corporate culture, inclusion, pay and opportunity equity, diversity, and social initiatives and results, and talent attraction, training, development, and retention programs and results. Includes periodic updates, not less than twice annually.

Delegation of Authority

When appropriate, our Compensation and People Committee may form and delegate authority to subcommittees. In addition, the Compensation and People Committee may delegate to our Chief Executive Officer its authority to grant equity awards to employees who are not directors, executive officers, or other senior level employees who report directly to the Chief Executive Officer.

Compensation and People Committee Interlocks and Insider Participation

No member of the Compensation and People Committee has ever served as an officer of Flex. None of our directors has an interlocking or other relationship with another board or compensation committee that would require disclosure under Item 407(e)(4) of SEC Regulation S-K.

* As discussed above, Ms. Li and Mr. Shih are retiring from the Board effective as of the conclusion of the 2022 annual general meeting.

Nominating, Governance and Public Responsibility Committee

COMMITTEE HIGHLIGHTS

7 meetings in fiscal 2022

Attendance

100%

Members

- Michael Capellas (Chair)
- Erin L. McSweeney
- Charles K. Stevens, III
- William D. Watkins

Independence

Each member of the committee is independent.

Purpose

To assist the Board in overseeing Flex's board composition, shareholder communications, and environmental, social, and corporate governance policies and procedures.

Key Responsibilities

- **Board Performance and Composition:** Regularly review the composition and performance of the Board and its committees and make recommendations to the Board regarding Board and committee membership.
- **Director Nominations:** Recruit, evaluate, and recommend to the Board individuals for appointment or election to serve as directors. In doing so, the committee considers the holistic diversity of the Board, including experience, business acumen, gender, race, ethnicity, age, and cultural background.
- **Environmental, Social, and Corporate Governance Policies:** Shape and oversee our corporate governance, including the Company's corporate responsibility and sustainability policies and programs, considering such matters as human rights, social issues, and environmental risks and opportunities. Regularly review and assess current and emerging environmental, social, and corporate governance issues, trends, regulatory developments, and best practices. Review the Company's annual sustainability report.
- **Shareholder Communications:** Oversee Board communications and engagement with shareholders.

Director Orientation and Continuous Education

Flex is a complex company operating in an ever-changing, multi-national geopolitical landscape. To ensure our directors stay abreast of the new and changing risks we face, we offer our directors comprehensive orientation and continuing education programs.

The key objectives of our programs are to:

- ✓ Allow directors to be well-informed and to expand their knowledge of trends and issues relevant to Flex's business and their role
- ✓ Keep directors current on leading and next-level boardroom practices
- ✓ Support directors in performing their oversight duties
- ✓ Promote a deep understanding of emerging issues affecting our business so they can engage management in knowledge-based discussions about associated opportunities, risks, and challenges
- ✓ Strengthen any weaknesses of individual board members
- ✓ Update directors' knowledge about corporate governance issues, compliance matters and industry trends

New Director Orientation

When a new director joins the Board, we conduct an orientation program that includes, among other things, a review of the Company's purpose, business strategy and operations, technology, sustainability, financial condition, legal and regulatory framework and other relevant topics. New directors speak or meet directly with members of the executive team and other key employees to better understand our business and operations.

Director Continuing Education

We support current directors in their ongoing learning by offering continuing education opportunities. Each year, the Nominating, Governance and Public Responsibility Committee designs the structure and substance of the annual director continuing education program. The program may include presentations by thought leaders and industry experts, formal education sessions, meetings with management subject matter experts, participation in industry forums, and site visits. As part of our program, our directors regularly attend "deep dives" on current topics of interest and technology training.

In fiscal year 2022, director education topics included:

- ✓ Corporate governance best practices and trends
- ✓ Board and management roles and responsibilities with regard to ESG governance
- ✓ Cybersecurity and information systems risks and key developments
- ✓ Global tax developments

We also encourage our directors to participate in appropriate educational programs offered by organizations outside of the Company, such as shareholder advisory firms, accounting firms, corporate governance trade organizations, law firms, and universities, to assist our directors in maintaining their expertise in areas related to the work of the Board and the directors' committee assignments. The Company reimburses directors for all reasonable fees and expenses associated with attending such programs, up to \$10,000 per director in any fiscal year.

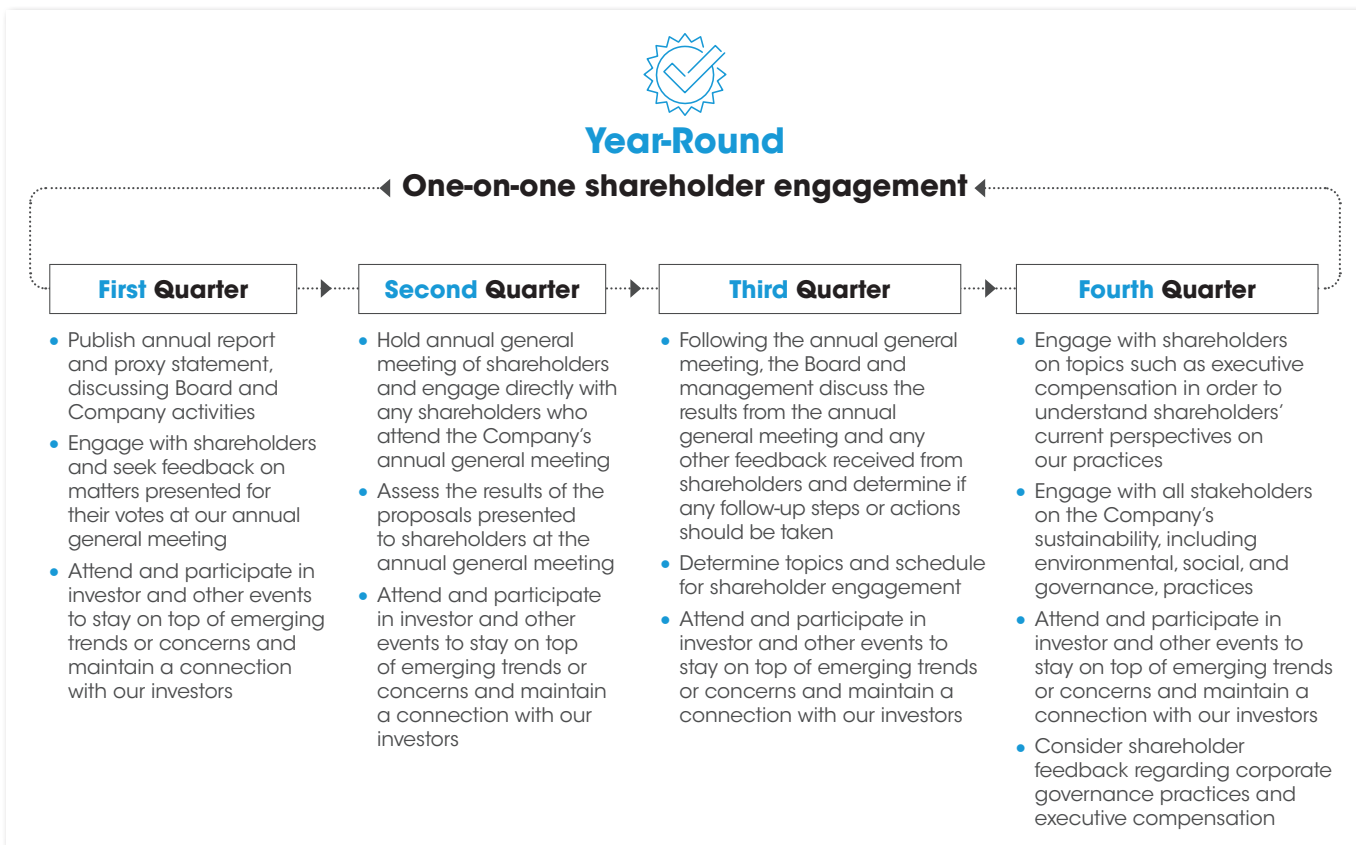

Stakeholder Engagement and Outreach

We believe that a robust stakeholder outreach program is an essential component of maintaining our strong corporate governance practices. Ongoing communication with our stakeholders helps our Board and management team gather useful feedback on a wide range of topics. In our discussions with investors, we seek their input on a variety of corporate governance, human capital management and executive compensation and sustainability topics. We strive for a collaborative approach with investors to solicit and understand a variety of perspectives.

Our Board and management team engage on a year-round basis with a range of stakeholders, including not only our shareholders, but also our dedicated workforce, trusted vendors, and global customers. As part of Flex’s dedication to having a positive impact on all of our stakeholders, the Company has designed an engagement program that offers ongoing opportunities to provide feedback and influence Flex’s corporate activity and sustainable growth.

Year-Round Shareholder Engagement

The Company’s Board of Directors and management team understand that engagement benefits our shareholders and the Company equally. Because ongoing shareholder engagement is a priority, we maintain a robust engagement program throughout the year, as shown below.

2022 Shareholder Engagement Highlights

Over the past twelve months, we proactively reached out to shareholders to solicit feedback about our business, corporate governance, and executive compensation programs in one-on-one sessions. In addition, in March 2022, we hosted a virtual "Investor and Analyst Day," during which members of our executive and leadership team provided updates on the Company's progress in advancing our strategy aligned with our purpose and values.

During these meetings, we listened to our shareholders provide feedback on the following topics, as well as additional considerations.

Shareholder Outreach Focus Areas

- Achievements in and continued commitment to ESG (including ESG metrics in executive compensation)
- ESG-related risks, opportunities, and disclosures (including climate risks)
- Human Capital Management disclosures (including increased C-suite diversity)
- Board composition (refreshment, tenure, diversity)
- Cybersecurity risks and disclosures
- Crisis management during COVID-19, the Russian invasion of Ukraine, and labor and supply shortages

Corporate Governance Policies

Built upon our dedication to corporate governance, Flex has implemented a comprehensive corporate governance framework that includes our Code of Business Conduct and Ethics ("CoBCE"), Guidelines with Regard to Certain Governance Matters, and Board Committee Charters. All are available on the Corporate Governance page of the Investor Relations section of our website.

Flex is a company built on relationships, and trust is the cornerstone of all relationships. We build on that trust by striving to do the right thing. Our values are shaped by a commitment to transparency, accountability, respect and inclusion.

Our CoBCE provides the framework of ethics that governs our business. Among other things, our CoBCE provides guidance and policy regarding ethics, compliance, harassment, conflicts of interests, antitrust and competition, bribery, insider trading, cyber and information security, and environmental protection. The CoBCE applies to all of our directors, officers, and employees, and in calendar year 2021 98% of our eligible employees worldwide completed online CoBCE training. In keeping with SEC rules, we use the Investor Relations section of our website to disclose any substantive amendment to, or material waiver from, any provision of the CoBCE that applies to our principal executive officer, principal financial officer, principal accounting officer, controller, or any individual who performs similar functions.

Our Guidelines with Regard to Certain Governance Matters provides guidance and policy regarding director qualifications, committee structure, director and officer share ownership, director independence, and related-party transactions. The Guidelines with Regard to Certain Governance Matters apply to all of our directors and officers and are reviewed on an annual basis.

Shareholder Communications with our Board of Directors

Our shareholders may communicate with our Board of Directors by sending an e-mail to Board@flex.com. Communications submitted to this e-mail address are regularly reviewed by the Company's CEO, CFO, or General Counsel, and are submitted to the Chair of the Board, the entire Board of Directors, or individual directors, as appropriate, depending on the nature of the communication. Correspondence that is unrelated to the duties and responsibilities of the Board of Directors will be redirected or excluded, as appropriate.

Fiscal Year 2022 Non-Employee Directors' Compensation

Non-Employee Director Compensation Program

Objective of Non-Employee Director Compensation Program

The key objective of our non-employee director compensation program is to attract and retain a diverse group of highly-qualified directors with the necessary skills, experience, and character to serve on the Company's Board of Directors. By using a combination of cash and equity-based compensation, the Nominating, Governance and Public Responsibility Committee intends to recognize the time commitment, expertise, and potential liability relating to active Board service, while also aligning the interests of our directors with the long-term interests of our shareholders. For a further discussion of the specific experience, attributes, skills and qualifications our directors bring to the Company, see "Proposal No. 1: Re-election of Directors – Skills, Qualifications and Diversity of Nominees" on page 43.

Review of Non-Employee Director Compensation Program

The Nominating, Governance and Public Responsibility Committee, annually at minimum, reviews and makes recommendations to our Board for the compensation of our non-employee directors. Management, with input and guidance from our independent compensation consultant, assists the Nominating, Governance and Public Responsibility Committee in this task by compiling director compensation data from the annual reports and proxy statements of companies in our peer comparison group. For information regarding our peer group, see "Compensation Discussion and Analysis—Competitive Positioning" on page 61.

In fiscal year 2022, the Nominating, Governance and Public Responsibility Committee retained Frederic W. Cook & Co., Inc. ("FW Cook"), to help the Committee determine whether the compensation paid to our non-employee directors is competitive when compared to the practices of our peers. The Nominating, Governance and Public Responsibility Committee reviewed, among other things, the existing cash compensation of our non-employee directors and the grant date fair value of restricted share unit awards. With FW Cook's assistance, the Nominating, Governance and Public Responsibility Committee also considered compensation trends and share ownership guidelines for non-employee directors. The Nominating, Governance and Public Responsibility Committee concluded that our program remains competitive.

Components of Non-Employee Director Compensation Program

Our non-employee director compensation program consists of two components:

- Annual cash compensation, in amounts that vary based on committee and chair services; and
- Annual discretionary restricted share unit awards.

Non-employee directors can elect to receive their annual cash compensation, or any portion thereof, in the form of fully vested, unrestricted shares of the Company.

The share election option and structure of our non-employee director compensation program emphasizes equity compensation, which rewards increases in stock price, over cash fees. The Board of Directors believes our overall pay mix, which is consistent with peer practice, supports alignment of directors' interests with those of Flex's shareholders.

In addition to the compensation provided to our non-employee directors, each non-employee director is reimbursed for any reasonable out-of-pocket expenses incurred in connection with attending in-person meetings of the Board of Directors and Board committees, as well as for any fees incurred in attending continuing education courses for directors up to \$10,000 per director in any fiscal year.

We do not pay management directors for Board service in addition to their regular employee compensation. The compensation paid to our management director, Ms. Advaiti, for services provided as our CEO is discussed in the sections of this proxy statement titled "Compensation Discussion and Analysis" and "Executive Compensation."

Fiscal Year 2022 Annual Compensation

Under the Singapore Companies Act, we may only provide cash compensation to our non-employee directors for services rendered in their capacity as directors with the prior approval of our shareholders at a general meeting. Our shareholders approved the current cash compensation arrangements for our non-employee directors at certain of our previous annual general meetings, with the most recent modifications approved at our 2017 annual general meeting. The current arrangements include the following annual cash retainers, all of which are paid quarterly in arrears:

Amount (\$)	Who receives
90,000	Each non-employee director
15,000	Each member of the Audit Committee and the Compensation and People Committee, including the chairs
40,000	Chairs of the Audit Committee and the Compensation and People Committee
8,000	Each member of the Nominating, Governance and Public Responsibility Committee, including the chair
15,000	Chair of the Nominating, Governance and Public Responsibility Committee
50,000	Chair of the Board, in addition to applicable retainers listed above

The cash compensation for non-employee directors who serve less than a full quarter is pro-rated for the number of days actually served. Non-employee directors do not receive any non-equity incentive compensation or participate in any pension plan or deferred compensation plan.

At our 2013 annual general meeting of shareholders, our shareholders approved a change in the structure of our non-employee director compensation program that allows non-employee directors to receive compensation in the form of Company shares, cash, or a combination thereof, at the director's election. Accordingly, each non-employee director can elect to receive the annual retainer(s) described above, in whole or in part, in the form of fully vested, unrestricted Ordinary Shares of the Company. A non-employee director making such an election will receive shares having an aggregate value equal to the portion of cash compensation exchanged, with the value based on the closing price of our shares on the date the compensation would otherwise have been paid in cash.

Fiscal Year 2022 Equity Compensation

Yearly Restricted Share Unit Awards

Each non-employee director is eligible to receive grants of restricted share unit awards at the discretion of our Board of Directors. In accordance with the compensation program recommended by the Nominating, Governance and Public Responsibility Committee and approved by the Board, each non-employee director receives, following each annual general meeting, a restricted share unit award with an aggregate fair market value of \$185,000 on the date of grant. These yearly restricted share unit awards vest in full on the day immediately prior to the next year's annual general meeting. During fiscal year 2022, each non-employee director, other than Mr. Patrick J. Ward who was appointed on January 26, 2022, received a restricted share unit award covering 10,475 Ordinary Shares under this program.

Initial Awards

Upon initially becoming a director of the Company, each non-employee director receives a pro-rated portion of the annual restricted share unit award granted to our continuing directors. These awards vest on the date immediately prior to our next annual general meeting. In connection with his appointment to the Board on January 26, 2022, Mr. Ward received a restricted share unit award covering 6,402 Ordinary Shares.

Compensation for the Non-Employee Chair of the Board

In keeping with the Company's philosophy pertaining to non-employee director compensation, the Nominating, Governance and Public Responsibility Committee seeks to provide competitive compensation to the non-employee Chair of the Board that recognizes the extensive time commitment and additional responsibilities the Chair role entails, while ensuring the Chair's interests remain aligned with the long-term interests of our shareholders. Flex's non-employee Chair, Mr. Capellas, brings deep experience, a dedication to serving the Company, institutional knowledge, and strong leadership to Flex, among other skills and qualifications (see also "Proposal No. 1: Re-election of Directors – Skills, Qualifications and Diversity of Nominees" on page 43).

The Nominating, Governance and Public Responsibility Committee, with the assistance of FW Cook, reviewed the compensation of the Chair of the Board. As with the review of compensation for the non-employee directors generally, this review considered whether the compensation paid to our Chair was competitive when compared to the practices of our peer group of companies. The review by FW Cook supported the view that our non-employee Chair's compensation is competitive with the market and aligned with shareholder interests.

Components of Compensation for the Non-Employee Chair

In addition to the cash and equity grants described above, our non-employee Chair is entitled to receive, following each annual general meeting, an additional yearly restricted share unit award with an aggregate fair market value of \$50,000 on the date of grant. These shares will vest on the day immediately prior to the next year's annual general meeting. During fiscal year 2022, the Chair of the Board received a restricted share unit award of 2,831 additional Ordinary Shares.

Non-Employee Director Share Ownership Guidelines

We increased our non-employee director share ownership guidelines during fiscal year 2020 to require our non-employee directors to hold a minimum number of our Ordinary Shares equivalent to five (5) times their annual cash retainer (currently \$90,000) for serving as a director. Non-employee directors should reach this goal within five years of the date they are elected to our Board. As the minimum holding requirements were increased in fiscal year 2020 (from the previous requirement of four times the annual cash retainer), non-employee directors then in office were given an additional three-year grace period to meet this obligation. All of our non-employee directors have already met the higher minimum share ownership requirements or are on target to be in compliance with the requirements before the applicable deadline.

Director Summary Compensation in Fiscal Year 2022

The following table sets forth the fiscal year 2022 compensation for our non-employee directors.

Name	Fees Earned or Paid in Cash (\$) ⁽¹⁾	Share Awards (\$) ⁽²⁾	All Other Compensation (\$)	Total (\$)
Michael D. Capellas ⁽³⁾	81,500	316,500	—	398,000
John D. Harris II ⁽⁴⁾	52,500	237,500	—	290,000
Michael E. Hurlston ⁽⁵⁾	—	290,000	—	290,000
Jennifer Li ⁽⁶⁾	78,750	211,250	3,344	293,344
Erin L. McSweeney	143,792	185,000	—	328,792
Marc A. Onetto	105,000	185,000	—	290,000
Willy C. Shih, Ph.D.	105,000	185,000	—	290,000
Charles K. Stevens, III	153,000	185,000	—	338,000
Lay Koon Tan ⁽⁷⁾	—	290,000	—	290,000
Patrick J. Ward ⁽⁸⁾	18,958	100,909	—	119,867
William D. Watkins	108,577	185,000	—	293,577

(1) This column represents the amount of cash compensation earned in fiscal year 2022 for Board and Board committee service.

(2) This column represents the grant date fair value of restricted share unit awards granted in fiscal year 2022 in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718. The grant date fair value of restricted share unit awards is the closing price of our Ordinary Shares on the date of grant. For additional information regarding the assumptions made in calculating the amounts reflected in this column, see Note 5 to our audited consolidated financial statements for the fiscal year ended March 31, 2022, "Share-Based Compensation," included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022. No option awards were granted in fiscal year 2022.

- (3) In lieu of half of his cash compensation, Mr. Capellas elected to receive fully vested Ordinary Shares of the Company under the non-employee director share election program for his Board and Board committee service. As a result, Mr. Capellas received 4,572 restricted share units, the value of which is reflected in the table above under "Share Awards."
- (4) In lieu of half of his cash compensation, Mr. Harris elected to receive fully vested Ordinary Shares of the Company under the non-employee director share election program for his Board and Board committee service. As a result, Mr. Harris received 2,945 restricted share units, the value of which is reflected in the table above under "Share Awards."
- (5) In lieu of his cash compensation, Mr. Hurlston elected to receive fully vested Ordinary Shares of the Company under the non-employee director share election program for his Board and Board committee service. As a result, Mr. Hurlston received 5,979 restricted share units, the value of which is reflected in the table above under "Share Awards."
- (6) In lieu of half of her cash compensation for her Board and Board committee service for the first two quarters of fiscal year 2022, Ms. Li elected to receive fully vested Ordinary Shares of the Company under the non-employee director share election program. As a result, Ms. Li received 1,472 restricted share units, the value of which is reflected in the table above under "Share Awards." In addition, Ms. Li incurred California state taxes as a result of meeting attendance at our offices in San Jose, California during fiscal year 2022; the Company paid \$3,344, the estimated amount of such taxes, directly to the California Franchise Tax Board on her behalf. These amounts are reflected in the table above under "All Other Compensation."
- (7) In lieu of his cash compensation, Mr. Tan elected to receive fully vested Ordinary Shares of the Company under the non-employee director share election program for his Board and Board committee service. As a result, Mr. Tan received 5,979 restricted share units, the value of which is reflected in the table above under "Share Awards."
- (8) Mr. Ward was appointed to the Board on January 26, 2022.

The table below shows the aggregate number of Ordinary Shares underlying unvested restricted share units held by our non-employee directors as of the 2022 fiscal year-end:

Name	Number of Ordinary Shares Underlying Outstanding Restricted Share Units (#)
Michael D. Capellas	13,306
John D. Harris II	10,475
Michael E. Hurlston	10,475
Jennifer Li	10,475
Erin L. McSweeney	10,475
Marc A. Onetto	10,475
Willy C. Shih, Ph.D.	10,475
Charles K. Stevens, III	10,475
Lay Koon Tan	10,475
Patrick J. Ward	6,402
William D. Watkins	10,475

The non-employee directors do not hold any share options.

Treatment of Unvested Restricted Share Unit Awards upon a Change of Control

All of our non-employee directors have outstanding restricted share unit awards. Information regarding the treatment of outstanding restricted share units is described in the section titled "*Potential Payments Upon Termination or Change in Control.*"

Proposals to be Considered at the 2022 Annual General Meeting of Shareholders

Proposal No. 1: Re-election of Directors

Article 94 of our Constitution requires that at each annual general meeting, all of the current directors must retire from office. Retiring directors are eligible for re-election.

Our Board is currently comprised of 12 members. Jennifer Li and Willy C. Shih, Ph.D., current directors, are not being nominated by the Board for re-election and will be retiring from the Board pursuant to Article 94 of our Constitution, as amended, effective as of the conclusion of the 2022 annual general meeting.

Ms. Li is not being nominated for re-election due to time constraints and other board obligations. The Board and management are grateful to Ms. Li for her dedicated service and valuable contributions as a director.

Mr. Shih will continue to serve on the Board of Managers of Nextracker LLC, the entity resulting from the Company's recent separation of the Nextracker business in connection with TPG Rise Flash L.P.'s \$500 million investment. Mr. Shih was appointed to the Board in 2008. Flex has benefited greatly from Mr. Shih's exceptional commitment and sound business judgment. The Board and management would like to thank Mr. Shih for his significant contributions to the Company.

Upon the recommendation of our Nominating, Governance and Public Responsibility Committee, the Board of Directors has nominated 10 of our incumbent directors who will retire from office at the 2022 annual general meeting as required by Article 94 of our Constitution, for re-election. If all of the Board's nominees are elected, the Board will be composed of 10 members immediately following the annual general meeting.

If any nominee under Proposal No. 1 fails to receive the affirmative vote of a majority of the shares present and voting on the resolution to approve his or her re-election (that is, if the number of shares voted "FOR" the director nominee does not exceed the number of votes cast "AGAINST" that nominee), he or she will not be re-elected and the size of the Board will be reduced accordingly. Abstentions, if any, will have no effect.

The Singapore Companies Act provides that we must have at all times at least one director ordinarily resident in Singapore. As Mr. Tan is the only member of our Board of Directors who is ordinarily resident in Singapore, if Mr. Tan is not re-elected at the 2022 annual general meeting, he shall be deemed to continue in his role as a director until we appoint another director to the Board who is ordinarily resident in Singapore.

The proxy holders intend to vote all proxies for the nominees for directors listed below under "Nominees to our Board of Directors." If any nominee is unable or declines to serve as a director at the time of the 2022 annual general meeting, the proxies will be voted for any nominee designated by the present Board of Directors, in accordance with Article 99 of our Constitution, to fill the vacancy. As of the date of this proxy statement, our Board of Directors is not aware of any nominee who is unable or will decline to serve as a director.

The Board recommends a vote **"FOR"** the re-election of each of the Director nominees.

Nominees to our Board of Directors

Flex is committed to having a diverse and predominantly independent Board of Directors representing a range of critical skills. Our nominees represent a responsible blend of long-serving directors who have in-depth knowledge of our business and newer members who bring fresh perspectives and additional skills.

Skills, Qualifications and Diversity of Nominees

Our Nominating, Governance and Public Responsibility Committee is responsible for assessing the composition and performance of the Board and its committees, and for recruiting, evaluating, and recommending candidates to be presented for appointment or election to our Board. Our Board believes that a wide range of viewpoints is critical to effective board deliberations, corporate governance and oversight. The Nominating, Governance and Public Responsibility Committee assesses board diversity through periodic board composition evaluations.

The general attributes we expect all directors to have are high professional and personal ethics and values, an understanding of the Company's business and industry, advanced education, broad-based business acumen, and the ability to think strategically. These meaningful skills and experiences are just one aspect of diversity that the Board highly values. When reviewing potential board nominees, the Nominating, Governance and Public Responsibility Committee considers the holistic diversity of the Board, including gender, race, ethnicity, age, and cultural background.

While the Company does not specify minimum criteria for candidates, the Board’s overall diversity is a significant consideration in the director nomination process. Our Guidelines with Regard to Certain Governance Matters and the charter of our Nominating, Governance and Public Responsibility Committee provide that the Company and the Nominating, Governance and Public Responsibility Committee are committed to actively seeking highly-qualified candidates that contribute to the diversity of background of our board (including diversity of gender, age, race, ethnicity and cultural background) for consideration when the Board undertakes director searches. As the below summary provides in additional detail, our director nominees bring a variety of these skills and experiences to the Board and reflect an appropriate combination of qualifications to represent and further the long-term interests of the Company’s shareholders.

For this year’s election, the Board has nominated 10 individuals who bring valuable and diverse skills, experiences, and characteristics to the Board. Their collective experience covers a wide range of geographies and industries. Two of these nominees, or 20%, are women, and three nominees, or 33%, are racially/ethnically diverse. Further, our Board has a good balance of experienced and new directors, with more than half our incumbent director nominees having tenures of less than five years.

The following matrix highlights many of the specific experience, attributes, skills and qualifications that our nominees for director bring to the Company and that are considered when evaluating and recommending candidates for appointment or election to our Board. Each director candidate has self-identified the following demographic information.

		Revathi Advaiti	Michael D. Capellas	John D. Harris II	Michael E. Hurlston	Erin L. McSweeney	Marc A. Oneito	Charles K. Stevens, III	Lay Koon Tan	Patrick J. Ward	William D. Watkins

	Tenure on Flex’s Board	3	8	1	1	2	8	3	10	<1	13

Strategic Skills		Environmental and Sustainability	Experience in environmental and sustainability topics, which is instrumental to Flex's foundation of sustainability governance and the Company's position as a leader in sustainability efforts.
		Human Capital Management	Experience in human resources, compensation and benefits, recruiting and retaining employees, succession planning, and developing and maintaining a strong workplace culture. Our Board recognizes that human capital management is a high priority for the Company as an important component to maintaining our competitiveness and world-class capabilities and as we focus on hiring and retaining the world's best talent.
		Global Operations	Experience operating in a global context by managing international enterprises, residence abroad, and studying other cultures adds impactful insight and diversity to our Board's oversight of Flex's global footprint, including its workforce and operations in 30 countries across five continents, and enables our Board to support management in producing solutions across international markets.
		Supply Chain	Experience in executive positions overseeing supply chain management and exposure to supply chain issues, which is invaluable in overseeing and guiding Flex's supply chain services that involve a network of over 100 locations across the globe.
		Technology	Experience in the technology sector enables our Board to guide Flex's strategy regarding the design and manufacturing of enterprise and consumer products.
		Business Development and Strategic Planning	Executive level experience with business and customer development and long-term strategic planning and execution, allowing our Board to actively support the development and execution of Flex's long-term strategy and continued business transformation.
Core Competencies		Corporate Governance	Experience on other public company boards, demonstrating an understanding of Flex's reporting obligations and responsibilities to our shareholders, and positioning our Board to adopt best practices in public company corporate governance.
		Financial and Audit	Experience in accounting and audit functions and the ability to analyze financial statements and oversee budgets, providing critical oversight and support of Flex's financial reporting and responsibility to shareholders and other stakeholders.
		Risk and Compliance	Experience identifying, mitigating, and managing risk in enterprise operations, which allows our Board to fulfill its risk oversight responsibilities.
		Industry Leadership	Experience in executive positions within the technology sector or within the manufacturing sector - areas that are fundamental to Flex's business, strategic plan, and growth.

Board Diversity

As discussed above, the Board believes the current nominees embody a diverse range of viewpoints, backgrounds and skills, including with respect to tenure, gender, and race/ethnicity. In accordance with Nasdaq's new Board Diversity Rules, the following Board Diversity Matrix provides certain information regarding the composition of our Board members as of June 30, 2022, including Ms. Li and Mr. Shih, who are not nominees for re-election, and is based on voluntary self-identification. Each of the categories listed in the table has the meaning as it is used in Nasdaq Rule 5605(f).

Board Diversity Matrix (as of June 30, 2022)

Board Size:

Total Number of Directors	12
---------------------------	----

Gender Identity:	Female	Male	Non-Binary	Did Not Disclose Gender
Directors	3	9	0	0

Demographic Background:

African American or Black	0	1	0	0
Alaskan Native or Native American	0	1	0	0
Asian	2	2	0	0

- Various other positions with Seagate Technology (1996 to 2000)

Proposal No. 2: Re-Appointment of Independent Auditors for Fiscal Year 2023 and Authorization of our Board to Fix Their Remuneration

Our Audit Committee has approved, subject to shareholder approval, the re-appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm to audit our financial statements and records for the fiscal year ending March 31, 2023, and to perform other appropriate services. In addition, pursuant to Section 205(16) of the Singapore Companies Act, our Board of Directors is requesting that the shareholders authorize the directors, upon the recommendation of the Audit Committee, to fix the auditors' remuneration for services rendered through the 2023 annual general meeting. We expect that a representative from Deloitte & Touche LLP will be present at the 2022 annual general meeting. This representative will have the opportunity to make a statement and is expected to be available to respond to appropriate questions.

Deloitte & Touche LLP has been the Company's independent registered public accounting firm since 2002. The Company has been advised by Deloitte & Touche LLP that neither it nor any of its associates has any direct or material indirect financial interest in the Company.

Principal Accountant Fees and Services

Set forth below are the aggregate fees billed by Deloitte & Touche LLP, a member firm of Deloitte Touche Tohmatsu, and its respective affiliates for services performed during fiscal years 2022 and 2021. All audit and permissible non-audit services reflected in the fees below were pre-approved by the Audit Committee in accordance with established procedures.

(in millions)	Fiscal year	
	2022 (\$)	2021 (\$)
Audit Fees	12.0	11.6
Audit-Related Fees	0.1	0.1
Tax Fees	0.8	0.9
All Other Fees	0.4	0.0
Total	13.3	12.6

Audit Fees consist of fees for professional services rendered by our independent registered public accounting firm for the audit of our annual consolidated financial statements included in our Annual Report on Form 10-K (including services related to rendering an opinion under Section 404 of the Sarbanes-Oxley Act of 2002) and the review of our consolidated financial statements included in our Quarterly Reports on Form 10-Q. These fees include fees for services that are normally incurred in connection with statutory and regulatory filings or engagements, such as comfort letters, statutory audits, and consents and the review of documents filed with the SEC.

Audit-Related Fees consist of fees for assurance and related services by our independent registered public accounting firm that are reasonably related to the performance of the audit and not included in Audit Fees.

Tax Fees consist of fees for professional services rendered by our independent registered public accounting firm for tax compliance, tax advice, and tax planning services, including assistance regarding federal, state and international tax compliance, return preparation, tax audits and customs and duties.

All Other Fees consist of fees for professional services rendered by our independent registered public accounting firm for permissible non-audit services.

Audit Committee Pre-Approval Policy

Our Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee also may pre-approve particular services on a case-by-case basis.

Our Audit Committee has determined that the provision of non-audit services under appropriate circumstances may be compatible with maintaining the independence of Deloitte & Touche LLP, and that all such services provided by Deloitte & Touche LLP to us in the past were compatible with maintaining such independence. The Audit Committee is sensitive to the concern that some non-audit services, and related fees, could impair independence. However, the Audit Committee also

recognizes that in some areas, services that are identified by the relevant regulations as “tax fees” or “other fees” are sufficiently related to the audit work performed by Deloitte & Touche LLP that it would be highly inefficient and unnecessarily expensive to use a separate firm to perform those non-audit services. The Audit Committee intends to evaluate each such circumstance on its own merits, and to approve the performance of non-audit services where it believes efficiency can be obtained without meaningfully compromising independence.

The Board recommends a vote **“FOR”** the re-appointment of Deloitte & Touche LLP as our independent auditors for fiscal year 2023 and authorization of the Board, upon the recommendation of the Audit Committee, to fix their remuneration.

Message from the Audit Committee

We, the members of Flex’s Audit Committee, assist our Board of Directors in overseeing financial accounting and reporting processes; systems of internal controls; the appointment, compensation and oversight of our external auditor; and our compliance with legal and regulatory requirements. We are committed to the values of independence and transparency in the discharge of our duties.

In furtherance of independent oversight, our Audit Committee is composed entirely of independent and financially literate directors, including four audit committee financial experts. Further, we annually assess the independence of our external auditors considering any non-audit fees or services and the tenure of our lead audit partner.

We also take measures to ensure transparency between ourselves, members of management, and our external auditors including holding regular private sessions with external auditors, maintaining open lines of communication with members of management, and performing annual assessments of the qualifications and work quality of our external auditors.

We typically hold at least 6 meetings each fiscal year, in connection with regularly scheduled Board meetings and the filing of year-end financial results. Additionally, we meet as needed to address emerging concerns including financial and accounting practices and ethics and compliance concerns. Specifically, in discharging our oversight duties at each regularly scheduled Audit Committee meeting, we:

- review and discuss with management and Deloitte & Touche LLP our quarterly earnings press releases, related periodic reports filed with the SEC, and our audited financial statements for the fiscal year, as well as the overall quality of our financial reporting process;
- receive updates from Flex’s Chief Ethics and Compliance Officer (“CECO”) regarding legal and compliance matters including reports about the receipt and resolution of employee or other concerns raised regarding financial reporting and other compliance matters, and annually review the performance of the CECO;
- receive updates from Flex’s Vice President of Internal Audit regarding internal audit and risk management matters including the Audit and Risk Management Services reports, and annually review the performance of the Vice President of Internal Audit;
- review and discuss accounting and tax regulatory, procedural, and program updates;
- review and discuss with management, internal audit and Deloitte & Touche LLP the evaluation, execution, and effectiveness of the Company’s internal control over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act of 2002;
- review and discuss topics regarding information security and cybersecurity risks, which includes receiving regular updates from Flex’s Chief Information Officer and Chief Information Security Officer, and the Company’s strategy to mitigate these risks; and
- review and discuss with management significant business, operational and reporting risks and assess the steps management is taking to control these risks, including specific critical risks identified by our enterprise risk management program.

For an exhaustive discussion of our responsibilities, we invite you to review our Audit Committee charter which we assess on an annual basis and revise, if necessary.

Audit Committee Report

The Audit Committee has reviewed and discussed with management and with our independent auditors, Deloitte & Touche LLP, our audited consolidated financial statements for the fiscal year ended March 31, 2022, as well as management’s assessment and our independent auditors’ evaluation of the effectiveness of our internal control over financial reporting as of March 31, 2022. Flex management represented to the Audit Committee that our audited consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The Audit Committee also discussed with our independent auditors the matters required to be discussed by the applicable rules of the Public Company Accounting Oversight Board and the SEC. The Audit Committee also has discussed with our independent auditors the firm's independence from Company management and the Company, and reviewed the written disclosures and letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence. The Audit Committee also has considered whether the provision of non-audit services by our independent auditors is compatible with maintaining the independence of the auditors. The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent auditors. All audit and permissible non-audit services performed by our independent auditors during fiscal years 2022 and 2021 were pre-approved by the Audit Committee in accordance with established procedures.

Our independent auditors perform an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and express an opinion on these consolidated financial statements. In addition, our independent auditors express their own opinion on the effectiveness of our internal control over financial reporting. The Audit Committee monitors these processes.

Based on the Audit Committee's discussions with management and our independent auditors and based on the Audit Committee's review of our audited consolidated financial statements together with the reports of our independent auditors on the consolidated financial statements and the representations of our management with regard to these consolidated financial statements, the Audit Committee recommended to the Company's Board of Directors that the audited consolidated financial statements be included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, which was filed with the SEC on May 20, 2022.

Proposal No. 3: Non-Binding, Advisory Resolution on Executive Compensation

We are asking our shareholders to approve, in a non-binding, advisory vote, the compensation of our named executive officers (NEOs) as reported in this proxy statement in the "Compensation Discussion and Analysis" and the compensation tables and accompanying narrative disclosure under "Executive Compensation."

Flex's compensation philosophy is that pay should be meaningfully aligned with performance. Our pay programs are designed to tie actual pay delivery for our executives to performance against the Company's short-term and long-term performance goals and the creation of shareholder value. A key objective of our compensation programs is to attract, retain and motivate superior executive talent by providing competitive pay opportunities and then paying for the achievement of rigorous Company objectives, while balancing the need to avoid excessive or inappropriate risk-taking and maintaining an appropriate cost structure.

We urge shareholders to carefully read the Compensation Discussion and Analysis section of this proxy statement. The Compensation Discussion and Analysis describes how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives and shows the link between our performance and our executives' incentive compensation. We also encourage shareholders to review the Summary Compensation Table and the other related compensation tables and narrative, which provide detailed information on the compensation of our NEOs.

While the vote on this resolution is advisory and not binding on the Company, each member of the Compensation and People Committee and the Board values the opinions of our shareholders and will consider the outcome of the vote on this resolution when making decisions regarding future executive compensation arrangements. We have held a say-on-pay advisory vote on an annual basis since 2011; the next say-on-pay vote is anticipated to occur at our 2023 annual general meeting.

The Board recommends a vote **"FOR"** the approval of the non-binding, advisory resolution on executive compensation.

Compensation and People Committee Report

The Compensation and People Committee of the Board of Directors has reviewed and discussed with management the Compensation Discussion and Analysis that follows this report. Based on this review and discussion, the Compensation and People Committee recommended to the Board of Directors that the "Compensation Discussion and Analysis" be included in the Company's proxy statement for the 2022 annual general meeting of shareholders.

Compensation Discussion and Analysis

This CD&A is organized into the following key sections:

Executive Summary	55
Compensation Philosophy	59
Compensation-Setting Process and Decisions for Fiscal Year 2022	60
Fiscal Year 2022 Executive Compensation	62

Introduction

In this Compensation Discussion and Analysis (CD&A) section, we discuss the material elements of our compensation programs and policies, including our overall compensation philosophy and program objectives, and how and why the Compensation and People Committee arrived at specific compensation policies and decisions involving our NEOs. Our NEOs for fiscal year 2022 were:

Name	Position
Revathi Advaiti	Chief Executive Officer
Paul R. Lundstrom	Chief Financial Officer
Francois P. Barbier⁽¹⁾	President, Global Operations and Components
Michael P. Hartung	President, Flex Agility Solutions
Scott Offer	Executive Vice President, General Counsel

(1) Mr. Barbier retired from his position of President, Global Operations and Components effective at the close of business on March 31, 2022 and will remain an employee of the Company and provide services related to the transition of his duties through September 30, 2022.

Executive Summary

Our pay programs are designed to align executives' compensation with performance against the Company's short-term and long-term objectives and the creation of shareholder value. We use a mix of performance metrics that are intended to reward different aspects of Company achievement.

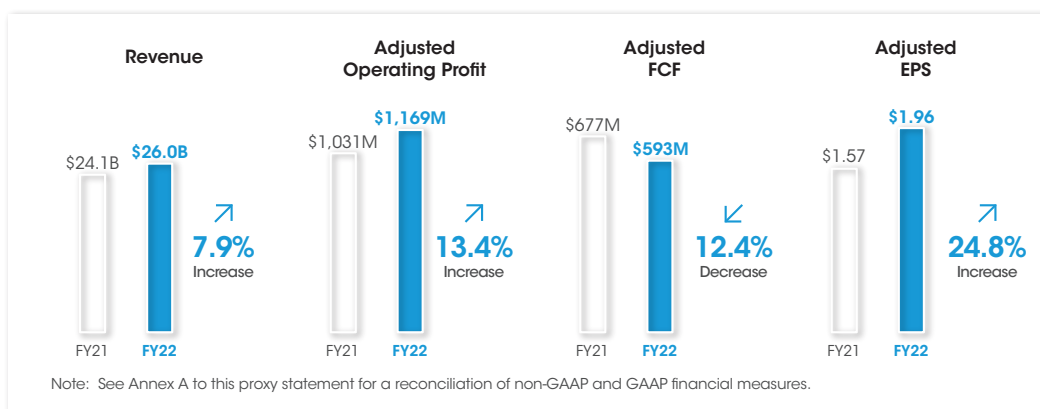

Performance and Company Highlights for Fiscal Year 2022

Flex's operating performance set a number of records in fiscal year 2022 despite supply-chain disruptions, continued macroeconomic headwinds and COVID-19-related uncertainty.

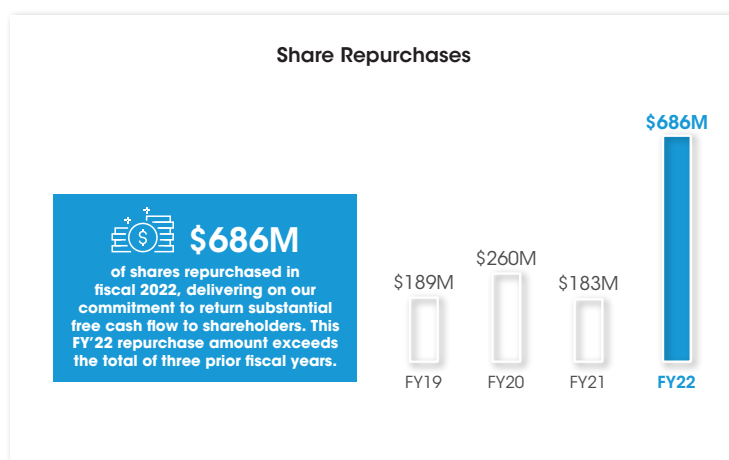

In fiscal year 2022, we continued to execute against and made significant progress on strategic transformation goals, despite global disruptions:

- Revenue saw a 7.9% increase over the prior fiscal year.
- Adjusted operating profit (OP) improved by 13.4% year-over-year, following substantial growth in fiscal year 2021 over 2020 of 15%.
- While adjusted Free Cash Flow (FCF) contracted by 12.4% as compared with the prior year, this was a robust performance despite headwinds from supply chain disruptions and a significant planned step up in capital expenditures. We also closed the year at an all-time high cash position (\$2.9 billion).
- In addition to the achievements above, the Company set fiscal year records on adjusted gross margin (7.5%), adjusted operating margin (4.5%), and adjusted earnings per share (EPS) (\$1.96) and GAAP EPS (\$1.94).

Within the short-term incentive program for the NEOs in fiscal 2022, we used the following metrics: revenue, adjusted OP, and adjusted FCF. For fiscal 2022 we also added an adjusted EPS Growth performance stock unit (PSU) program as a new long-term incentive (LTI) vehicle. These were the same metrics we focused on in our quarterly performance updates to shareholders. Our recent history of performance on these four metrics is shown below.

Our adjusted FCF performance and improved profitability, achieved despite the COVID-19 pandemic and related supply chain disruptions, supported our return of capital to shareholders through our share repurchase program, as shown below. Despite the challenges experienced in fiscal year 2022, the pace of repurchases exceeded that of the prior three fiscal years combined.

Compensation Highlights for Fiscal Year 2022

Our pay-for-performance compensation philosophy aims to tie actual pay delivery to performance. We believe above-target performance should be rewarded when achieved, and below-target performance should lead to reduced compensation, including zero payouts for incentive elements when performance thresholds are not met. We also believe we should deliver a significant portion of executive pay in the form of equity awards, which are directly aligned with value delivered to shareholders.

For fiscal year 2022, as the business environment and the Company continued to adjust to operating during the pandemic and supply chain disruptions, and performance results continued improving, the Company returned to a more standard pay program design and administration.

Consistent with a return to a more standard program, our CEO received her first pay increase since joining the company in 2019, to recognize her contribution in leading the Company through the pandemic, while driving substantial growth in all key areas of performance since 2019 and positioning Flex for continued growth. The increases to her base salary, bonus target, and long-term incentive grant value were sized to position her total target direct compensation at a competitive level compared to our peer group CEOs, based on available data at the time her fiscal 2022 pay was approved.

-  **Bonus payouts** under the incentive bonus plan were at 99% of target for all NEOs except Mr. Hartung (President of Agility Solutions), who received a payout of 92% of target, due to 50% of his bonus being tied to the results of the Agility Solutions segment.
-  **Long-term incentive awards** were increased for our Chief Executive Officer, Chief Financial Officer, and President, Agility Solutions. These increases resulted in total target compensation being competitively positioned versus our compensation peer group. Long-term incentive values for our President, Global Operations and Components, and EVP, General Counsel were held flat relative to the prior fiscal year.
-  **Performance share plan (TSR) payout = 0%:** No payouts were earned under the rTSR PSUs for the three-year performance cycle ending in fiscal year 2022 (PSUs vesting in June 2021), as the threshold performance level was not achieved.

Summary of Compensation Program Changes for Fiscal Year 2022

The Company made a number of program design changes for fiscal year 2021, driven by the need to adapt to a rapidly changing business environment during the COVID-19 pandemic and continuously evolve our compensation programs to ensure we are offering a compelling value proposition to employees in a manner that aligns their interests with those of our shareholders.

For fiscal year 2022, as the business environment and the Company adjusted to operating during the pandemic and supply chain disruptions, and performance results continued improving, the Company returned to the more standard pay program design and administration. As part of that normalization, and positioning the Company for growth, we made several program changes described below.

Program Element	Fiscal Year 2022 Design Changes	Rationale for Change
Bonus Metrics	Revenue metric weighting increased by 5%, while Adjusted FCF weighting decreased by 5% to reflect a stabilizing business environment for fiscal year 2022. Inventory turnover modifier metric was eliminated.	Reflect a stabilizing business environment and a slight shift in priorities from generating cash to growing revenue. Inventory turnover modifier eliminated as a similar metric was implemented at lower levels of the organizations, closer to employees who can impact this most directly.
rTSR PSUs	rTSR PSU LTI weighting was reduced from 50% to 25% of LTI. rTSR comparator group was updated, replacing the S&P 500 Index with a custom peer group composed of compensation peers and companies in related industries with a similar operating profit margin profile to Flex.	rTSR PSU weighting was reduced to allow the introduction of another PSU vehicle of equivalent weighting, measuring adjusted EPS growth. rTSR peer group was updated to improve the representation of Flex's industry focus and business landscape.
Adjusted EPS Growth PSUs	Added adjusted EPS Growth PSUs, with a weighting of 25% of LTI	Improve alignment to our long-term financial strategy, based in part on achieving substantial EPS growth. Create a more balanced LTI program with both relative stock price performance targets (TSR) and fixed financial performance targets (EPS) with direct participant line-of-sight.

In addition to bonus metric changes for fiscal year 2022 summarized above, the Company is also adding an ESG component and an individual performance component to the executive bonus plan for fiscal year 2023.

Fiscal Year 2022 Executive Compensation Summary

Our executive compensation program is structured to be competitive and allow us to attract and retain a high caliber leadership team. Further, it is intended to provide direct alignment between pay and performance. The illustrations below describe the key elements of direct compensation for our executives in fiscal year 2022 and show how those elements were allocated. A majority of pay is performance-based and 90% of target compensation is at risk for our CEO and 80%, on average, is at risk for our other NEOs.

- (1) PSUs are shown at face value (the target number of shares awarded multiplied by the closing stock price on the grant date).
- (2) The above percentages do not add up to 100% due to rounding.
- (3) Excludes the value of a one-time bonus paid to Mr. Offer in recognition of his services as the interim Chief Human Resources Officer (CHRO) described on page 66.

<p>Deferred Compensation</p>	<ul style="list-style-type: none"> ✓ Long-term cash incentives under our Deferred Compensation Plan have a target value equal to 30% of salary for each NEO, with 50% of funding fixed and 50% of funding linked to corporate bonus payout results.

Compensation Philosophy

Flex's compensation philosophy is that pay should be meaningfully aligned with performance. Our pay programs are designed to tie actual pay delivery for our executives to performance against the Company's short-term and long-term objectives and the creation of shareholder value. A key purpose of our compensation programs is to attract, retain and motivate superior executive talent by providing competitive pay opportunities and then paying for the achievement of rigorous performance goals, while balancing the need to avoid excessive or inappropriate risk-taking and maintaining an appropriate cost structure. We actively manage our pay-for-performance philosophy as described below.

Element	Overview
Base salaries and target cash compensation	<ul style="list-style-type: none"> We regularly benchmark pay against a set of industry peers. Base salaries and target cash compensation are competitively positioned for our NEOs to manage fixed costs and emphasize paying for performance.
Substantial emphasis on at-risk compensation	<ul style="list-style-type: none"> Programs are designed to link pay delivery to the achievement of pre-determined performance goals that directly correlate with enhanced shareholder value. 90% of Ms. Advaiti's fiscal year 2022 target total direct compensation was at-risk and 80% of target total direct compensation for our other NEOs, on average, was at-risk. 100% of at-risk compensation is based on achievement of core financial metrics and/or is subject to market risk based on absolute or relative TSR performance. All incentive outcomes were based on a formulaic calculation of results against pre-determined financial or TSR-based performance targets. The Board, or the Compensation and People Committee if so delegated by the Board, maintains the authority to adjust annual incentive bonus payouts if such payouts do not align with the Company's overall performance.
Focus on long-term performance	<ul style="list-style-type: none"> While measurement of short-term results maintains day-to-day focus, we believe that shareholder value is built over the long term. For Ms. Advaiti's fiscal year 2022 target total direct compensation, 73% was in the form of long-term incentives, half of which are linked to either the achievement of TSR performance or adjusted EPS Growth goals. On average, 59% of target total direct compensation for our other NEOs was in the form of long-term incentives, tied to achievement of the same objectives as Ms. Advaiti. We emphasize the NEOs' alignment with our shareholders' long-term interests by enforcing rigorous share ownership guidelines.

Our compensation program is highly responsive to changes in our operating and stock price performance, as illustrated below with respect to our CEO's total direct compensation.

Illustrative Assumptions	Bonus & PSU Payouts	Stock Price
Low Performance Scenario	50% of Target	\$9.11 (Grant Price - 50%)
High Performance Scenario	150% of Target	\$27.33 (Grant Price + 50%)

Compensation-Setting Process and Decisions for Fiscal Year 2022

Alignment with Compensation and Corporate Governance Best Practices

The Compensation and People Committee regularly reviews our compensation programs, peer company data, and best practices in executive compensation. We have adopted corporate governance and compensation practices and policies that our Compensation and People Committee, along with our Board, believes help to advance our compensation goals and philosophy.

What We Do

-  Our Compensation and People Committee is composed entirely of independent members with a robust review process.
-  We use a pay-for-performance executive compensation model that focuses primarily on corporate performance, with a significant portion of executive compensation at-risk and long-term.
-  We maintain a clawback policy so we could recoup compensation paid to an executive officer in the event of a material restatement of financial results where a covered officer engaged in fraud or misconduct that created the need for the restatement.
-  Our Compensation and People Committee retains an independent compensation advisor.
-  We conduct regular shareholder outreach and consider shareholder advisory votes and views in determining executive compensation strategies.
-  We maintain robust share ownership guidelines for NEOs and Directors.

What We Do Not Do

-  We do not enter into NEO employment agreements.
-  We do not pay severance in the event of an executive's voluntary resignation or retirement.
-  We do not allow hedging or short sales of Company equity, and we do not permit pledging of Company equity as collateral for loans.
-  We do not provide excise tax gross-ups with respect to compensation awarded following change-of-control events.
-  We do not have single trigger accelerated vesting of equity awards upon a change in control.
-  We do not provide excessive or non-customary executive perquisites.
-  We do not pay dividends or dividend equivalents on our unvested equity awards.
-  We do not permit options/SAR repricing (including cash buyouts) under our 2017 Amended and Restated Plan.

Compensation and People Committee

The Compensation and People Committee is responsible for recommending to our Board the compensation of our Chief Executive Officer all other NEOs, and Section 16 officers. The Compensation and People Committee also administers our equity compensation plans, evaluates the effectiveness of our overall executive compensation programs, monitors our Say-on-Pay results, and reviews the Company's talent assessment and succession planning.

The Compensation and People Committee regularly assesses our compensation programs to ensure they are appropriately aligned with our business strategy and achieving their objectives. The Compensation and People Committee also reviews market trends and changes in competitive pay practices. Based on its review and assessment, the Compensation and People Committee regularly approves changes in our compensation programs or recommends such changes to our Board.

Say-on-Pay Vote

The Compensation and People Committee believes that our executive compensation program is consistent with our pay-for-performance philosophy and provides proper alignment of incentives for our executives while ensuring long-term value creation for our shareholders. Each year, we evaluate our program in light of the strategic direction of the Company, market conditions, shareholder views (including the results of our annual say-on-pay resolution), and governance considerations, and make changes deemed appropriate for our business.

At our 2021 annual general meeting, we had strong support for the compensation of our NEOs, with over 95% of the votes cast in favor of our say-on-pay resolution. We continue to evaluate our compensation program by taking into account the voting results, shareholder feedback, and other factors used in assessing the program as discussed in this CD&A.

Independent Consultants and Advisors

The Compensation and People Committee has the authority to retain and terminate any independent, third-party compensation consultants and to obtain advice and assistance from internal and external legal, accounting, and other advisors. During fiscal year 2022, the Compensation and People Committee retained FW Cook as its independent compensation consultant.

FW Cook furnished the Compensation and People Committee with reports on the following topics: peer group composition, compensation data and analysis relating to the compensation of our NEOs, short- and long-term compensation program design, compensation program risk assessment, annual share utilization and shareholder dilution levels resulting from equity plans, competitive severance practices and executive share ownership and retention values.

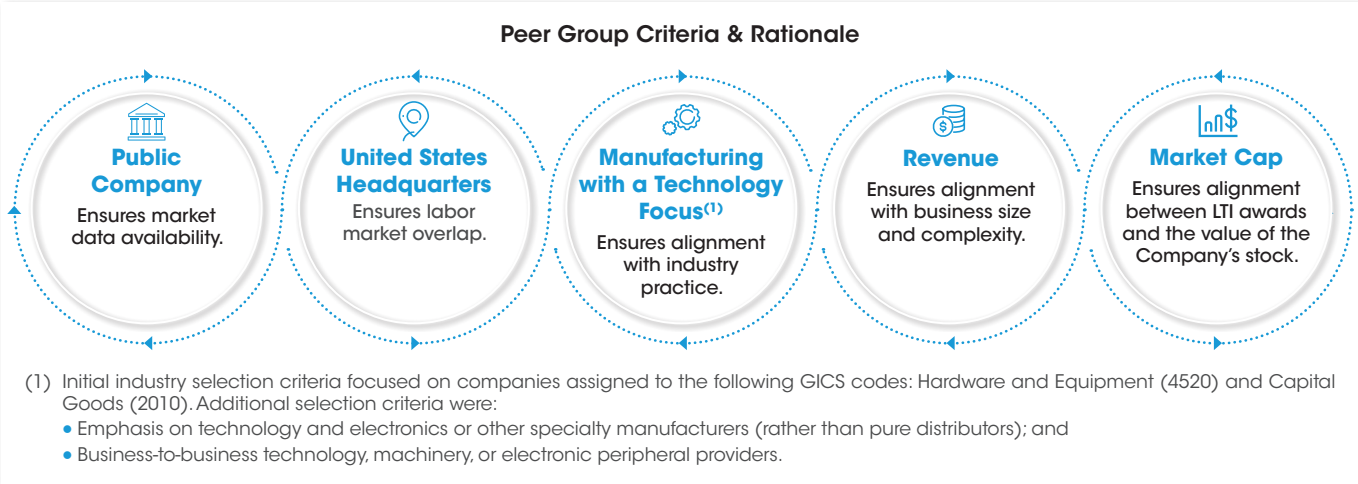

FW Cook informed the Compensation and People Committee, and the committee agreed, that there are no personal or business relationships between any FW Cook employee and any member of the Compensation and People Committee or any NEO beyond the Flex relationship. Based on this information and other factors, including the factors set forth under Rule 10C-1 under the Securities Exchange Act of 1934, as amended, the Compensation and People Committee assessed the independence of FW Cook and concluded that no conflict of interest exists that would prevent FW Cook from independently advising the Compensation and People Committee. Outside of engaging on executive and Board member compensation and related matters, FW Cook does not provide any other services to the Company.

Role of Executive Officers in Compensation Decisions

The Compensation and People Committee meets with our Chief Executive Officer and other executives to obtain recommendations with respect to the structure of our compensation programs. The CEO and certain other executives also assess the performance of other individual executives and make recommendations regarding their compensation. Decisions related to the compensation of the CEO (including recommendations to the Board regarding the same) are made independently by the Compensation and People Committee, without input from management. In addition, our CEO and other executives develop recommendations for performance measures and target performance goals under our incentive plans based on management’s business forecast—both at the Company and business unit levels. These recommendations are approved by the Compensation and People Committee as well as by our Board when appropriate.

Competitive Positioning

Relying upon data provided by our independent compensation consultant, the Compensation and People Committee undertakes a review, on an annual basis, of the compensation peers that we use to provide insight into market-competitive pay programs, levels and practices. The criteria used to develop the peer group were unchanged from fiscal year 2021, continuing with revenue and market cap as the financial measures, as well as similar industry focus and publicly listed companies with headquarters in the U.S. as the other selection criteria. Applying these criteria, carried over from fiscal year 2021, did not result in any peer group changes – Flex continued with the same 14 peer companies as in fiscal year 2021.

Our peer group for fiscal year 2022 compensation decisions consisted of the following companies:

Arrow Electronics, Inc.	Jabil, Inc.	TD SYNnex Corporation
Avnet, Inc.	PACCAR Inc	Textron Inc.
Corning Incorporated	Parker Hannifin Corporation	Western Digital Corporation
Cummins Inc.	Sanmina Corporation	Xerox Holdings Corporation
Hewlett Packard Enterprise Company	Seagate Technology Holdings plc	

The peer group revenue and market cap summary statistics, as of the time of the analysis, are shown below.

In addition to our peer group companies, the Compensation and People Committee reviews standardized surveys of large technology and manufacturing firms to evaluate the competitiveness of Flex's compensation programs in the context of general industry compensation practices.

Fiscal Year 2022 Executive Compensation

Base Salary

The Compensation and People Committee typically reviews base salaries every year and makes recommendations to the Board of Directors about adjusting or maintaining salary levels to reflect competitive market data, individual performance, internal equity and promotions or changes in responsibilities.

Prior to the increases for fiscal year 2022 shown below, salaries had not been increased since fiscal year 2020, and were decreased in fiscal year 2021 for six months, by 50% for our CEO, and 30% for other NEOs, due to COVID-19-related uncertainty and the need to preserve cash. Temporary salary decreases during fiscal year 2021 were not offset with increases in other pay components.

Our CEO's salary had been unchanged since her hiring in 2019. Changes to her base salary for fiscal year 2022, as well as bonus target and target value of LTIs were intended to recognize her accomplishments since she joined Flex in 2019, as well as her leadership in guiding the Company through the pandemic. The overall impact of the increases of her base salary, bonus target and the grant value of long-term incentives, was to better align her total direct compensation to the compensation peer group CEOs (with the value of rTSR PSUs calculated based on the stock price on date of grant).

The following table sets forth the base salary increases of our NEOs for fiscal year 2022.

Name and Title	Annualized Base Salary for Fiscal Year 2021 (\$)	Annualized Base Salary for Fiscal Year 2022 (\$)	Percentage Change
Revathi Advaiti Chief Executive Officer	1,150,000	1,325,000	15.2%
Paul R. Lundstrom Chief Financial Officer	700,000	720,000	2.9%
Francois P. Barbier President, Global Operations and Components	710,000	730,000	2.8%
Michael P. Hartung President, Agility Solutions	700,000	720,000	2.9%
Scott Offer Executive Vice President, General Counsel	629,200	647,000	2.8%

Incentive Bonus Plan

In designing the incentive bonus plan, our Chief Executive Officer and management team develop and recommend performance metrics and targets, which are reviewed and are subject to final approval by the Compensation and People Committee. Fiscal year 2022 corporate level performance metrics, weightings, and changes relative to fiscal year 2021 were as follows:

Metrics	Fiscal Year 2021 Weightings	Fiscal Year 2022 Weightings
Adjusted OP	40%	40%
Adjusted FCF	40%	35%
Revenue	20%	25%
ITO	Used as a modifier	None, removed

The revenue and adjusted FCF metric weightings were increased and decreased by 5%, respectively, to reflect the expectations of a degree of normalization and stabilization in the business environment, and a slight shift in emphasis towards top line growth, and away from generating and preserving cash. Despite the slight reduction in adjusted FCF weighting, the bonus design continues to incentivize conversion of profit into free cash flow by being efficient with working capital and inventory management. We removed the inventory turnover modifier (ITO) for the NEOs because we implemented a different metric that focuses on this aspect of Company performance at lower levels of the organization, where it is driven more directly by participants.

Adjusted OP acts as both a metric within the plan, and the overall funding metric of our global bonus program, as illustrated below on page 66. Adjusted OP achievement generates an enterprise-wide funding pool based on the same adjusted OP targets as used for the Corporate NEO bonus plan. To the extent Corporate OP funding is either above or below the enterprise-wide payout, a corresponding adjustment is made to the final bonus payout. The funding generated by our adjusted OP achievement acts to ensure affordability and alignment to shareholder returns.

Performance for business unit Presidents is measured at both the Corporate and segment (business unit) levels, with a 50% weighting of each. This 50/50 weighting split emphasizes the importance of enterprise-wide performance, and encourages a balanced approach between accountability for segment performance and cooperation across the enterprise. The corporate performance metrics are as defined above. The metrics for segment performance are segment OP and revenue, weighted equally.

The following table summarizes the key features of our fiscal year 2022 incentive bonus plan.

Feature	Component	Objectives
Performance targets	<ul style="list-style-type: none"> Based on key short-term Corporate and business unit financial metrics 	<ul style="list-style-type: none"> Aligns executive incentives with performance Rewards achievement of short-term objectives
Performance measures	<ul style="list-style-type: none"> Revenue and adjusted OP at the Company and business unit level, and adjusted FCF at the Company level Weightings for these metrics are fixed, and measured at the corporate level for all executives and at the business unit level for business unit executives Adjusted OP measured at the Company level, is also used as the funding metric for aggregate bonus payouts across the Company 	<ul style="list-style-type: none"> Emphasizes pay-for-performance by linking individual compensation to performance on metrics that are key drivers of shareholder value Promotes accountability by tying payouts to achievement of minimum performance thresholds Ensures aggregate payouts are aligned to the Company's profitability
Bonus payments	<ul style="list-style-type: none"> Based entirely on achievement of financial performance objectives, with no individual performance component Target bonus opportunities set at percentage of base salary, based on executive's level of responsibility Annual bonuses range from 0% of target to a maximum of 200% of target No payout awarded for any measure where threshold performance is not achieved The Board, or the Compensation and People Committee if so delegated by the Board, has the authority to adjust bonus payouts if appropriate in the context of the Company's overall performance 	<ul style="list-style-type: none"> Reflects the Company's emphasis on pay-for-performance by linking individual compensation to financial performance Encourages accountability by conditioning bonus payments on the achievement of at least the minimum performance thresholds

Non-GAAP Adjustments

We used adjusted non-GAAP performance measures (adjusted OP and adjusted FCF) for our incentive bonus plan in fiscal year 2022, and adjusted EPS in fiscal 2022 adjusted EPS growth PSU grants. Using adjusted measures eliminates the distorting effect of certain unusual income or expense items. The adjusted performance measures are consistent with those used in our quarterly earnings releases. The adjustments are intended to align award payout opportunities with the underlying growth of our business and avoid misalignment in outcomes based on unusual items.

In calculating non-GAAP financial measures, we excluded certain items to make it easier to compare the Company's operating performance on a period-to-period basis because such items are not, in the Compensation and People Committee's view, related to the Company's ongoing operational performance. The non-GAAP measures are used to evaluate more accurately the Company's operating performance, to calculate return on investment, and to benchmark performance against competitors. For fiscal year 2022, non-GAAP adjustments consisted of excluding after-tax stock-based compensation expense; amortization of intangible, customer-related assets impairments; restructuring charges; and legal and other. All adjustments are subject to approval by the Compensation and People Committee to ensure that payout levels are consistent with performance. See Annex A to this proxy statement for a reconciliation of non-GAAP and GAAP financial measures.

For purposes of calculating performance under our bonus plan in fiscal year 2022, we also would have excluded from the calculation of performance, extraordinary items or events that would have had an unanticipated impact, corporate transactions (including acquisitions or dispositions), and other unusual or nonrecurring items. For purposes of EPS (under the adjusted EPS growth PSU program), the impact of unplanned share repurchases attributable to corporate transactions (including acquisitions or dispositions) will be disregarded.

These calculation exclusions were implemented to focus participants on results over which they have control and maintain motivation to continuously improve performance when faced with significant, unexpected disruptions out of their control.

Target Incentive Awards

Fiscal year 2022 bonus targets for the NEOs as a percent of base salary are shown below. With the exception of our CEO, whose target was increased from 150% to 165% of salary for fiscal year 2022, other NEOs' bonus targets as a percent of salary were not increased from fiscal year 2021.

Name and Title	Fiscal year 2022 Target Bonus (% of Salary)	Fiscal year 2022 Target (\$)
Revathi Advaiti Chief Executive Officer	165%	2,186,250
Paul R. Lundstrom Chief Financial Officer	110%	792,000
Francois P. Barbier President, Global Operations and Components	110%	803,000
Michael P. Hartung President, Agility Solutions	100%	720,000
Scott Offer Executive Vice President, General Counsel	100%	647,000

Incentive Payouts for CEO, CFO, President, Global Operations and Components, and General Counsel

The table below sets forth the payout opportunities that were available to Ms. Advaiti, and Messrs. Lundstrom, Barbier, and Offer based on different levels of corporate performance. These targets are considered rigorous and were validated within the context of analyst expectations. The bonus for Mr. Hartung was also in part based on the results of his business unit.

No payout is made with respect to any metric if the threshold performance level is not achieved. Payouts at the maximum level for the annual bonus would require sustained strong performance.

Performance targets are determined based on Board-approved financial plans—both at Company and business unit levels. Maximum payout levels were tied to "stretch" levels of performance.

	Weight	Payout (% of Target)			Actual Performance (\$)	Actual Payout (% of Target)
		Threshold ⁽¹⁾	100%	200%		
Revenue (\$M)	25%	\$23,770	\$25,559	\$26,581	25,932	137%
Adjusted OP (\$M)	40%	\$999	\$1,175	\$1,293	1,165	96%
Adjusted FCF (\$M)	35%	\$300	\$500	\$700	579	139%

● Actual Payout Based on Performance
(1) Threshold payout on Revenue and Adjusted OP metrics was 30% of target. For the Adjusted FCF metric, threshold payout was 50% of target.

Per the non-GAAP adjustments described on page 64, for purposes of calculating performance under the fiscal year 2022 bonus plan, we excluded the impact of the Anord Mardix acquisition from our results. This adjustment resulted in lower performance, therefore reducing payouts. The impact of the adjustment on calculated performance was as follows:

Metrics	Result Before Adjustment	Adjustment	Result After Adjustment ⁽¹⁾
Revenue (\$M)	\$26,041	-\$109	\$25,932
Adjusted OP (\$M)	\$1,169	-\$3	\$1,165
Adjusted FCF (\$M)	\$593	-\$14	\$579

(1) Amounts do not add up exactly due to rounding.

For fiscal year 2022, the Company's performance resulted in payouts as shown below:

The 81.6% adjusted OP funding factor was calculated based on funding achieved at 96% of target (based on adjusted OP performance above), and an enterprise-wide average payout before application of funding metric, of approximately 118%.

Incentive Payouts for Business Unit Presidents

We treat the business unit performance measures as confidential. As described above, 50% of the annual bonus for Mr. Hartung was based on the results of his business units, evenly split between revenue and adjusted OP. The remaining 50% of the performance measure weighting, including the impact of plan funding, was the same as for corporate executives outlined above. The combination of these inputs and the adjustment based on the OP funding factor resulted in a payout of 92% of target for Mr. Hartung.

Final Incentive Awards for the NEOs

The bonus payout levels for our NEOs were as follows:

Name	Fiscal Year 2022 Annual Incentive Bonus Target (Potential Bonus as a percentage of Base Salary)	Fiscal Year 2022 Annual Incentive Actual Bonus (\$)	Fiscal Year 2022 Actual Annual Incentive Bonus as a Percentage of Full Year Target Bonus ⁽¹⁾
Revathi Advaiti	165%	2,163,076	98.9%
Paul R. Lundstrom	110%	783,605	98.9%
Francois P. Barbier	110%	794,488	98.9%
Michael P. Hartung	100%	661,896	91.9%
Scott Offer	100%	640,142	98.9%

Bonus for Mr. Offer

In order to recognize Mr. Offer's additional temporary responsibilities as the interim CHRO spanning approximately seven months during fiscal year 2022, the Company awarded Mr. Offer a bonus of \$350,000. During this period, Mr. Offer continued serving as the EVP, General Counsel, while also being responsible for executing Flex's human capital strategy and Human Resources function operations. Mr. Offer's interim CHRO role ended in September 2021, when the Company recruited a new CHRO. This bonus amount is reflected in the "Bonus" column of the Summary Compensation Table.

Long-Term Share-Based Incentive Compensation

In fiscal year 2022, the Board, upon the recommendation of the Compensation and People Committee, granted share-based long-term incentives to our senior executives as an incentive to maximize the Company's long-term performance and drive shareholder value creation. These long-term incentives are designed to align the interests of the NEOs with those of our shareholders and to give each NEO a significant incentive to manage the Company from the perspective of an owner with a direct stake in the business. Long-term equity awards are also intended to promote retention, as unvested shares are forfeited if an executive voluntarily leaves the Company.

Starting in fiscal year 2022, 25% of our NEOs' share-based long-term incentive awards (based on face value of the awards) is in the form of TSR-based PSUs. We reduced the portion of LTI allocated to TSR PSUs from 50% in fiscal year 2021, to 25% in fiscal year 2022, in order to add a PSU program based on achievement of adjusted EPS growth targets, as described below. Adjusted EPS Growth PSUs also represented 25% of LTI in fiscal year 2022. (The actual grant value mix may deviate somewhat from this 50/25/25 RSU/TSR PSU/EPS PSU split due to fluctuations in the Monte Carlo valuations for the TSR-based PSUs.) The Compensation and People Committee believes this allocation between RSUs and PSUs promotes retention, and links long-term compensation to the Company's long-term performance and shareholder outcomes.

Restricted Share Unit Awards (RSUs)

Fifty percent of each NEO's share-based long-term incentive award is in the form of RSUs. These service-based RSUs vest in three equal installments on the first three anniversaries of the grant date, subject to continued employment. Payouts are made in shares, so the value of an RSU award increases or decreases based on share price performance from the grant date, further aligning the interests of the executive with long-term shareholder value creation. Before an RSU vests, the holder has no ownership rights in the shares and is not entitled to dividends or dividend equivalents.

Performance Share Units (PSUs) - TSR Metric

Twenty five percent of each NEO's share-based long-term incentive award is in the form of rTSR PSUs. The total shareholder return (TSR) PSU awards granted in fiscal year 2022 will be earned (or not) based upon Flex's percentile rank of TSR over a three-year period compared to the relative TSR (rTSR) peer group companies (described below). Performance is measured over three discrete measurement periods—of 12-, 24-, and 36- months—within each three-year cycle, as illustrated below. TSR PSU final payout will be based on the average payouts of these three performance periods.

The use of discrete measurement periods aims to minimize the potential impact of short-term share price volatility at the end of the performance period. The Compensation and People Committee believes that this approach focuses NEOs on the achievement of sustainable long-term shareholder returns and provides a payout that is more reflective of the shareholder experience over the entire three-year cycle. Except in the event of an employee's death, disability, or retirement, no portion of a PSU award is earned or distributed until the conclusion of the full three-year performance period.

The number of shares earned is dependent on the percentile rank achieved, within each of the 12-, 24- and 36- month periods, as shown below.

Note: Straight-line interpolation is used to determine shares earned when results are between targets.

In prior years, the TSR PSU performance was measured against the S&P 500 index. For fiscal year 2022, we replaced the S&P 500 with the peer group of companies listed in the table below. Replacement of the S&P 500 with the current TSR peer group was driven by the considerations summarized below:

1. Reflect likely competitors for investor funds
2. Focus on the same or similar industries to Flex and subject to similar macroeconomic forces
3. Approximate the margin range for electronic manufacturing industry

These considerations resulted in the following selection methodology:

Fourteen compensation peer group companies, plus companies meeting all of the following criteria:

1. Industry membership in Technology Hardware & Equipment (GICS code 4520) and Capital Goods (2010)
2. Annual revenue is between \$5 billion and \$125 billion
3. Market cap is between \$1 billion and \$40 billion
4. Annual operating margin is 10% or less

Application of the selection methodology listed above resulted in the following TSR peer group:

Acer Inc.	Inventec Corporation
AECOM	Jabil, Inc.*
AGCO	Jacobs Engineering Group Inc.
Arrow Electronics, Inc.*	Johnson Controls International
ASUSTeK Computer Inc.	Lite-On Technology Corporation
AU Optronics Corporation	Oshkosh Corporation
Avnet, Inc.*	PACCAR Inc*
Beacon Roofing Supply, Inc.	Parker Hannifin Corporation*
Bombardier Inc.	Pegatron Corporation
CDW Corporation	Qisda Corporation
Celestica Inc.	Quanta Computer Incorporated
CommScope Holding Company, Inc.	Rush Enterprises
Compal Electronics	Sanmina Corporation*
Corning Incorporated*	Seagate Technology Holdings plc*
Cummins Inc.*	SNC-Lavalin Group Inc.
Dell Technologies Inc.	TD SYNEX Corporation
Delta Electronics, Inc.	Synnex Technology International Corp.*
EMCOR Group, Inc.	Textron Inc.*
Far Eastern New Century	Univar Solutions Inc.
Finning International Inc.	WESCO International
Hewlett Packard Enterprise Company*	Western Digital Corporation*
HP Inc.	Wistron Corporation
Huntington Ingalls Industries	WPG Holdings
Innolux Corporation	WSP Global Inc.
Insight Enterprises Inc.	Xerox Holdings Corporation*

* Denotes an existing compensation peer group company

The new TSR peer group contains companies headquartered and listed in the U.S., Canada and Taiwan as a reflection of the global nature of the industry in which Flex operates. The change in the TSR peer group resulted in an increase in the stock price correlation between Flex and peer set over a multi-year look-back period.

Performance Share Units (PSUs) - Adjusted EPS Growth Metric

We added adjusted EPS growth PSUs to the LTI program for fiscal year 2022 in order to improve participant line-of-sight to achievement of our long-term financial strategy, based in part on generating substantial EPS growth. These PSUs represent 25% of our NEOs' share-based long-term incentive awards (based on the target value of the awards as described below). These PSU awards will be earned (or not), at up to a maximum of 200% of target, based upon Flex's achievement of adjusted EPS growth targets.

In setting the adjusted EPS growth targets, the Compensation and People Committee considered the following inputs:

- Flex's historical EPS growth performance;
- Peer company (both compensation and US-based TSR peers) historical non-GAAP EPS growth performance;
- Company's long-term financial strategy; and
- Company's investor guidance for fiscal year 2022.

Performance will be measured over a three-year period in three discrete annual measurements within each three-year cycle, as illustrated below. Performance during each of the three years is averaged in the end, determining the final percentage of shares vesting (as % of target). None of the shares vest until the end of the three-year cycle.

Adjusted EPS growth rates will be calculated using non-GAAP adjustments summarized on page 64 of this proxy statement. Adjusted EPS used for purposes of Adjusted EPS growth PSU performance calculations will also exclude the impact of extraordinary items or events that have an unanticipated impact, corporate transactions (including acquisitions or dispositions), and other unusual or nonrecurring items. For purposes of EPS, the impact of unplanned share repurchases attributable to corporate transactions (including acquisitions or dispositions) will also be excluded. The rationale for excluding the impact of significant items or events that have an unanticipated impact is to focus participants on factors within their control, and preserve the incentive orientation of the plan in the face of significant, unforeseen business disruptions or other events. The objective of excluding the impact of M&A is to measure performance on the same basis and business composition as in place at the start of the performance period.

Actual adjusted EPS growth performance for the first year of the cycle (fiscal year 2022 vs. fiscal year 2021) was above the maximum performance adjusted EPS growth goal of 12%, resulting in 200% of target shares earned for year 1 of the three-year cycle (no shares vest until end of the performance period).

See also Annex A to this proxy statement for a reconciliation of non-GAAP and GAAP financial measures.

Grants During Fiscal Year 2022

The Compensation and People Committee and the Board considered the following factors when determining the value of the fiscal year 2022 NEO equity awards:

- Peer group compensation data for similarly situated executives;
- Future potential to contribute to the Company’s growth and potential to grow in current role and expand scope of responsibility and contribution over time;
- Individual performance and internal equity; and
- Peer group data on annual share usage and overall shareholder dilution.

Long-Term Incentive Awards

The table below summarizes the approved PSU and service-based RSU awards granted to our NEOs in fiscal year 2022.

Executive Officer	Target rTSR-Based PSUs (Shares)	Target Adjusted EPS Growth-Based PSUs (Shares)	Service-Based RSUs (Shares)	Target Total Equity Award Value (\$)
Revathi Advaiti	130,351	130,351	260,703	9,499,999
Paul R. Lundstrom	30,187	30,186	60,373	2,199,992
Francois P. Barbier	32,245	32,244	64,490	2,349,997
Michael P. Hartung	24,012	24,012	48,024	1,749,995
Scott Offer	26,070	26,070	52,141	1,900,000

The target award values shown above vary from the values shown in the Summary Compensation Table because the accounting cost of our TSR-based PSUs is based on a Monte Carlo valuation. The intended award value above was calculated as the target number of shares multiplied by the share price on the date of the grant. The actual value to be earned will depend on Flex’s multi-year TSR performance versus the TSR peer group, its adjusted EPS growth performance, as well as its absolute TSR performance.

Payouts of Prior PSUs

The performance period for the TSR-based PSUs granted in fiscal year 2019 ended in fiscal year 2022. The fiscal year 2019 TSR PSU grants measured our TSR versus the constituents of the S&P 500 from June 19, 2018 (the grant date) through June 19, 2021 (the performance period end), using a trailing 90-day average trading price for both the beginning and the end of the performance period. Our three-year TSR achievement of 12.5% over the performance period was below the 30th percentile threshold level, resulting in a 0% payout for this award.

Administration of Equity Award Grants

As a matter of good corporate governance, equity awards are not timed in relation to the release of material information.

Benefits

Non-qualified Deferred Compensation Awards

Each of the NEOs, with the exception of Mr. Barbier, participates in the 2010 Deferred Compensation Plan (NQDC plan), intended to promote retention by providing a long-term savings opportunity on a tax-efficient basis. In addition to voluntary contributions, Flex makes annual awards to the NEOs under the NQDC plan, the key terms of which are summarized below.

NQDC Plan Design Element	Description
Annual Targeted Amount	<ul style="list-style-type: none"> • Target amount is 30% of each participant's base salary (for ongoing contributions). • Maximum amount is 37.5% of each participant's base salary, if the performance-based portion is funded at maximum. <ul style="list-style-type: none"> • Subject to approval of Compensation and People Committee • Subject to offsets for non-U.S. executives' pension and other benefits
Funding Basis	<ul style="list-style-type: none"> • 50% of the targeted funding (15% of salary at target) is based on the corporate funding level of the annual corporate bonus plan. • 50% of the targeted funding (15% of salary) is not tied to performance.
Vesting Schedule	<ul style="list-style-type: none"> • Flex's contributions, together with earnings on those contributions, will vest in full after four years, provided the participant remains employed by the Company.
Investment of Balances	<ul style="list-style-type: none"> • Deferred balances in a participant's account are deemed to be invested in hypothetical investments designated by the participant. • Investment options generally mirror those available under the Company's tax-qualified 401(k) plan. • The appreciation, if any, in the account balances is due solely to the performance of these underlying investments.
Distribution Options	<ul style="list-style-type: none"> • Vested balances may be distributed upon termination of employment either through a lump sum payment or in installments over a period of up to ten years, as elected by the participants. • Participants also may elect in-service distributions through a lump sum payment or in installments over a period of up to ten years.

The deferred account balances are unfunded and unsecured obligations of the Company, receive no preferential standing, and are subject to the same risks as any of the Company's other general obligations.

Initial Company contributions are 50% of base salary and are not tied to Company performance. Thereafter, annual Company contributions are equal to 30% at target (37.5% at maximum) of each participant's base salary (subject to offsets for non-U.S. executives' pension and other benefits).

Mr. Barbier did not participate in this program during his tenure as an NEO to avoid duplication of contributions previously received from the Company to his French pension.

The Company may make an additional discretionary matching contribution in connection with voluntary deferrals to reflect limitations on our matching contributions under our 401(k) plan.

Company Deferred Compensation Awards for Fiscal 2022

For fiscal year 2022, Ms. Advaiti and Messrs. Hartung and Offer each received deferred cash awards with a value that averaged approximately 37.5% of their respective fiscal year 2021 base salaries. Mr. Lundstrom received a deferred cash award with a value of 21.9% of his fiscal year 2021 base salary.

Voluntary Contributions

Under the 2010 Deferred Compensation Plan, participants may defer up to 70% of their base salary and bonus, net of certain statutory and benefit deductions. Participants are 100% vested in their own deferrals at all times.

Additional Information

For additional information about the NEOs' contributions to their respective deferral accounts, Company contributions to the NEOs' deferral accounts, earnings on the NEOs' deferral accounts, withdrawals from the NEOs' deferral accounts, and deferral account balances as of the end of fiscal year 2022, see the section titled "Executive Compensation—Nonqualified Deferred Compensation in Fiscal Year 2022."

Executive Perquisites

Perquisites represent a small part of the overall compensation program for the NEOs. In fiscal year 2022, we paid the premiums on long-term disability insurance for all of our NEOs.

Relocation Assignments

In connection with Mr. Barbier's international assignment to the Company's San Jose facility, we agreed to reimburse him for certain relocation expenses, including a housing allowance of \$6,600 per month and an auto allowance of up to \$1,200 per month. These benefits are quantified under the "All Other Compensation" column in the Summary Compensation Table. For Mr. Barbier, the amount includes \$112,719 in tax equalization payments related to his international assignment.

401(k) Plan; French Defined Contribution Pension Plan

Under our 401(k) plan, all of our employees are eligible to receive matching contributions. We also offer annual discretionary matching contributions based on Company performance and other economic factors as determined at the end of the fiscal year. For fiscal year 2022, we elected not to make discretionary contributions on behalf of any NEO.

To avoid duplication of benefits, the Company's previous contributions to the defined contribution schemes mandated under French law on Mr. Barbier's behalf made Mr. Barbier ineligible for Company-paid non-qualified deferred compensation contributions (equal to 30% of base salary at target for other NEOs).

Other Benefits

Executive officers are eligible to participate in all of the Company's employee benefit plans, such as medical, dental, vision, group life, disability, and accidental death and dismemberment insurance, in each case on the same basis as other U.S. employees, subject to applicable law.

Termination and Change of Control Arrangements

The NEOs are entitled to certain termination and change of control benefits. These benefits are described and quantified under the section titled "Executive Compensation—Potential Payments Upon Termination or Change of Control."

The Compensation and People Committee has adopted the Flex Ltd. Executive Severance Plan (the "Severance Plan"), which covers senior level employees of the Company, including all of the NEOs except the Chief Executive Officer, whose severance benefits were defined under a letter agreement entered into in connection with her hiring. Under the Severance Plan, in the event of a termination of employment by the Company without "cause" or by a participant for "good reason" (as each such term is defined in the Severance Plan), the participant will receive the following benefits, subject to the participant entering into and complying with a transition and release agreement in a form provided by the Company ("Transition Agreement"):

Severance Plan Termination Benefit	Description
Salary and Benefits Continuation	<ul style="list-style-type: none"> Salary and benefits coverage continuation for duration of transition period provided in the Transition Agreement
Bonus Treatment	<ul style="list-style-type: none"> Pro-rated portion of annual bonus, based on actual performance through the end of the performance period
Equity Vesting	<ul style="list-style-type: none"> Time-based and performance-based RSUs, PSUs, and deferred compensation awards continue vesting during the transition period Following the transition period, accelerated vesting of RSUs and deferred compensation awards that would have vested during the one-year period following the transition period. <ul style="list-style-type: none"> Continued vesting is subject to the participant's release of claims and compliance with post-termination covenants under a Transition Agreement All other unvested awards are forfeited

During the period when an NEO is transitioning out of his or her role, he or she is required to discharge their transition duties and comply with other terms and conditions set forth in the Transition Agreement, including customary non-competition, non-solicitation, non-disclosure, non-disparagement, and cooperation provisions. Any violation of such obligations may result in cessation of benefits and trigger clawback rights of the Company.

Ms. Advaiithi's employment may be terminated by Ms. Advaiithi or the Company at any time, with or without "cause." Pursuant to the letter agreement entered into with Ms. Advaiithi at her hiring, in the event that Ms. Advaiithi terminates her employment

for “good reason” or is terminated without cause, Ms. Advaiti would be entitled to receive, subject to execution and non-revocation of a standard release of claims, the benefits summarized below:

Termination Benefit	Description
Cash Compensation Continuation	<ul style="list-style-type: none"> Two years’ continued payment of base salary and two years of her target annual bonus amount
Equity and Deferred Compensation Vesting	<ul style="list-style-type: none"> Two years’ continued vesting of outstanding equity awards and deferred compensation
Benefits Coverage	<ul style="list-style-type: none"> Two years’ continued benefits coverage
“Good Reason” Definition	<ul style="list-style-type: none"> Material diminution in position, authority, duties or responsibilities; assignment of any duties materially inconsistent with status as an officer Failure by the Company to obtain the written assumption of the Executive Severance Plan by a successor to the Company Material reduction in target base salary and target bonus opportunity Mandatory relocation of 50 miles or more

The following are the termination benefits applicable for all NEOs in the event of a change of control:

Termination Benefit	Description
Deferred Compensation Vesting	<ul style="list-style-type: none"> Under our 2010 Deferred Compensation Plan, vesting of initial and annual awards will accelerate Acceleration triggered only if employment is terminated without cause or by the executive for good reason within two years of the change of control (i.e., “double trigger” accelerated vesting)
Equity Vesting	<ul style="list-style-type: none"> Under the terms of our equity incentive plans, unvested awards will automatically accelerate if not assumed or replaced by the acquirer on an economically equivalent basis (double trigger) Under the terms of our equity plans, the Compensation and People Committee also has the ability to provide that certain awards may automatically accelerate upon an involuntary termination of service within a designated time period (not to exceed eighteen months) following a change of control

The Company reviewed and updated termination benefits applicable to all NEOs in the event of death, disability and retirement. The purpose of this review and resulting policy updates were to align treatment to current market norms, and in the case of retirement, to align participants’ interests with the Company’s need to ensure a smooth transition of their responsibilities. Updated provisions became effective starting with fiscal year 2021 RSU, PSU and NQDC awards, and are summarized below.

Termination Scenario	Description of RSU, PSU and NQDC Treatment
Death or Disability	<ul style="list-style-type: none"> RSU and NQDC vesting will accelerate upon the occurrence of these events PSU vesting will accelerate based upon actual performance for completed periods during the measurement period and target performance for unfinished periods during the measurement period, and pro-rated for length of time employed during the performance period.
Retirement	<ul style="list-style-type: none"> Retirement is defined as: <ul style="list-style-type: none"> Sum of age and service credits is equal to at least 65 Minimum length of service is 5 years Minimum age is 55 Unvested RSUs and NQDC would continue to vest, with PSUs vesting based on actual performance at the end of the performance cycle Unvested PSUs would be pro-rated for length of time employed during the performance period, and would continue to vest based on actual performance at the end of the performance cycle

Termination Arrangement for Mr. Barbier

Mr. Barbier announced his retirement effective at the close of business on March 31, 2022. In connection with his planned retirement, Mr. Barbier entered into an Executive Transition Agreement with the Company, effective April 1, 2022. Pursuant to the Executive Transition Agreement, Mr. Barbier is no longer an executive officer but will remain an employee of the Company and will provide services related to the transition of his duties through September 30, 2022 (the “Barbier Transition Period”).

Mr. Barbier will receive his base salary payable pursuant to the Company's standard payroll schedule during the Barbier Transition Period, while he continues to provide services to the Company. The Executive Transition Agreement provides that Mr. Barbier will be subject to perpetual confidentiality and non-disparagement covenants, and includes a general release and a customary cooperation provision. Mr. Barbier was not eligible for separation payments, nor was he provided with any preferential vesting of outstanding equity compensation. During the transition period, Mr. Barbier will also not receive new long-term incentive grants, typically granted in June of each year.

Due to Mr. Barbier's retirement eligibility, and independent of the terms of the Executive Transition Agreement, he is eligible for a pro-rated bonus payment based on his length of service during fiscal year 2023 and actual performance under the Company's fiscal year 2023 incentive bonus plan pursuant to the Company's bonus policy. Mr. Barbier's PSU awards will be prorated through his service end date and will be paid out based on performance at the end of the original performance periods. Mr. Barbier's fiscal year 2021 and 2022 RSU awards will continue vesting in accordance with the terms of these awards. Any portion of the fiscal year 2020 RSU award that remains unvested at the expiration of the Barbier Transition Period will be forfeited.

Actual termination benefits to be received by Mr. Barbier are disclosed in "Executive Compensation—Potential Payments Upon Termination or Change of Control" below.

Executive Share Ownership Guidelines

We maintain robust share ownership guidelines in order to closely align the interests of management with those of our shareholders. The ownership guidelines for our NEOs are summarized below.

Ownership Guideline Design Element	Description
Targeted Ownership Value	<ul style="list-style-type: none"> • CEO – 6x salary • CFO – 3.5x salary • Other NEOs – 2.5x salary
Forms of Ownership Counted Toward Guideline	<ul style="list-style-type: none"> • All Ordinary Shares held outright by our executives • Unvested service-based RSUs
Compliance Period	<ul style="list-style-type: none"> • 5 years for new hires or newly promoted executives • If an executive's stock ownership requirement is increased, a three-year compliance transition period will be provided to acquire the incremental shares

Unearned performance-based restricted stock units, and shares underlying unexercised stock options (whether vested or unvested, whether time- or performance-based and whether in-the-money or not) do not count as stock owned for purposes of the guidelines.

Our Nominating and Corporate Governance Committee monitors the share ownership of management. The Company has determined that the NEOs either are in compliance with or are on target to be in compliance with the applicable ownership requirements by the applicable deadline.

Executive Incentive Compensation Recoupment Policy

Our Executive Incentive Compensation Recoupment Policy covers our executive officers and the direct reports of our Chief Executive Officer, and applies to bonuses and awards under the Company's short- and long-term incentive plans, awards under our equity incentive plans, and contributions under our deferred compensation plans where the contributions are based on the achievement of financial results. In the event of a material restatement of financial results where a covered officer engaged in fraud or misconduct that caused the need for the restatement, the Board will have discretion to recoup incentive compensation of any covered officer if and to the extent the amount of compensation that was paid or that vested would have been lower if the financial results had been properly reported. In the case of equity awards that vested based on the achievement of financial results that were subsequently reduced, the Board also may seek to recover gains from the sale or disposition of vested shares (including shares purchased upon the exercise of options that vested based on the achievement of financial results). In addition, the Board will have discretion to cancel outstanding equity awards where the financial results that were later restated were considered in granting such awards. The Board may seek recoupment only in cases where the restatement occurs within 36 months of the publication of the audited financial statements that are restated.

Hedging and Pledging Policy

Our insider trading policy prohibits short-selling, trading in options or other derivatives on our shares, and engaging in hedging transactions by all employees (including executive officers) and directors. Our insider trading policy also prohibits our employees and directors from using our shares as collateral for margin accounts or pledging our shares as collateral for loans.

Compensation Risk Assessment

With the assistance of FW Cook, the Compensation and People Committee reviewed our compensation policies and practices and determined that our compensation programs do not encourage excessive or inappropriate risk-taking. The Compensation and People Committee believes that the design and mix of our compensation programs appropriately encourage our executive and senior officers to focus on the creation of long-term shareholder value. In its review, the Compensation and People Committee noted the following features:

- The Company's pay levels are generally aligned with market pay levels.
- The Company's compensation programs utilize best practices designed to mitigate risk, including:
 - Balanced mix of short-term cash and long-term equity pay;
 - Incentive programs that pay out based on a mix of performance metrics over varying time frames;
 - Long-term incentive program that includes both service-based RSUs and performance-based PSUs;
 - Incentive programs that have payout caps and reasonable leverage;
 - Share ownership guidelines and anti-hedging/pledging policies that encourage long-term equity ownership;
 - Compensation and People Committee having the ability to exercise discretion over formulaic incentive plan outcomes; and
 - Board-adopted, incentive compensation recoupment policy.

Executive Compensation

The following table sets forth the fiscal years 2020, 2021 and 2022 compensation for:

- Revathi Advaiti, our Chief Executive Officer;
- Paul R. Lundstrom, our Chief Financial Officer; and
- Francois P. Barbier, Michael P. Hartung, and Scott Offer.

The executive officers included in the Summary Compensation Table are referred to in this proxy statement as our NEOs. A detailed description of the plans and programs under which our NEOs received the following compensation can be found in the section titled "Compensation Discussion and Analysis" of this proxy statement. Additional information about these plans and programs is included in the additional tables and discussions that follow the Summary Compensation Table.

Summary Compensation Table

Name and Principal Position	Year	Salary (\$) ⁽³⁾	Bonus (\$) ⁽⁴⁾	Share Awards (\$) ⁽⁵⁾	Non-Equity Incentive Plan Compensation (\$) ⁽⁶⁾	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$) ⁽⁷⁾	All Other Compensation (\$) ⁽⁸⁾	Total (\$)
Revathi Advaiti Chief Executive Officer	2022	1,281,250	2,034,667	10,484,149	2,163,076	—	15,899	15,979,041

	2020	623,150	—	1,998,820	307,742	20,393	12,368	2,962,473

(1) Mr. Lundstrom was appointed as Chief Financial Officer effective September 1, 2020.

(2) Mr. Barbier retired from his position effective close of business March 31, 2022. Mr. Barbier entered into an Executive Transition Agreement, effective April 1, 2022, whereby he will no longer be an executive officer but will remain an employee and provide services related to the transition of his duties through September 30, 2022.

(3) Includes amounts contributed by executive to deferred compensation plan and 401(k) savings plan accounts.

(4) This column shows (except with respect to Mr. Lundstrom and Mr. Offer) the unvested portion of deferred compensation accounts that vested during these respective fiscal years. For additional information about the Company's deferred compensation arrangements, see the section titled "Compensation Discussion and Analysis—Deferred Compensation Awards" of this proxy statement and the discussion under the section titled "Nonqualified Deferred Compensation in Fiscal Year 2022" of this proxy statement. The amount shown for Mr. Lundstrom for fiscal year 2021 is a sign-on bonus paid upon commencement of employment with Flex, which he is required to repay, if, within 24 months of the employment commencement date, either he voluntarily terminates his employment with the Company (other than for "good reason") or the Company terminates his employment for "cause" (as such terms are defined in the Company's Executive Severance Plan). The amount shown for Mr. Offer for fiscal year 2022 reflects a bonus to recognize his additional temporary responsibilities as the interim Chief Human Resources Officer (CHRO) for \$350,000 in addition to vested deferred compensation of \$154,557.

(5) Share awards consist of service-based RSUs, adjusted EPS growth PSUs and TSR PSUs. The amounts in this column do not reflect compensation actually received by the NEOs, nor do they reflect the actual value that will be realized by the NEOs. Instead, the amounts reflect the grant date fair value for grants made by us in fiscal years 2020, 2021 and 2022, calculated in accordance with FASB ASC Topic 718. The adjusted EPS growth and TSR PSUs included in this column are at the target number of shares as follows for fiscal year 2022: 260,702 PSUs or \$5,734,140 for Ms. Advaiti; 60,373 PSUs, or \$1,327,908 for Mr. Lundstrom; 64,489 PSUs or \$1,418,439 for Mr. Barbier; 48,024 PSUs, or \$1,056,288 for Mr. Hartung; and 52,140 PSUs or \$1,146,819 for Mr. Offer.

For additional information regarding the assumptions made in calculating the amounts reflected in this column, see Note 5 to our audited consolidated financial statements, "Share-Based Compensation," included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022.

- (6) The amounts in this column represent incentive cash bonuses earned in fiscal year 2022. For additional information, see the section titled "Compensation Discussion and Analysis—Fiscal Year 2022 Executive Compensation—Incentive Bonus Plan" of this proxy statement.
- (7) The amounts in this column represents the above-market earnings on the vested portions of the nonqualified deferred compensation account of our NEOs. None of our NEOs participated in any defined benefit or actuarial pension plans in any period presented. Above-market earnings represent the difference between market interest rates determined pursuant to SEC rules and earnings credited to the vested portion of the NEOs' deferred compensation accounts. See the Nonqualified Deferred Compensation in Fiscal Year 2022 table of this proxy statement for additional information.
- (8) The following table provides a breakdown of compensation included in the "All Other Compensation" column for fiscal year 2022:

Name	Pension/ Savings Plan Company Match Expenses/ Social Security (\$) ⁽¹⁾	Medical/ Enhanced Long-Term Disability (\$) ⁽²⁾	Relocation/ Expatriate Assignment Expenses (\$) ⁽³⁾	Tax Reimbursements (\$) ⁽⁴⁾	Other (\$)	Total (\$)
Revathi Advaiti	12,913	2,986	—	—	—	15,899
Paul R. Lundstrom	11,800	2,942	—	—	—	14,742
Francois P. Barbier	—	39,935	106,968	129,272	—	276,175
Michael P. Hartung	11,725	2,306	—	—	—	14,032
Scott Offer	11,778	2,986	—	—	—	14,764

- (1) The amounts in this column represent the Company's regular employer matching contributions to the 401(k) saving plan accounts for Ms. Advaiti and Messrs. Lundstrom, Hartung and Offer.
- (2) The amounts in this column represent the Company's contribution to the executive long-term disability program, which provides additional benefits beyond the basic employee long-term disability program. An amount equal to \$37,382 represents medical and accidental death and disability premiums paid for Mr. Barbier for his French benefits. The amount was converted into dollars from Euros based on the average exchange rate for the 2022 fiscal year.
- (3) These amounts represent the costs associated with Mr. Barbier's relocation and commuting to the Company's San Jose facility. The relocation amounts for Mr. Barbier represent housing allowances of \$79,200, vehicle allowances of \$14,400, relocation fees of \$1,810 and home leave airfare of \$11,558.
- (4) For Mr. Barbier, the amount includes reimbursement of \$112,719 for the incremental taxes due as a result of his relocation to the Company's San Jose facility, \$11,968 for taxes dues on tax preparation fees and \$4,586 for the payment of Basic Social Security (which amount was converted into dollars from Euros based on the average exchange rate for the 2022 fiscal year). See the section titled "Compensation Discussion and Analysis—Benefits—Executive Perquisites" of this proxy statement.

Grants of Plan-Based Awards in Fiscal Year 2022

The following table presents information about non-equity incentive plan awards and RSU and PSU awards that we granted in our 2022 fiscal year to our NEOs. We did not grant any stock options to our NEOs during our 2022 fiscal year.

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards ⁽¹⁾			Estimated Future Payouts Under Equity Incentive Plan Awards ⁽²⁾			All Other Share Awards: Number of Shares of Stock or Units (#) ⁽³⁾	Grant Date Fair Value of Share Awards (\$) ⁽⁴⁾
		Threshold (\$)	Target (\$)	Maximum (\$)	Threshold (#)	Target (#)	Maximum (#)		
Revathi Advaiti	6/09/2021				65,175	130,351	260,702		2,374,995
	6/09/2021				32,587	130,351	260,702		3,359,145

	6/09/2021				6,517	26,070	52,140		671,824
	6/09/2021							52,141	950,009
		239,390	647,000	1,294,000					

(1) These amounts show the range of possible payouts under our cash incentive programs for fiscal year 2022. The amounts correspond to the range of possible payouts under the incentive bonus plan. The maximum payment represents 200% of the target payment. The threshold payment represents 37% of target payout levels. For the annual incentive bonus plan, the amounts actually earned for fiscal year 2022 are reported as Non-Equity Incentive Plan Compensation in the Summary Compensation Table. For additional information, see the section titled "Compensation Discussion and Analysis—Fiscal Year 2022 Executive Compensation—Incentive Bonus Plan" of this proxy statement.

(2) Shows the range of estimated future vesting of the adjusted EPS growth and rTSR PSUs granted in fiscal year 2022 under the Flex Ltd. Amended and Restated 2017 Equity Incentive Plan (the "2017 Plan"). The adjusted EPS growth PSUs cliff vest after three years, with the vesting based upon a yearly EPS measurement period and averaged over the performance period. The maximum payout for each executive officer represents 200% of the target payout levels. The threshold payout for the adjusted EPS growth PSUs for each NEO represents 50% of the target payout. The rTSR PSUs cliff vest after three years, with vesting based on the percentile rank of the Company's TSR relative to the return of the Company's TSR peer group. The maximum payout for each executive officer represents 200% of the target payout. The threshold payout for the rTSR PSUs for each NEO represents 25% of target payout. For additional information, see the section titled "Compensation Discussion and Analysis—Fiscal Year 2021 Executive Compensation—Long-Term Share-Based Incentive Compensation" of this proxy statement.

(3) Shows the number of service-based RSUs granted in fiscal year 2022 under our 2017 Plan. For each NEO, the RSUs vest in three annual installments at a rate of 33% per year, provided that the executive continues to remain employed on the vesting dates. For additional information, see the section titled "Compensation Discussion and Analysis—Long-Term Share-Based Incentive Compensation" of this proxy statement.

(4) This column shows the grant date fair value of service-based RSUs, adjusted EPS growth PSUs and rTSR PSUs, at the target level, under FASB ASC Topic 718 granted to our NEOs in fiscal year 2022. The grant date fair value is the amount that we will expense in our financial statements over the awards' vesting schedule. For service-based RSUs and adjusted EPS growth PSUs, the grant date fair value is the closing price of our Ordinary Shares on the grant date. For rTSR PSUs where vesting is contingent on meeting a market condition, the grant date fair value was calculated using a Monte Carlo simulation. Additional information on the valuation assumptions is included in Note 5 of our audited consolidated financial statements, "Share-Based Compensation," included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022.

Outstanding Equity Awards at 2022 Fiscal Year-End

The following table presents information about outstanding share awards held by our NEOs as of March 31, 2022. The table shows information about: (i) service-based RSUs and (ii) PSUs.

The market value of the share awards is based on the closing price of our Ordinary Shares as of March 31, 2022, which was \$18.55. For PSUs, the number of unearned shares and the market values shown assume all performance criteria are met at either threshold or maximum depending on performance through March 31, 2022. For additional information on our equity incentive programs, see the section titled "Compensation Discussion and Analysis—Long-Term Share-Based Incentive Compensation" of this proxy statement.

Name	Share Awards

	52,046 ⁽⁴⁾	965,445		
17,380 ⁽⁵⁾	322,399			

(1) This column includes rTSR PSUs granted in fiscal years 2020, 2021 and 2022, and EPS PSUs granted in fiscal year 2022 under our 2017 Equity Incentive Plan. Vesting of the rTSR PSUs granted in fiscal years 2020 and 2021 is based on the Company's TSR relative to the return of the S&P 500 Index over the 3-year performance period. Vesting of the rTSR PSUs granted in fiscal year 2022 is based on the Company's TSR relative to the return of the Company's TSR peer group over the 3-year performance period. Vesting of the adjusted EPS growth PSUs granted in fiscal year 2022 is based upon the Company's adjusted EPS growth over the yearly measurement period and averaged over the 3-year performance period.

(2) The projected payouts of the rTSR PSUs for the 2019-2022 and 2020-2023 cycles are shown at maximum. The projected payout of the adjusted EPS growth PSUs for the 2021-2024 cycle is shown at maximum. The projected payout of the rTSR PSUs for the 2021-2024 cycle is shown at threshold.

(3) 195,313 shares vest at a rate of 97,656 shares per year for two years, with the first vesting date on June 11, 2022; 230,203 shares vest at a rate of 115,101 shares per year for two years, with the first vesting date on June 3, 2022; and 260,703 shares vest at a rate of 86,901 per year for three years, with the first vesting date on June 9, 2022.

- (4) Actual payout for Year 1 rTSR PSUs to vest on June 3, 2023.
- (5) Actual payout for Year 1 adjusted EPS growth PSUs to vest on June 9, 2024.
- (6) 210,971 shares vest at a rate of 105,485 shares per year for two years, with the first vesting date on September 15, 2022; and 60,373 shares vest at a rate of 20,124 shares per year for three years, with the first vesting date on June 9, 2022.
- (7) 19,225 shares vest on June 19, 2022; 56,874 shares vest at a rate of 28,437 shares per year for two years, with the first vesting date on June 11, 2022; 67,034 shares vest at a rate of 33,517 shares per year for two years, with the first vesting date on June 3, 2022; and 64,490 shares vest at a rate of 21,496 per year for three years, with the first vesting date on June 9, 2022.
- (8) 3,569 shares vest on June 14, 2022; 14,519 shares vest at a rate of 7,259 shares per year for two years, with the first vesting date of June 14, 2022; 36,833 shares vest at a rate of 18,416 shares per year for two years, with the first vesting date on June 3, 2022; and 48,024 shares vest at a rate of 16,008 per year for three years with the first vesting date on June 9, 2022.
- (9) 13,094 shares vest on June 19, 2022; 45,573 shares vest at a rate of 22,786 per year for two years, with the first vesting date of June 11, 2022; 53,714 shares vest at a rate of 26,857 shares per year for two years, with the first vesting date on June 3, 2022; and 52,141 shares vest at a rate of 17,380 per year for three years with the first vesting date on June 9, 2022.
- (10) rTSR PSUs vest on June 11, 2022 assuming a maximum payout.
- (11) Remaining rTSR PSUs vest on June 3, 2023 assuming a maximum payout.
- (12) Remaining adjusted EPS growth PSUs vest on June 9, 2024 assuming a maximum payout.
- (13) Remaining rTSR PSUs vest on June 9, 2024 assuming a threshold payout.
- (14) rTSR PSUs vest on June 14, 2022 assuming a maximum payout.

Shares Vested in Fiscal Year 2022

The following table presents information for each of our NEOs regarding the number of shares acquired upon the vesting of share awards in the form of RSUs and PSUs during fiscal year 2022 and the value realized, in each case before payment of any applicable withholding tax and broker commissions. There were no option exercises by our NEOs in 2022 and the NEOs do not hold any unexercised options.

Name	Share Awards	
	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$) ⁽¹⁾
Revathi Advaiti	277,861	5,059,014
Paul R. Lundstrom	105,484	2,007,361
Francois P. Barbier	100,624	1,831,597
Michael P. Hartung	32,687	602,833
Scott Offer	76,126	1,388,284

(1) The amounts in this column reflect the aggregate dollar amount realized upon the vesting of RSUs determined by multiplying the number of Ordinary Shares underlying such awards by the market value of the underlying shares on the vesting date.

Pension Benefits in Fiscal Year 2022

Our NEOs do not receive any compensation in the form of pension benefits.

Nonqualified Deferred Compensation in Fiscal Year 2022

Each of our NEOs participates in our 2010 Deferred Compensation Plan, except for Mr. Barbier, who no longer participates in this plan. Our deferred compensation program is intended to promote retention by providing a long-term savings opportunity on a tax-efficient basis. Beginning in fiscal year 2011, we replaced our existing deferred compensation plans with the 2010 Deferred Compensation Plan. Under the 2010 plan, participating officers may defer up to 70% of their base salary and bonus, net of certain statutory and benefit deductions. The Company may make a discretionary matching contribution for these deferrals to reflect limitations on our matching contribution under our 401(k) plan. Under this plan, we may also make annual contributions, in amounts up to 37.5% of each participant's base salary (subject to offsets for non-U.S. executives' pension and other benefits), which will cliff vest after four years. For these annual contributions, 50% of the funding is paid as a percent of base salary and the remaining 50% is performance-based, up to a maximum of 150%. This aligns to the distribution of performance and time-based elements in our long-term compensation programs. Amounts credited to the deferral accounts are deemed to be invested in hypothetical investments selected by a participant or an investment manager on behalf of each participant. Participants in the 2010 Deferred Compensation Plan may receive their vested deferred compensation balances upon termination of employment at such time as is specified in their deferral agreements, which may include a lump sum payment or installment payments made over a period of years. Participants also may elect in-service distributions through a lump sum payment or in installments over a period of up to ten years.

Under each of our deferred compensation plans, we entered into trust agreements providing for the establishment of irrevocable trusts into which we are required to deposit cash or other assets as specified in the applicable deferral agreement, equal to the aggregate amount required to be credited to the participant's deferral account, less any applicable taxes to be withheld. The deferred account balances of the participants in deferred compensation plans are unfunded and unsecured obligations of the Company, receive no preferential standing, and are subject to the same risks as any of our other general obligations.

For a discussion of the contributions granted to each of the NEOs and their vesting terms, including vesting upon the executive's termination or a change of control of the Company, see the sections titled "Compensation Discussion and Analysis—Fiscal Year 2022 Executive Compensation—Deferred Compensation Awards" of this proxy statement and "Executive Compensation—Potential Payments Upon Termination or Change of Control" below.

The following table presents information for fiscal year 2022 about: (i) contributions to the NEOs deferred compensation plan accounts by the executive; (ii) contributions to the NEOs' deferred compensation plan accounts by the Company; (iii) aggregate earnings (or losses) on the deferred compensation plan accounts; (iv) aggregate withdrawals and distributions from the deferred compensation plan accounts; and (v) the deferred compensation plan account balances as of the end of the fiscal year. For fiscal year 2022, Ms. Advaiti and Messrs. Hartung and Offer each received deferred cash awards with a value that averaged about 37.5% of their respective fiscal year 2021 base salaries. Mr. Lundstrom received a deferred cash award with a value of 21.9% of his fiscal year 2021 base salary.

Nonqualified Deferred Compensation Table

Name	Executive Contributions in Last Fiscal Year (\$) ⁽¹⁾	Registrant Contributions in Last Fiscal Year (\$) ⁽²⁾	Aggregate Earnings (Losses) in Last Fiscal Year (\$) ⁽³⁾	Aggregate Withdrawals/ Distributions (\$)	Aggregate Balance at Fiscal Year-End (\$) ⁽⁴⁾
Revathi Advaiti	—	431,250	(48,224)	2,046,409	688,306
Paul R. Lundstrom	—	153,125	13,092	—	539,270
Francois P. Barbier ⁽⁵⁾	—	—	(10,468)	—	1,137,404
Michael P. Hartung	—	262,500	92	59,711	442,212
Scott Offer	75,993	235,950	3,391	192,620	1,045,952

- (1) Reflects the salary payments deferred by our NEOs during the fiscal year. These amounts are included in the Summary Compensation Table under the "Salary" and "Bonus" columns, as applicable.
- (2) These amounts represent contributions under the 2010 Deferred Compensation Plan. These awards cliff vest after four years. None of these awards have vested under this plan as of March 31, 2022. These amounts, including any earnings or losses thereon, will be reported under the "Bonus" column of the Summary Compensation Table upon vesting in future years if the executive continues to be a NEO. For additional information on these contributions and their vesting terms, including vesting upon the executive's termination or change of control of the Company, see the sections titled "Compensation Discussion and Analysis—Fiscal Year 2022 Executive Compensation—Deferred Compensation Awards" and "Executive Compensation—Potential Payments Upon Termination or Change of Control" of this proxy statement.
- (3) Reflects earnings (or losses) for each NEO on both the vested and unvested portions of the executive's deferred compensation account(s). The above-market portion of the earnings on the vested portion of the executive's deferred compensation account(s) is included under the "Change in Pension Value and Nonqualified Deferred Compensation Earnings" column in the Summary Compensation Table. Any earnings that vest in a given year are reported in the "Bonus" column in the Summary Compensation Table.
- (4) The amounts in this column have previously been reported in the Summary Compensation Table for this and prior fiscal years as follows: Revathi Advaiti — \$2,034,667; Francois P. Barbier — \$1,241,756; Michael P. Hartung — \$64,310; and Scott Offer— \$195,560. The amounts in this column include the following unvested balances related to the respective 2010 Deferred Compensation Plan account of the NEOs: Revathi Advaiti—\$688,306; Paul R. Lundstrom—\$539,270; Michael P. Hartung—\$391,382 and Scott Offer—\$603,106.
- (5) Mr. Barbier does not participate in the 2010 Deferred Compensation Plan. The information in the table reflects earnings on the account balance of his senior management plan account.

Potential Payments Upon Termination or Change of Control

As described in the section titled "Compensation Discussion and Analysis" of this proxy statement, our NEOs do not have employment agreements with us. Our NEOs are eligible for certain termination and change of control benefits under our Executive Severance Plan, the 2010 Deferred Compensation Plan and under our equity incentive plans. Additionally, severance benefits for Ms. Advaiti were included in her employment offer letter.

Acceleration of Vesting of Deferred Compensation

If the employment of any participant in the 2010 Deferred Compensation Plan is involuntarily terminated by the Company without cause or is terminated by the executive with good reason within two years following a change of control (as defined in the 2010 Deferred Compensation Plan), the entire unvested portion of the deferred compensation account of the NEO will vest.

Acceleration of Vesting of Equity Awards

The number of unvested equity awards held by each NEO as of March 31, 2022 is listed above in the Outstanding Equity Awards at 2022 Fiscal Year-End table. All unvested outstanding equity awards held by our NEOs at the end of fiscal year 2022 were granted under the 2017 Plan, which provides certain benefits to plan participants in the event of the termination of such participant's employment or a change of control of the Company. The terms of these benefits are described below.

Treatment of Certain Awards Upon Retirement

Subject to any waiver by the Compensation and People Committee, all unvested RSU awards and unvested stock options held by a plan participant will be forfeited if the participant ceases to provide services to the Company for any reason. However, certain award agreements for rTSR PSUs granted under our 2017 Plan prior to June 2020 provide that if a plan participant ceases to provide services to the Company due to a qualifying retirement (meaning a voluntary termination of service after the participant has attained the age of sixty (60) years and completed at least ten (10) years of service as an employee of the Company), then the award will not terminate and a pro-rata number of shares subject to the award shall be issued to the participant upon the vesting of the award agreement pursuant to the original performance criteria. Also, certain award agreements for RSUs, rTSR PSUs, and adjusted EPS growth PSUs granted under our 2017 Plan starting in June 2020 provide that if a plan participant ceases to provide services to the Company due to a qualifying retirement (meaning a voluntary termination of service after the participant has attained the age of fifty-five (55) years; completed at least five (5) years of service as an employee of the Company; and the sum of age and service is equal to at least 65), then the award will not terminate. RSUs would continue to vest, and a pro-rata number for the length of time employed during the performance period shall be issued to the participant at the end of the performance cycle for rTSR PSUs and adjusted EPS growth PSUs. At the current time, Mr. Barbier is the only NEO that satisfies the retirement criteria.

Treatment of Certain Awards Upon Death or Disability

Certain award agreements for RSUs, rTSR PSUs, and adjusted EPS growth PSUs granted under our 2017 Plan starting in June 2020 provide that if a plan participant ceases to provide services to the Company due to death or disability, then the awards will accelerate after the qualifying termination. RSUs will immediately vest. rTSR PSUs and adjusted EPS growth PSUs will be pro-rated and immediately vest as follows: completed cycles will vest based on actual performance and unfinished cycles will vest at target.

Double-Trigger Vesting Upon a Change of Control

Our equity incentive plans are "double trigger" plans, meaning that unvested RSU awards vest immediately only if (i) there is a change of control of the Company and (ii)(x) such awards are not converted, assumed or replaced by the successor or survivor corporation or (y) if provided by the Compensation and People Committee as described below, the service of the award recipient is involuntarily terminated within a designated period following the effective date of such change of control.

Under the terms of the 2017 Plan, unless otherwise provided in the applicable award agreement or other agreement between the Company and the participant, in the event of a change of control of the Company (as defined in the Plan) in which the participant's awards are not converted, assumed, or replaced by a successor or survivor corporation, or a parent or subsidiary thereof, then all forfeiture restrictions on such awards will lapse immediately prior to the change of control and, following the consummation of such a change of control, all such awards will terminate and cease to be outstanding.

Where awards under the Plan are assumed or continued after a change of control, the Compensation and People Committee may provide that one or more awards will automatically accelerate upon an involuntary termination of service within a designated period (not to exceed eighteen (18) months) following the effective date of such change of control. If the Compensation and People Committee so determines, immediately upon an involuntary termination of service following a change of control all forfeiture restrictions on such award will lapse.

2019 Executive Severance Plan

On January 17, 2019, the Compensation and People Committee adopted the Flex Ltd. Executive Severance Plan (the "Severance Plan"). The Severance Plan covers senior level employees of the Company, including the Company's Chief Financial Officer and other NEOs, but not including the Company's Chief Executive Officer. Under the Plan, in the event of a termination of employment by the Company without "cause" or by a participant for "good reason" (each such term as defined in the Plan), the participant will receive the following benefits, subject to the participant entering into and complying with a transition and release agreement in a form provided by the Company ("Transition Agreement"):

- continuation of base salary and benefits coverage during the transition period provided in the Transition Agreement and pro rata payment of annual bonus; and
- continued vesting of RSUs, PSUs and deferred compensation awards during the transition period.

During the transition period, the participant will be required to discharge his or her transition duties and comply with other terms and conditions to be set forth in the Transition Agreement, including customary non-competition, non-solicitation, non-disclosure, non-disparagement and cooperation provisions. Any violation of such obligations may result in cessation of benefits and clawback rights of the Company.

There are no tax gross-ups in the severance plan.

CEO Severance Benefits

Pursuant to the terms of the CEO offer letter, dated February 11, 2019, in the event of a termination of employment by the Company without "cause" or by the CEO for "good reason" (each such term as defined in the Severance Plan), the CEO will receive the following benefits:

- continuation of base salary, target bonus and benefits coverage for 24 months; and
- 2 years continued vesting on outstanding RSUs, PSUs, and deferred compensation awards.

Potential Payments Upon Termination or Change of Control as of March 31, 2022

The following table and accompanying notes show the estimated payments and benefits that would have been provided to each NEO as a result of (i) the accelerated vesting of deferred compensation in the case of a change of control with a termination of employment and (ii) the accelerated vesting of restricted and performance share unit awards in the event of a change of control if such awards are not assumed by the successor company in connection with the change of control, (iii) involuntary termination without cause or voluntary termination for good reason under the Company's Severance Plan, (iv) retirement, or (v) death or disability. Mr. Barbier retired from his position as President, Global Operations and Components effective close of business on March 31, 2022, and will remain with the Company as an advisor through September 30, 2022. Under the terms of the applicable plans, he is therefore not eligible for termination benefits for any other scenario outside of retirement.

Calculations for this table assume that the triggering event took place on March 31, 2022, the last business day of fiscal year 2022, and are based on the price per share of our Ordinary Shares on such date, which was \$18.55. The following table does not include potential payouts under our NEOs' nonqualified deferred compensation plans relating to vested benefits.

- (1) The amounts shown represent the estimated value of the accelerated vesting of RSUs and PSUs (at target) following a change of control under the terms of our equity incentive plans, which assumes that such RSUs are not assumed or replaced by the successor corporation or its parent. If such awards are assumed or replaced in a change of control transaction, the vesting of such awards will not accelerate; provided, that the Compensation and People Committee may determine that awards under the Plans may be accelerated if the executive is involuntarily terminated within a certain period (not to exceed 18 months) following a change of control. PSUs may be accelerated on a pro-rata basis following a change of control. All amounts shown in this column represent the intrinsic value of the awards based on the closing price of our Ordinary Shares on March 31, 2022, the assumed date of the triggering event.
- (2) The amounts shown represent, except for Ms. Advaiti, the estimated value of amounts payable under the Severance Plan subject to the participant entering into and complying with a Transition Agreement.
- (3) For termination of service due to retirement, (i) RSUs granted starting in June 2020 will continue to vest; (ii) the PSUs will not terminate; and (iii) a pro-rata number of vested shares shall be issued to the executive upon the vesting of the award pursuant to achieving the performance criteria at the end of the original performance period. The amounts reported assume vesting at 100% of target shares.
- (4) For termination of service due to death or disability, (i) RSUs granted starting in June 2020 will immediately vest in full, and (ii) PSUs granted starting in June 2020 will be pro-rated and immediately vest as follows: completed cycles will vest based on actual performance and unfinished cycles will vest at target.
- (5) Represents two years' continued payment of base salary and two years of target annual bonus amount, two years' continued vesting of outstanding equity awards and deferred compensation, two years' continued benefits coverage, and deferred compensation awards.
- (6) The amount shown represents the portion of the unvested balance of the executive's deferred compensation account that would vest in the event the executive is terminated by the Company without cause or resigns with good reason following a change of control of the Company (as defined in the 2010 Deferred Compensation Plan) or the amount that would continue vesting upon an executive's retirement. No executive's deferred compensation account will vest upon a change of control (without any termination following such change of control).
- (7) Assumes a 12-month transition period for illustrative purposes (actual transition period length may differ), during which the Company would continue base salary payments and maintain benefits.
- (8) Represents payment of a pro-rated portion of the participant's annual bonus.
- (9) Includes RSUs and PSUs that vest between April 1, 2022 to March 31, 2023. For death and disability, PSUs granted starting in June 2020 will be pro-rated and immediately vest as follows: completed cycles will vest based on actual performance and unfinished cycles will vest at target.
- (10) The amounts shown are prorated for retirement and represent TSR-based and adjusted EPS growth-based performance shares at target through March 31, 2022.

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, we are providing the following disclosure about the median annual total compensation of our employees in relation to the annual total compensation of our Chief Executive Officer.

For the fiscal year ended March 31, 2022, we had revenues of \$26.0 billion. Flex's physical infrastructure includes over 100 facilities in approximately 30 countries, staffed by approximately 170,000 employees, providing customers with truly global scale and strategic geographic distribution capabilities. As of March 31, 2022, a significant portion of the Company's manufacturing capacity was located in emerging markets, including Brazil, China, Hungary, India, Indonesia, Malaysia, Mexico, Poland, Romania, and Ukraine. To better understand the following pay ratio disclosure, it is important to recognize that our compensation programs are designed to reflect local market practices across our global operations. We offer market-based competitive wages and benefits in all geographies in which we operate. Our CEO's compensation is structured to align pay with performance, with pay levels set in line with our peers that are companies of similar size and scale complexity.

Fiscal Year 2022 Pay Ratio

- The annual total compensation of our median employee among all non-contractor employees (excluding the CEO) was \$9,798.
- Our CEO's annual total compensation, as reported in the Summary Compensation Table, was \$15,979,041.

Based on this information, the ratio of the annual total compensation of our CEO relative to the annual total compensation of our median employee was 1631 to 1.

The pay ratio disclosed above is a reasonable estimate, calculated in a manner consistent with the SEC rules based on our payroll and employment records and the methodologies described below. The SEC rules for identifying the median compensated employee and calculating the pay ratio allow companies to use different methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their compensation practices. As such, the pay ratio disclosed by other companies may not be comparable to the pay ratio disclosed above, as other companies may have different employment and compensation practices and may utilize different methodologies, exclusions, estimates, and assumptions in calculating their own pay ratios. Moreover, there are a number of factors that make a meaningful comparison of pay ratios difficult, such as industry-specific pay differentials, the geographic location of employee populations, and the size and nature of a company's manufacturing operations.

Identification of the Median Employee

As permitted under SEC rules, we are allowed to use the same median employee for up to three years. We have used the same median employee from 2021 in the 2022 pay ratio, as we believe there have been no changes in our employee population or compensation arrangements (including those of the median employee) that would result in a significant change to our pay ratio disclosure. We measured actual compensation for the median employee using the 12-month period ending March 31, 2022. No cost-of-living adjustments were made.

Consistent with 2021, our median employee is a full-time, salaried employee working in Mexico. The employee's annual total compensation in 2022 was \$9,798. For purposes of this disclosure, we converted the employee's total compensation from Mexican Pesos to U.S. dollars using the exchange rate (19.993 MXN to 1 USD) as of March 31, 2022, a slight decrease from 20.73 in 2021.

Calculation of Median Employee's Compensation and CEO's Annualized Compensation

In determining the annual total compensation in 2022 of approximately \$9,798 for our median employee, as required by SEC rules, we calculated the employee's compensation in accordance with Item 402(c)(2)(x) of Regulation S-K, consistent with how we determine our CEO's total compensation for fiscal year 2022 in the Summary Compensation Table.

Proposal No. 4: Ordinary Resolution to Authorize Ordinary Share Issuances

We are incorporated in the Republic of Singapore. Under Singapore law, our directors may only issue Ordinary Shares and make or grant offers, agreements, options, performance shares, performance units, restricted share units, or other compensatory equity awards that might or would require the issuance of Ordinary Shares, with the prior approval of our shareholders. We are submitting this proposal because we are required to do so under the laws of Singapore before we can issue any Ordinary Shares in connection with our equity compensation plans, possible future strategic transactions, or public and private offerings.

If this proposal is approved, and unless revoked or varied by the Company in a general meeting, the authorization would be effective from the date of the 2022 annual general meeting until the earlier of (i) the conclusion of the 2023 annual general meeting or (ii) the expiration of the period within which the 2023 annual general meeting is required by law to be held. Under the Singapore Companies Act, the 2023 annual general meeting is required to be held within six months after the date of our 2023 fiscal year end (except that Singapore law allows for a one-time application for an extension of up to a maximum of two months to be made with the Singapore Accounting and Corporate Regulatory Authority).

Our Board believes it is advisable and in the best interests of the Company for our shareholders to authorize our directors to issue Ordinary Shares and to make or grant offers, agreements, options, performance shares, performance units, restricted share units, or other compensatory equity awards that might or would require the issuance of Ordinary Shares. In the past, the Board has issued shares or made agreements that would require the issuance of new Ordinary Shares in the following situations:

- in connection with strategic transactions and acquisitions;
- pursuant to public and private offerings of our Ordinary Shares or instruments convertible into our Ordinary Shares; and
- in connection with our equity compensation plans and arrangements.

If this proposal is not approved, we would not be permitted to issue any new Ordinary Shares, including shares issuable pursuant to compensatory equity awards (other than shares issuable on exercise or settlement of outstanding options, performance shares, performance units, restricted share units and other instruments convertible into or exercisable for Ordinary Shares, which were previously granted when the previous shareholder approved share issue mandates were in force). If we are unable to rely upon equity as a component of compensation, we would have to review our compensation practices, and would likely have to substantially increase cash compensation to retain key personnel.

Notwithstanding this general authorization to issue our Ordinary Shares, we will be required to seek shareholder approval with respect to future issuances of Ordinary Shares where required under the rules of Nasdaq, such as where the Company proposes to issue Ordinary Shares that will result in a change in control of the Company or in connection with a private offering involving the issuance of Ordinary Shares representing 20% or more of our outstanding Ordinary Shares at a price less than the lower of the closing price or the five-day average closing price of our Ordinary Shares.

Our Board expects that we will continue to issue Ordinary Shares and grant options, performance shares, performance unit awards, and restricted share unit awards in the future under circumstances similar to those in the past. As of the date of this proxy statement, other than issuances of Ordinary Shares or agreements that would require the issuance of new Ordinary Shares in connection with our equity compensation plans and arrangements, we have no specific plans, agreements or commitments to issue any Ordinary Shares for which approval of this proposal is required. Nevertheless, our Board believes it is advisable and in the best interests of the Company for our shareholders to provide this general authorization because then we can avoid the delay and expense of obtaining shareholder approval at a later date and will have greater flexibility to pursue strategic transactions and acquisitions and to raise additional capital through public and private offerings of our Ordinary Shares and instruments convertible into our Ordinary Shares.

If this proposal is approved, our directors would be authorized to issue, during the period described above, Ordinary Shares subject only to applicable Singapore laws and the rules of Nasdaq. The issuance of a large number of Ordinary Shares could be dilutive to existing shareholders or reduce the trading price of our Ordinary Shares on Nasdaq.

We are not submitting this proposal in response to a threatened takeover. However, in the event of a hostile attempt to acquire control of the Company, we could seek to impede the attempt by issuing Ordinary Shares, which may dilute the voting power of our existing shareholders. This could also have the effect of impeding the efforts of our shareholders to replace an incumbent director with a new director of their choice. These potential effects could limit the opportunity for our shareholders to dispose of their Ordinary Shares at the premium that may be available in takeover attempts.

The Board recommends a vote **"FOR"** the resolution to authorize Ordinary Share issuances.

Proposal No. 5: Ordinary Resolution to Renew the Share Purchase Mandate

Our purchases or acquisitions of our Ordinary Shares must be made in accordance with, and in the manner prescribed by, the Singapore Companies Act, the applicable listing rules of Nasdaq and such other laws and regulations as may apply from time to time.

Singapore law requires that we obtain shareholder approval of a “general and unconditional share purchase mandate” given to our directors if we wish to purchase or otherwise acquire our Ordinary Shares. This general and unconditional mandate is referred to in this proxy statement as the Share Purchase Mandate, and it allows our directors to exercise all of the Company’s powers to purchase or otherwise acquire our issued Ordinary Shares on prescribed terms of the Share Purchase Mandate.

Our shareholders approved a renewal of the Share Purchase Mandate at the annual general meeting of shareholders held in 2021, which will expire on the date of the 2022 annual general meeting. Accordingly, we are seeking approval from our shareholders at the 2022 annual general meeting for another renewal of the Share Purchase Mandate. Pursuant to the Singapore Companies Act, share repurchases under our share repurchase plans were subject to an aggregate limit of 20% of our issued Ordinary Shares outstanding as of the date of the annual general meeting held on August 4, 2021. On August 4, 2021, the Board authorized the repurchase of up to an aggregate of \$1 billion of Ordinary Shares of the Company to be conducted in tranches. Until the 2022 annual general meeting, any repurchases would be made under the Share Purchase Mandate renewed at the 2021 annual general meeting. As of the date of the 2022 annual general meeting, any repurchases may only be made if the shareholders approve the proposed renewal of the Share Purchase Mandate. The share purchase program does not obligate the Company to repurchase any specific number of shares and may be suspended or terminated at any time without prior notice.

If renewed by shareholders at the 2022 annual general meeting, the authority conferred by the Share Purchase Mandate will, unless varied or revoked by our shareholders at a general meeting, continue in force until the earlier of the date of the 2023 annual general meeting or the date by which the 2023 annual general meeting is required by law to be held. Under the Singapore Companies Act, the 2023 annual general meeting is required to be held within six months after the date of our 2023 fiscal year-end (except that Singapore law allows for a one-time application for an extension of up to a maximum of two months to be made with the Singapore Accounting and Corporate Regulatory Authority).

The authority and limitations placed on our share purchases or acquisitions under the proposed Share Purchase Mandate, if renewed at the annual general meeting, are summarized below.

Limit on Allowed Purchases

We may only purchase or acquire Ordinary Shares that are issued and fully paid up. The prevailing limitation under the Singapore Companies Act that is currently in force does not permit us to purchase or acquire more than 20% of the total number of our issued Ordinary Shares outstanding at the date of the annual general meeting. Any of our Ordinary Shares that are held as treasury shares will be disregarded for purposes of computing this 20% limitation. For this purpose, a reference herein to treasury shares in computing the 20% limitation includes a reference to any Ordinary Shares held by our subsidiaries under the limited exceptions in Sections 21(4B) and 21(6C) of the Singapore Companies Act, if applicable.

We are seeking approval for our Board of Directors to authorize the purchase or acquisition of our issued Ordinary Shares not exceeding 20% of our total number of issued Ordinary Shares outstanding as of the date this proposal is approved (excluding any Ordinary Shares that are held as treasury shares as at that date).

Purely for illustrative purposes, on the basis of 456,295,726 Ordinary Shares outstanding as of June 1, 2022, and assuming no additional Ordinary Shares are issued or repurchased on or prior to the date of the 2022 annual general meeting, based on the prevailing 20% limit, we would be able to purchase not more than 91,259,145 issued Ordinary Shares pursuant to the proposed renewal of the Share Purchase Mandate.

During fiscal year 2022, we repurchased approximately 38.2 million shares for an approximate aggregate purchase price of \$685.6 million under the Share Purchase Mandate and cancelled all of these shares.

Duration of Share Purchase Mandate

Purchases or acquisitions of Ordinary Shares may be made, at any time and from time to time, on and from the date the Share Purchase Mandate is approved until the earlier of:

- the date on which our next annual general meeting is held or required by law to be held; or
- the date on which the authority conferred by the Share Purchase Mandate is revoked or varied by our shareholders at a general meeting.

Manner of Purchases or Acquisitions of Ordinary Shares

Purchases or acquisitions of Ordinary Shares may be made by way of:

- market purchases on Nasdaq or any other stock exchange on which our Ordinary Shares may at the time be listed and quoted, through one or more duly licensed dealers appointed by us for that purpose; and/or
- off-market purchases (if effected other than on Nasdaq or, as the case may be, any other stock exchange on which our Ordinary Shares are then listed and quoted), in accordance with an equal access scheme as prescribed by the Singapore Companies Act.

If we decide to purchase or acquire our Ordinary Shares in accordance with an equal access scheme, our directors may impose any terms and conditions as they see fit and as are in our interests, so long as the terms are consistent with the Share Purchase Mandate, the applicable rules of Nasdaq, the provisions of the Singapore Companies Act and other applicable laws. In addition, an equal access scheme must satisfy all of the following conditions:

- offers for the purchase or acquisition of Ordinary Shares must be made to every person who holds Ordinary Shares to purchase or acquire the same percentage of their Ordinary Shares;
- all holders of our Ordinary Shares must be given a reasonable opportunity to accept the offers made; and
- the terms of all of the offers must be the same (except differences in consideration that result from offers relating to Ordinary Shares with different accrued dividend entitlements and differences in the offers solely to ensure that each person is left with a whole number of Ordinary Shares).

Purchase Price

The maximum purchase price (excluding brokerage commission, applicable goods and services tax and other related expenses of the purchase or acquisition) to be paid for each Ordinary Share will be determined by our directors. That price must not exceed:

- in the case of a market purchase, the highest independent bid or the last independent transaction price, whichever is higher, of our Ordinary Shares quoted or reported on Nasdaq or, as the case may be, any other stock exchange on which our Ordinary Shares may at that time be listed and quoted, or shall not exceed any volume weighted average price, or other price determined under any pricing mechanism, permitted under SEC Rule 10b-18, at the time the purchase is effected; and
- in the case of an off-market purchase pursuant to an equal access scheme, 105% of the average of the closing price per Ordinary Share over the five consecutive trading days on which our Ordinary Shares are traded on the Nasdaq Global Select Market, or, as the case may be, any other stock exchange on which our Ordinary Shares are at the time listed and quoted, immediately preceding the date on which we effect the off-market purchase.

Treasury Shares

Under the Singapore Companies Act, Ordinary Shares purchased or acquired by us may be held as treasury shares. Some of the provisions on treasury shares under the Singapore Companies Act are summarized below.

Maximum Holdings

The number of Ordinary Shares held as treasury shares may not at any time exceed 10% of the total number of issued Ordinary Shares. For this purpose, the reference to treasury shares includes a reference to any Ordinary Shares held by our subsidiaries under the limited exceptions in Sections 21(4B) and 21(6C) of the Singapore Companies Act, if applicable.

Voting and Other Rights

We may not exercise any right in respect of treasury shares, including any right to attend or vote at meetings. For the purposes of the Singapore Companies Act, we shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights. In addition, no dividend may be paid, and no other distribution of our assets may be made, to the Company in respect of treasury shares, other than the allotment of Ordinary Shares as fully paid bonus shares. A subdivision or consolidation of any treasury share into treasury shares of a greater or smaller amount is also allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before the respective subdivision or consolidation.

Disposal and Cancellation

Where Ordinary Shares are held as treasury shares, we may at any time:

- sell the treasury shares for cash;
- transfer the treasury shares for the purposes of or pursuant to any share scheme, whether for employees, directors or other persons;
- transfer the treasury shares as consideration for the acquisition of shares in or assets of another company or assets of a person;
- cancel the treasury shares; or
- sell, transfer or otherwise use the treasury shares for such other purposes as may be prescribed by the Minister for Finance of Singapore.

Sources of Funds

Only funds legally available for purchasing or acquiring Ordinary Shares in accordance with our Constitution and the applicable laws of Singapore shall be used. We intend to use our internal sources of funds and/or borrowed funds to finance any purchase or acquisition of our Ordinary Shares. Our directors do not propose to exercise the Share Purchase Mandate in a manner and to an extent that would materially affect our working capital requirements.

The Singapore Companies Act permits us to purchase or acquire our Ordinary Shares out of our capital and/or profits. Acquisitions or purchases made out of capital are permissible only so long as we are solvent for the purposes of Section 76F(4) of the Singapore Companies Act. A company is solvent if, at the date of the payment made in consideration of the purchase or acquisition (including any expenses, such as brokerage or commission) the following conditions are satisfied: (a) there is no ground on which the company could be found unable to pay its debts; (b) if it is not intended to commence winding up of the company, the company will be able to pay its debts as they fall due during the period of 12 months immediately after the date of the payment; and (c) the value of the company's assets is not less than the value of its liabilities (including contingent liabilities) and will not, after the proposed purchase or acquisition, become less than the value of its liabilities (including contingent liabilities).

Status of Purchased or Acquired Ordinary Shares

Any Ordinary Share that we purchase or acquire will be deemed cancelled immediately on purchase or acquisition, and all rights and privileges attached to such Ordinary Share will expire on cancellation (unless such Ordinary Share is held by us as a treasury share). The total number of issued shares will be diminished by the number of Ordinary Shares purchased or acquired by us and which are not held by us as treasury shares.

We will cancel and destroy certificates in respect of purchased or acquired Ordinary Shares as soon as reasonably practicable following settlement of any such purchase or acquisition. Where Ordinary Shares are purchased or acquired and held by us as treasury shares, we will cancel and issue new certificates in respect thereof.

Financial Effects

Our net tangible assets and the consolidated net tangible assets of our subsidiaries will be reduced by the purchase price (including any expenses) of any Ordinary Shares purchased or acquired and cancelled or held as treasury shares. We do not anticipate that the purchase or acquisition of our Ordinary Shares in accordance with the Share Purchase Mandate would have a material impact on our consolidated financial condition and cash flows.

The financial effects on us and our group (including our subsidiaries) arising from purchases or acquisitions of Ordinary Shares that may be made pursuant to the Share Purchase Mandate will depend on, among other things, whether the Ordinary Shares are purchased or acquired out of our profits and/or capital, the number of Ordinary Shares purchased or acquired, the price paid for the Ordinary Shares, and whether the Ordinary Shares purchased or acquired are held in treasury or cancelled.

Under the Singapore Companies Act, we may purchase or acquire Ordinary Shares using profits and/or our capital so long as the Company is solvent.

Where the consideration (including any expenses) paid by us to purchase or acquire Ordinary Shares comes out of our profits, such consideration (including any expenses such as brokerage or commission) will correspondingly reduce the amount available for the distribution of cash dividends by us. Where the consideration we pay to purchase or acquire Ordinary Shares comes out of our capital, the amount available for the distribution of cash dividends by us will not be reduced. To date, we have not declared any cash dividends on our Ordinary Shares.

Rationale for the Share Purchase Mandate

We believe a renewal of the Share Purchase Mandate at the annual general meeting will benefit our shareholders by providing our directors with appropriate flexibility to repurchase Ordinary Shares if the directors believe such repurchases would be in the best interests of our shareholders. Our decision to repurchase our Ordinary Shares from time to time will depend on our continuing assessment of then-current market conditions, our need to use available cash to finance acquisitions and other strategic transactions, the level of our debt and the terms and availability of financing.

As noted above, the approval of the Share Purchase Mandate does not obligate the Company to repurchase any specific number of shares and may be suspended or terminated at any time without prior notice.

Take-Over Implications

If, as a result of our purchase or acquisition of our issued Ordinary Shares, a shareholder's proportionate interest in the Company's voting capital increases, such increase will be treated as an acquisition for the purposes of The Singapore Code on Take-overs and Mergers. If such increase results in a change of effective control, or, as a result of such increase, a shareholder or a group of shareholders acting in concert obtains or consolidates effective control of the Company, such shareholder or group of shareholders acting in concert with a director could become obliged to make a take-over offer for the Company under Rule 14 of The Singapore Code on Take-overs and Mergers.

The circumstances under which shareholders (including directors and persons acting in concert with them) will incur an obligation to make a take-over offer are set forth in Rule 14 of The Singapore Code on Take-overs and Mergers, Appendix 2. The effect of Appendix 2 is that, unless exempted, shareholders will incur an obligation to make a take-over offer if, as a result of the Company purchasing or acquiring our issued Ordinary Shares, the voting rights of such shareholders would increase to 30% or more, or, if such shareholders hold between 30% and 50% of our voting rights, the voting rights of such shareholders would increase by more than 1% in any period of six months. Shareholders that are in doubt as to their obligations, if any, to make a mandatory take-over offer under The Singapore Code on Take-overs and Mergers as a result of any share purchase by us should consult the Securities Industry Council of Singapore and/or their professional advisers at the earliest opportunity.

The Board recommends a vote **"FOR"** the resolution to approve the proposed renewal of the Share Purchase Mandate.

Information about our Executive Officers

The names, ages and positions of our executive officers as of June 27, 2022 are as follows⁽¹⁾:

Name	Age	Position
Revathi Advaiti	54	Chief Executive Officer
Paul R. Lundstrom	47	Chief Financial Officer
Michael P. Hartung	54	President, Agility Solutions
Scott Offer	57	Executive Vice President and General Counsel
Rebecca S. Sidelinger	57	President, Reliability Solutions
Hooi Tan	45	President, Global Operations and Components
Daniel J. Wendler	55	Chief Accounting Officer

(1) As discussed above, Francois P. Barbier retired from his position as President, Global Operations and Components effective close of business on March 31, 2022, a role in which he served since February 2012. Mr. Barbier will remain with the Company as an advisor through September 30, 2022.

Revathi Advaiti

Ms. Advaiti has served as our Chief Executive Officer since February 11, 2019. Prior to joining the Company, Ms. Advaiti was President and Chief Operating Officer, Electrical Sector, of Eaton Corporation plc, a power management company, a position she had held since September 1, 2015. Prior to that, she served as President of Electrical Sector, Americas of Eaton from April 1, 2012 through August 31, 2015. She joined Eaton in 1995 and led the Electrical Sector in the Americas and Asia-Pacific, with a three-year assignment in Shanghai. Between 2002 and 2008, Ms. Advaiti worked at Honeywell, where she held several senior roles within the sourcing and supply chain functions of the aerospace sector before being named Vice President and General Manager of Honeywell's Field Solutions business in 2006. Ms. Advaiti returned to Eaton in 2008 as Vice President and General Manager of the Electrical Components Division. She has a bachelor's degree in mechanical engineering from the Birla Institute of Technology and Science in Pilani, India, and an MBA in international business from Thunderbird-Garvin School of International Business in Glendale, Arizona. Ms. Advaiti serves on the Board of Uber Technologies, Inc.

Paul R. Lundstrom

Mr. Lundstrom has served as Chief Financial Officer since August 2020. Prior to that, Mr. Lundstrom was Vice President and Chief Financial Officer of Aerojet Rocketdyne Holdings, Inc., a rocket, missile and energetics propulsion manufacturer, a position he had held since November 2016. Between 1997 and 2016, Mr. Lundstrom worked at United Technologies Corporation (now Raytheon Technologies Corporation), where he held several senior roles including Vice President of Investor Relations; Vice President and Chief Financial Officer, Building & Industrial Systems – North Asia; Vice President and Chief Financial Officer, Climate, Control & Security – Asia; and Vice President and Chief Financial Officer, Carrier Building Systems and Services. He holds a Bachelor of Science in Finance from Truman State University and an MBA from Columbia University. He is a registered Certified Public Accountant in the State of Illinois.

Michael P. Hartung

Mr. Hartung has served as our President, Agility Solutions since April 2020. Prior to holding this position, Mr. Hartung served as our Senior Vice President of Lifestyle since July 2013 and Vice President of our Capital Equipment market segment from October 2007 to July 2013. Prior to joining us in 2007, Mr. Hartung held positions of increasing responsibility at Solectron Corporation, culminating his career there as Vice President of the Computing & Storage business unit where he was directly responsible for sales, marketing, and account management functions. He holds a bachelor's degree in economics from the University of California, Los Angeles and has attended a variety of executive education programs, most notably at Stanford University.

Scott Offer

Mr. Offer has served as our Executive Vice President and General Counsel since September 2016. Previously, he served as Senior Vice President and General Counsel at Lenovo from January 2016 until August 2016 and had served as Chief Counsel for the Lenovo Mobile Business Group since October 2014. Prior to that, he served as Senior Vice President and General Counsel, Motorola Mobility, a Google company, from August 2010 and Senior Vice President and General Counsel, Motorola Mobility, Inc. from July 2010. Prior to that, he held several senior positions at Motorola. Prior to joining Motorola, he worked for the law firm of Boodle Hatfield. He received his law degree from the London School of Economics and Political Science and is qualified as a lawyer in the United Kingdom and United States.

Rebecca S. Sidelinger

Ms. Sidelinger has served as our President, Reliability Solutions since February 2022. Previously, Ms. Sidelinger was with Honeywell Aerospace, a division of Honeywell International Inc. from 2011 until joining the Company in 2022, where she was most recently President, Mechanical Systems & Components Strategic Business Unit, a position she held from October 2019 until 2022. Prior to that, she served as Vice President/General Manager, Safety Systems from 2017 to 2019 and previously held several senior roles within Honeywell Aerospace. Prior to Honeywell, Ms. Sidelinger spent 25 years in leadership positions with GE Transportation Systems and GE Motors. During her time with GE Motors, she ran locomotive modernization, passenger locomotive, marine propulsion and drill motor businesses. Ms. Sidelinger holds a bachelor's degree in electrical engineering from Gannon University and a master of business administration from Penn State University.

Hooi Tan

Mr. Tan has served as our President, Global Operations and Components since April 2022. Mr. Tan has been with the Company for more than twenty years, most recently serving as Senior Vice President, Global Operations, managing more than 130 facilities across 30 countries. He previously led operations for the Company's Asia region, where he oversaw productivity and efficiency programs and P&L improvements in the region. Prior to Flex, Mr. Tan worked at Solectron where he held a variety of leadership roles in operations, program management, business development and government affairs. Mr. Tan holds a bachelor's degree in electrical engineering from Purdue University.

Daniel J. Wendler

Mr. Wendler has served as our Chief Accounting Officer since February 28, 2022. Previously, Mr. Wendler served as Chief Accounting Officer of Keter Group SA ("Keter"), a global manufacturer and distributor of consumer goods, since November 2021. Prior to Keter, Mr. Wendler worked at Carrier Global Corporation where he held various roles of increasing responsibility from February 2000 to March 2021. Most recently, Mr. Wendler served as the Vice President and Assistant Controller of Carrier from 2020 until 2021 and, prior to that, was the Vice President and Controller of Carrier from 2015 until 2020, while it was a segment of United Technologies Corporation. Previously, Mr. Wendler was an Audit Manager at Price Waterhouse LLP. Mr. Wendler is a certified public accountant in the State of New York and holds a bachelor's degree in accounting from the State University of New York, College of Oswego and a master of business administration from the University of Rochester – Simon School.

Equity Compensation Plan Information

As of March 31, 2022, we maintained our 2017 Plan (as amended and restated in 2020), which replaced our 2010 Equity Incentive Plan with respect to further grants of equity awards. In addition, we maintained the NEXTracker, Inc. 2014 Equity Incentive Plan, which we assumed as part of an acquisition during fiscal year 2016. The following table provides information about equity awards outstanding under these plans as of March 31, 2022. The below does not reflect the effect of our fiscal year 2023 grants under the 2017 Plan or the vesting of awards in fiscal year 2023.

Plan Category	Number of Ordinary Shares to be Issued Upon Exercise of Outstanding Options and Vesting of Restricted Share Unit Awards (a)	Weighted-Average Exercise Price of Outstanding Options ⁽¹⁾ (b)	Number of Ordinary Shares Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Ordinary Shares Reflected in Column (a)) (c)
Equity compensation plans approved by shareholders	17,019,559	\$ —	19,390,203 ⁽²⁾
Equity compensation plans not approved by shareholders ⁽³⁾	152,059 ⁽⁴⁾	\$ 8.10	—
Total	17,171,618⁽⁵⁾	\$ 8.10	19,390,203⁽²⁾

(1) The weighted-average exercise price does not take into account Ordinary Shares issuable upon the vesting of outstanding restricted share unit awards, which have no exercise price.

(2) Consists of Ordinary Shares available for grant under the 2017 Plan. The 2017 Plan provides for grants of up to 22.7 million Ordinary Shares, plus Ordinary Shares available for grant as a result of the forfeiture, expiration or termination of options and restricted share unit awards granted under the 2010 Equity Incentive Plan (if such Ordinary Shares are issued under such other stock options or restricted share unit awards, they will not become available under the 2017 Plan).

(3) In connection with the acquisition of NEXTracker, Inc. on September 28, 2015, we assumed the NEXTracker, Inc. 2014 Equity Incentive Plan, including all outstanding options to purchase NEXTracker, Inc. common stock with exercise prices equal to, or less than, \$7.34 per share. Each assumed option was converted into an option to acquire our Ordinary Shares at the applicable exchange rate of 1.4033. As a result, we assumed approximately 5.6 million unvested restricted stock units and unvested options with exercise prices ranging from between \$0.08 and \$10.65 per ordinary share. Options granted under this plan generally have an exercise price not less than the fair value of the underlying shares of NEXTracker, Inc. on the date of grant. The awards generally vest over four years, and options generally expire ten years from the date of grant. Unvested awards are forfeited upon termination of employment.

(4) Consists of Ordinary Shares issuable upon the exercise of outstanding stock options under the NEXTracker equity plan.

(5) Includes 17,019,559 Ordinary Shares issuable upon the vesting of restricted share unit and performance share unit awards and 152,059 Ordinary Shares issuable upon the exercise of outstanding stock options. For awards subject to TSR and adjusted EPS growth performance criteria, the amount reported reflects the number of shares to be issued if the target levels are achieved. An additional 3,263,537 shares would be issued if the maximum TSR and adjusted EPS growth performance levels are achieved.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information as of June 1, 2022 except as otherwise indicated, regarding the beneficial ownership of our Ordinary Shares by:

- each shareholder known to us to be the beneficial owner of more than 5% of our outstanding Ordinary Shares;
- each of our named executive officers;
- each director; and
- all executive officers and directors as a group.

Unless otherwise indicated, the address of each of the individuals named below is c/o Flex Ltd., 2 Changi South Lane, Singapore 486123.

Information in this table as to our directors, named executive officers and all directors and executive officers as a group is based upon information supplied by these individuals and Forms 3, 4, and 5 filed with the SEC. Information in this table as to our greater than 5% shareholders is based solely upon the Schedules 13G filed by these shareholders with the SEC. Where information regarding shareholders is based on Schedules 13G, the number of shares owned is as of the date for which information was provided in such schedules.

Beneficial ownership is determined in accordance with the rules of the SEC that deem shares to be beneficially owned by any person who has or shares voting or investment power with respect to such shares. Ordinary shares subject to options that are currently exercisable or are exercisable within 60 days of June 1, 2022 and Ordinary Shares subject to restricted share unit awards that vest within 60 days of June 1, 2022 are deemed to be outstanding and to be beneficially owned by the person holding such awards for the purpose of computing the percentage ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated below, the persons and entities named in the table have sole voting and sole investment power with respect to all the shares beneficially owned, subject to community property laws where applicable.

For each individual and group included in the table below, percentage ownership is calculated by dividing the number of shares beneficially owned by such person or group by the sum of the 456,295,726 Ordinary Shares outstanding on June 1, 2022 plus the number of Ordinary Shares that such person or group had the right to acquire on or within 60 days after June 1, 2022.

Name and Address of Beneficial Owner	Shares Beneficially Owned	
	Number of Shares	Percent
5% Shareholders:

* Less than 1%.

(1) Based on information supplied by PRIMECAP Management Company in an amended Schedule 13G filed with the SEC on February 10, 2022. PRIMECAP Management Company has sole voting power over 51,745,531 shares and sole dispositive power over 55,019,450 shares.

(2) Based on information supplied by FMR LLC in an amended Schedule 13G filed with the SEC on February 9, 2022. FMR LLC has sole voting power over 5,220,754 of these shares and sole dispositive power over 47,062,268 shares.

(3) Based on information supplied by Wellington Management Group LLP in an amended Schedule 13G filed with the SEC on February 4, 2022. Wellington Management Group LLP has shared voting power over 29,106,223 shares and shared dispositive power over 40,954,007 shares.

(4) Includes 299,658 shares issuable upon settlement of restricted share unit awards that vest within 60 days of June 1, 2022.

(5) Includes 102,675 shares issuable upon settlement of restricted share unit awards that vest within 60 days of June 1, 2022.

(6) Includes 45,252 shares issuable upon settlement of restricted share unit awards that vest within 60 days of June 1, 2022.

(7) Includes 20,124 shares issuable upon settlement of restricted share unit awards that vest within 60 days of June 1, 2022.

(8) Includes 80,117 shares issuable upon settlement of restricted share unit awards that vest within 60 days of June 1, 2022.

(9) Includes 257,061 shares held indirectly by a family trust, in which Mr. Offer is a trustee.

(10) Includes 125,274 shares held indirectly by a living trust, in which Mr. Onetto is a trustee.

(11) Includes 228,147 shares held indirectly by a revocable trust, in which Mr. Shih is a trustee.

(12) Includes 81,075 shares held indirectly by a family trust, in which Mr. Watkins is a trustee.

(13) Includes 575,502 shares issuable upon settlement of restricted share unit awards that vest within 60 days of June 1, 2022.

Certain Relationships and Related-Person Transactions

Review of Related-Person Transactions

Our Code of Business Conduct and Ethics provides guidance for addressing actual or potential conflicts of interests, including those that may arise from transactions and relationships between us and our executive officers or directors. In addition, in order to formalize our policies and procedures for the review, approval or ratification, and disclosure of related-person transactions, our Board of Directors adopted a Statement of Policy with Respect to Related-Person Transactions. The policy generally provides that the Nominating, Governance and Public Responsibility Committee (or another committee comprised solely of independent directors) will review, approve in advance or ratify all related-person transactions between us and any director, any nominee for director, any executive officer, any beneficial owner of more than 5% of our Ordinary Shares, or any immediate family member of any of the foregoing individuals. Any Board committee members who are involved in a transaction under review do not participate in the committee's deliberations or approval. Under the policy, some ordinary course transactions or relationships are not required to be reviewed, approved or ratified by the applicable Board committee, including, among other things, the following transactions:

- transactions or arrangements involving less than \$25,000 for any individual related person;
- compensation arrangements with directors or executive officers resulting solely from their service on the Board or as executive officers, so long as such arrangements are disclosed in our filings with the SEC or, if not required to be disclosed, are approved by our Compensation and People Committee; and
- indirect interests arising solely from a related person's service as a director or ownership, together with all other related persons, directly or indirectly, of less than a 10% beneficial ownership interest in a third party (other than a partnership) that has entered into or proposes to enter into a transaction with us.

We have various procedures to identify potential related-person transactions, and the Nominating, Governance and Public Responsibility Committee works with our management and our Office of General Counsel in reviewing and considering whether any identified transactions or relationships are covered by the policy. Our Statement of Policy with Respect to Related-Person Transactions is included in our Guidelines with Regard to Certain Governance Matters, a copy of which is available along with a copy of the Company's Code of Business Conduct and Ethics on the Corporate Governance page of the Investor Relations section of our website at www.flex.com.

Transactions with Related Persons

Other than any arrangements described under the sections titled "*Executive Compensation*" and "*Non-Employee Directors' Compensation for Fiscal Year 2022*" in this proxy statement, during fiscal year 2022, there was not, nor is there currently proposed, any transaction or series of similar transactions to which we are or will be a party:

- in which the amount involved exceeded or will exceed \$120,000; and
- in which any director, nominee, executive officer, holder of more than 5% of our Ordinary Shares or any immediate family member of any of the foregoing persons had or will have a direct or indirect material interest.

Shareholder Proposals for the 2023 Annual General Meeting

We must receive shareholder proposals submitted under SEC Rule 14a-8 and intended for inclusion in the proxy statement for our 2023 annual general meeting of shareholders no later than March 2, 2023. Any such shareholder proposals should be mailed to 6201 America Center Drive, San Jose, California, 95002, U.S.A., Attention: EVP, General Counsel. Any such shareholder proposals that are submitted on a timely basis may be included in our proxy statement for the 2023 annual general meeting so long as they satisfy conditions set forth in applicable rules and regulations promulgated by the SEC. Shareholder proposals submitted outside the processes of SEC Rule 14a-8 are subject to the requirements of the Singapore Companies Act, as described in the following paragraph, and applicable rules and regulations promulgated by the SEC. The proxy designated by us will have discretionary authority to vote on any matter properly presented by a shareholder for consideration at the 2023 annual general meeting of shareholders unless notice of such proposal is received by the applicable deadlines prescribed by the Singapore Companies Act.

Under Section 183 of the Singapore Companies Act, registered shareholders representing (i) at least 5% of the total voting rights of all registered shareholders having at the date of the requisition the right to vote at the meeting to which the requisition relates, or (ii) not fewer than 100 registered shareholders holding shares in the Company on which there has been paid up an average sum of at least S\$500 per shareholder may, at their expense (unless the Company resolves otherwise), requisition that we include and give notice of their proposal for the 2023 annual general meeting. Any such requisition must satisfy the requirements of Section 183 of the Singapore Companies Act, must be signed by all the parties making the requisition, and must be deposited at our registered office in Singapore, 2 Changi South Lane, Singapore 486123, at least six weeks before the 2023 annual general meeting in the case of a requisition requiring notice of a resolution, or at least one week before the 2023 annual general meeting in the case of any other requisition.

Incorporation of Certain Documents by Reference

Flex incorporates by reference the following sections of our Annual Report on Form 10-K for the fiscal year ended March 31, 2022:

- [Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations;"](#)
- [Item 7A, "Quantitative and Qualitative Disclosures About Market Risk;"](#) and
- [Item 8, "Financial Statements and Supplementary Data."](#)

Singapore Statutory Financial Statements

Our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, which was filed with the SEC on May 20, 2022, includes our audited consolidated financial statements, prepared in conformity with accounting principles generally accepted in the United States of America, or U.S. GAAP, together with the Independent Registered Public Accounting Firm's Report of Deloitte & Touche LLP, our independent auditors for the fiscal year ended March 31, 2022. We publish our U.S. GAAP financial statements in U.S. dollars, which is the principal currency in which we conduct our business. Except as otherwise stated herein, all monetary amounts in this proxy statement have been presented in U.S. dollars.

Our Singapore statutory financial statements, prepared in conformity with the provisions of the Singapore Companies Act, will be made available to our shareholders on our website at <https://investors.flex.com/financials/annual-reports-and-proxy> prior to the date of the 2022 annual general meeting, as required under Singapore law.

Our Singapore statutory financial statements include:

- our consolidated financial statements (which are identical to those included in the Annual Report on Form 10-K, described above);
- supplementary financial statements (which reflect solely the Company's standalone financial results, with our subsidiaries accounted for under the equity method rather than consolidated);
- a Directors' Statement; and
- the Independent Auditors' Report of Deloitte & Touche LLP, our Singapore statutory auditors for the fiscal year ended March 31, 2022.

Other Matters

Electronic Delivery of our Shareholder Communications

We have elected to provide access to our proxy materials to our shareholders of record as of June 27, 2022 by notifying them of the availability of our proxy materials on the Internet. The Notice of Availability of Proxy Materials on the Internet (referred to as the Notice), which contains instructions to shareholders on how to access this proxy statement and our annual report and how to submit their proxies via the Internet, is first being made available and electronically distributed to our shareholders (including all of our registered shareholders) on or about June 30, 2022 and will be mailed to shareholders on or about July 15, 2022. If you hold your shares through a broker, bank or other nominee, rather than directly in your own name, your intermediary will either forward to you printed copies of the proxy materials or will provide you with instructions on how you can access the proxy materials electronically. The Notice will include instructions on how a shareholder may request a printed copy of our proxy materials.

Information About the Meeting

We are furnishing this proxy statement in connection with the solicitation by our Board of Directors of proxies to be voted at the 2022 annual general meeting of our shareholders, or at any adjournments thereof, for the purposes set forth herein.

Costs of Solicitation

The entire cost of soliciting proxies will be borne by us. Following the original mailing of the proxies and other soliciting materials, our directors, officers and employees may also solicit proxies by mail, telephone, e-mail, fax or in person. These individuals will not receive additional compensation for those activities, but they may be reimbursed for any reasonable out-of-pocket expenses. Following the original mailing of the proxies and other soliciting materials, we will request that brokers, custodians, nominees and other record holders of our Ordinary Shares forward copies of the proxies and other soliciting materials to persons for whom they hold Ordinary Shares and request authority for the exercise of proxies. In these cases, we will reimburse such holders for their reasonable expenses if they ask that we do so. We have retained D.F. King & Co., an independent proxy solicitation firm, to assist in soliciting proxies at an estimated fee of \$11,500, plus reimbursement of reasonable expenses.

Registered and Principal Executive Office

The mailing address of our registered office, which also constitutes our principal executive office, is 2 Changi South Lane, Singapore 486123.

Special Notice Regarding COVID-19

The health and safety of our employees, shareholders, and community members is of utmost importance to us. In consideration of current public health concerns, we ask that you follow recommended guidance, mandates, and applicable executive orders from federal and state authorities, particularly as they relate to social distancing and attendance at public gatherings. If you are not feeling well or think you may have been exposed to COVID-19, we ask that you vote by proxy for the 2022 annual general meeting. Should further developments with the COVID-19 situation necessitate that we change any material aspects of the annual general meeting, we will make public disclosure of such changes. We thank you for your cooperation as we prioritize the safety of our community and our shareholders.

Voting Rights and Solicitation of Proxies

The close of business on June 27, 2022 is the record date for shareholders entitled to notice of the 2022 annual general meeting. All of the Ordinary Shares issued and outstanding on August 25, 2022, the date of the annual general meeting, are entitled to be voted at the annual general meeting. Shareholders entitled to vote at the annual general meeting will, on a poll, have one vote for each Ordinary Share they hold on each matter to be voted upon. As of June 27, 2022, we had 458,187,324 Ordinary Shares issued and outstanding.

Proxies

Ordinary Shares represented by proxies in the forms made available in connection with this proxy statement that are properly executed and returned to us will be voted at the 2022 annual general meeting, as applicable, in accordance with the executing shareholder's instructions. If your Ordinary Shares are held through a broker, a bank, or other nominee, which is sometimes referred to as holding shares in "street name," you have the right to instruct your broker, bank or other nominee on how to vote the shares in your account. Your broker, bank or other nominee will send you a voting instruction form to use for this purpose.

Quorum and Required Vote

Representation at the 2022 annual general meeting of at least 33-1/3% of all of our issued and outstanding Ordinary Shares is required to constitute a quorum to transact business at the 2022 annual general meeting.

- Consistent with the Company's historical practice, the chair of the 2022 annual general meeting will demand a poll in order to enable the Ordinary Shares represented in person or by proxy to be counted for voting purposes.
- The affirmative vote by a simple majority of the votes cast is required at the 2022 annual general meeting to re-elect the directors nominated pursuant to Proposal No. 1, to re-appoint Deloitte & Touche LLP as our independent auditors pursuant to Proposal No. 2, to approve the non-binding, advisory resolution regarding executive compensation contained in Proposal No. 3, to approve the ordinary resolution to allot and issue Ordinary Shares contained in Proposal No. 4, and to approve the ordinary resolution to renew the Share Purchase Mandate contained in Proposal No. 5.

Under the Singapore Companies Act and our Constitution, the shareholders may, by passing an ordinary resolution requiring the simple majority of affirmative votes of shareholders present and voting at an annual general meeting, remove an incumbent director and appoint another person as director to replace the removed director provided that such shareholders have satisfied the procedural requirements and deadlines set forth in the Singapore Companies Act and our Constitution.

Abstentions and Broker Non-Votes

Abstentions and "broker non-votes" are considered present and entitled to vote at the 2022 annual general meeting for purposes of determining a quorum. A "broker non-vote" occurs when a broker, a bank or other nominee who holds shares for a beneficial owner does not vote on a particular proposal because the broker, bank or other nominee has not received directions from the beneficial owner and does not have discretionary power to vote on that particular proposal. If a broker, bank or other nominee indicates on the proxy card that it does not have discretionary authority to vote as to a particular matter, those shares, along with any abstentions, will not be counted in the tabulation of the votes cast on the proposal being presented to shareholders.

If you are a beneficial owner, your broker, bank or other nominee has authority to vote your shares for or against Proposal No. 2 regarding the re-appointment of our independent auditors, even if the broker does not receive voting instructions from you. Your broker, bank or other nominee, however, does not have the discretion to vote your shares on any other proposals included in this proxy statement without receiving voting instructions from you. **It is very important that you instruct your broker, bank or other nominee how to vote on these proposals.** If you do not complete the voting instructions, your shares will not be considered in the election of directors or any other proposal included in this proxy statement other than Proposal No. 2 regarding the re-appointment of our independent auditors.

If you are a registered shareholder and you vote by proxy card without giving specific instructions, your shares represented by proxies will be voted in accordance with the recommendations of the Board (see "Voting Matters at the Annual General Meeting", above) at the 2022 annual general meeting.

Our management does not know of any matters to be presented at the 2022 annual general meeting other than those set forth in this proxy statement and in the notices accompanying this proxy statement. If other matters should properly be put before the meeting, the proxy holders will vote on such matters in accordance with their best judgment.

Any shareholder of record has the right to change his or her voting instructions to the proxy by revoking his or her proxy at any time prior to voting at the 2022 annual general meeting by:

- submitting a subsequently dated proxy; or
- by attending the meeting and voting in person.

If you are a beneficial holder who holds your Ordinary Shares through a broker, a bank or other nominee and you wish to change or revoke your voting instructions, you will need to contact the broker, the bank or other nominee who holds your shares and follow their instructions. If you are a beneficial holder and not the shareholder of record, you may not vote your shares in person at the 2022 annual general meeting unless you obtain a legal proxy from the record holder giving you the right to vote the shares.

Our management does not know of any matters to be presented at the 2022 annual general meeting other than those set forth herein and in the notice accompanying this proxy statement. If any other matters are properly presented for a vote at the 2022 annual general meeting, the enclosed proxies confer discretionary authority to the individuals named as proxies to vote the shares represented by such proxy, as to those matters.

It is important that your shares be represented at the 2022 annual general meeting, regardless of the number of shares you hold. **We urge you to promptly execute and return the accompanying proxy card in the envelope that has been enclosed for your convenience, or to vote or give voting instructions in accordance with the proxy card or Notice.**

Registered shareholders who are present at the 2022 annual general meeting may revoke their proxies and vote in person or, if they prefer, may abstain from voting in person and allow their proxies to be voted.

Some banks, brokers and other nominee record holders may be participating in the practice of "householding" proxy statements and annual reports for our beneficial shareholders. This means that only one copy of our proxy materials and our Annual Report on Form 10-K may have been sent to multiple shareholders in your household, unless your bank, broker or nominee received contrary instructions from one or more shareholders in your household. If you want to receive separate copies of our proxy materials or annual reports in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker or other nominee record holder. We will promptly deliver a separate copy of either document to you if you request one by writing or calling us at the contact information listed later on this page.

We incorporate by reference information from Note 5 to our audited consolidated financial statements for the fiscal year ended March 31, 2022, "Share-Based Compensation," included in our Annual Report on Form 10-K and the sections titled "Financial Statements and Supplementary Data," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Quantitative and Qualitative Disclosures About Market Risk." **Upon request, we will furnish without charge by first class mail or other equally prompt means within one business day of receipt of such request, to each person to whom a proxy statement is delivered a copy of our Annual Report on Form 10-K (and any exhibit thereto). You may request a copy of such information, at no cost, by writing or telephoning us at:**

Cautionary Note Regarding Forward-Looking Statements:

This proxy statement contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. All statements other than statements of historical or current facts, including statements regarding our future business expectations and our environmental and other sustainability plans and goals and related timeframes, made in this document are forward-looking. The words "will," "may," "designed to," "believe," "should," "would," "could," "anticipate," "plan," "expect," "intend," "estimate," "goals," "opportunity," "future," "to be," "achieve," "grow," "committed," "seeks," "targets," "continues," "likely," "possible," "might," "potentially," "will," "on track," "working to," "encourage," "continue," "strive," "endeavor," "looking forward," "efforts," "aim," and variations of such words and similar expressions identify forward-looking statements, which speak only as of the date of this proxy statement. Because these forward-looking statements are subject to risks and uncertainties, actual results could differ materially from the expectations expressed in the forward-looking statements. Important factors that could cause actual results to differ materially from the expectations reflected in the forward-looking statements include those described in Item 1A, "Risk Factors" and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, and in our Quarterly Reports on 10-Q and Current Reports on Form 8-K that we file with the U.S. Securities and Exchange Commission. In addition, new risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. Given these risks and uncertainties, the reader should not place undue reliance on these forward-looking statements. We undertake no obligation to update or revise these forward-looking statements to reflect subsequent events or circumstances.

Annex A: Flex Ltd. Reconciliation of GAAP to Non-GAAP Financial Measures

To supplement Flex's unaudited selected financial data presented consistent with Generally Accepted Accounting Principles ("GAAP"), the Company discloses certain non-GAAP financial measures that exclude certain charges and gains, including non-GAAP operating income, non-GAAP net income and non-GAAP net income per diluted share. These supplemental measures exclude restructuring charges, customer-related asset impairments (recoveries), stock-based compensation expense, intangible amortization, other discrete events as applicable and the related tax effects. These non-GAAP measures are not in accordance with or an alternative for GAAP and may be different from non-GAAP measures used by other companies. We believe that these non-GAAP measures have limitations in that they do not reflect all of the amounts associated with Flex's results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Flex's results of operations in conjunction with the corresponding GAAP measures. The presentation of this additional information is not meant to be considered in isolation or as a substitute for the most directly comparable GAAP measures. We compensate for the limitations of non-GAAP financial measures by relying upon GAAP results to gain a complete picture of the Company's performance.

In calculating non-GAAP financial measures, we exclude certain items to facilitate a review of the comparability of the Company's operating performance on a period-to-period basis because such items are not, in our view, related to the Company's ongoing operational performance. We use non-GAAP measures to evaluate the operating performance of our business, for comparison with forecasts and strategic plans, for calculating return on investment, and for benchmarking performance externally against competitors. In addition, management's incentive compensation is determined using certain non-GAAP measures. Also, when evaluating potential acquisitions, we exclude certain of the items described below from consideration of the target's performance and valuation. Since we find these measures to be useful, we believe that investors benefit from seeing results "through the eyes" of management in addition to seeing GAAP results. We believe that these non-GAAP measures, when read in conjunction with the Company's GAAP financials, provide useful information to investors by offering:

- the ability to make more meaningful period-to-period comparisons of the Company's on-going operating results;
- the ability to better identify trends in the Company's underlying business and perform related trend analyses;
- a better understanding of how management plans and measures the Company's underlying business; and
- an easier way to compare the Company's operating results against analyst financial models and operating results of competitors that supplement their GAAP results with non-GAAP financial measures.

Annex A: Flex Ltd. Reconciliation of GAAP to Non-GAAP Financial Measures

(In millions, except per share amounts) ⁽¹⁾	Twelve-Month Periods Ended	
	March 31, 2022	March 31, 2021

Add: Reduction in ABS levels and other	—	799
Less: Net capital expenditures	(431)	(266)
Adjusted Free Cash Flow⁽⁷⁾	\$ 593	\$ 677

- (1) Beginning in the second quarter of fiscal year 2021, the Company started reporting all dollar amounts in millions. The figures in this document have been rounded to millions to conform. In certain circumstances, this change in rounding may result in rounding differences or individual values not adding up to the totals presented.
- Starting in the second quarter of fiscal year 2022, the Company elected to include operating income as a subtotal in the condensed consolidated statement of operations. As such, non-GAAP operating income is now reconciled to the nearest GAAP measure which is GAAP operating income. Historical periods are recast to conform with current period presentation.
- (2) Restructuring charges include severance for rationalization at existing sites and corporate SG&A functions as well as asset impairment, and other charges related to the closures and consolidations of certain operating sites and targeted activities to restructure the business. These costs may vary in size based on the Company's initiatives and are not directly related to ongoing or core business results, and do not reflect expected future operating expenses. These costs are excluded by the Company's management in assessing current operating performance and forecasting its earnings trends and are therefore excluded by the Company from its non-GAAP measures.
- In order to support the Company's strategy and build a sustainable organization, and after considering that the economic recovery from the pandemic would be slower than anticipated, the Company identified certain structural changes to restructuring the business in fiscal year 2021. These restructuring actions eliminated non-core activities primarily within the Company's corporate function, aligned the Company's cost structure with its reorganizing and optimizing of its operations model along its reporting segments, and further sharpened its focus to winning business in end markets where it has competitive advantages and deep domain expertise. During the three and twelve-month periods ended March 31, 2021, the Company recognized approximately \$26 million and \$101 million of restructuring charges respectively, most of which related to employee severance.
- (3) Legal and other consist primarily of costs not directly related to core business results and may include matters relating to commercial disputes, government regulatory and compliance, intellectual property, antitrust, tax, employment or shareholder issues, product liability claims and other issues on a global basis as well as acquisition related costs and customer related asset recoveries.
- During the fourth quarter of fiscal year 2022 and first quarter of fiscal year 2021, the Company accrued for certain loss contingencies where losses are considered probable and estimable. In addition, during the fourth quarter of fiscal year 2022, the Company recorded approximately \$13 million gain upon successful settlement of certain supplier claims.
- During the third quarter of fiscal year 2022, the Company incurred \$4.8 million in acquisition-related costs related to the acquisition of Anord Mardix. During the fourth quarter of fiscal year 2021, the Company also recorded a gain on the sale of real estate exited as a result of the disengagement of a certain customer in fiscal year 2020.
- These costs and recoveries are excluded by the Company's management in assessing current operating performance and forecasting its earnings trends and are therefore excluded by the Company from its non-GAAP measures.
- (4) Interest and other, net consists of various other types of items that are not directly related to ongoing or core business results, such as the gain or losses related to certain divestitures, currency translation reserve write-offs upon liquidation of certain legal entities, debt extinguishment costs and impairment charges or gains associated with certain non-core investments. The Company excludes these items because they are not related to the Company's ongoing operating performance or do not affect core operations. Excluding these amounts provides investors with a basis to compare Company performance against the performance of other companies without this variability.
- In September 2021, the Company received approval from the relevant tax authorities in Brazil of the Credit Habilitation request related to certain federal operational tax credits and the Company recorded a total gain of 809.6 million Brazilian reals (approximately USD \$149.3 million based on the exchange rate as of October 1, 2021) under other charges (income), net in the condensed statements of operations. The total gain recorded included credits from February 2003 to September 2021, net of additional taxes, as the Credit Habilitation received covering the period from February 2003 to December 2019 resolved any uncertainty regarding the Company's ability to claim such credits. This gain is non-cash and can only be used to offset certain current and future tax obligations.
- In fiscal year 2021, the Company recognized realized gains of approximately \$45 million from distribution by one of our non-core investment funds. This was offset by a \$35 million impairment charge, related to a certain investment as a result of the Company's ongoing assessment of recoverability of its investment portfolio and conclusion that the carrying amount of its investment was other than temporarily impaired. In fiscal year 2022, the Company recognized approximately \$32 million equity in earnings from the value increases in certain non-core investment funds.
- (5) Adjustment for taxes relates to the tax effects of the various adjustments that we incorporate into non-GAAP measures in order to provide a more meaningful measure on non-GAAP net income and certain adjustments related to nonrecurring settlements of tax contingencies or other non-recurring tax charges, when applicable.
- During the fourth quarter of fiscal year 2021, the Company recorded \$19 million release of valuation allowance mainly related to certain operations in Canada due to the forecasted profitabilities of those subsidiaries.
- During fiscal year 2022, the Company recorded a \$18.6 million benefit for the release of valuation allowances on certain of its deferred tax assets due to its acquisition of the Anord Mardix business offset by \$13 million tax expense in relation to the sale of 500,000 shares redeemable preferred units ("Series A Preferred Units") of Nexttracker LLC ("Nexttracker") to TPG Rise Flash, L.P. ("TPG Rise").
- The remaining balance is primarily related to adjustment for exchange rate fluctuation on income tax receivable position of an operating subsidiary recognized in a prior period. In addition, the Company has included the tax effects of the various adjustments that we incorporate into non-GAAP measures under tax benefit on restructuring and other.
- (6) During the fourth quarter of fiscal year 2022, the Company sold 500,000 shares of Series A Preferred Units to TPG Rise, representing a 16.7% interest in its subsidiary, Nexttracker for \$487.5M, net of issuance costs. Because the Series A Preferred Units are redeemable upon the occurrence of conditions not solely within the control of the Company, the Company classified the redeemable noncontrolling interest as temporary equity on its consolidated balance sheet. Difference between cash consideration received and redeemable noncontrolling interest at time of transaction was recorded in the Company's shareholders' equity on its consolidated balance sheet. In addition, the Company recorded two months of dividend payable in kind totaling \$4.2M as income available to redeemable noncontrolling interest which is excluded by the Company's management in assessing current operating performance and forecasting its earnings trends and is therefore excluded by the Company from its non-GAAP measures.
- (7) Adjusted free cash flow is calculated as operating cash flow for the quarter less net capital expenditures. In fiscal year 2021, we proactively and strategically reduced the outstanding balance of our asset-backed securities ("ABS") programs which is fully paid and wind down as of fiscal year 2021 year end. Proceeds from our debt issuance replaced the funding from the ABS programs for working capital purposes. We reduced the balance on this short-term financing products throughout fiscal year 2021 which had the accounting effect of reducing our cash flow from operations and was excluded from our adjusted free cash flow calculation.

FORWARD-LOOKING STATEMENTS

Except for historical information contained herein, certain matters included in this annual report on Form 10-K are, or may be deemed to be forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. The words "will," "may," "designed to," "believe," "should," "anticipate," "plan," "expect," "intend," "estimate" and similar expressions identify forward-looking statements, which speak only as of the date of this annual report. These forward-looking statements are contained principally under Item 1, "Business," and under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations." Because these forward-looking statements are subject to risks and uncertainties, actual results could differ materially from the expectations expressed in the forward-looking statements. Important factors that could cause actual results to differ materially from the expectations reflected in the forward-looking statements include those described in Item 1A, "Risk Factors" and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations." In addition, new risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. Given these risks and uncertainties, the reader should not place undue reliance on these forward-looking statements. We undertake no obligation to update or revise these forward-looking statements to reflect subsequent events or circumstances.

Unless otherwise specifically stated, references in this report to "Flex," "the Company," "we," "us," "our" and similar terms mean Flex Ltd. and its subsidiaries.

ITEM 1. BUSINESS

OVERVIEW

Flex is the diversified manufacturing partner of choice that helps market-leading brands design, build and deliver innovative products that improve the world. Through the collective strength of a global workforce across approximately 30 countries with responsible, sustainable operations, Flex delivers advanced manufacturing solutions and operates one of the most trusted global supply chains, supporting the entire product lifecycle with fulfillment, after-market, and circular economy solutions for diverse industries including cloud, communications, enterprise, automotive, industrial, consumer devices, lifestyle, healthcare, and energy.

Beginning in the fourth quarter of fiscal year 2022, as a result of the sale of certain Series A preferred units in Nextracker LLC ("Nextracker LLC" or "Nextracker") to a third party and our continuing evaluation to separate our Nextracker business and consistent with how our chief operating decision maker ("CODM") allocates resources, assesses performance and makes strategic and operational decisions, Flex now reports Nextracker as a separate operating and reportable segment. Nextracker was previously included in the Industrial reporting unit within the Flex Reliability Solutions segment. Flex's three operating and reportable segments are:

- Flex Agility Solutions ("FAS"), which is comprised of the following end markets:
 - *Communications, Enterprise and Cloud ("CEC")*, including data infrastructure, edge infrastructure and communications infrastructure;
 - *Lifestyle*, including appliances, consumer packaging, floorcare, micro mobility and audio; and
 - *Consumer Devices*, including mobile and high velocity consumer devices.
- Flex Reliability Solutions ("FRS"), which is comprised of the following end markets:
 - *Automotive*, including next generation mobility, autonomous, connectivity, electrification, and smart technologies;
 - *Health Solutions*, including medical devices, medical equipment, and drug delivery; and
 - *Industrial*, including capital equipment, industrial devices, and renewables and grid edge.
- Nextracker, the leading provider of intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world. Nextracker's products enable solar panels to follow the sun's movement across the sky and optimize plant performance.

The FAS segment is optimized for speed to market based on a highly flexible supply and manufacturing system. The FRS segment is optimized for longer product lifecycles requiring complex ramps with specialized production models and critical

environments. Nextracker provides solar tracker technologies that optimize and increase energy production while reducing costs for significant plant return on investment.

In the fourth quarter of fiscal year 2022, Flex sold \$500 million of convertible preferred equity in Nextracker to TPG Rise Flash, L.P., which is managed or advised by TPG Climate, the dedicated climate investing fund of TPG's global impact investing platform ("TPG Rise"). Through this strategic partnership and investment from TPG Rise, Nextracker will continue to expand its market leading position in solar tracking and software solutions. TPG's experience and extensive network in renewable energy provide Nextracker a strong partner to support long-term growth.

Our customers include many of the world's leading technology, healthcare, automotive, and industrial companies. We are focused on establishing long-term relationships with our customers and have been successful in expanding relationships to incorporate additional product lines and services.

In fiscal year 2022, our ten largest customers accounted for approximately 34% of net sales. No customer accounted for greater than 10% of the Company's net sales in fiscal year 2022.

Flex believes that growth in the contract manufacturing services industry will be driven by increased complexities in products, markets, and environmental, social, and governance ("ESG") requirements. The "Digitization of Everything" is the mega-trend that is driving products—and even whole industries—to be smarter, more data-driven, and more connected. To make these next generation products, companies must integrate increasingly advanced technologies and build them at scale. Additionally, with regards to our solar business, we believe that both the attractive cost of solar generation and increasing demand for renewable energy will drive continued growth in the utility-scale solar market.

In addition to the pandemic, rising global uncertainty over the past few years including trade and tariff issues, increasing geopolitical conflict, and severe labor shortages are creating further complexity. Companies are rethinking their entire production strategies, and we are seeing a global rebalancing in sourcing and producing to maximize resiliency. Sustainability is no longer an afterthought. Businesses are being held to a much higher standard for how and where their products are sourced and produced, and, increasingly, how they are disposed.

These complexities are making it harder for companies to manage their own supply chain and manufacturing operations. They are looking for trusted partners to help them navigate this complex environment. Only a few outsourcing players have the right capabilities and scale to meet these challenges effectively and profitably. Flex is one of these partners.

STRATEGY

Flex helps its customers responsibly design and build products that create value and improve people's lives. We do this by providing our customers with product development lifecycle services, from innovation, design, and engineering, to manufacturing, supply chain solutions, logistics, and circularity offerings. Flex's strategy is to continue investing in areas where we can differentiate and add value, whether through engineering and design services, product technologies or developing differentiated processes and business methods. We are strengthening our abilities in software, robotics, artificial intelligence, factory automation, and other disruptive technologies. We select ethical partners and integrate the supply chain so that our customers can operate efficiently and responsibly. We are committed to investing in our employees and communities, which includes addressing critical environmental issues.

People. To maintain competitiveness and world-class capabilities, we focus on hiring and retaining the world's best talent. We have focused on attracting the best engineering, functional and operational leaders and have accelerated efforts to develop the future leaders of the Company.

Customer Focus. We believe that building strong partnerships with our customers and delivering on our commitments strengthens trust and customer retention. For Flex, customers come first, and we have a relentless focus on delivering distinctive products and services in a cost-effective manner with fast time to market. We are highly collaborative and leverage our global system and processes to operate with speed and responsiveness to provide customers a reliant and resilient supply chain and manufacturing technology solutions and services.

Markets. We focus on companies that are leaders in their industry and value our superior capabilities in design, manufacturing, and supply chain services. Flex focuses on high-growth industries and markets where we have distinctive competence and a compelling value proposition. Examples include investments in specific technologies and industries such as healthcare, automotive, industrial, and energy. Our market-focused approach to managing our business increases customers' competitiveness by leveraging our deep vertical and cross-industry expertise, as well as global scale, regional presence, and agility to respond to changes in market dynamics.

Operations. We continue to invest in maintaining a leadership position in our world-class manufacturing and services capabilities including automation, simulation tools, digitizing our factories, and implementing leading edge Industry 4.0

methodologies. We leverage our broad set of capabilities globally to provide a competitive advantage by minimizing logistics costs, manufacturing costs, and cycle times while increasing flexibility and responsiveness.

SERVICE OFFERINGS

Flex provides design, manufacturing and supply chain services through a network of over 100 locations in approximately 30 countries across four continents. We have established global scale through an extensive network of innovation labs, manufacturing operations, and services sites in the world's major consumer and enterprise products markets (Asia, the Americas, and Europe) in order to serve the supply chain needs of both multinational and regional companies. Our services provide customers with a competitive advantage by delivering leading-edge manufacturing technology, supply chain expertise, improved product quality, increased flexibility, faster time to market, and overall value. Our customers leverage our services to meet their requirements throughout their products' entire lifecycles.

We believe we have the broadest worldwide product development lifecycle capabilities in the industry, from concept design to manufacturing to aftermarket and end of life services. We believe our key competitive advantages are our people, processes, and capabilities for making products, systems, and solutions for customers:

- *Time to market advantage:* Our sophisticated supply chain management tools and expertise allow us to provide customers with access to real-time information that increases visibility and reduces risk throughout the entire product lifecycle. Our experience with new product introductions and manufacturing ramps provides customers with a time to market advantage.
- *Broad range of services:* Our full range of services include innovation and design, engineering, manufacturing, supply chain management, forward and reverse logistics, and circular economy solutions. Our deep cross-industry knowledge and multi-domain expertise accelerate the production of increasingly complex products for increasingly interconnected industries.
- *Global scale:* Flex's physical infrastructure includes over 100 facilities in approximately 30 countries, staffed by approximately 170,000 employees, providing customers with truly global scale and strategic geographic distribution capabilities.

We offer global economies of scale in advanced materials and technology sourcing, manufacturing and after-market services, as well as market-focused expertise and capabilities in design and engineering. As a result of extensive experience in specific markets, we have developed a deep understanding of complex market dynamics, giving us the ability to anticipate trends that impact customers' businesses. Our expertise can help improve customers' market positioning by effectively adjusting product plans and roadmaps to efficiently and cost-effectively deliver high quality products that meet their geographic and time to market requirements.

Our services include all processes necessary to design, build, ship, and service a wide range of products for customers. These services include:

Design and Engineering Services. The Company offers a comprehensive range of value-added design, engineering and systems integration services, tailored to specific industries and markets, the needs of customers, and cover a broad range of technical competencies:

- System architecture;
- User interface and industrial design;
- Cross-industry technologies;
- Hardware design;
- Software design; and
- Design for excellence.

Flex is exposed to different and, in some cases greater, potential liabilities from the various design services we provide than those we typically face in our core assembly and manufacturing services. See "Risk Factors—*The success of certain of our activities depends on our ability to protect our intellectual property rights; claims of infringement or misuse of intellectual property and/or breach of license agreement provisions against our customers or us could harm our business.*"

Systems Assembly and Manufacturing. Our systems assembly and manufacturing operations generate the majority of our revenues and include printed circuit board assembly and assembly of systems and subsystems that incorporate printed circuit boards and complex electromechanical components. We assemble electronic products with custom electronic enclosures on

either a build-to-order or configure-to-order basis. As customers seek to provide greater functionality in physically smaller products, they increasingly require more sophisticated manufacturing technologies and processes. Our investment in advanced manufacturing equipment and our expertise in innovative miniaturization, packaging and interconnective technologies, enable us to offer a variety of leading-edge manufacturing solutions. We support a wide range of product demand profiles, from low-volume, high-complexity programs, to high-volume production. Our systems assembly and manufacturing capabilities include enclosures, testing services, and materials procurement and inventory management.

Power Solutions. We offer a full-service power supply business that provides a range of solutions from custom to highly scalable system solutions. We have expertise in high efficiency and high-density switching power supplies ranging from 1 to 3,000 watts. Our product portfolio includes chargers for smartphones and tablets, adapters for notebooks and gaming systems, and power supplies for the server, storage, and networking markets. In fiscal year 2022, Flex acquired Anord Mardix to expand our power solutions for the rapidly growing data center market. Anord Mardix offers an extensive product portfolio of critical power solutions including switchgear, busway, power distribution and modular power systems, along with monitoring solutions and services. This portfolio combined with our embedded power, server and storage products, racks and enclosures and full systems assembly capability will accelerate our growth in the data center market.

Solar Tracker and Software Solutions. Our Nextracker business is the leading provider of intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world. Our products enable solar panels in utility-scale power plants to follow the sun's movement across the sky and optimize plant performance. By optimizing and increasing energy production and reducing costs, our tracker products and software solutions offer significant return on investment ("ROI"). Single axis solar trackers generate up to 25% more energy than projects that use fixed-tilt systems that do not track the sun. We have developed an intelligent independent row tracking system with proprietary technology that we believe produces more energy, lowers operating costs, and is easier to deploy compared to other tracker products. Our tightly-integrated software solutions use advanced algorithms and artificial intelligence technologies to optimize the performance and capabilities of our tracker products.

Logistics. The Flex Global Services business provides after-market and forward supply chain logistics services. Our suite of services is tailored to customers operating in the computing, consumer digital, infrastructure, industrial, mobile, automotive and medical industries.

Circular Economy Solutions. We offer a suite of integrated reverse logistics, repair and refurbishment solutions that use globally consistent processes, which help increase our customers' brand loyalty by improving turnaround times and raising end-customer satisfaction levels while significantly reducing the carbon footprint for our customers. Our reverse logistics and repair solutions include returns management, exchange programs, complex repair, asset recovery, recycling and e-waste management. We provide repair expertise to multiple product lines such as consumer and midrange products, printers, smart phones, consumer medical devices, notebook personal computers, set-top boxes, game consoles and highly complex infrastructure products.

COMPETITION

Flex's contract manufacturing services market is extremely competitive. We compete against numerous domestic and foreign manufacturing service providers, as well as current and prospective customers, who evaluate our capabilities in light of their own capabilities and cost structures.

In recent years, we have seen an increased level of diversification by many companies in the technology, automotive and healthcare industries along with the convergence of many industries being transformed by technology advances. Increasingly complex products require highly customized solutions, in turn resulting in significant changes to the overall manufacturing and supply chain landscape.

We believe the principal competitive factors in the contract manufacturing services market are quality and range of services; design and technological capabilities; cost; location of sites; and responsiveness and flexibility. We believe we are extremely competitive with regard to all of these factors.

We also compete in the solar industry with our specialized tracker solutions and we believe the principle factors that drive competition in this market include established track record of product performance; system energy yield; software capabilities; product features; total cost of ownership and return on investment; reliability; customer support; product warranty terms; services; supply chain and logistics capabilities; and vendor financial strength and stability. We believe we are extremely competitive with regard to all of these factors.

COMPETITIVE STRENGTHS

We continuously enhance our business through the development and expansion of our product and service offerings. We strive to maintain the efficiency and flexibility of the organization, with repeatable execution that adapts to macro-economic changes to provide clear value to customers, while increasing their competitiveness. We have a focused strategy on delivering value to customers through manufacturing technology, a trusted supply chain, innovation and design services, and domain expertise.

Significant Scope and Global Scale. We believe our global scale and regional capability are a significant competitive advantage, as customers increasingly require a broad range of manufacturing and supply chain services and solutions globally. Increasingly, customers are exploring transitioning to regional-based supply chains to take advantage of time to market and specific customization required to win in those markets. Our global expertise, footprint and diverse supply chain network provides customers with the ability to quickly adjust to changing regional, trade and manufacturing dynamics.

Trusted Resilient Supply Chain. We offer one of the most trusted and resilient global supply chain services through a combination of digital supply chain capabilities, deep expertise, real time visibility and analytics, and collaborative supplier relationships to help customers navigate complex, global supply chains.

Long-Standing, Diverse Customer Relationships. We believe our long-term relationships with key customers are the result of our track record of meeting commitments and delivering value that increases customers' competitiveness. We serve a wide range of customers across six business units within the FAS and FRS segments in addition to our Nextracker business. No customer accounts for more than 10% of our annual revenue and the ten largest accounted for 34% of the Company's net sales in fiscal year 2022. We believe we are well-positioned to grow faster than the industry average.

Extensive Design and Engineering Capabilities. We have an industry-leading global design service offering, with extensive product design engineering resources that provides design services, product development, and solutions to satisfy a wide array of customer requirements across all of the key industries and markets in which we do business.

Balanced geographic footprint. We have deployed manufacturing operations in regions around the world to provide customers with a wide array of solutions where our customers and/or their customers are located. We have a very balanced global manufacturing footprint with 34% of net sales in North America, 24% in China, 22% in Europe, the Middle East and Africa ("EMEA"), and 20% in other areas for fiscal year ended March 31, 2022 (with net sales attributable to the country in which the product is manufactured, or service is provided).

Cross-industry synergies. One of our competitive strengths is our ability to leverage technology from one industry and apply it to a different application within another industry. Examples include high-end computing, human machine interface, and internet of things ("IoT"). This cross-industry synergy gives our customers access to technology they would not otherwise have.

Customer and Product Innovation Hubs. We have established state-of-the art innovation hubs in the Americas, Asia and Europe, with differentiated offerings and specialized services for specific industries and markets. These innovation hubs offer customers geographically focused centers of design services, taking their products from concept to volume production and go-to-market in a rapid, cost effective and low risk manner.

Industrial Parks; Cost-Efficient Manufacturing Services. We have developed self-contained industrial parks that co-locate manufacturing and logistics operations with our suppliers in various cost-efficient locations. These sites enhance supply chain management efficiency, while providing multi-technology solution value for customers.

Innovative and Reliable Tracker Solutions. Our solar trackers provide high levels of performance and operability and improve over time through software enhancements when coupled with our software solutions. The benefits of our solutions include increased energy yield performance, superior constructability, reliability, ease of maintenance, and advanced software and sensor capabilities.

HUMAN CAPITAL MANAGEMENT

Culture underlies our stakeholder experience. Our values are intended to reflect and guide our behaviors and shape our culture. We endeavor for our value-driven culture to align us as we pursue our purpose, uphold our mission, live our values, advance toward our vision, and activate our strategy.

In support of cultivating an inclusive, high-performing culture, we adopted four specific behaviors that support our values and continued progress on our Flex Forward strategy. These behaviors, called our Ways of Working, bring our values to life through actions and are intended to provide a framework for how we make decisions. The purpose of these behaviors is to enable us to put our culture into practice and provide an accountability system through training and development as well as performance management systems to ensure our desired behaviors become a part of our everyday working norms.

How we live our values define our culture:

- We support each other as we strive to find a better way.
- We move fast with discipline and purpose.
- We do the right thing always.

We bring our values to life through four behaviors:

1. Respect and Value Others.
2. Collaborate and Share Openly.
3. Learn and Adapt.
4. Honor Commitments.

We believe that the performance of our Company is impacted by our human capital management, and as a result we consistently work to attract, select, develop, engage and retain strong, diverse talent. Our policies, philosophy and strategies support the inclusion of all people in our working environment. Further, we're committed to respecting the human rights of our employees and improving their quality of life.

In 2020, the Company introduced new vision, mission, purpose, and value statements in support of cultivating an inclusive, high-performing culture where employees are empowered and given opportunities to reach their full potential. We are committed to providing a positive and safe workplace for Flex employees, respecting their dignity, creating an inclusive environment, and ensuring access to opportunity. We recognize that we have an opportunity to promote and support a culture of inclusion and diversity, wellness, and health and safety among our employees.

Employees. As of March 31, 2022, our global workforce totaled approximately 172,648 employees including our contractor workforce. In certain international locations, our employees are represented by labor unions and by work councils.

Region:	Number of Employees
Asia	76,002
Americas	62,450
Europe	34,196
Total	172,648

Well-being, Health, and Safety. Flex is committed to providing a safe and injury-free workplace. We provide programs and tools to improve physical, mental, financial, and social well-being, with increased focus during the COVID-19 pandemic. Our programs give access to a variety of innovative, flexible, and convenient health and wellness programs for our global employees, including on-site health centers in some of our major factories, which were increasingly critical this year for our essential workers who have worked on site since the start of the COVID-19 pandemic.

We promote a "zero-injury" culture through health and safety management systems, some of which are certified ISO 45001:2018, that implement a data-driven and risk-based approach in monitoring and reporting performance regularly. Some of the specific goals for which we measure our performance include increasing employee development, social and environmental management system audits, human rights policy training completion, Responsible Business Alliance ("RBA") compliance for rest day requirements and decreasing safety incident rates.

In response to the ongoing COVID-19 pandemic, we continued our contingency and resiliency plans that are encompassed in our business continuity programs. We continued enhanced health and safety measures across all facilities, as our foremost focus remains the health and safety of our employees. We modified practices at our manufacturing locations and offices to require personal protective equipment, sanitization measures, temperature checks, and social distancing. These measures enabled us to continue to conduct operations throughout the pandemic and have been recognized by several governments as a role model for employee safety.

Diversity, Equity and Inclusion. Diversity, equity and inclusion are key priorities and strengths at Flex and are embedded in the fabric of our culture. Our commitment to diversity is exemplified by the composition of our Board of which three of twelve directors are female and five of twelve directors are ethnically diverse.

In 2021, we continued our progress on improving diversity, equity and inclusion through employee programs. Our employee resources groups ("ERGs") work to create a community that fosters freedom of self, build cultural awareness, and develop a new generation of diverse leaders at Flex by establishing a sustainable structure with executive support that challenges bias and promotes unity. With over 10,000 members, the Company maintains ERG chapters worldwide across eight identities: Asian and Pacific Islander, Black, LatinX, LGBTQ+, People with Disabilities, Women, Women in Tech, and Veterans. These groups help to create a sense of belonging and support retention and attraction. Each ERG has an executive sponsor and is supported by senior leaders across the Company. The Company also held cultural awareness activities throughout the year to highlight specific groups including People with Disabilities, Black History Month, Asian Pacific Heritage Month, PRIDE Month, LatinX Heritage Month, and Women's History Month.

In partnership with McKinsey, we offered leadership development opportunities through their Management Accelerator and Executive Leadership Program to 45 Asian, 16 Black and 36 LatinX employees. We also enhanced SheLeads, our global leadership development program for women employees, offered leadership coaching to 20 of our top gender and ethnically diverse leaders, and continued to implement inclusive leadership training for people managers to, among other things, provide tools to help managers lead more inclusively and improve diversity in recruiting. Furthermore, we leveraged external community partnerships with organizations such as Catalyst, the Business Roundtable, the National Society of Black Engineers ("NSBE") and The Valuable 500, to amplify our impact in recruiting and retaining diverse talent.

As of March 31, 2022, women represent 43% of our global employees, and underrepresented minorities (those who identify as Black/African American, Hispanic/Latinx, Native American, Pacific Islander and/or two or more races) represent 47% of our U.S. employees. Approximately 19% of our executive team and approximately 22% of our leadership team (director level and above) are female. Approximately 23% of our executive team and approximately 32% of our U.S. leadership team (director level and above) are comprised of underrepresented minorities.

We established corporate goals to increase the number of employees and leaders from underrepresented groups and will continue to evolve these goals over time to improve representation. In developing these goals, we focused on hiring, retaining and promoting diversity across the organization. Additionally, we remain committed to parity in pay and opportunity.

Talent Attraction, Development, and Retention. Talent attraction, development, and retention are critical to our success and core to our mission as a company. To support the advancement of our employees, we provide training and development programs and opportunities encouraging advancement from within as well as continue to fill our team with strong and experienced external talent. We leverage both formal and informal programs, including in-person (as health and safety allows), virtual, social and self-directed learning, mentoring, coaching, and external development to identify, foster, and retain top talent. Employees have access to courses through our learning and development platform, Flex Learn. In 2021, 36,894 of our employees completed 1 million hours of training programs. Flex has undertaken initiatives to keep employees who are working from home engaged during COVID-19, including virtual learning programs and check-in sessions.

We are also focused on completing talent and performance reviews. Our in-depth talent reviews serve to identify high potential talent to advance in roles with greater responsibility, assess learning and development needs, and establish and refresh succession plans for critical leadership roles across the enterprise. Our performance review process promotes transparent communication of team member performance, which we believe is a key factor in our success. The performance and the talent reviews enable ongoing assessments, reviews, and mentoring to identify career development and learning opportunities for our employees.

As a part of our efforts to improve employee experiences at Flex, we conduct the annual enterprise-wide employee engagement Flex Voice survey. Our leadership uses the results of the survey to continue developing our strengths and measure opportunities for improvement. This year 85% of employees completed the Flex Voice survey and the results reflected increased enthusiasm and engagement.

Compensation and Benefits. Our total rewards are designed to attract, motivate and retain employees. Our compensation philosophy is driven by the desire to attract and retain top talent, while ensuring that compensation aligns with our corporate financial objectives and the long-term interests of our shareholders. Our pay structures offer competitive salaries, bonuses, and equity awards in the countries where we operate.

In each of the countries where we have operations, our comprehensive benefit plans offer a locally competitive mix of some or all of the following: medical, dental and vision insurance, short and long-term disability, flexible spending accounts, various types of voluntary coverage, and other benefit programs. We routinely benchmark our salaries and benefits against market peers to ensure our total rewards package remains competitive.

Board Oversight of Human Capital Management. The Compensation and People Committee of our Board of Directors is responsible for assisting the Board in oversight of our human capital management, including among other aspects, receiving periodic updates (not less than twice annually) regarding, and overseeing any significant change to, our human capital

management strategy including corporate culture, inclusion, pay and opportunity equity, diversity, social initiatives and results, and talent training, development and retention programs.

Additional Human Capital Management Information. Additional information regarding human capital management will be included in our proxy statement filed in connection with our 2022 Annual General Meeting and our upcoming sustainability report. The information in the sustainability report is not a part of this Annual Report on Form 10-K and is not incorporated by reference.

SUSTAINABILITY

At Flex, our sustainability journey began in 2002 with the creation of the Flex Foundation. For nearly 20 years, sustainability has been integrated into the fabric of our company, a key area of differentiation for Flex. In 2021, we refreshed our sustainability strategy with a new framework and joined the Science Based Targets initiative, a global movement comprised of leading companies working to reach the Paris Agreement's goal of limiting global temperature rise to 1.5°C above preindustrial levels. Our sustainability framework is centered on the world, our people and our approach to business practices. Through our 2030 goals, we are committed to reducing our environmental impact in partnership with customers and suppliers, advancing a safe, inclusive and respectful work environment for our employees, investing in our communities, and driving ESG-focused practices with transparency.

Our strategy and global efforts, through our sustainability programs and multi-year objectives, are aligned with the principles set forth in the 2030 Sustainable Development Goals ("SDGs"). For the last three years, we were named an Advanced member of the United Nations Global Compact ("UNGC"), the world's largest corporate sustainability initiative, showcasing our commitment to integrate sustainability throughout our company and across our entire supply chain. Our 2030 sustainability strategy includes our most ambitious goals to date and spans several environmental, social, and governance pillars. Several goals of note include cutting operational emissions in half, collaborating with customers and suppliers to reduce value chain emissions, increasing gender representation at the director-level and above, providing access to mental health and well-being services to all employees, and maintaining top quartile performance for governance and transparency. The Flex Social and Environmental framework is based upon the principles, policies, and standards prescribed by the RBA, a worldwide association of electronics companies committed to promoting an industry code of conduct to improve working and environmental, health and safety conditions, as well as other relevant international standards (e.g., ISO 14001, United Nations Guiding Principles on Business and Human Rights).

During calendar year 2021, we received several awards and accolades for our sustainability program and efforts including the RBA's Compass Award and Supply & Demand Chain Executive's Green Supply Chain Award. In addition, we received Ericsson's 2021 supplier award for our leadership in climate action.

Through the Flex Foundation, we work with nonprofits, community leaders and governments to promote inclusive and sustainable economic growth, employment, and decent work for all. We help protect the environment, support resource conservation and provide disaster relief. We accomplish this through grants, corporate and employee donations, and volunteerism. In calendar year 2021, the Flex Foundation partnered with several organizations, including the American Red Cross, World Wildlife Foundation, and Silicon Valley Education Foundation, among others, and provided nearly \$1.5 million in grant support to 48 local projects in 15 countries, four regional projects to support well-known organizations, including Give2Asia and Global Giving, and several NGOs that support minorities and the environment, globally.

Flex is committed to transparency in sustainability reporting. The Company has adhered to the Global Reporting Initiative since 2013 and has published an annual sustainability report each year since 2016. In 2021, we improved our rating from Morgan Stanley Capital International ("MSCI"), earning an AA, and maintained strong marks from CDP (formally known as Carbon Disclosure Project) for water security and climate change, receiving an A and A- respectively. The Company also aligned its last sustainability report to the Sustainability Accounting Standards Board framework.

More detailed information can be found in the Flex annual sustainability report located at <https://flex.com/company/our-sustainability>. The information in the sustainability report and on our sustainability webpage is not a part of this Annual Report on Form 10-K and is not incorporated by reference.

ENVIRONMENTAL RISKS AND CLIMATE CHANGE

Our operations, including past and present business operations as well as past and present ownership of real property, are subject to extensive and changing federal, state, local and international environmental, health and safety laws and regulations, concerning, among other things, the health and safety of our employees, the generation, use, storage, transportation, discharge and disposal of certain materials (including chemicals and hazardous materials) used in or derived from our operations, emissions or discharge of substances including pollutants into the air and water, and the investigation and remediation of contaminated sites. We have implemented processes and procedures aimed to ensure that our operations comply with all applicable environmental regulations.

We also comply with an increasing number of regulations concerning product safety and stewardship, packaging and labeling as well as product environmental compliance regulations focused on the restriction of certain hazardous substances, including:

- Restrictions on Hazardous Substances (“RoHS”) 2011/65/EU
- Waste Electrical and Electronic Equipment (“WEEE”) 2012/19/EU directives
- The regulation EC 1907/2006 EU Directive REACH (“Registration, Evaluation, Authorization, and Restriction of Chemicals”)
- China RoHS entitled, Management Methods for Controlling Pollution for Electronic Information Products (“EIPs”)

Moreover, climate change and other ESG-related laws, regulations, treaties, and similar initiatives and programs are being adopted and implemented throughout the world, many of which we will be required to comply with. As described above, we are committed to maintaining compliance with ESG-related laws applicable to our operations, products, and services.

We do not believe that costs of compliance with these environmental laws and regulations will have a material adverse effect on our capital expenditures, operating results, or competitive position. In addition, we are responsible for cleanup of contamination at some of our current and former manufacturing facilities and at some third-party sites. We engage environmental consulting firms to assist us in the evaluation of environmental liabilities associated with our ongoing operations, historical disposal activities, and closed sites in order to establish appropriate accruals in our financial statements. We determine the amount of our accruals for environmental matters by analyzing and estimating the probability of occurrence and the reasonable possibility of incurring costs in light of information currently available.

Compliance with environmental laws and regulations, including those concerning climate change and other ESG-related matters, requires continuing management efforts by the Company. The imposition of more stringent standards or requirements under these laws or regulations, the results of future testing and analysis undertaken by us at our operating facilities, or a determination that we are potentially responsible for the release of hazardous substances at other sites could result in expenditures in excess of amounts currently estimated to be required for such matters. Additionally, we could be required to alter our operations in order to comply with any new standards or requirements under environmental laws or regulations. There can be no assurance that additional environmental matters will not arise in the future or that costs will not be incurred with respect to sites as to which no issue is currently known.

Our business requires close collaboration with our customers and suppliers to mitigate risks of non-compliance with these laws and regulations. We have developed rigorous compliance programs designed to meet the needs and specifications of our customers as well as applicable regulations. These programs vary from collecting compliance or material data from our Flex controlled or managed suppliers to full laboratory testing. We include compliance requirements in our standard supplier contracts. Non-compliance could result in significant costs and/or penalties.

RoHS and other similar legislation ban or restrict the use of lead, mercury and certain other specified substances in electronics products and WEEE requires European Union (“EU”) importers and/or producers to assume responsibility for the collection, recycling and management of waste electronic products and components. In the case of WEEE, although the compliance responsibility rests primarily with the EU importers and/or producers rather than with electronic manufacturing services (“EMS”) companies, original equipment manufacturers (“OEM”) may turn to EMS companies for assistance in meeting their WEEE obligations. Flex continues to monitor developments related to product environmental compliance and is working with our customers and other technical organizations to anticipate and minimize impacts to our operations.

Refer to the discussion in “Risk Factors” for further details of the legal and regulatory initiatives related to environmental matters including climate change that could adversely affect our business, results of operations and financial condition.

INTELLECTUAL PROPERTY

We own or license various United States and foreign patents relating to a variety of technologies. For certain of our proprietary processes, inventions, and works of authorship, we rely on trade secret or copyright protection. We also maintain trademark rights (including registrations) for our corporate name and several other trademarks and service marks that we use in our business in the United States and other countries throughout the world. We have implemented appropriate policies and procedures (including both technological means and training programs for our employees) to identify and protect our intellectual property, as well as that of our customers and suppliers. As of March 31, 2022, and 2021, the carrying value of our intellectual property was not material.

Although we believe that our intellectual property assets and licenses are sufficient for the operation of our business as we currently conduct it, from time to time third parties assert patent infringement claims against us or our customers. In addition, we provide design and engineering services to our customers and also design and make our own products. As a consequence of these activities, our customers are sometimes requiring us to take responsibility for intellectual property to a greater extent than in our manufacturing and assembly businesses. If and when third parties make assertions regarding the ownership or right to use intellectual property, we could be required to either enter into licensing arrangements or to resolve the issue through litigation. Such license rights might not be available to us on commercially acceptable terms, if at all, and any such litigation might not be resolved in our favor. Additionally, litigation could be lengthy and costly and could materially harm our financial condition regardless of the outcome. We also could be required to incur substantial costs to redesign a product or re-perform design services. See "Risk Factors - *The success of certain of our activities depends on our ability to protect our intellectual property rights; claims of infringement or misuse of intellectual property and/or breach of license agreement provisions against our customers or us could harm our business.*"

ADDITIONAL INFORMATION

Our Internet address is <https://www.flex.com>. We make available through our Internet website the Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) of the Securities Exchange Act of 1934 as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission ("SEC").

We were incorporated in the Republic of Singapore in May 1990. Our principal corporate office is located at 2 Changi South Lane, Singapore 486123. Our U.S. corporate headquarters is located at 6201 America Center Drive, San Jose, CA 95002.

ITEM 1A. RISK FACTORS

Summary of Risk Factors

These statements reflect management's current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. Such factors include but are not limited to:

- Weak global economic conditions, geopolitical uncertainty (including the ongoing conflict between Russia and Ukraine) and instability in financial markets may adversely affect our business, results of operations, financial condition, and access to capital markets.
- We depend on industries that continually produce technologically advanced products with short product lifecycles and our business would be adversely affected if our customers' products are not successful or if our customers lose market share.
- Our customers may cancel their orders, change production quantities or locations, or delay production, and our current and potential customers may decide to manufacture some or all of their products internally, which could harm our business.
- Our industry is extremely competitive; if we are not able to continue to provide competitive products and services, we may lose business.
- A significant percentage of our sales comes from a small number of customers and a decline in sales to any of these customers could adversely affect our business.
- We have been and continue to be adversely affected by supply chain issues, including shortages of required electronic components, fluctuations in the pricing or availability of raw materials, and logistical constraints.
- We conduct operations in a number of countries and are subject to the risks inherent in international operations.

- The COVID-19 pandemic has materially and adversely affected our business and results of operations. The duration and extent to which it will continue to adversely impact our business and results of operations remains uncertain and could be material.
- Our components business is dependent on our ability to quickly launch world-class component products, and our investment in the development of our component capabilities, together with the start-up and integration costs necessary to achieve quick launches of world-class component products, may adversely affect our margins and profitability.
- Our exposure to financially troubled customers or suppliers may adversely affect our financial results.
- Our margins and profitability may be adversely affected due to substantial investments, start-up and production ramp costs in our design services.
- The success of certain of our activities depends on our ability to protect our intellectual property rights; claims of infringement or misuse of intellectual property and/or breach of license agreement provisions against our customers or us could harm our business.
- We are subject to risks relating to litigation and regulatory investigations and proceedings, which may have a material adverse effect on our business.
- We are subject to risks associated with changes in laws, regulations or policies that may adversely impact our business, including environmental protection laws and regulations, including those related to climate change.
- If we do not effectively manage changes in our operations, our business may be harmed; we have taken substantial restructuring charges in the past and we may need to take material restructuring charges in the future.
- A breach of our IT or physical security systems, or violation of data privacy laws, may cause us to incur significant legal and financial exposure and disrupt our operations.
- Our strategic relationships with major customers create risks.
- We may not meet regulatory quality standards applicable to our manufacturing and quality processes for medical devices, which could have an adverse effect on our business, financial condition or results of operations.
- We are subject to physical and operational risks from natural disasters, severe weather events, and climate change.
- If our products or components contain defects, demand for our services may decline and we may be exposed to product liability and product warranty liability.

Business and Operational Risks

Our customers may cancel their orders, change production quantities or locations, or delay production, any of which could harm our business; the short-term nature of our customers' commitments and rapid changes in demand may cause supply chain and other issues which could adversely affect our operating results.

Cancellations, reductions, or delays by a significant customer or by a group of customers have harmed, and may in the future harm, our results of operations by reducing the volumes of products we manufacture and deliver for those customers, by causing a delay in the repayment of our expenditures for inventory in preparation for customer orders and/or an impairment loss for inventory, and by lowering our asset utilization and overhead absorption resulting in lower gross margins and earnings.

As a provider of design and manufacturing services and components for electronics, we must provide increasingly rapid product turnaround times for our customers. We generally do not obtain firm, long-term purchase commitments from our customers, and we often experience reduced lead times in customer orders which may be less than the lead time we require to procure necessary components and materials.

The short-term nature of our customers' commitments and the rapid changes in demand for their products reduces our ability to accurately estimate the future requirements of our customers. This makes it difficult to schedule production and maximize utilization of our manufacturing capacity. In that regard, we must make significant decisions, including determining the levels of business that we will seek and accept, setting production schedules, making component procurement commitments, and allocating personnel and other resources based on our estimates of our customers' requirements.

On occasion, customers require rapid increases in production or require that manufacturing of their products be transitioned from one facility to another to reduce costs or achieve other objectives. These demands may stress our resources, cause supply chain management issues, and reduce our margins. We may not have sufficient capacity at any given time to meet

our customers' demands, and transfers from one facility to another can result in inefficiencies and costs due to excess capacity in one facility and corresponding capacity constraints at another. Many of our costs and operating expenses are relatively fixed, and thus customer order fluctuations, deferrals, and transfers of demand from one facility to another, as described above, have had a material adverse effect on our operating results in the past and we may experience such effects in the future.

A significant percentage of our sales come from a small number of customers and a decline in sales to any of these customers could adversely affect our business.

Sales to our ten largest customers represent a significant percentage of our net sales. Our ten largest customers accounted for approximately 34%, 36% and 39% of net sales in fiscal years 2022, 2021 and 2020, respectively. No customer accounted for more than 10% of net sales in fiscal year 2022, 2021 and 2020. Our principal customers have varied from year to year. These customers may experience dramatic declines in their market shares or competitive position, due to economic or other forces, that may cause them to reduce their purchases from us or, in some cases, result in the termination of their relationship with us. Significant reductions in sales to any of these customers, or the loss of major customers, would materially harm our business. If we are not able to replace expired, canceled or reduced contracts with new business in a timely manner, our revenues and profitability could be harmed. Additionally, mergers, acquisitions, consolidations or other significant transactions involving our key customers generally entail risks to our business. If a significant transaction involving any of our key customers results in the loss of or reduction in purchases by any of our largest customers, it could have a material adverse effect on our business, results of operations, financial condition and prospects.

Supply chain disruptions, manufacturing interruptions or delays, or the failure to accurately forecast customer demand, could affect our ability to meet customer demand, lead to higher costs, or result in excess or obsolete inventory. We have been and continue to be adversely affected by supply chain issues, including shortages of required electronic components.

From time to time, we have experienced shortages of some of the components, including electronic components, that we use. These shortages can result from strong demand for those components or from problems experienced by suppliers, such as shortages of raw materials. We have also experienced, and continue to experience, such shortages due to the effects of the COVID-19 pandemic. Most recently, we have experienced shortages of semiconductor components which has impacted our end markets. These unanticipated component shortages have and will continue to result in curtailed production or delays in production, which prevent us from making scheduled shipments to customers. Our failure or inability to accurately forecast demand and volatility in the availability of materials, equipment, components, and services, including rising prices due to inflation or scarcity of availability may adversely impact our business and results of operations.

Our inability to make scheduled shipments has caused and will continue to cause us to experience a reduction in sales, increase in inventory levels and costs, and could adversely affect relationships with existing and prospective customers. Component shortages may also increase our cost of goods sold because we may be required to pay higher prices for components in short supply and redesign or reconfigure products to accommodate substitute components. As a result, component shortages have adversely affected, and will continue to adversely affect, our operating results. Our customers also may experience component shortages which may adversely affect customer demand for our products and services. Our end markets have been and continue to be impacted by logistical constraints, with COVID-19 related restrictions contributing to a declining workforce, including at ports and warehouses, as well as driver shortages and increased freight and logistics costs around the world.

Our supply chain has been and will continue to be impacted by the COVID-19 pandemic, and may be impacted by other events outside our control, including macro-economic events, trade restrictions, political crises, social unrest, terrorism, and conflicts (including the Russian invasion of Ukraine), other public health emergencies, trade restrictions, or natural or environmental occurrences in locations where we or our customers and suppliers have manufacturing, research, engineering and other operations.

The ongoing COVID-19 pandemic has materially and adversely affected our business and results of operations. The duration and extent to which it will continue to adversely impact our business and results of operations remains uncertain and could be material.

The ongoing COVID-19 pandemic has resulted in a widespread public health crisis and numerous disease control measures being taken to limit its spread, including travel bans and restrictions, quarantines, shelter-in-place orders, and shutdowns. These measures have materially impacted and are continuing to impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. We have significant operations worldwide, including in China, Mexico, the United States, Brazil, India, Malaysia and Europe, and each of these geographies has been affected by the outbreak and has taken measures to try to contain it. This has resulted in disruptions at many of our manufacturing operations and facilities, and further disruptions could occur in the future. Most recently, with the lockdowns in China, we have been experiencing temporary plant closures and/or restrictions at certain of our manufacturing facilities in

China. Any such disruptions could materially adversely affect our business. There have been renewed disease control measures (most recently, in China) being taken to limit the spread including movement bans and shelter-in-place orders. We continue to closely monitor the situation in all the locations where we operate. The impact of the pandemic on our business has included and could in the future include:

- disruptions to or restrictions on our ability to ensure the continuous provision of our manufacturing services and solutions;
- temporary closures or reductions in operational capacity of our manufacturing facilities;
- temporary closures of our direct and indirect suppliers, resulting in adverse effects to our supply chain, and other supply chain disruptions, which adversely affect our ability to procure sufficient inventory to support customer orders;
- temporary shortages of skilled employees available to staff manufacturing facilities due to shelter-in-place orders and travel restrictions within as well as into and out of countries;
- restrictions or disruptions of transportation, such as reduced availability of air transport, port closures, and increased border controls or closures;
- increases in operational expenses and other costs related to requirements implemented to mitigate the impact of the pandemic;
- delays or limitations on the ability of our customers to perform or make timely payments;
- reductions in short- and long-term demand for our manufacturing services and solutions, or other disruptions in technology buying patterns;
- workforce disruptions due to illness, quarantines, governmental actions, other restrictions, and/or the social distancing measures we have taken to mitigate the impact of COVID-19 at our locations around the world in an effort to protect the health and well-being of our employees, customers, suppliers and of the communities in which we operate (including working from home, restricting the number of employees attending events or meetings in person, limiting the number of people in our buildings and factories at any one time, further restricting access to our facilities and suspending employee travel); and
- our management team continuing to commit significant time, attention and resources to monitoring the COVID-19 pandemic and seeking to mitigate its effects on our business and workforce.

The global spread of COVID-19 also has created significant macroeconomic uncertainty, volatility and disruption, which may continue to adversely affect our and our customers' and suppliers' liquidity, cost of capital and ability to access the capital markets. As a result, the continued spread of COVID-19 could cause further disruptions in our supply chain and customer demand, and could adversely affect the ability of our customers to perform, including making timely payments to us, which could further adversely impact our business, financial condition, and results of operations. The COVID-19 pandemic has, in the short-term, adversely impacted, and may, in the long-term, adversely impact the global economy, potentially leading to an economic downturn. In addition, various local, state and national governments and agencies issued various safety regulations and guidelines intended to prevent the transmission of COVID-19 in the workplace. These regulations are complex, costly to implement, subject to frequent change, and to audit and investigation by governmental authorities, including in the U.S. the Occupational Health and Safety Administration ("OSHA"), state counterparts, and local health departments. Any failure by us to materially comply with COVID-19-related safety rules and regulations in any of its facilities could result in sanctions, fines, as well as negative publicity for us. Recently, two executive orders were issued mandating that U.S. employees of our manufacturing facilities be vaccinated against COVID-19 (or tested weekly). Although the implementation of these executive orders was stayed by the Supreme Court on January 13, 2022, and OSHA withdrew the rules on January 25, 2022, it is currently not possible to predict the development and impact of future COVID-19-related safety rules and regulations with certainty. Even after the COVID-19 pandemic has subsided, we may continue to experience adverse impacts to our business as a result of the pandemic's global economic impact, including any recession, economic downturn, government spending cuts, tightening of credit markets or increased unemployment that has occurred or may occur in the future, which could cause our customers and potential customers to postpone or reduce spending on our manufacturing services and solutions.

The extent to which the COVID-19 pandemic will continue to impact our business and financial results going forward will be dependent on future developments such as the length and severity of the crisis, the potential resurgence of COVID-19 in the future including the emergence of more contagious or vaccine-resistant variants of the virus, the availability and distribution of effective treatments and vaccines, and public health measures and actions taken throughout the world to contain COVID-19, and the overall impact of the COVID-19 pandemic on the global economy and capital markets, among many other factors, all of which remain highly uncertain and unpredictable. We cannot at this time quantify or forecast the business impact of

COVID-19, and there can be no assurance that the COVID-19 pandemic will not have a material and adverse effect on our business, financial results and financial condition. In addition, the COVID-19 pandemic increases the likelihood and potential severity of other risks described in this “Risk Factors” section.

Our components business is dependent on our ability to quickly launch world-class component products, and our investment in the development of our component capabilities, together with start-up and integration costs, may adversely affect our margins and profitability.

Our components business, which includes power supply manufacturing, is part of our strategy to improve our competitive position and to grow our future margins, profitability and shareholder returns by expanding our capabilities. The success of our components business is dependent on our ability to design and introduce world-class components that have performance characteristics which are suitable for a broad market and that offer significant price and/or performance advantages over competitive products.

To create these world class components offerings, we must continue to make substantial investments in the development of our components capabilities, in resources such as research and development, technology licensing, test and tooling equipment, facility expansions, and personnel requirements. We may not be able to achieve or maintain market acceptance for any of our components offerings in any of our current or target markets. The success of our components business will also depend upon the level of market acceptance of our customers' end products, which incorporate our components, and over which we have no control.

Our margins and profitability may be adversely affected due to substantial investments, start-up and production ramp costs in our design services.

As part of our strategy to enhance our end-to-end service offerings, we continue to expand our design and engineering capabilities. Providing these services can expose us to different or greater potential risks than those we face when providing our manufacturing services.

Although we enter into contracts with our design services customers, we may design and develop products for these customers prior to receiving a purchase order or other firm commitment from them. We are required to make substantial investments in the resources necessary to design and develop these products, and no revenue may be generated from these efforts if our customers do not approve the designs in a timely manner or at all. In addition, we may make investments in designing products and not be able to design viable manufacturable products, in which cases we may not be able to recover our investments. Even if we are successful in designing manufacturable products and our customers accept our designs, if our customers do not then purchase anticipated levels of products, we may not realize any profits. Our design activities often require that we purchase inventory for initial production runs before we have a purchase commitment from a customer. Even after we have a contract with a customer with respect to a product, these contracts may allow the customer to delay or cancel deliveries and may not obligate the customer to any particular volume of purchases. These contracts can generally be terminated on short notice. In addition, some of the products we design and develop must satisfy safety and regulatory standards and some must receive government certifications. If we fail to obtain these approvals or certifications on a timely basis, we would be unable to sell these products, which would harm our sales, profitability and reputation.

Our design services offerings require significant investments in research and development, technology licensing, test and tooling equipment, patent applications, facility building and expansion, and recruitment. We may not be able to achieve a high enough level of sales for this business to be profitable. The costs of investing in the resources necessary to expand our design and engineering capabilities, and in particular to support our design services offerings, have historically adversely affected our profitability, and may continue to do so as we continue to make investments to grow these capabilities.

In addition, we often agree to certain product price limitations and cost reduction targets in connection with these services. Inflationary and other increases in the costs of the raw materials and labor required to produce the products have occurred and may recur from time to time. Also, the production ramps for these programs are typically significant and negatively impact our margin in early stages as the manufacturing volumes are lower and result in inefficiencies and unabsorbed manufacturing overhead costs. We may not be able to reduce costs, incorporate changes in costs into the selling prices of our products, or increase operating efficiencies as we ramp production of our products, which would adversely affect our margins and our results of operations.

If we do not effectively manage changes in our operations, our business may be harmed; we have taken substantial restructuring charges in the past and we may need to take material restructuring charges in the future.

The expansion of our business, as well as business contractions and other changes in our customers' requirements, including as a result of COVID-19, have in the past, and may in the future, require that we adjust our business and cost structures by incurring restructuring charges. Restructuring activities involve reductions in our workforce at some locations and

closure of certain facilities. All of these changes have in the past placed, and may in the future place, considerable strain on our financial and management control systems and resources, including decision support, accounting management, information systems and facilities. If we do not properly manage our financial and management controls, reporting systems and procedures to manage our employees, our business could be harmed.

In recent years, including fiscal years 2022, 2021, and 2020, we initiated targeted restructuring activities focused on optimizing our portfolio, in particular customers and products in our consumer devices business, optimizing our cost structure in lower growth areas and, more importantly, streamlining certain corporate and segment functions. Restructuring charges are recorded based upon employee termination dates, site closure and consolidation plans generally in conjunction with an overall corporate initiative to drive cost reduction and realign the Company's global footprint.

We may be required to take additional charges in the future to align our operations and cost structures with global economic conditions, market demands, cost competitiveness, and our geographic footprint as it relates to our customers' production requirements and in response to the economic challenges in light of recent events with COVID-19. We may consolidate certain manufacturing facilities or transfer certain of our operations to lower cost geographies. If we are required to take additional restructuring charges in the future, our operating results, financial condition, and cash flows could be adversely impacted. Additionally, there are other potential risks associated with our restructurings that could adversely affect us, such as delays encountered with the finalization and implementation of the restructuring activities, work stoppages, and the failure to achieve targeted cost savings.

A breach of our IT or physical security systems, or violation of data privacy laws, may cause us to incur significant legal and financial exposure.

We are increasingly reliant on our information systems to process, transmit and store electronic information (including sensitive data such as confidential business information and personally identifiable information relating to employees, customers, and other business partners), and to manage or support a variety of critical business processes and activities. In particular, the COVID-19 pandemic has caused us to modify our business practices, including requiring or permitting many of our office-based employees to work from home. As a result, we are increasingly dependent upon our information systems to operate our business and our ability to effectively manage our business depends on the security, reliability and adequacy of our information systems.

We regularly face attempts by sophisticated actors to gain unauthorized access through the Internet or to introduce malicious software to our information systems, including those using techniques that change frequently or may be disguised or difficult to remain dormant until a triggering event or that may continue undetected for an extended period of time. We are also a target of malicious attackers who attempt to gain access to our network or data centers or those of our customers or end users, steal proprietary information related to our business, products, employees, and customers; or interrupt our systems and services or those of our customers or others. We believe such attempts are increasing in number and in technical sophistication. There has been a rise in ransomware and other "cyber attacks", along with power outages or hardware failures, which, if we are subject to, could have material adverse effects. Due to the political uncertainty and military actions involving Russia, Ukraine and surrounding regions, we and the third parties upon which we rely may be vulnerable to a currently heightened risk of information technology breaches, computer malware or other cyber attacks, including attacks that could materially disrupt our systems and operations, supply chain and ability to produce, sell and distribute our products.

In some instances, we, our customers, and the users of our products and services might be unaware of an incident or its magnitude and effects. We have implemented security systems with the intent of maintaining and protecting the physical security of our facilities and inventory and protecting our customers' and our suppliers' confidential information. In addition, while we seek to detect and investigate all unauthorized attempts and attacks against our network, products, and services, and to prevent their recurrence where practicable through changes to our internal processes and tools, we are subject to, and at times have suffered from, breach or attempted breach of these security systems which have in the past and may in the future result in unauthorized access to our facilities and/or unauthorized acquisition, use or theft of the inventory or information we are trying to protect. If unauthorized parties gain physical access to our inventory or if they gain electronic access to our information systems or if such information or inventory is used in an unauthorized manner, misdirected, or lost or stolen during transmission or transport, any theft or misuse of such information or inventory could result in, among other things, unfavorable publicity, governmental inquiry and oversight, difficulty in marketing our services, allegations by our customers that we have not performed our contractual obligations, litigation by affected parties including our customers and possible financial obligations for damages related to the theft or misuse of such information or inventory, any of which could have a material adverse effect on our profitability and cash flow. These risks are likely to be elevated in times of geopolitical instability and escalated tensions between countries.

In addition, data privacy laws and regulations, including the European Union General Data Protection Regulation ("GDPR"), the UK GDPR, ePrivacy Directive, Singapore's Personal Data Protection Act, and other privacy and data security

laws throughout the Asia Pacific region and across the globe pose increasingly complex compliance challenges, which may increase compliance costs, and any failure to comply with data privacy laws and regulations could result in significant penalties. Additionally, many U.S. states including California, Virginia, Colorado and Utah recently enacted legislation, and associated regulations and it is anticipated that many more states will enact similar legislation and/or release additional regulations. The California Consumer Privacy Act (“CCPA”), became effective January 1, 2020 and was further amended by the California Privacy Rights Act, or CPRA, on November 3, 2020. The CCPA and CPRA, among other requirements, require covered companies to provide new rights and disclosures to California consumers, and allow such consumers abilities to opt-out of certain sales of personal information and other activities and will create a new regulatory enforcement body. These potential new regulations and avenues for enforcement could result in among other things, government inquiries, which could result in significant penalties, Additionally, new privacy laws and regulations are under development at the U.S. Federal and state level and many international jurisdictions.

The effects of the GDPR, the CPRA and other state laws and other data privacy laws and regulations, including the many international privacy laws, may be significant, and may require us to modify our data processing practices and policies and to incur substantial costs and expenses in an effort to comply. Any actual or perceived failures to comply with these laws or regulations, or related contractual or other obligations, or any perceived privacy rights violation, could lead to investigations, claims, and proceedings by governmental entities and private parties, damages for contract breach, and other significant costs, penalties, and other liabilities, as well as harm to our reputation and market position. The GDPR, U.S. state laws and other laws and self-regulatory codes may affect our ability to reach current and prospective customers, to understand how our solutions and services are being used, to respond to customer requests allowed under the laws, and to implement our business strategy effectively. These laws and regulations could similarly affect our customers.

Our strategic relationships with major customers create risks.

In the past, we have completed numerous strategic transactions with customers. Under these arrangements, we generally acquire inventory, equipment and other assets from the customers, and lease or acquire their manufacturing facilities, while simultaneously entering into multi-year manufacturing and supply agreements for the production of their products. We may pursue these customer divestiture transactions in the future. These arrangements entered into with divesting customers typically involve many risks, including the following:

- we may need to pay a purchase price to the divesting customers that exceeds the value we ultimately may realize from the future business of the customer;
- the integration of the acquired assets and facilities into our business may be time-consuming and costly, including the incurrence of restructuring charges;
- we, rather than the divesting customer, bear the risk of excess capacity at the facility;
- we may not achieve anticipated cost reductions and efficiencies at the facility;
- we may be unable to meet the expectations of the customer as to volume, product quality, timeliness and cost reductions;
- our supply agreements with the customers generally do not require any minimum volumes of purchase by the customers, and the actual volume of purchases may be less than anticipated; and
- if demand for the customers' products declines, the customer may reduce its volume of purchases, and we may not be able to sufficiently reduce the expenses of operating the facility or use the facility to provide services to other customers.

As a result of these and other risks, we have been, and in the future may be, unable to achieve anticipated levels of profitability under these arrangements. In addition, these strategic arrangements have not, and in the future may not, result in any material revenues or contribute positively to our earnings per share.

We may encounter difficulties with acquisitions and divestitures, which could harm our business.

We have completed numerous acquisitions of businesses, including the recent acquisition of Anord Mardix, and we may acquire additional businesses in the future. Any future acquisitions may require additional equity financing, which could be dilutive to our existing shareholders, or additional debt financing, which could increase our leverage and potentially affect our credit ratings. Any downgrades in our credit ratings associated with an acquisition could adversely affect our ability to borrow by resulting in more restrictive borrowing terms. As a result of the foregoing, we also may not be able to complete acquisitions or strategic customer transactions in the future to the same extent as in the past, or at all.

To integrate acquired businesses, we must implement our management information systems, operating systems and internal controls, and assimilate and manage the personnel of the acquired operations. The difficulties of this integration may be further complicated by geographic distances. The integration of acquired businesses may not be successful and could result in disruption to other parts of our business. In addition, the integration of acquired businesses may require that we incur significant restructuring charges.

In addition, acquisitions involve numerous risks and challenges, including:

- diversion of management's attention from the normal operation of our business;
- potential loss of key employees and customers of the acquired companies;
- difficulties managing and integrating operations in geographically dispersed locations;
- the potential for deficiencies in internal controls at acquired companies;
- increases in our expenses and working capital requirements, which reduce our return on invested capital;
- lack of experience operating in the geographic market or industry sector of the acquired business;
- cybersecurity and compliance related issues;
- initial dependence on unfamiliar supply chain or relatively small supply chain partners; and
- exposure to unanticipated liabilities of acquired companies.

In addition, divestitures involve significant risks, including without limitation, difficulty finding financially sufficient buyers or selling on acceptable terms in a timely manner, and the agreed-upon terms could be renegotiated due to changes in business or market conditions. Divestitures could adversely affect our profitability and, under certain circumstances, require us to record impairment charges or a loss as a result of the transaction. In addition, completing divestitures requires expenses and management attention and could leave us with certain continuing liabilities.

These and other factors have harmed, and in the future could harm, our ability to achieve anticipated levels of profitability at acquired operations or realize other anticipated benefits of an acquisition or divestiture, and could adversely affect our business and operating results.

We are pursuing alternatives for our Nextracker business, including a full or partial separation of the business, through an initial public offering of Nextracker or otherwise, which may not be consummated as or when planned or at all, and may not achieve the intended benefits.

We are pursuing alternatives for our Nextracker business, including a full or partial separation of the business, through an initial public offering of Nextracker or otherwise. The proposed separation of our Nextracker business may not be consummated as currently contemplated or at all, or may encounter unanticipated delays. If we are unable to consummate a transaction on favorable terms or at all, we may experience negative reactions from the financial markets and from our shareholders and employees. Planning a separation requires significant time, effort, and expense, may divert the attention of our management and employees from other aspects of our business operations and could adversely affect the business, financial condition, results of operations and cash flows of us and our Nextracker business. In addition, if we complete the proposed separation, there can be no assurance that we will be able to realize the intended benefits. Following a potential separation, the combined value of the two publicly-traded companies may not be equal to or greater than what the value of our ordinary shares would have been had the potential separation not occurred.

Our operating results may fluctuate significantly due to seasonal demand.

Two of our significant end markets are the lifestyle market and the consumer devices market. These markets exhibit particular strength generally in the two quarters leading up to the end of the calendar year in connection with the holiday season. As a result, we have historically experienced stronger revenues in our second and third fiscal quarters as compared to our other fiscal quarters. Economic or other factors leading to diminished orders in the end of the calendar year could harm our business.

We depend on our executive officers and skilled personnel.

Our success depends to a large extent upon the continued services of our executive officers and other key employees. Generally, our employees are not bound by employment or non-competition agreements, and we cannot assure you that we will retain our executive officers and other key employees. We could be seriously harmed by the loss of any of our executive officers or other key employees. In addition, in connection with expanding our design services offerings, we must attract and

retain experienced design engineers. There is substantial competition in our industry for highly skilled employees. Additionally, hiring, training and retaining skilled employees may be adversely impacted by global economic uncertainty and office closures caused by COVID-19. Our failure to recruit and retain experienced design engineers, or if they are unable to work effectively or at all due to the COVID-19 pandemic, could limit the growth of our design services offerings, which could adversely affect our business. There also is the risk that we will be unable to achieve our diversity, equity and inclusion objectives and goals or meet the related requirements of our shareholders and other stakeholders.

Catastrophic events could have a material adverse effect on our operations and financial results.

Our operations or systems could be disrupted by natural disasters, terrorist activity, public health issues (including the COVID-19 pandemic), cybersecurity incidents, interruptions of service from utilities, political crises and conflicts (including the Russian invasion of Ukraine), transportation or telecommunications providers, or other catastrophic events. Such events could make it difficult or impossible to manufacture or deliver products to our customers, receive production materials from our suppliers, or perform critical functions, which could adversely affect our revenue and require significant recovery time and expenditures to resume operations. While we maintain business recovery plans that are intended to allow us to recover from natural disasters or other events that can be disruptive to our business, some of our systems are not fully redundant and we cannot be sure that our plans will fully protect us from all such disruptions.

We maintain a program of insurance coverage for a variety of property, casualty, and other risks. We place our insurance coverage with multiple carriers in numerous jurisdictions. However, one or more of our insurance providers may be unable or unwilling to pay a claim. The types and amounts of insurance we obtain vary depending on availability, cost, and decisions with respect to risk retention. The policies have deductibles and exclusions that result in us retaining a level of self-insurance. Losses not covered by insurance may be large, which could harm our results of operations and financial condition.

Our business could be adversely affected by any delays, or increased costs, resulting from issues that our common carriers are dealing with in transporting our materials, our products, or both.

Given the complexity of our supply chain and our geographically dispersed operations, we depend on a variety of common carriers to transport our materials from our suppliers to us, and to transport our products from us to our customers. Problems suffered by any of these common carriers, whether due to geopolitical issues, the COVID-19 pandemic, a natural disaster, labor problems, increased energy prices, criminal activity or some other issue, could result in shipping delays, increased costs, or other supply chain disruptions, and could therefore have a material adverse effect on our operations.

Industry Risks

We depend on industries that continually produce technologically advanced products with short product lifecycles and our business would be adversely affected if our customers' products are not successful or if our customers lose market share.

We derive our revenue from customers in a number of end markets and factors affecting any of these industries in general or our customers in particular, could adversely impact us. These factors include:

- rapid changes in technology, evolving industry standards, and requirements for continuous improvement in products and services that result in short product lifecycles;
- demand for our customers' products may be seasonal;
- our customers may fail to successfully market their products, and our customers' products may fail to gain widespread commercial acceptance;
- our customers' products may have supply chain issues, including as a result of the COVID-19 pandemic;
- our customers may experience dramatic market share shifts in demand which may cause them to lose market share or exit businesses; and
- a negative impact of the COVID-19 pandemic on our customers or on the demand for our customers' products.

Our industry is extremely competitive; if we are not able to continue to provide competitive services, we may lose business.

We compete with a number of different companies, depending on the type of service we provide or the location of our operations. For example, we compete with major global EMS providers, other smaller EMS companies that have a regional or product-specific focus and Original Design Manufacturers ("ODMs") with respect to some of the services that we provide. We also compete with our current and prospective customers, who evaluate our capabilities in light of their own capabilities and cost structures. In the past, some of our customers moved a portion of their manufacturing from us in order to more fully utilize their excess internal manufacturing capacity. Any of these developments could cause a decline in our sales, loss of market

acceptance of our products or services, decreases of our profits or loss of our market share. Our industry is extremely competitive, many of our competitors have achieved substantial market share, and some may have lower cost structures or greater design, manufacturing, financial or other resources than we do. We face particular competition from Asian-based competitors, including Taiwanese ODM suppliers who compete in a variety of our end markets and have a substantial share of global information technology hardware production. If we are unable to provide comparable manufacturing services and improved products at lower cost than the other companies in our market, our net sales could decline.

Financial Risks

Our goodwill and identifiable intangible assets could become impaired, which could reduce the value of our assets and reduce our net income in the year in which the write-off occurs.

Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets acquired. We also ascribe value to certain identifiable intangible assets, which consist primarily of customer relationships, developed technology and trade names, among others, as a result of acquisitions. We may incur impairment charges on goodwill or identifiable intangible assets if we determine that the fair values of goodwill or identifiable intangible assets are less than their current carrying values. We evaluate, on a regular basis, whether events or circumstances have occurred that indicate all, or a portion, of the carrying amount of goodwill may no longer be recoverable, in which case an impairment charge to earnings would become necessary.

If the financial performance of our businesses were to decline significantly as a result of the COVID-19 pandemic, we could incur a material non-cash charge to our income statement for the impairment of goodwill and other intangible assets.

Refer to note 2 to the consolidated financial statements and "Critical Accounting Policies" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" for further discussion of the impairment testing of goodwill and identifiable intangible assets.

A decline in general economic conditions or global equity valuations could impact the judgments and assumptions about the fair value of our businesses and we could be required to record impairment charges on our goodwill or other identifiable intangible assets in the future, which could impact our consolidated balance sheet, as well as our consolidated statement of operations. If we are required to recognize an impairment charge in the future, the charge would not impact our consolidated cash flows, liquidity, capital resources, and covenants under our existing credit facilities, asset securitization program, and other outstanding borrowings.

Our debt level may create limitations.

As of March 31, 2022, our total debt was approximately \$4.2 billion. This level of indebtedness could limit our flexibility as a result of debt service requirements and restrictive covenants, and may limit our ability to access additional capital or execute our business strategy.

Our exposure to financially troubled customers or suppliers may adversely affect our financial results.

We provide manufacturing services to companies and industries that have in the past, and may in the future, experience financial difficulty. If some of our customers experience financial difficulty, we could have difficulty recovering amounts owed to us by these customers, or demand for our products from these customers could decline. Additionally, if our suppliers experience financial difficulty, we could have difficulty sourcing supplies necessary to fulfill production requirements and meet scheduled shipments. If one or more of our customers were to become insolvent or otherwise were unable to pay for the services provided by us on a timely basis, or at all, our operating results and financial condition could be adversely affected. Such adverse effects could include one or more of the following: an increase in our provision for doubtful accounts, a charge for inventory write-offs, a reduction in revenue, and an increase in our working capital requirements due to higher inventory levels and increases in days our accounts receivables are outstanding. Any of these risks may be heightened by the effects of the COVID-19 pandemic.

The market price of our ordinary shares is volatile.

The stock market in recent years has experienced significant price and volume fluctuations that have affected the market prices of companies, including technology companies. These fluctuations have often been unrelated to or disproportionately impacted by the operating performance of these companies. The market for our ordinary shares has been and may in the future be subject to similar volatility. Factors such as fluctuations in our operating results, announcements of technological innovations or events affecting other companies in the electronics industry, currency fluctuations, general market fluctuations, and macro-economic conditions may cause the market price of our ordinary shares to decline. Stock price fluctuations could impact the value of our equity compensation, which could affect our ability to recruit and retain employees.

Changes in our credit rating may make it more expensive for us to raise additional capital or to borrow additional funds. We are also exposed to interest rate fluctuations on our outstanding borrowings and investments.

Our credit is rated by credit rating agencies. Our 5.000% Notes due 2023, our 4.750% Notes due 2025, our 3.750% Notes due 2026, our 4.875% Notes due 2029 and our 4.875% Notes due 2030 are currently rated BBB- by Standard and Poor's ("S&P") which is considered to be "investment grade" by S&P, rated Baa3 by Moody's which is considered to be "investment grade" by Moody's, and rated BBB- by Fitch which is considered to be "investment grade" by Fitch. Any decline in our credit rating may make it more expensive for us to raise additional capital in the future on terms that are acceptable to us, if at all, negatively impact the price of our ordinary shares, increase our interest payments under some of our existing debt agreements, and have other negative implications on our business, many of which are beyond our control. In addition, the interest rate payable on some of our credit facilities is subject to adjustment from time to time if our credit ratings change. Thus, any potential future negative change in our credit rating may increase the interest rate payable on these credit facilities.

In addition, we are exposed to interest rate risk under our variable rate terms loans, bilateral facilities and revolving credit facility for indebtedness we have incurred or may incur under such facilities. The interest rates on our borrowings under our revolving credit facility may be based on either (i) a margin over LIBOR or (ii) the base rate (the greatest of the agent's prime rate, the federal funds rate plus 0.50% and LIBOR for a one-month interest period plus 1.00%) plus an applicable margin, in each case depending on our credit rating, and other borrowings also may be based on LIBOR. Refer to the discussion in note 9 to the consolidated financial statements, "Bank Borrowings and Long-Term Debt" for further details of our debt obligations. We are also exposed to interest rate risk on our invested cash balances, our securitization facilities and our factoring activities.

In addition, the U.K.'s Financial Conduct Authority, which regulates LIBOR, announced the publication cessation dates for all U.S. Dollar and non-U.S. Dollar LIBOR settings. Most settings ceased at the end of December 2021 and the remaining U.S. Dollar settings (overnight and one-, three-, six- and twelve-month U.S. Dollar LIBOR) will cease at the end of June 2023. Although significant progress has been made by regulators, industry bodies, and market participants to introduce and implement the Secured Overnight Financing Rate ("SOFR") as a replacement rate for U.S. Dollar LIBOR, there is no assurance that an alternative reference rate such as SOFR will achieve sufficient market acceptance when the publication of the principal tenors of U.S. Dollar LIBOR is discontinued, or that market participants will otherwise implement effective transitional arrangements to address that discontinuation. Such failure to implement an alternative reference rate could result in widespread dislocation in the financial markets and volatility in the pricing of debt facilities negatively affecting our access to the borrowing of additional funds. Furthermore, while contractual arrangements in connection with certain of our debt facilities contemplate the transition from LIBOR to an alternative reference rate (including SOFR), the consequences of such transition cannot be entirely predicted and could result in an increase in the cost of our borrowings on our variable rate debt, which could adversely impact our interest expense, results of operations, and cash flows.

We are subject to risks associated with investments.

We invest in private funds and companies for strategic reasons and may not realize a return on our investments. We make investments in private funds and companies to further our strategic objectives, support key business initiatives, and develop business relationships with related portfolio companies. Many of the instruments in which we invest are non-marketable at the time of our initial investment. If any of the funds or companies in which we invest fail, we could lose all or part of our investment. From time-to-time we have identified observable price changes, or impairments in investments, and we have written down investments' fair values and recognized a loss.

Changes in financial accounting standards or policies have affected, and in the future may affect, our reported financial condition or results of operations.

We prepare our financial statements in conformity with U.S. GAAP. These principles are subject to interpretation by the Financial Accounting Standards Board (FASB), the American Institute of Certified Public Accountants (AICPA), the SEC and various bodies formed to interpret and create accounting policies. For example, significant changes to lease accounting rules have been enacted and applied to us in fiscal year 2020 per Accounting Standard Update ("ASU") 2016-02 "Leases." Changes to accounting rules or challenges to our interpretation or application of the rules by regulators may have a material adverse effect on our reported financial results or on the way we conduct business. Refer to "Recently Adopted Accounting Pronouncements" within note 2 of Item 8, Financial Statements and Supplementary Data.

International Risks

Weak global economic conditions, geopolitical uncertainty and instability in financial markets may adversely affect our business, results of operations, financial condition, and access to capital markets.

Our operations and the execution of our business plans and strategies are subject to the effects of global economic trends, geopolitical risks and demand or supply shocks from events that could include political crises and conflict (including the

Russian invasion of Ukraine), war, a major terrorist attack, natural disasters or actual or threatened public health emergencies (such as COVID-19, including virus variants and resurgences and responses to those developments such as continued or new government-imposed lockdowns and travel restrictions). They are also affected by local and regional economic environments, supply chain constraints and policies in the U.S. and other markets that we serve, including interest rates, monetary policy, inflation, economic growth, recession, commodity prices, currency volatility, currency controls or other limitations on the ability to expatriate cash, sovereign debt levels and actual or anticipated defaults on sovereign debt. For example, the ongoing conflict between Russia and Ukraine and the related sanctions and other measures imposed by the European Union, the U.S. and other countries and organizations in response have led, and may continue to lead, to disruption and instability in global markets, supply chains and industries that could negatively impact our businesses, financial condition and results of operations. Additionally, changes in local economic conditions or outlooks, such as lower rates of investment or economic growth in China, Europe or other key markets, affect the demand for or profitability of our products and services outside the U.S., and the impact on the Company could be significant given the extent of our activities outside the United States. Political changes and trends such as populism, protectionism, economic nationalism and sentiment toward multinational companies and resulting tariffs, export controls or other trade barriers, or changes to tax or other laws and policies, have been and may continue to be disruptive and costly to our businesses, and these can interfere with our global operating model, supply chain, production costs, customer relationships and competitive position. Further escalation of specific trade tensions, including intensified decoupling between the U.S. and China, or in global trade conflict more broadly could be harmful to global economic growth or to our business in or with China or other countries, and related decreases in confidence or investment activity in the global markets would adversely affect our business performance. We also do business in many emerging market jurisdictions where economic, political and legal risks are heightened. Further, an increase in inflation rates, such as those the market is currently experiencing, could affect our profitability and cash flows, due to higher wages, higher operating costs, higher financing costs, and/or higher supplier prices. Inflation may also adversely affect foreign exchange rates. We may be unable to pass along such higher costs to our customers. In addition, Inflation may adversely affect customers' financing costs, cash flows, and profitability, which could adversely impact their operations and our ability to collect receivables.

These conditions may result in reduced consumer and business confidence and spending in many countries, a tightening in the credit markets, a reduced level of liquidity in many financial markets, high volatility in credit, fixed income and equity markets, currency exchange rate fluctuations, and global economic uncertainty. In addition, longer term disruptions in the capital and credit markets could adversely affect our access to liquidity needed for our business. If financial institutions that have extended credit commitments to us are adversely affected by the conditions of the U.S. and international capital markets, they may become unable to fund borrowings under their credit commitments to us, which could have an adverse impact on our financial condition and our ability to borrow additional funds, if needed, for working capital, capital expenditures, acquisitions, research and development and other corporate purposes.

We conduct operations in a number of countries and are subject to the risks inherent in international operations.

The geographic distances between the Americas, Asia and Europe create a number of logistical and communications challenges for us. These challenges include managing operations across multiple time zones, directing the manufacture and delivery of products across long distances, coordinating procurement of components and raw materials and their delivery to multiple locations, and coordinating the activities and decisions of the core management team, which is based in a number of different countries.

Facilities in several different locations may be involved at different stages of the production process of a single product, leading to additional logistical difficulties.

Because our manufacturing operations are located in a number of countries throughout the Americas, Asia and Europe, we are subject to risks of changes in economic, social and political conditions in those countries, including:

- fluctuations in the value of local currencies;
- labor unrest, difficulties in staffing and geographic labor shortages;
- longer payment cycles;
- cultural differences;
- increases in duties, tariffs, and taxation levied on our products including anti-dumping and countervailing duties;
- trade restrictions including limitations on imports or exports of components or assembled products, unilaterally or bilaterally;
- trade sanctions and related regulatory enforcement actions and other proceedings;

- potential trade wars;
- increased scrutiny by the media and other third parties of labor practices within our industry (including but not limited to forced labor and adverse working conditions) which may result in allegations of violations, more stringent and burdensome labor laws and regulations and inconsistency in the enforcement and interpretation of such laws and regulations, higher labor costs, increased risk of cross-border cargo being detained or seized and/or loss of revenues if our customers become dissatisfied with our labor practices and diminish or terminate their relationship with us;
- inflationary pressures, such as those the market is currently experiencing, which may increase costs for materials, supplies, and services;
- imposition of restrictions on currency conversion or the transfer of funds;
- environmental protection laws and regulations, including those related to climate change;
- expropriation of private enterprises;
- ineffective legal protection of our intellectual property rights in certain countries;
- natural disasters;
- exposure to infectious disease, epidemics and pandemics, including the effects of the COVID-19 pandemic, on our business operations in geographic locations impacted by the outbreak and on the business operations of our customers and suppliers;
- inability of international customers and suppliers to obtain financing resulting from tightening of credit in international financial markets;
- government shutdowns, lockdowns and quarantines due to COVID-19, which may result in temporary closure of facilities or slowdowns in production;
- ongoing global supply chain disruptions, slowing the ability of our facilities to import necessary materials and export our products;
- political unrest; and
- a potential reversal of current favorable policies encouraging foreign investment or foreign trade by our host countries.

We operate in a number of different countries and jurisdictions, and we cannot anticipate the potential impact that new or current restrictions in each of these countries or jurisdictions due to COVID-19 may have on our manufacturing operations and facilities, our supply chain, and our business more generally.

The attractiveness of our services to customers and our ability to conduct business with certain customers can be affected by changes in U.S. and other countries' trade policies. In 2018, the U.S. imposed tariffs on a large variety of products of Chinese origin. The U.S. government also, effective May 10, 2019, increased tariffs on \$200 billion of Chinese goods to 25%. Further, on May 15, 2019, President Trump issued an executive order designed to secure the information and communications technology and services supply chain, which would restrict the acquisition or use in the United States of information and communications technology or services designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of foreign adversaries. The executive order is subject to implementation by the Secretary of Commerce and applies to contracts entered into prior to the effective date of the order. In addition, the U.S. Commerce Department has implemented additional restrictions and may implement further restrictions that would affect the conduct of business with certain Chinese companies. A "phase one" trade deal signed between the U.S. and China on January 15, 2020 accompanied a U.S. decision to cancel a plan to increase tariffs on an additional list of Chinese products and to reduce the tariffs imposed on May 13, 2019 from 15% to 7.5% effective February 14, 2020. With US-China discussions over the "phase one" trade deal potentially stalled, there is a risk the current administration may consider raising tariffs on critical Chinese industries while rolling back tariffs for other products. At present, the majority of tariff exclusions granted have expired and many of the additional tariffs on Chinese origin goods remain, as do concerns over the stability of bilateral trade relations, particularly given the limited scope of the phase one agreement. In addition, China has not met its obligations under the deal and the economic disruption caused by the COVID-19 pandemic increases the potential for China to invoke the deal's "disaster clause," which could further challenge US-China bilateral trade relations. Depending upon their duration and implementation as well as our ability to mitigate their impact, these tariffs, the executive order and its implementation and other regulatory actions could materially affect our business, including in the form of increased cost of goods sold, decreased margins, increased pricing for customers, and reduced sales.

In addition, US-China bilateral trade relations remain uncertain. At this time, there is no assurance that a broader trade agreement will be successfully negotiated between the United States and China to reduce or eliminate the existing tariffs. Further, one of our former customers, Huawei Technologies Co., Ltd., and some of its affiliates have been added to the U.S. Department of Commerce's Entity List, and were recently made subject to enhanced restrictions designed to prevent them from having access to foreign-produced items using U.S.-origin semiconductor technology and equipment; we could be subject to reputational harm based on its business activities, including activities with sanctioned countries. In addition, some countries in which we operate, such as Brazil, Hungary, India, Mexico, Malaysia and Poland, have experienced periods of slow or negative growth, high inflation, significant currency devaluations or limited availability of foreign exchange. Furthermore, in countries such as China, Brazil, India and Mexico, governmental authorities exercise significant influence over many aspects of the economy, and their actions could have a significant effect on us.

Demand for Nextracker solar trackers could be indirectly depressed as a result of existing and/or increased tariffs, duties or taxation of imported solar panels and cells. Moreover, the ongoing anti-dumping investigation by the U.S. Department of Commerce into imports of crystalline silicon photovoltaic solar panels and cells from Cambodia, Malaysia, Thailand, and Vietnam, which investigation might lead to retroactive and/or prospective tariffs on imports of panels and cells may, as a result of increased costs, depress or delay demand for U.S. solar projects and Nextracker's solar trackers in the U.S.

We could be seriously harmed by inadequate infrastructure, including lack of adequate power and water supplies, transportation, raw materials and parts in countries in which we operate. In addition, we may encounter labor disruptions and rising labor costs, in particular within the lower-cost regions in which we operate. Any increase in labor costs that we are unable to recover in our pricing to our customers could adversely impact our operating results.

Operations in foreign countries also present risks associated with currency exchange and convertibility, inflation and repatriation of earnings. Inflation may impact the Company's profits and cash flows as well as adversely affect foreign exchange rates. In some countries, economic and monetary conditions and other factors could affect our ability to convert our cash distributions to U.S. dollars or other freely convertible currencies, or to move funds from our accounts in these countries. Furthermore, the central bank of any of these countries may have the authority to suspend, restrict or otherwise impose conditions on foreign exchange transactions or to approve distributions to foreign investors.

Fluctuations in foreign currency exchange rates could increase our operating costs.

We have manufacturing operations and industrial parks that are located in various part of the world, including Asia, Eastern Europe, Mexico and Brazil. A portion of our purchases and our sale transactions are denominated in currencies other than the United States dollar. As a result, we are exposed to fluctuations in these currencies impacting our fixed cost overhead or our supply base relative to the currencies in which we conduct transactions.

Currency exchange rates fluctuate on a daily basis as a result of a number of factors, including changes in a country's political and economic policies. The primary impact of currency exchange fluctuations is on the cash, receivables, payables and expenses of our operating entities. As part of our currency hedging strategy, we use financial instruments such as forward exchange, swap contracts, and options to hedge our foreign currency exposure in order to reduce the short-term impact of foreign currency rate fluctuations on our operating results. If our hedging activities are not successful or if we change or reduce these hedging activities in the future, we may experience significant unexpected fluctuations in our operating results as a result of changes in exchange rates.

We are also exposed to risks related to the valuation of the Chinese currency relative to the U.S. dollar. The Chinese currency is the renminbi ("RMB"). A significant increase in the value of the RMB could adversely affect our financial results and cash flows by increasing both our manufacturing costs and the costs of our local supply base. Additionally, the recent COVID-19 pandemic could contribute to foreign currency volatility. Volatility in the functional and non-functional currencies of our entities and the United States dollar could seriously harm our business, operating results and financial condition.

Legal and Regulatory Risks

We are subject to risks relating to litigation and regulatory investigations and proceedings, which may have a material adverse effect on our business.

From time to time, we are involved in various claims, suits, investigations and legal proceedings. Additional legal claims or regulatory matters may arise in the future and could involve matters relating to commercial disputes, government regulatory and compliance, intellectual property, antitrust, tax, employment or shareholder issues, product liability claims and other issues on a global basis. If we receive an adverse judgment in any such matter, we could be required to pay substantial damages and cease certain practices or activities. Regardless of the merits of the claims, litigation and other proceedings may be both time-consuming and disruptive to our business. The defense and ultimate outcome of any lawsuits or other legal proceedings may

result in higher operating expenses and a decrease in operating margin, which could have a material adverse effect on our business, financial condition, or results of operations.

Any existing or future lawsuits could be time-consuming, result in significant expense and divert the attention and resources of our management and other key employees, as well as harm our reputation, business, financial condition or results of operations.

On February 14, 2019, we submitted an initial notification of voluntary disclosure to the U.S. Department of the Treasury, Office of Foreign Assets Control ("OFAC") regarding possible noncompliance with U.S. economic sanctions requirements among certain non-U.S. Flex-affiliated operations. On September 28, 2020, we made a submission to OFAC that completed the Company's voluntary disclosure based on the results of an internal investigation regarding the matter. On June 11, 2021, we notified OFAC that we had identified possible additional relevant transactions at one non-U.S. Flex-affiliated operation. We submitted an update to OFAC on November 16, 2021 reporting on the results of our review of those transactions. We intend to continue to cooperate fully with OFAC in this matter going forward. Nonetheless, it is reasonably possible that we could be subject to penalties that could have a material adverse effect on our financial position, results of operations or cash flows.

If our compliance policies are breached, we may incur significant legal and financial exposure.

We have implemented local and global compliance policies to ensure compliance with our legal obligations across our operations. A significant legal risk resulting from our international operations is compliance with the U.S. Foreign Corrupt Practices Act or similar local laws of the countries in which we do business, including the UK Anti-Bribery Act, which prohibits covered companies from making payments to foreign government officials to assist in obtaining or retaining business. Our Code of Business Conduct and Ethics prohibits corrupt payments on a global basis and precludes us from offering or giving anything of value to a government official for the purpose of obtaining or retaining business, to win a business advantage or to improperly influence a decision regarding Flex. Nevertheless, there can be no assurance that all of our employees and agents will refrain from taking actions in violation of this and our related anti-corruption policies and procedures. Any such violation could have a material adverse effect on our business.

If our products or components contain defects, demand for our services may decline and we may be exposed to product liability and product warranty liability.

Defects in the products we manufacture or design, whether caused by a design, engineering, manufacturing or component failure or deficiencies in our manufacturing processes, could result in product or component failures, which may damage our business reputation and expose us to product liability or product warranty claims.

Product liability claims may include liability for personal injury or property damage. Product warranty claims may include liability to pay for the recall, repair or replacement of a product or component. Although we generally allocate liability for these claims in our contracts with our customers, increasingly we are unsuccessful in allocating such liability, and even where we have allocated liability to our customers, our customers may not have the resources to satisfy claims for costs or liabilities arising from a defective product or component for which they have assumed responsibility.

If we design, engineer or manufacture a product or component that is found to cause any personal injury or property damage or is otherwise found to be defective, we could spend a significant amount of money to resolve the claim. In addition, product liability and product recall insurance coverage are expensive and may not be available for some or all of our services offerings on acceptable terms, in sufficient amounts, or at all. A successful product liability or product warranty claim in excess of our insurance coverage or any material claim for which insurance coverage is denied, limited or is not available could have a material adverse effect on our business, results of operations and financial condition.

We are subject to the risk of increased income taxes.

We are subject to taxes in numerous jurisdictions. Our future effective tax rates could be affected by changes in the mix of earnings in countries with differing statutory rates and changes in tax laws or their interpretation including changes related to tax holidays or tax incentives. The international tax environment continues to change as a result of both coordinated efforts by governments and unilateral measures designed by individual countries, both intended to tackle concerns over perceived international tax avoidance techniques, which could ultimately have an adverse effect on the taxation of international businesses. In the U.S., various proposals to raise corporate income taxes are under active consideration. In addition, legislative changes may result from the Organization for Economic Co-operation and Development's Base Erosion and Profit Shifting Project. In 2021, more than 140 countries tentatively signed on to a framework that imposes a minimum tax rate of 15%, among other provisions. As this framework is subject to further negotiation and implementation by each member country, the timing and ultimate impact of any such changes on our tax obligations are uncertain. Any such changes, if adopted, could adversely impact our effective tax rate and may have a material impact on our results of operations, cash flows and financial position.

Our taxes could also increase if certain tax holidays or incentives are not renewed upon expiration, or if tax rates applicable to us in such jurisdictions are otherwise increased. Our continued ability to qualify for specific tax holiday extensions will depend on, among other things, our anticipated investment and expansion in these countries and the manner in which the local governments interpret the requirements for modifications, extensions or new incentives.

In addition, the Company and its subsidiaries are regularly subject to tax return audits and examinations by various taxing jurisdictions around the world. In determining the adequacy of our provision for income taxes, we regularly assess the likelihood of adverse outcomes resulting from tax examinations. While it is often difficult to predict the final outcome or the timing of the resolution of a tax examination, we believe that our reserves for uncertain tax benefits reflect the outcome of tax positions that are more likely than not to occur. However, we cannot assure you that the final determination of any tax examinations will not be materially different than that which is reflected in our income tax provisions and accruals. Should additional taxes be assessed as a result of a current or future examination, there could be a material adverse effect on our tax provision, operating results, financial position and cash flows in the period or periods for which that determination is made.

We may not meet regulatory quality standards applicable to our manufacturing and quality processes for medical devices, which could have an adverse effect on our business, financial condition or results of operations.

As a medical device manufacturer, we have additional compliance requirements. We are required to register with the U.S. Food and Drug Administration ("FDA") and are subject to periodic inspection by the FDA for compliance with the FDA's Quality System Regulation ("QSR") requirements, which require manufacturers of medical devices to adhere to certain regulations, including testing, quality control and documentation procedures. Compliance with applicable regulatory requirements is subject to continual review and is rigorously monitored through periodic inspections and product field monitoring by the FDA. If any FDA inspection reveals noncompliance with QSR or other FDA regulations, and the Company does not address the observation adequately to the satisfaction of the FDA, the FDA may take action against us. FDA actions may include issuing a letter of inspectional observations, issuing a warning letter, imposing fines, bringing an action against the Company and its officers, requiring a recall of the products we manufactured for our customers, refusing requests for clearance or approval of new products or withdrawal of clearance or approval previously granted, issuing an import detention on products entering the U.S. from an offshore facility, or shutting down a manufacturing facility. If any of these actions were to occur, it would harm our reputation and cause our business to suffer.

In the EU, we are required to maintain certain standardized certifications in order to sell our products and must undergo periodic inspections to obtain and maintain these certifications. Continued noncompliance to the EU regulations could stop the flow of products into the EU from us or from our customers. In China, the Safe Food and Drug Administration controls and regulates the manufacture and commerce of healthcare products. We must comply with the regulatory laws applicable to medical device manufacturers, or our ability to manufacture products in China could be impacted. In Japan, the Pharmaceutical Affairs Laws regulate the manufacture and commerce of healthcare products. These regulations also require that subcontractors manufacturing products intended for sale in Japan register with authorities and submit to regulatory audits. Other Asian countries and Latin America where we operate have similar laws regarding the regulation of medical device manufacturing.

Our failure to comply with environmental laws could adversely affect our business.

We are subject to extensive and changing federal, state, local and international environmental, health and safety laws and regulations, concerning, among other things, the health and safety of our employees, the generation, use, storage, transportation, discharge and disposal of certain materials (including chemicals and hazardous substances) used in or derived from our manufacturing processes. We are also subject to laws and regulations governing the recyclability of products, the materials that may be included in products, and our obligations to dispose of these products after end users have finished with them. Additionally, we may be exposed to liability to our customers relating to the materials that may be included in the components that we procure for our customers' products. Any violation or alleged violation by us of environmental laws could subject us to significant costs, fines or other penalties.

We are also required to comply with an increasing number of global and local product environmental compliance regulations focused on the restriction of certain hazardous substances. We are subject to the EU directives, including the Restrictions on RoHS, the WEEE as well as the EU's REACH regulation. In addition, new technical classifications of e-Waste being discussed in the Basel Convention technical working group could affect both our customers' abilities and obligations in electronics repair and refurbishment. Also of note is China's Management Methods for Controlling Pollution Caused by electrical information products regulation, commonly referred to as "China RoHS", which restricts the importation into and production within China of electrical equipment containing certain hazardous materials. Similar legislation has been or may be enacted in other jurisdictions, including in the United States. RoHS and other similar legislation bans or restricts the use of lead, mercury and certain other specified substances in electronics products and WEEE requires EU importers and/or producers to assume responsibility for the collection, recycling and management of waste electronic products and components. We have developed rigorous risk mitigating compliance programs designed to meet the needs of our customers as well as applicable

regulations. These programs may include collecting compliance data from our suppliers, full laboratory testing and public reporting of other environmental metrics such as carbon emissions, electronic waste and water, and we also require our supply chain to comply. Non-compliance could potentially result in our customers refusing to purchase our products, and significant costs, penalties, and/or other sanctions, such as restrictions on our products entering certain jurisdictions. In the case of WEEE, the compliance responsibility rests primarily with the EU importers and/or producers rather than with EMS companies. However, customers may turn to EMS companies for assistance in meeting their obligations under WEEE.

In addition, we are responsible for the cleanup of contamination at some of our current and former manufacturing facilities and at some third party sites. If more stringent compliance or cleanup standards under environmental laws or regulations are imposed, or the results of future testing and analyses at our current or former operating facilities indicate that we are responsible for the release of hazardous substances into the air, ground and/or water, we may be subject to additional liability. Additional environmental matters may arise in the future at sites where no problem is currently known or at sites that we may acquire in the future. Some environmental laws impose liability without fault, leading companies to be responsible for investigating, removing, or remediating possible hazardous substances released at properties it owns or operates, regardless of when such substances were released. Additionally, we could be required to alter our manufacturing and operations and incur substantial expense in order to comply with environmental regulations. Our failure to comply with environmental laws and regulations or adequately address contaminated sites could limit our ability to expand our facilities or could require us to incur significant expenses, which would harm our business.

Failure to comply with domestic or international employment and related laws could result in the payment of significant damages, which would reduce our net income.

We are subject to a variety of domestic and foreign employment laws, including those related to safety, wages and overtime, discrimination, whistle-blowing, classification of employees and severance payments. Enforcement activity relating to these laws, particularly outside of the United States, can increase as a result of increased media attention due to violations by other companies, changes in law, political and other factors. There can be no assurance that we won't be found to have violated such laws in the future, due to a more aggressive enforcement posture by governmental authorities or for any other reason. Any such violations could lead to the assessment of fines against us by federal, state or foreign regulatory authorities or damages payable to employees, which fines could be substantial and which would reduce our net income.

Our business could be impacted as a result of actions by activist shareholders or others.

We may be subject, from time to time, to legal and business challenges in the operation of our company due to actions instituted by activist shareholders or others. Responding to such actions could be costly and time-consuming, may not align with our business strategies and could divert the attention of our Board of Directors and senior management from the pursuit of our business strategies. Perceived uncertainties as to our future direction as a result of shareholder activism may lead to the perception of a change in the direction of the business or other instability and may make it more difficult to attract and retain qualified personnel and business partners and may affect our relationships with vendors, customers and other third parties.

Social and environmental responsibility policies and provisions may be difficult to comply with and may impose costs on us. Increasing attention on environmental, social and governance (ESG) matters may have a negative impact on our business, impose additional costs on us, and expose us to additional risks.

Companies are facing increasing attention from investors, customers, consumers, and other stakeholders relating to ESG matters, including environmental stewardship, social responsibility, diversity, equity, and inclusion, and workplace conduct. There is an increasing focus on sustainability including ESG in our industry. A number of our customers have adopted, or may adopt, procurement policies that include social and environmental responsibility provisions that their suppliers should comply with, or they may seek to include such provisions in their procurement terms and conditions. In addition, an increasing number of investors have adopted, or may adopt, ESG policies with which they expect their portfolio companies to comply. We currently comply with the sustainability standards set forth by various voluntary sustainability initiatives and organizations, and we have joined the U.N. Global Compact, a voluntary initiative for businesses to develop, implement and disclose sustainability policies and practices. These social and environmental responsibility and ESG practices, policies, provisions and initiatives are subject to change, can be unpredictable, and may be difficult and expensive for us to comply with. Evolving concerns may lead to subsequent international, national, regional and local legislative and regulatory reactions.

We have established sustainability and ESG programs aligned with sound environmental, social and governance principles. These programs reflect our current initiatives and are not guarantees that we will be able to achieve them. Our ability to successfully execute these initiatives and accurately report our progress presents numerous operational, financial, legal, reputational and other risks, many of which are outside our control, and all of which could have a material negative impact on our business. Additionally, the implementation of these initiatives imposes additional costs on us. If our ESG initiatives fail to satisfy investors, current or potential customers, consumers and our other stakeholders, our reputation, our ability to sell

products and services to customers, our ability to attract or retain employees, and our attractiveness as an investment, business partner or acquirer could be negatively impacted. Similarly, our failure or perceived failure to pursue or fulfill our goals, targets and objectives or to satisfy various reporting standards within the timelines we announce, or at all, could also have similar negative impacts and expose us to government enforcement actions and private litigation.

Climate change, and the legal and regulatory initiatives related to climate change, could adversely affect our business, results of operations and financial condition.

There is increasing concern that a gradual increase in global average temperatures due to increased concentration of carbon dioxide and other greenhouse gases in the atmosphere will cause significant changes in weather patterns around the globe and an increase in the frequency and severity of natural disasters. Changes in weather patterns and an increased frequency, intensity and duration of extreme weather conditions, such as hurricanes, earthquakes, wildfires, water or other natural resource shortages, droughts, or flooding, could, among other things, pose physical risks to and impair our production capabilities, disrupt the operations of our supply chain and infrastructure, and impact our customers and their demand for our services. The geographic locations of our manufacturing facilities could intensify the negative impacts resulting from any of these issues. As a result, the effects of climate change could have a long-term adverse impact on our business, results of operations and financial condition. In many of the countries in which we operate, governmental bodies are increasingly enacting legislation and regulations in response to the potential impacts of climate change. These laws and regulations have, and will continue to have, the potential to impact our operations directly or indirectly as a result of required compliance by us and our suppliers. In addition, we have committed to cut our operational emissions in half by 2030 as part of our long-term sustainability strategy and we may take additional voluntary steps to mitigate our impact on climate change. As a result, we may experience increases in energy, production, transportation and raw material costs, capital expenditures and insurance premiums and deductibles. Inconsistency of legislation and regulations among jurisdictions may also affect the costs of compliance with such laws and regulations. Any assessment of the potential impact of future climate change legislation, regulations or industry standards, as well as any international treaties and accords, is uncertain given the scope of potential regulatory change in the countries in which we operate. Given the political significance and uncertainty around the impact of climate change and how it should be addressed, we cannot predict how legislation and regulation will affect our financial condition, operating performance and ability to compete. Furthermore, even without such regulation, increased awareness and any adverse publicity in the global marketplace about potential impacts on climate change by us or other companies in our industry could harm our reputation. Any of the foregoing could result in a material adverse effect on our business, results of operations and financial condition.

The success of certain of our activities depends on our ability to protect our intellectual property rights; claims of infringement or misuse of intellectual property and/or breach of license agreement provisions against our customers or us could harm our business.

We retain certain intellectual property rights to some of the technologies that we develop as part of our engineering, design, and manufacturing services and components offerings. The measures we have taken to prevent unauthorized use of our technology may not be successful. If we are unable to protect our intellectual property rights, this could reduce or eliminate the competitive advantages of our proprietary technology, which would harm our business.

Our engineering, design and manufacturing services and component offerings involve the creation and use of intellectual property rights, which subject us to the risk of claims of infringement or misuse of intellectual property from third parties and/or breach of our agreements with third parties, as well as claims arising from the allocation of intellectual property risk among us and our customers. From time to time, we enter into intellectual property licenses (e.g., patent licenses and software licenses) with third parties which obligate us to report covered behavior to the licensor and pay license fees to the licensor for certain activities or products, or that enable our use of third party technologies. We may also decline to enter into licenses for intellectual property that we do not think is useful for or used in our operations, or for which our customers or suppliers have licenses or have assumed responsibility.

Given the diverse and varied nature of our business and the location of our business around the world, certain activities we perform, such as providing assembly services in China and India, may fall outside the scope of those licenses or may not be subject to the applicable intellectual property rights. Our licensors may disagree and claim royalties are owed for such activities. In addition, the basis (e.g., base price) for any royalty amounts owed are audited by licensors and may be challenged. Our customers are increasingly requiring us to indemnify them against the risk of intellectual property-related claims and licensors are claiming that activities we perform are covered by licenses to which we are a party.

If any claims of infringement or misuse of intellectual property from third parties and/or breach of our agreements with third parties, as well as claims arising from the allocation of intellectual property risk among us and our customers, are brought against us or our customers, whether or not these have merit, we could be required to expend significant resources in defense of such claims. In the event of such a claim, we may be required to spend a significant amount of money to develop alternatives or

obtain licenses or to resolve the issue through litigation. We may not be successful in developing such alternatives or obtaining such licenses on reasonable terms or at all, and any such litigation might not be resolved in our favor, in which cases we may be required to curtail certain of our services and offerings. Additionally, litigation could be lengthy and costly, and could materially harm our financial condition regardless of outcome.

We also face certain heightened risks to our intellectual property rights due to our extensive operations in foreign jurisdictions, including the risk of theft or misuse of our intellectual property rights in certain foreign jurisdictions. The laws of certain countries in which we operate may not protect intellectual property rights to the same extent as the laws of the United States, and the mechanisms to enforce intellectual property rights may be inadequate to protect our rights, which could harm our business.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our facilities consist of a global network of industrial parks, regional manufacturing operations, and design, engineering and product introduction centers, providing approximately 26.7 million square feet of productive capacity as of March 31, 2022.

The composition of the square footage of our facilities, by region, is as follows:

	Leased (Manufacturing)	Owned (Manufacturing)	Total (Manufacturing)	Non-manufacturing	Total
(In million square feet)					
Asia	6.2	5.9	12.1	6.9	19.0
Americas	3.8	5.5	9.3	8.6	17.9
Europe	2.5	2.8	5.3	5.8	11.1
Total	<u>12.5</u>	<u>14.2</u>	<u>26.7</u>	<u>21.3</u>	<u>48.0</u>

Our facilities include large industrial parks, ranging in size from approximately 100,000 to 4.3 million square feet in Brazil, China, India, and Mexico. We also have regional manufacturing operations, generally ranging in size from under 100,000 to approximately 2.7 million square feet in Austria, Brazil, Canada, China, Czech Republic, Denmark, Hungary, India, Indonesia, Ireland, Israel, Italy, Japan, Malaysia, Mexico, the Netherlands, Poland, Romania, Singapore, Spain, Switzerland, Ukraine, the United Kingdom, and the United States. We also have smaller design and engineering centers, innovation centers and product introduction centers at a number of locations in the world's major industrial and electronics markets.

Our facilities are well maintained and suitable for the operations conducted. The productive capacity of our plants is adequate for current needs.

ITEM 3. LEGAL PROCEEDINGS

For a description of our material legal proceedings, see note 14 "Commitments and Contingencies" to the consolidated financial statements included under Item 8, which is incorporated herein by reference.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

MARKET AND SHAREHOLDER INFORMATION

Our ordinary shares are quoted on the Nasdaq Global Select Market under the symbol "FLEX."

As of May 16, 2022, there were 2,890 holders of record of our ordinary shares. This does not include persons whose stock is in nominee or "street name" accounts through brokers.

DIVIDENDS

Since inception, we have not declared or paid any cash dividends on our ordinary shares. We currently do not have plans to pay any cash dividends in fiscal year 2023.

CERTAIN TAXATION CONSIDERATIONS UNDER SINGAPORE LAW

Dividends. Singapore does not impose a withholding tax on dividends. All dividends on our ordinary shares are not taxable in Singapore to shareholders, provided that any dividends are paid to shareholders outside of Singapore for this purpose and such dividends are not received or deemed to be received in Singapore by shareholders and are not derived by shareholders pursuant to any trade or business carried on in Singapore. Certain tax exemptions are available for foreign-sourced dividends received by Singapore tax residents, subject to conditions. Since inception, we have not declared nor paid any cash dividends on our ordinary shares, and we currently do not have plans to pay any cash dividends.

Gains on Disposal. Under current Singapore tax law there is no tax on capital gains, and thus any profits from the disposal of shares are not taxable in Singapore unless the gains arising from the disposal of shares are income in nature and subject to tax, especially if they arise from activities which the Inland Revenue Authority of Singapore regards as the carrying on of a trade or business in Singapore (in which case, the profits on the sale would be taxable as trade or business profits rather than capital gains).

Shareholders who apply, or who are required to apply, the Singapore Financial Reporting Standard ("FRS") 39, FRS 109 or Singapore Financial Reporting Standard (International) 9 ("SFRS(I) 9") (as the case may be) for the purposes of Singapore income tax may be required to recognize gains or losses (not being gains or losses in the nature of capital) in accordance with the provisions of FRS 39, FRS 109 or SFRS(I) 9 (as the case may be) (as modified by the applicable provisions of Singapore income tax law) even though no sale or disposal of shares is made.

Stamp Duty. There is no stamp duty payable for holding shares, and no duty is payable on the issue of new shares. Singapore stamp duty is payable on a transfer of existing shares if there is an instrument of transfer executed in Singapore or if there is an instrument of transfer executed outside Singapore that is received in Singapore. In such situations, stamp duty is payable on the instrument of transfer of such shares at the rate of 0.2% of the consideration for, or market value of, such shares, whichever is higher. The stamp duty is borne by the purchaser unless there is an agreement to the contrary. If the instrument of transfer is executed outside of Singapore, the stamp duty must be paid only if the instrument of transfer is received in Singapore.

Estate Taxation. Singapore estate duty was abolished for deaths occurring on or after February 15, 2008.

Tax Treaties Regarding Withholding. There is no reciprocal income tax treaty between the U.S. and Singapore regarding withholding taxes on dividends and capital gains.

STOCK PRICE PERFORMANCE GRAPH

The following stock price performance graph and accompanying information is not deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulation 14A under the Securities Exchange Act of 1934 or to the liabilities of Section 18 of the Securities Exchange Act of 1934, and will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, regardless of any general incorporation language in any such filing.

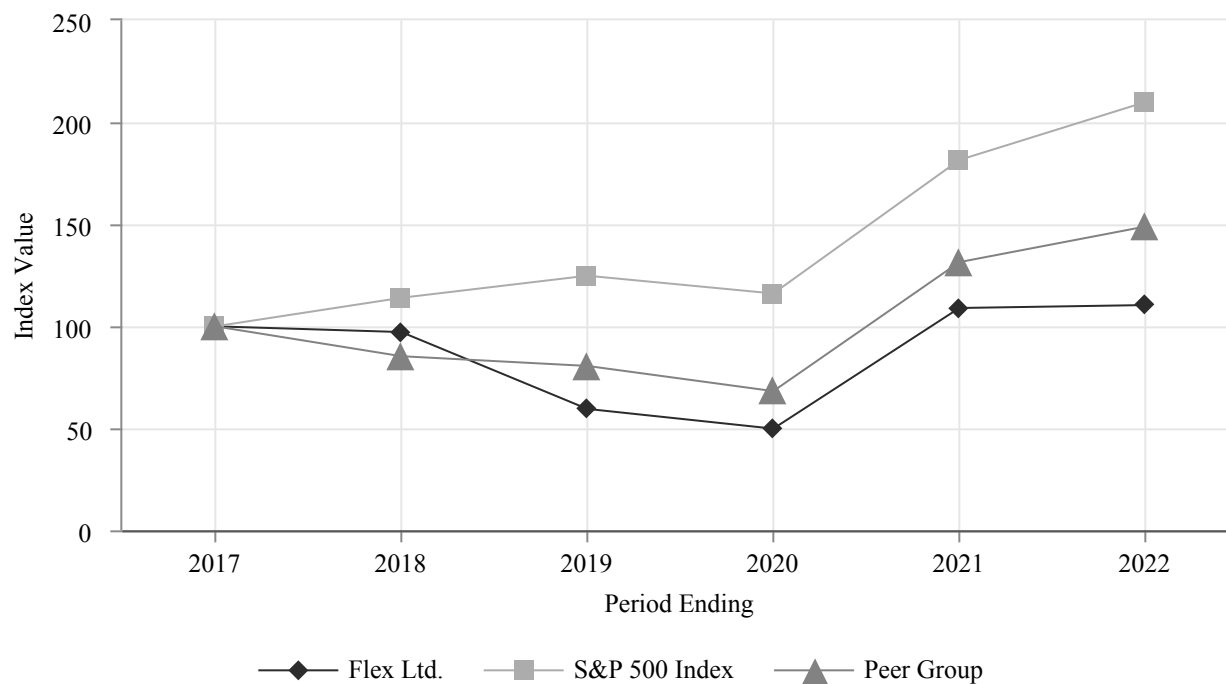

The graph below compares the cumulative total shareholder return on our ordinary shares, the Standard & Poor's 500 Stock Index and a peer group comprised of Benchmark Electronics, Inc., Celestica Inc., Jabil Inc., and Sanmina Corporation.

The graph below assumes that \$100 was invested in our ordinary shares, in the Standard & Poor's 500 Stock Index and in the peer group described above on March 31, 2017 and reflects the annual return through March 31, 2022, assuming dividend reinvestment.

The comparisons in the graph below are based on historical data and are not indicative of, or intended to forecast, the possible future performances of our ordinary shares.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN

Flex, the S&P 500 Index, and Peer Group

	3/17	3/18	3/19	3/20	3/21	3/22
Flex Ltd.	100.00	97.20	59.52	49.85	108.99	110.42
S&P 500 Index	100.00	113.99	124.82	116.11	181.54	209.94
Peer Group	100.00	85.36	80.59	68.24	131.48	148.91

Issuer Purchases of Equity Securities

The following table provides information regarding purchases of our ordinary shares made by us for the period from January 1, 2022 through March 31, 2022.

Period (2)	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 - February 4, 2022	2,900,386	\$ 17.07	2,900,386	\$ 551,406,982
February 5 - March 4, 2022	3,263,494	17.07	3,263,494	495,708,750
March 5 - March 31, 2022	7,900	15.43	7,900	495,586,831
Total	<u>6,171,780</u>		<u>6,171,780</u>	

- (1) During the period from January 1, 2022 through March 31, 2022, all purchases were made pursuant to the program discussed below in open market transactions. All purchases were made in accordance with Rule 10b-18 under the Securities Exchange Act of 1934.
- (2) On August 4, 2021, our Board of Directors authorized repurchases of our outstanding ordinary shares for up to \$1.0 billion. This is in accordance with the share purchase mandate whereby our shareholders approved a repurchase limit of 20% of our issued ordinary shares outstanding at the Annual General Meeting held on the same date as the Board authorization. As of March 31, 2022, shares in the aggregate amount of \$495.6 million were available to be repurchased under the current plan.

RECENT SALES OF UNREGISTERED SECURITIES

None.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our consolidated financial statements and notes thereto included in Item 8, "Financial Statements and Supplementary Data." In addition to historical consolidated financial information, the following discussion and analysis contains forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results could differ materially from those anticipated by these forward-looking statements as a result of many factors. We discuss factors that we believe could cause or contribute to these differences below and elsewhere in this report, including those set forth under Item 1A, "Risk Factors."

OVERVIEW

We are the diversified manufacturing partner of choice that helps market-leading brands design, build and deliver innovative products that improve the world. Through the collective strength of a global workforce across approximately 30 countries with responsible, sustainable operations, we deliver advanced manufacturing solutions and operate one of the most trusted global supply chains, supporting the entire product lifecycle with fulfillment, after-market, and circular economy solutions for diverse industries including cloud, communications, enterprise, automotive, industrial, consumer devices, lifestyle, healthcare, and energy. Beginning in the fourth quarter of fiscal year 2022, as a result of the sale of certain Series A preferred units in Nextracker LLC ("Nextracker LLC" or "Nextracker") to a third party and our continuing evaluation to separate the Nextracker business and consistent with how our chief operating decision maker allocates resources, assesses performance and makes strategic and operational decisions, we report Nextracker as a separate operating and reportable segment. Nextracker was previously included in the Industrial reporting unit within the Flex Reliability Solutions segment. Our three operating and reportable segments are:

- Flex Agility Solutions ("FAS"), which is comprised of the following end markets:
 - *Communications, Enterprise and Cloud ("CEC")*, including data infrastructure, edge infrastructure and communications infrastructure;
 - *Lifestyle*, including appliances, consumer packaging, floorcare, micro mobility and audio; and
 - *Consumer Devices*, including mobile and high velocity consumer devices.
- Flex Reliability Solutions ("FRS"), which is comprised of the following end markets:
 - *Automotive*, including next generation mobility, autonomous, connectivity, electrification, and smart technologies;
 - *Health Solutions*, including medical devices, medical equipment, and drug delivery; and
 - *Industrial*, including capital equipment, industrial devices, and renewables and grid edge.
- Nextracker, the leading provider of intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world. Nextracker's products enable solar panels to follow the sun's movement across the sky and optimize plant performance.

Our strategy is to provide customers with a full range of cost competitive, vertically-integrated global supply chain solutions through which we can design, build, ship and service a complete packaged product for our customers. This enables our customers to leverage our supply chain solutions to meet their product requirements throughout the entire product lifecycle.

Over the past few years, we have seen an increased level of diversification by many companies, primarily in the technology sector. Some companies that have historically identified themselves as software providers, Internet service providers or e-commerce retailers have entered the highly competitive and rapidly evolving technology hardware markets, such as mobile devices, home entertainment and wearable devices. This trend has resulted in a significant change in the manufacturing and supply chain solutions requirements of such companies. While the products have become more complex, the supply chain solutions required by such companies have become more customized and demanding, and it has changed the manufacturing and supply chain landscape significantly.

We use a portfolio approach to manage our extensive service offerings. As our customers change the way they go to market, we have the capability to reorganize and rebalance our business portfolio in order to align with our customers' needs and requirements in an effort to optimize operating results. The objective of our business model is to allow us to be flexible and redeploy and reposition our assets and resources as necessary to meet specific customers' supply chain solution needs across all the markets we serve and earn a return on our invested capital above the weighted average cost of that capital.

During fiscal year 2021, in order to further support our strategy and build a sustainable organization, and after considering that the economic recovery from the COVID-19 global pandemic will be slower than anticipated, we identified and engaged in certain structural changes. See additional discussion regarding these restructuring actions below under "Results of Operations - Restructuring charges".

We believe that our continued business transformation is strategically positioning us to take advantage of the long-term, future growth prospects for outsourcing of advanced manufacturing capabilities, design and engineering services and after-market services.

Update on the Impact of COVID-19 on our Business

With the second wave of the global pandemic including follow-on variants of COVID-19, there have been renewed disease control measures being taken to limit the spread including movement bans and shelter-in-place orders. Although not materially impacting our results for the fourth quarter of fiscal year 2022, most recently, with the lockdowns in China, we have also been experiencing temporary plant closures and/or restrictions at certain of our manufacturing facilities in China. We continue to closely monitor the situation in all the locations where we operate. Our priority remains the welfare of our employees. In addition, our end markets continue to be impacted by the global supply chain disruptions. Component shortages and logistical constraints are pervasive across the entire value chain. COVID-19 related restrictions also contributed to a declining workforce, including at ports and warehouses, as well as creating driver shortages around the world. We expect persistent waves of COVID-19 to remain a headwind into the near future. Component shortages and significantly increased logistic costs are also expected to persist at least in the near future as we are continuing to see increasing supply constraints and costs. We continue to carefully monitor potential supply chain disruptions due to ongoing tightness in the overall component environment. Refer to "Risk Factors - *The ongoing COVID-19 pandemic has materially and adversely affected our business and results of operations. The duration and extent to which it will continue to adversely impact our business and results of operations remains uncertain and could be material.*"

We are continuously evaluating our capital structure in response to the current environment and expect that our current financial condition, including our liquidity sources are adequate to fund future commitments. See additional discussion in the Liquidity and Capital Resources section below.

Russian Invasion of Ukraine

We are monitoring and responding to the escalating conflict in Ukraine and the associated sanctions and other restrictions. As of the date of this report, there is no material impact to our business operations and financial performance in Ukraine. The full impact of the conflict on our business operations and financial performance remains uncertain and will depend on future developments, including the severity and duration of the conflict and its impact on regional and global economic conditions. We will continue to monitor the conflict and assess the related restrictions and other effects and pursue prudent decisions for our team members, customers, and business.

Other Developments

On April 28, 2021, we announced that we confidentially submitted a draft registration statement on Form S-1 with the SEC relating to the proposed initial public offering of Nexttracker's Class A common stock. The initial public offering and its timing are subject to market and other conditions and the SEC's review process, and there can be no assurance that we will proceed with such offering or any alternative transaction. Refer to "Risk Factors - *We are pursuing alternatives for our Nexttracker business, including a full or partial separation of the business, through an initial public offering of Nexttracker or otherwise, which may not be consummated as or when planned or at all, and may not achieve the intended benefits.*"

On February 1, 2022, we sold Series A Preferred Units representing a 16.7% interest in Nexttracker to TPG Rise Flash, L.P., a Delaware limited partnership, which is managed or advised by TPG Rise Climate, TPG, Inc.'s dedicated renewables and climate investing fund ("TPG Rise"), for an aggregate purchase price of \$500 million. The sale of the 16.7% interest in Nexttracker reflects an implied value for Nexttracker as of the date of the sale of \$3.0 billion. See note 7 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further information.

This Annual Report on Form 10-K does not constitute an offer to sell or a solicitation of an offer to buy securities, and shall not constitute an offer, solicitation or sale in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of that jurisdiction.

Business Overview

We are one of the world's largest providers of global supply chain solutions, with revenues of \$26.0 billion in the fiscal year ended March 31, 2022. We have established an extensive network of manufacturing facilities in the world's major

consumer and enterprise markets (Asia, the Americas, and Europe) to serve the growing outsourcing needs of both multinational and regional customers. We design, build, ship, and service consumer and enterprise products for our customers through a network of over 100 facilities in approximately 30 countries across four continents. We also provide intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world. As of March 31, 2022, our total manufacturing capacity was approximately 27 million square feet. The following tables set forth the relative percentages and dollar amounts of net sales by region and by country, and net property and equipment, by country, based on the location of our manufacturing sites (amounts may not sum due to rounding):

	Fiscal Year Ended March 31,					
	2022		2021			
	(In millions)					
Net sales by region:						
Americas	\$	10,839	42 %	\$	9,672	40 %
Asia		9,601	37 %		9,326	39 %
Europe		5,601	21 %		5,126	21 %
	\$	<u>26,041</u>		\$	<u>24,124</u>	

Net sales by country:						
China	\$	6,146	24 %	\$	6,147	25 %
Mexico		5,059	19 %		4,413	18 %
U.S.		3,690	14 %		3,648	15 %
Brazil		2,022	8 %		1,554	6 %
Malaysia		1,866	7 %		1,563	6 %
Hungary		1,230	5 %		1,313	5 %
Other		6,028	23 %		5,486	25 %
	\$	<u>26,041</u>		\$	<u>24,124</u>	

	Fiscal Year Ended March 31,					
	2022		2021			
	(In millions)					
Property and equipment, net:						
Mexico	\$	626	29 %	\$	553	26 %
U.S.		354	17 %		361	17 %
China		299	14 %		331	16 %
India		129	6 %		166	8 %
Hungary		118	6 %		105	5 %
Malaysia		110	5 %		106	5 %
Other		489	23 %		475	23 %
	\$	<u>2,125</u>		\$	<u>2,097</u>	

We believe that the combination of our extensive open innovation platform solutions, design and engineering services, advanced supply chain management solutions and services, significant scale and global presence, and manufacturing campuses in low-cost geographic areas provide us with a competitive advantage and strong differentiation in the market for designing, manufacturing and servicing consumer and enterprise products for leading multinational and regional customers. Specifically, we offer our customers the ability to simplify their global product development, manufacturing process, and after-sales services, and enable them to meaningfully accelerate their time to market and cost savings.

Our operating results are affected by a number of factors, including the following:

- the impacts on our business due to component shortages, disruptions in transportation or other supply chain related constraints including as a result of the COVID-19 global pandemic;

- the effects of the COVID-19 global pandemic on our business and results of operations;
- changes in the macro-economic environment and related changes in consumer demand;
- the mix of the manufacturing services we are providing, the number, size, and complexity of new manufacturing programs, the degree to which we utilize our manufacturing capacity, seasonal demand, and other factors;
- the effects on our business when our customers are not successful in marketing their products, or when their products do not gain widespread commercial acceptance;
- our ability to achieve commercially viable production yields and to manufacture components in commercial quantities to the performance specifications demanded by our customers;
- the effects that current credit and market conditions (including as a result of the COVID-19 global pandemic and the ongoing conflict between Russia and Ukraine) could have on the liquidity and financial condition of our customers and suppliers, including any impact on their ability to meet their contractual obligations;
- the effects on our business due to certain customers' products having short product lifecycles;
- our customers' ability to cancel or delay orders or change production quantities;
- our customers' decisions to choose internal manufacturing instead of outsourcing for their product requirements;
- integration of acquired businesses and facilities;
- increased labor costs due to adverse labor conditions in the markets we operate;
- changes in tax legislation; and
- changes in trade regulations and treaties.

We also are subject to other risks as outlined in Item 1A, "Risk Factors".

Net sales for fiscal year 2022 increased approximately 8%, or \$1.9 billion, to \$26.0 billion from the prior year. The increase in sales was notable in all three segments. Net sales for our FAS segment increased \$0.5 billion, or 4.0%, from the prior year, driven by an increase in our Lifestyle business, and to a lesser extent, an increase in our CEC business. These increases were driven by a lesser impact from COVID-19 production pressure during the current year versus the prior year, coupled with new ramps, customer expansions and continued recoveries in consumer spending, offset to some extent by the scarcity of components and raw material and logistics constraints noted above. The increases noted in FAS during fiscal year 2022 were partially offset by a decrease in our Consumer Devices business primarily due to component shortages and planned contract completions. Net sales for our FRS segment increased \$1.1 billion, or 12%, from the prior year, primarily driven by an increase in sales from our Industrial business, as a result of customer ramps and strong demand in EV charging and renewables, semicap, and robotics, coupled with incremental revenue from the Anord Mardix acquisition. In addition, net sales for our Automotive business increased due to new programs during fiscal year 2022 for our next generation mobility portfolio and recovery from the depressed sales from factory shutdowns in the first quarter of fiscal year 2021. The increase in our Automotive business was partially constrained by component shortages and OEM plant shutdowns during fiscal year 2022. Net sales for our Nextracker segment increased \$0.3 billion, or 22.0%, from the prior year, primarily driven by additional tracker projects, most notably outside the United States. Our fiscal year 2022 gross profit totaled \$1.9 billion, representing an increase of \$0.2 billion, or 15%, from the prior year. The increase was primarily driven by overall stronger cost discipline focused on driving further productivity improvements, coupled with continued improvement in the mix of our business, lower restructuring charges in the current fiscal year, benefits from prior restructuring activities and a lower direct and incremental impact from COVID-19, coupled with the stronger demand in multiple end markets compared to the prior year period. Our net income totaled \$0.9 billion, representing an increase of \$0.3 billion, or 53%, compared to fiscal year 2021, due to the factors explained above along with an approximately \$150 million non-cash gain recorded in fiscal year 2022 related to certain tax credits in Brazil (See note 14 to the consolidated financial statements for further information).

Cash provided by operations increased by approximately \$0.9 billion to a cash inflow of \$1.0 billion for fiscal year 2022 compared with a cash inflow of \$0.1 billion for fiscal year 2021 primarily driven by the \$0.3 billion increase in net income and \$0.6 billion increase in cash provided by operating assets and liabilities. Our net working capital ("NWC") is calculated as current quarter accounts receivable, net of allowance for doubtful accounts, plus inventories and contract assets, less accounts payable. Our net working capital as a percentage of annualized sales for fiscal year 2022 increased to 15.4% from 11.5% in the prior year as a direct result of elevated inventory levels due to component shortages and logistics constraints.

We believe adjusted free cash flow is an important liquidity metric because it measures, during a given period, the amount of cash generated that is available to repay debt obligations, make investments, fund acquisitions, repurchase company shares and for certain other activities. Our adjusted free cash flow is defined as cash from operations, less net purchases of property and equipment to present adjusted cash flows on a consistent basis for investor transparency. We also excluded the impact to cash flows related to certain vendor programs that is required for U.S. GAAP presentation as well as cash outflows related to repayment of the outstanding balance of our asset-backed securitization ("ABS") programs in fiscal year 2021 as we utilized proceeds from debt issuance to replace funding from the ABS programs for working capital purposes. Our adjusted free cash flow was \$0.6 billion and \$0.7 billion for fiscal years 2022 and 2021, respectively. Refer to the Liquidity and Capital Resources section for the adjusted free cash flows reconciliation to the most directly comparable GAAP financial measure of cash flows from operations. Cash used in investing activities increased by approximately \$0.7 billion to a cash outflow of \$1.0 billion for fiscal year 2022, compared with a cash outflow of \$0.2 billion for fiscal year 2021, primarily due to \$0.5 billion of cash paid for the acquisition of Anord Mardix in December 2021, net of cash acquired. Cash provided by financing activities decreased by approximately \$0.5 billion to a cash inflow of \$0.3 billion during fiscal year 2022, compared with a cash inflow of \$0.7 billion in the prior year, primarily driven by \$0.5 billion of additional cash paid for the repurchase of our ordinary shares in the current fiscal year.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP" or "GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Due to the COVID-19 pandemic and the ongoing conflict between Russia and Ukraine, there has been and we expect there will continue to be uncertainty and disruption in the global economy and financial markets. We have made estimates and assumptions taking into consideration certain possible impacts due to the COVID-19 pandemic and the Russian invasion of Ukraine. These estimates may change, as new events occur, and additional information is obtained. Actual results may differ from those estimates and assumptions.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. For further discussion of our significant accounting policies, refer to note 2 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data."

Revenue Recognition

In determining the appropriate amount of revenue to recognize, we apply the following steps: (i) identify the contracts with the customers; (ii) identify performance obligations in the contracts; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations per the contracts; and (v) recognize revenue when (or as) we satisfy a performance obligation. Further, we assess whether control of the product or services promised under the contract is transferred to the customer at a point in time (PIT) or over time (OT). We are first required to evaluate whether our contracts meet the criteria for OT recognition. We have determined that for a portion of our contracts, we are manufacturing products for which there is no alternative use (due to the unique nature of the customer-specific product and intellectual property restrictions) and we have an enforceable right to payment including a reasonable profit for work-in-progress inventory with respect to these contracts. For certain other contracts, the Company's performance creates and enhances an asset that the customer controls as the Company performs under the contract. As a result, revenue is recognized under these contracts OT based on the cost-to-cost method as it best depicts the transfer of control to the customer based on the ratio of costs incurred to date as compared to the total estimated costs at completion of the performance obligation. For all other contracts that do not meet these criteria, we recognize revenue when we have transferred control of the related manufactured products which generally occurs upon delivery and passage of title to the customer. Refer to note 4 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further details.

Customer Contracts and Related Obligations

Certain of our customer agreements include potential price adjustments which may result in variable consideration. These price adjustments include, but are not limited to, sharing of cost savings, committed price reductions, material margins earned over the period that are contractually required to be paid to the customers, rebates, refunds tied to performance metrics such as

on-time delivery, and other periodic pricing resets that may be refundable to customers. We estimate the variable consideration related to these price adjustments as part of the total transaction price and recognize revenue in accordance with the pattern applicable to the performance obligation, subject to a constraint. We constrain the amount of revenues recognized for these contractual provisions based on our best estimate of the amount which will not result in a significant reversal of revenue in a future period. We determine the amounts to be recognized based on the amount of potential refunds required by the contract, historical experience and other surrounding facts and circumstances. Refer to note 4 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further details.

Customer Credit Risk

We have an established customer credit policy through which we manage customer credit exposures through credit evaluations, credit limit setting, monitoring, and enforcement of credit limits for new and existing customers. We perform ongoing credit evaluations of our customers' financial condition and make provisions for doubtful accounts based on the outcome of those credit evaluations. We evaluate the collectability of accounts receivable based on specific customer circumstances, current economic trends, historical experience with collections and the age of past due receivables. To the extent we identify exposures as a result of customer credit issues, we also review other customer related exposures, including but not limited to inventory and related contractual obligations.

Restructuring Charges

We recognize restructuring charges related to our plans to close or consolidate excess manufacturing facilities and rationalize administrative functions and to realign our corporate cost structure. In connection with these activities, we recognize restructuring charges for employee termination costs, long-lived asset impairment and other exit-related costs.

The recognition of these restructuring charges requires that we make certain judgments and estimates regarding the nature, timing and amount of costs associated with the planned restructuring activity. To the extent our actual results differ from our estimates and assumptions, we may be required to revise the estimates of future liabilities, requiring the recognition of additional restructuring charges or the reduction of liabilities already recognized. Such changes to previously estimated amounts may be material to the consolidated financial statements. At the end of each reporting period, we evaluate the remaining accrued balances to ensure that no excess accruals are retained, and the utilization of the provisions are for their intended purpose in accordance with developed exit plans.

Refer to note 16 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our restructuring activities.

Inventory Valuation

Our inventories are stated at the lower of cost (on a first-in, first-out basis) or net realizable value. Our industry is characterized by rapid technological change, short-term customer commitments and rapid changes in demand. We purchase our inventory based on forecasted demand, and we estimate write downs for excess and obsolete inventory based on our regular reviews of inventory quantities on hand, and the latest forecasts of product demand and production requirements from our customers. If actual market conditions or our customers' product demands are less favorable than those projected, additional write downs may be required. In addition, unanticipated changes in the liquidity or financial position of our customers and/or changes in economic conditions may require additional write downs for inventories due to our customers' inability to fulfill their contractual obligations with regards to inventory procured to fulfill customer demand.

Valuation of Private Company Investments

We assess our investments for impairment whenever events or changes in circumstances indicate that the assets may be impaired. The factors we consider in our evaluation of potential impairment of our investments, include, but are not limited to a significant deterioration in the earnings performance or business prospects of the investee, or factors that raise significant concerns about the investee's ability to continue as a going concern, such as negative cash flows from operation or working capital deficiencies. The carrying value of certain of our investments are individually material, and thus there is the potential for material charges in future periods if we determine that those investments are impaired. Refer to note 2 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our investments.

Carrying Value of Long-Lived Assets

We review property and equipment and acquired amortizable intangible assets for impairment at least annually and whenever events or changes in circumstances indicate that the carrying amount of the asset group may not be recoverable. An impairment loss is recognized when the carrying amount of the asset group exceeds its fair value. Recoverability of property and equipment and acquired amortizable intangible assets are measured by comparing their carrying amount to the projected cash flows the assets are expected to generate. If such asset groups are determined to be impaired, the impairment loss

recognized, if any, is the amount by which the carrying amount of the property and equipment and acquired amortizable intangible assets exceeds fair value. Our judgments regarding projected cash flows for an extended period of time and the fair value of assets may be impacted by changes in market conditions, the general business environment and other factors including future developments of the COVID-19 pandemic and the ongoing conflict between Russia and Ukraine, which remain highly uncertain and unpredictable. To the extent our estimates relating to cash flows and fair value of assets change adversely we may have to recognize material impairment charges in the future.

Goodwill

Goodwill is tested for impairment on an annual basis and whenever events or changes in circumstances indicate that the carrying amount of goodwill may not be recoverable. Recoverability of goodwill is measured at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit, which is measured based upon, among other factors, market multiples for comparable companies as well as a discounted cash flow analysis. These approaches use significant unobservable inputs, or Level 3 inputs, as defined by the fair value hierarchy and require us to make various judgmental assumptions about sales, operating margins, growth rates and discount rates which consider our budgets, business plans and economic projections, and are believed to reflect market participant views. Some of the inherent estimates and assumptions used in determining fair value of the reporting units are outside the control of management, including interest rates, cost of capital, tax rates, market EBITDA comparables and credit ratings. While we believe we have made reasonable estimates and assumptions to calculate the fair value of the reporting units, it is possible a material change could occur. If our actual results are not consistent with our estimates and assumptions used to calculate fair value, it could result in material impairments of our goodwill. Refer to note 2 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further detail on our goodwill.

Contingent Liabilities

We may be exposed to certain liabilities relating to our business operations, acquisitions of businesses and assets and other activities. We make provisions for such liabilities when it is probable that the settlement of the liability will result in an outflow of economic resources or the impairment of an asset. We make these assessments based on facts and circumstances that may change in the future resulting in additional expenses.

Refer to note 14 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our contingent liabilities.

Redeemable Noncontrolling Interest

Interest held by a third party in a consolidated majority-owned subsidiary is presented as noncontrolling interest, which represents the noncontrolling equity holder's interest in the underlying net assets of our consolidated majority-owned subsidiary. Noncontrolling interest, where we may be required to repurchase the noncontrolling interest under a contractual redemption requirement, is reported in the consolidated balance sheets between liabilities and equity, as redeemable noncontrolling interest ("RNCI"). The carrying value of the RNCI should not be accreted or adjusted to redemption value unless it becomes probable that the Series A Units will become redeemable. Refer to note 7 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our RNCI.

Income Taxes

Our deferred income tax assets represent temporary differences between the carrying amount and the tax basis of existing assets and liabilities, which will result in deductible amounts in future years, including net operating loss carry forwards. Based on estimates, the carrying value of our net deferred tax assets assumes that it is more likely than not that we will be able to generate sufficient future taxable income in certain tax jurisdictions to realize these deferred income tax assets. Our judgments regarding future profitability may change due to future market conditions, changes in U.S. or international tax laws and other factors. If these estimates and related assumptions change in the future, we may be required to increase or decrease our valuation allowance against deferred tax assets previously recognized, resulting in additional or lesser income tax expense.

We are regularly subject to tax return audits and examinations by various taxing jurisdictions and around the world, and there can be no assurance that the final determination of any tax examinations will not be materially different than that which is reflected in our income tax provisions and accruals. Should additional taxes be assessed as a result of a current or future examination, there could be a material adverse effect on our tax position, operating results, financial position and cash flows. Refer to note 15 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our tax position.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain statements of operations data expressed as a percentage of net sales (amounts may not sum due to rounding). The financial information and the discussion below should be read in conjunction with the consolidated financial statements and notes thereto included in Item 8, "Financial Statements and Supplementary Data." As further discussed in note 1 and note 21 to the consolidated financial statement in Item 8, we revised our reportable segments in the fourth quarter of fiscal year 2022 to reflect Nextracker as a separate reportable segment in addition to FRS and FAS. There was no change to our consolidated financial statements. Additionally, as further discussed in note 2 to the consolidated financial statement in Item 8, the prior year amounts related to interest expense (income), net are now presented separately under interest, net, and the remaining balances under interest and other, net have been reclassified to other charges (income), net within the consolidated statements of operations. We also elected to include operating income as a subtotal in the consolidated statements of operations. For comparability purposes, the prior periods have been recast to conform to the current presentation. The reclassifications had no effect on the previously reported results of operations.

For a discussion of our results of operations for the fiscal year ended March 31, 2021 compared to the fiscal year ended March 31, 2020, refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2021.

The data below, and discussion that follows, represents our results from operations.

	Fiscal Year Ended March 31,	
	2022	2021
Net sales	100.0 %	100.0 %
Cost of sales	92.5	92.6
Restructuring charges	0.1	0.4
Gross profit	7.4	7.0
Selling, general and administrative expenses	3.4	3.4
Intangible amortization	0.3	0.3
Restructuring charges	—	0.1
Operating income	3.7	3.2
Interest, net	0.6	0.6
Other charges (income), net	(0.9)	(0.3)
Income before income taxes	4.0	2.9
Provision for income taxes	0.4	0.4
Net income	3.6 %	2.5 %
Net income attributable to redeemable noncontrolling interest	—	—
Net income attributable to Flex Ltd.	3.6 %	2.5 %

Net sales

The following table sets forth our net sales by segment, and their relative percentages:

	Fiscal Year Ended March 31,			
	2022		2021	
Net sales:	(In millions)			
Flex Agility Solutions	\$ 14,027	54 %	\$ 13,493	56 %
Flex Reliability Solutions	10,603	41 %	9,495	39 %
Nextracker	1,458	6 %	1,195	5 %
Intersegment eliminations	(47)	— %	(59)	— %
	<u>\$ 26,041</u>		<u>\$ 24,124</u>	

Net sales for the fiscal year ended 2022 totaled \$26.0 billion, representing an increase of \$1.9 billion, or approximately 8%, from \$24.1 billion for the fiscal year ended 2021. Net sales for our FAS segment increased \$0.5 billion, or 4%, from the

prior year, mainly due to an increase in net sales of 14% in our Lifestyle business and 3% in our CEC business resulting from a lesser impact from COVID-19 production pressure during the current year versus the prior year, coupled with new ramps, customer expansions and continued recoveries in consumer spending, offset to some extent by the scarcity of components and raw material and logistics constraints. These increases in FAS were offset by a 7% decrease in net sales in our Consumer Devices business due to certain planned contract completions in fiscal year 2022 reflecting our active program management. Net sales in our FRS segment increased \$1.1 billion, or 12%, driven primarily by an increase of 17% in net sales from prior year in our Industrial business as a result of customer ramps and strong demand in EV charging and renewables, semicap, and robotics, coupled with incremental revenues from our Anord Mardix acquisition. In addition, net sales for our Automotive business increased 15% from the prior year due to new programs during fiscal year 2022 for our next generation mobility portfolio and recovery from the depressed sales from factory shutdowns in the first quarter of fiscal year 2021. The increase in our Automotive business was partially constrained by component shortages and OEM plant shutdowns during fiscal year 2022. Net sales for our Nextracker segment increased \$0.3 billion, or 22%, from the prior year driven by additional tracker projects, most notably outside the United States.

Net sales increased across all regions with a \$1.2 billion increase to \$10.8 billion in the Americas, a \$0.5 billion increase to \$5.6 billion in Europe, and a \$0.3 billion increase to \$9.6 billion in Asia.

Our ten largest customers during fiscal years 2022 and 2021 accounted for approximately 34% and 36% of net sales, respectively. We have made substantial efforts to diversify our portfolio which allows us to operate at scale in many different industries, and, as a result, no customer accounted for greater than 10% of net sales in fiscal year 2022 and 2021.

Cost of sales

Cost of sales is affected by a number of factors, including the number and size of new manufacturing programs, product mix, labor cost fluctuations by region, component costs and availability and capacity utilization.

Cost of sales during fiscal year 2022 totaled \$24.1 billion, representing an increase of approximately \$1.7 billion, or 8% from \$22.3 billion during fiscal year 2021. The increase in cost of sales is most notable in our FRS segment. Cost of sales in FRS for fiscal year 2022 increased \$1.0 billion or approximately 12% from fiscal year 2021, which is in line with the 12% increase in revenue, primarily as a result of higher revenue in our Industrial and Automotive businesses. Cost of sales in FAS increased \$0.4 billion, or approximately 3%, from fiscal year 2021, which is relatively consistent the 4% increase in revenue, primarily as a result of higher revenue in our Lifestyle and CEC businesses, and partially offset by improved efficiencies. Cost of sales in our Nextracker segment increased \$0.4 billion or approximately 37% from fiscal year 2021, primarily due to the increase in steel and freight costs due to container shortages and other logistics challenges resulting from the COVID-19 pandemic, coupled with the increase in sales noted above.

Gross profit

Gross profit is affected by a fluctuation in costs of sales elements as outlined above and further by a number of factors, including product lifecycles, unit volumes, product mix, pricing, competition, new product introductions, and the expansion or consolidation of manufacturing facilities, as well as specific restructuring activities initiated from time to time. The flexible design of our manufacturing processes allows us to manufacture a broad range of products in our facilities and better utilize our manufacturing capacity across our diverse geographic footprint and service customers from all segments. In the cases of new programs, profitability normally lags revenue growth due to product start-up costs, lower manufacturing program volumes in the start-up phase, operational inefficiencies, and under-absorbed overhead. Gross margin for these programs often improves over time as manufacturing volumes increase, as our utilization rates and overhead absorption improve, and as we increase the level of manufacturing services content. As a result of these various factors, our gross margin varies from period to period.

Gross profit during fiscal year 2022 increased \$0.2 billion to \$1.9 billion, or 7.4% of net sales, from \$1.7 billion, or 7.0% of net sales, during fiscal year 2021, an improvement of 40 basis points. The increase in gross profit and gross margin during fiscal year 2022 primarily resulted from the overall stronger cost discipline focused on driving further productivity improvements, coupled with continued improvement in the mix of our business, lower restructuring charges incurred compared to prior year, benefits from prior restructuring activities and a lower direct and incremental impact from COVID-19, coupled with stronger demand in our Automotive, Industrial, CEC and Lifestyle businesses compared to the prior year period.

Segment income

An operating segment's performance is evaluated based on its pre-tax operating contribution, or segment income. Segment income is defined as net sales less cost of sales, and segment selling, general and administrative expenses, and does not include amortization of intangibles, stock-based compensation, customer related asset impairments (recoveries), restructuring charges, legal and other. A portion of depreciation is allocated to the respective segments, together with other general corporate research and development and administrative expenses.

The following table sets forth segment income and margins:

	Fiscal Year Ended March 31,					
	2022			2021		
	(In millions)					
Segment income:						
Flex Agility Solutions	\$	605	4.3 %	\$	449	3.3 %
Flex Reliability Solutions		546	5.1 %		484	5.1 %
Nextracker		90	6.2 %		178	14.9 %

FAS segment margin increased 100 basis points, to 4.3% for fiscal year 2022, from 3.3% for fiscal year 2021. The margin increase during the period was driven by disciplined cost management and improved efficiencies as noted above, partially offset by elevated costs due to component shortages and logistics constraints across all of our end markets.

FRS segment margin for both fiscal years 2022 and 2021 was consistent at 5.1%. FRS segment margin increased for fiscal year 2022 in our Automotive business compared to the prior year despite component shortages and OEM plant shutdowns during the current year and to a lesser extent, increased in our Industrial business due to strong demand and customer ramps. Increases in Automotive and Industrial were offset by a drop in Health Solutions due to high growth from critical care products in the fiscal year ended 2021.

Nextracker segment margin decreased 870 basis points, to 6.2% for fiscal year 2022, from 14.9% for fiscal year 2021 driven primarily by increased freight and logistics costs.

Restructuring charges

We continued to identify certain structural changes to restructure the business throughout fiscal year 2022. During fiscal year 2022, we recognized approximately \$15 million of restructuring charges, most of which related to employee severance. During fiscal year 2021, we recognized approximately \$0.1 billion of restructuring charges, most of which related to employee severance as part of an overall effort to align our cost structure with the reorganizing and optimizing of our operations model along the reporting segments, and further sharpen our focus to winning business in end markets where we have competitive advantages and deep domain expertise

Refer to note 16 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our restructuring activities.

Selling, general and administrative expenses

Selling, general and administrative expenses ("SG&A") totaled \$0.9 billion, or 3.4% of net sales, during fiscal year 2022, compared to \$0.8 billion, or 3.4% of net sales, during fiscal year 2021, increasing by \$75 million or 9%, which reflects our enhanced cost control efforts to support higher revenue growth while keeping our SG&A expenses relatively flat.

Intangible amortization

Amortization of intangible assets in fiscal years 2022 and 2021 were \$68 million and \$62 million, respectively, representing an increase of \$6 million, from fiscal year 2021 as a result of four months of amortization expense related to new intangible assets from the Anord Mardix acquisition in December 2021 offset by certain intangible assets being fully amortized during fiscal year 2022.

Interest, net

Interest, net remained relatively flat at \$152 million and \$148 million during fiscal years 2022 and 2021, respectively.

Other charges (income), net

During fiscal year 2022, we recorded \$225 million of other income, net, primarily driven by a \$150 million gain related to a certain tax credit recorded upon approval of a "Credit Habilitation" request by the relevant Brazil tax authorities. This is a non-cash gain which will be used to offset certain current and future tax obligations. Other income, net also includes \$61 million of equity in earnings, driven by the value increase in certain investment funds resulting from discrete market events including initial public offerings of certain companies included in the funds, coupled with a \$32 million gain on foreign exchange transactions.

During fiscal year 2021, we recorded \$67 million of other income, net, primarily as a result of recognizing \$83 million of equity in earnings, driven by the value increase in certain investment funds resulting from discrete market events including initial public offerings of certain companies included in the funds. Out of the \$83 million equity in earnings recorded in fiscal year 2021, we collected \$48 million of cash proceeds as we sold certain shares received as a distribution from one of our fund's investments. Partially offsetting the income was an impairment charge of \$37 million related to certain non-core investments that were determined to be other than temporarily impaired.

Refer to note 17 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further discussion of our other charges (income), net.

Income taxes

We work to ensure that we accrue and pay the appropriate amount of income taxes according to the laws and regulations of each jurisdiction in which we operate. Certain of our subsidiaries have, at various times, been granted tax relief in their respective countries, resulting in lower income taxes than would otherwise be the case under ordinary tax rates. The consolidated effective tax rates were 10.0% and 14.1% for the fiscal years 2022 and 2021, respectively. The effective rate varies from the Singapore statutory rate of 17.0% in each year as a result of the following items:

	Fiscal Year Ended March 31,	
	2022	2021
Income taxes based on domestic statutory rates	17.0 %	17.0 %
Effect of jurisdictional tax rate differential	(10.9)	(11.6)
Change in unrecognized tax benefit	1.1	1.5
Change in valuation allowance	1.1	4.9
Foreign exchange movement on prior year taxes recoverable	(0.9)	0.7
Tax impacts related to sale of Nextracker Series A Preferred Units	1.2	—
APB 23 tax liability	0.1	0.1
Other	1.3	1.5
Provision for income taxes	10.0 %	14.1 %

The variation in our effective tax rate each year is primarily a result of recognition of earnings in foreign jurisdictions which are taxed at rates lower than the Singapore statutory rate including the effect of tax holidays and tax incentives we received primarily for our subsidiaries in China, Malaysia, Costa Rica, Netherlands and Israel of \$23 million and \$21 million in fiscal years 2022 and 2021, respectively. Additionally, our effective tax rate is impacted by changes in our liabilities for uncertain tax positions of \$12 million, and \$11 million and changes in our valuation allowances on deferred tax assets of \$12 million and \$35 million in fiscal years 2022 and 2021, respectively. We generate most of our revenues and profits from operations outside of Singapore.

We are regularly subject to tax return audits and examinations by various taxing jurisdictions around the world, and there can be no assurance that the final determination of any tax examinations will not be materially different than that which is reflected in our income tax provisions and accruals. Should additional taxes be assessed as a result of a current or future examination, there could be a material adverse effect on our effective tax rate, tax position, operating results, financial position and cash flows.

We provide a valuation allowance against deferred tax assets that in our estimation are not more likely than not to be realized. During fiscal year 2022, we released valuation allowances totaling \$26 million, \$8 million of which related primarily to certain operations in Canada and Hungary, as these amounts were deemed to be more likely than not to be realized due to the sustained profitability during the past three fiscal years as well as continued forecasted profitability of those operations. The remaining approximately \$19 million valuation allowance release related to deferred tax assets in the United States deemed realizable due to purchase accounting related to the Anord Mardix acquisition. Various other valuation allowance positions were also reduced due to varying factors such as recognition of uncertain tax positions impacting deferred tax assets, one-time income recognition in loss entities, and foreign exchange impacts on deferred tax balances. Lastly, these valuation allowance reductions and eliminations were offset by current period valuation allowance additions due to increased deferred tax assets as a result of current period losses in legal entities with existing full valuation allowance positions.

LIQUIDITY AND CAPITAL RESOURCES

In response to the recent challenging environment following the COVID-19 pandemic, we continuously evaluate our ability to meet our obligations over the next 12 months and have proactively reset our capital structure during these times to improve maturities and liquidity. As a result, we expect that our current financial condition, including our liquidity sources are adequate to fund current and future commitments. As of March 31, 2022, we had cash and cash equivalents of approximately \$3.0 billion and bank and other borrowings of approximately \$4.2 billion. We have a \$2.0 billion revolving credit facility, that is due to mature in January 2026 (the "2026 Credit Facility"), under which we had no borrowings outstanding as of March 31, 2022. We also issued HUF 100 billion of 3.6% bonds due December 2031 (approximately \$301.4 million, as of March 31, 2022) and borrowed €350 million under a one-year term loan (approximately \$388.6 million as of March 31, 2022) at an interest rate of (0.18)% per annum. The proceeds of the new debt were used to refinance certain other outstanding debt in fiscal year 2022 and for other general corporate purposes. As of March 31, 2022, we were in compliance with the covenants under all of our credit facilities and indentures. Refer to note 9 to the consolidated financial statement in Item 8, "Financial Statements and Supplementary Data" for additional details on the 2026 Credit Facility and the new notes.

Our cash balances are held in numerous locations throughout the world. As of March 31, 2022, approximately 34% of our cash and cash equivalents were held by foreign subsidiaries outside of Singapore. Although substantially all of the amounts held outside of Singapore could be repatriated, under current laws, a significant amount could be subject to income tax withholdings. We provide for tax liabilities on these amounts for financial statement purposes, except for certain of our foreign earnings that are considered indefinitely reinvested outside of Singapore (approximately \$1.6 billion as of March 31, 2022). Repatriation could result in an additional income tax payment; however, for the majority of our foreign entities, our intent is to permanently reinvest these funds outside of Singapore and our current plans do not demonstrate a need to repatriate them to fund our operations in jurisdictions outside of where they are held. Where local restrictions prevent an efficient intercompany transfer of funds, our intent is that cash balances would remain outside of Singapore and we would meet our liquidity needs through ongoing cash flows, external borrowings, or both.

The following is a discussion of our cash flows for the fiscal years ended March 31, 2022 and March 31, 2021. For a discussion of our cash flows for the fiscal years ended March 31, 2021 and March 31, 2020, please refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2021.

Fiscal Year 2022

Cash provided by operating activities was \$1.0 billion during fiscal year 2022. The total cash provided by operating activities resulted primarily from \$0.9 billion of net income for the period plus \$0.6 billion of non-cash charges such as depreciation, amortization, non-cash lease expense, restructuring and impairment charges, provision for doubtful accounts, deferred income taxes and stock-based compensation. Depreciation expense was \$0.4 billion and relatively consistent with prior years. These additions were offset by a net change in our operating assets and liabilities of \$0.5 billion primarily driven by changes in NWC as discussed below, partially offset by an increase in cash from other current liabilities of \$1.1 billion primarily attributed to customer advances received.

We believe NWC, and net working capital as a percentage of annualized net sales are key metrics that measure our liquidity. NWC is calculated as current quarter accounts receivable, net of allowance for doubtful accounts, plus inventories and contract assets, less accounts payable. NWC increased by \$1.3 billion to \$4.2 billion as of March 31, 2022, from \$2.9 billion as of March 31, 2021. This increase is primarily driven by a \$2.7 billion increase in inventories due to component shortages, clear-to-build constraints and logistic challenges which increased buffer stock and inventory pricing, coupled with a \$0.2 billion increase in contract assets, and partially offset with a \$1.0 billion increase in accounts payable due to increased inventory purchases and a \$0.6 billion decrease in accounts receivable, net partially due to more accounts receivable factored as of March 31, 2022. Our net working capital as a percentage of annualized net sales as of March 31, 2022 increased to 15.4% as compared to 11.5% of annualized net sales as of March 31, 2021 due to these factors. We continue to experience component shortages in the supply chain and logistical constraints, and although we are actively managing these impacts, we expect continued working capital pressure in the near future. We expect it will take time to adequately drive down our inventory levels. We are proactively working with our partners to rebalance safety and buffer stock requirements and we have an established enterprise-wide cross-functional initiative to reset our load planning in an effort to reduce inventory levels. In addition, we are pursuing alternative resources using inclusive hybrid solutions to minimize transit times and implementing operational efficiencies. Component shortages and significantly increased logistic costs are expected to persist into the near future as we are continuing to experience increasing supply constraints and costs. We are working diligently with our partners to secure needed parts and fulfill demand. In addition, to the extent possible, we have collaborated with our customers for working capital advances to offset the required investment in inventory. Advances from customers were \$1.4 billion as of March 31, 2022, an increase of \$0.9 billion from \$0.5 billion as of March 31, 2021.

Cash used in investing activities totaled \$1.0 billion during fiscal year 2022. This was primarily driven by \$0.5 billion of cash paid for the acquisition of Anord Mardix in December 2021, net of cash acquired, and approximately \$0.4 billion of capital expenditures for property and equipment to continue expanding capabilities and capacity in support of our expanding Lifestyle, Automotive, and Industrial businesses.

Cash provided by financing activities was \$0.3 billion during fiscal year 2022. This was primarily driven by \$0.7 billion of proceeds received in aggregate, after premiums, following the issuance of the HUF 100 billion Bonds due December 2031 and the €350 million term loan due December 2022, and \$0.5 billion of proceeds received from the sale of Nextracker redeemable preferred units, partially offset by \$0.7 billion of cash paid for the repurchase of our ordinary shares and \$0.2 billion of cash paid for the repayment of the Euro term loan due January 2022. Refer to note 9 to the consolidated financial statement in Item 8, "Financial Statements and Supplementary Data" for additional details.

Fiscal Year 2021

Cash provided by operating activities was \$0.1 billion during fiscal year 2021. The total cash provided by operating activities resulted primarily from \$0.6 billion of net income for the period plus \$0.6 billion of non-cash charges such as depreciation, amortization, non-cash lease expense, restructuring and impairment charges, provision for doubtful accounts, deferred income taxes and stock-based compensation. Depreciation expense was \$0.4 billion and relatively consistent with prior years. These additions were offset by a net change in our operating assets and liabilities of \$1.1 billion, primarily driven by cash outflows related to accounts receivables resulting from the reduction of our outstanding balances of accounts receivable sold through our ABS and accounts receivable factoring programs.

Cash used in investing activities totaled \$0.2 billion during fiscal year 2021. This was primarily driven by approximately \$0.4 billion of capital expenditures for property and equipment to continue expanding capabilities and capacity in support of our expanding Health Solutions and Industrial businesses net of approximately \$0.1 billion of proceeds from the sale of fixed assets including proceeds from the sale of an exited facility in the fourth quarter of fiscal year 2021 as a result of the disengagement of a certain customer in fiscal year 2020. Further offsetting the capital expenditures was \$48 million of proceeds from the sale of certain shares received as distribution from one of our funds' investments.

Cash provided by financing activities was \$0.7 billion during fiscal year 2021. This was primarily driven by \$1.4 billion of proceeds received in aggregate, net of discounts and after premiums, following the issuance of the 2026 Notes and the 2030 Notes, partially offset by \$0.4 billion of cash paid for the repayment of the term loan due June 2022. Also offsetting cash provided by financing activities was \$0.2 billion of cash paid for the repurchase of our ordinary shares.

Adjusted Free Cash Flow

We believe adjusted free cash flow is an important liquidity metric because it measures, during a given period, the amount of cash generated that is available to repay debt obligations, make investments, fund acquisitions, repurchase company shares and for certain other activities. Our adjusted free cash flow is defined as cash from operations, less net purchases of property and equipment to present adjusted cash flows on a consistent basis for investors. During fiscal year 2021, we proactively and strategically reduced the outstanding balance of our ABS programs. Proceeds from our debt issuance replaced the funding from the ABS programs for working capital purposes. As this decrease in cash flow reflected the change of our capital strategy, we added this back for our adjusted free cash flow calculation and also excluded the impact to cash flows related to certain vendor programs that is required for US GAAP presentation for fiscal year 2021. Refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" (Adjusted Free Cash Flow subsection) of our Annual Report on our Form 10-K for the fiscal year ended March 31, 2021 for further discussion. Our adjusted free cash flow was \$0.6 billion and \$0.7 billion for fiscal years 2022 and 2021, respectively. Adjusted free cash flow is not a measure of liquidity under U.S. GAAP, and may not be defined and calculated by other companies in the same manner. Adjusted free cash flow should not be considered in isolation or as an alternative to net cash provided by operating activities. Adjusted free cash flows reconcile to the most directly comparable GAAP financial measure of cash flows from operations as follows:

	Fiscal Year Ended March 31,	
	2022	2021
	(In millions)	
Net cash provided by operating activities	\$ 1,024	\$ 144
Reduction in ABS levels and other	—	799
Purchases of property and equipment	(443)	(351)
Proceeds from the disposition of property and equipment	11	85
Adjusted free cash flow (1)	<u>\$ 593</u>	<u>\$ 677</u>

(1) Figures in the table may not foot exactly due to rounding.

Our cash balances are generated and held in numerous locations throughout the world. Liquidity is affected by many factors, some of which are based on normal ongoing operations of the business and some of which arise from fluctuations related to global economics and markets. Local government regulations may restrict our ability to move cash balances to meet cash needs under certain circumstances; however, any current restrictions are not material. We do not currently expect such regulations and restrictions to impact our ability to pay vendors and conduct operations throughout the global organization. We believe that our existing cash balances, together with anticipated cash flows from operations and borrowings available under our credit facilities, will be sufficient to fund our operations through at least the next twelve months.

Future liquidity needs will depend on fluctuations in levels of inventory, accounts receivable and accounts payable, the timing of capital expenditures for new equipment, the extent to which we utilize operating leases for new facilities and equipment, and the levels of shipments and changes in the volume of customer orders.

We maintain global paying service agreements with several financial institutions. Under these agreements, the financial institutions act as our paying agents with respect to accounts payable due to our suppliers who elect to participate in the program. The agreements allow our suppliers to sell their receivables to one of the participating financial institutions at the discretion of both parties on terms that are negotiated between the supplier and the respective financial institution. Our obligations to our suppliers, including the amounts due and scheduled payment dates, are not impacted by our suppliers' decisions to sell their receivables under this program. During fiscal years ended March 31, 2022 and 2021, the cumulative payments due to suppliers participating in the programs amounted to approximately \$1.3 billion and \$1.0 billion, respectively. Pursuant to their agreement with one of the financial institutions, certain suppliers may elect to be paid early at their discretion. We are not always notified when our suppliers sell receivables under these programs. The available capacity under these programs can vary based on the number of investors and/or financial institutions participating in these programs at any point in time.

In addition, we maintain various uncommitted short-term financing facilities including but not limited to a commercial paper program, and a revolving sale and repurchase of subordinated notes established under the securitization facility, under which there were no borrowings outstanding as of March 31, 2022.

Historically, we have funded operations from cash and cash equivalents generated from operations, proceeds from public offerings of debt securities, bank debt and lease financings. We also have the ability to sell a designated pool of trade receivables under ABS programs and sell certain trade receivables, which are in addition to the trade receivables sold in connection with these securitization agreements. We may enter into debt and equity financings, sales of accounts receivable and lease transactions to fund acquisitions and anticipated growth as needed.

During fiscal year 2022, no accounts receivable had been sold under our ABS programs and we received approximately \$1.6 billion from other sales of receivables under our factoring program. During fiscal years 2021, we received approximately \$0.6 billion from transfers of receivables under our ABS programs, and \$0.8 billion from other sales of receivables. As of March 31, 2022 and 2021, the outstanding balance on receivables sold for cash was \$0.6 billion and \$0.2 billion, respectively, under our accounts receivable factoring programs, which were removed from accounts receivable balances in our consolidated balance sheets.

Historically we have been successful in refinancing and extending the maturity dates on our term loans and credit facilities. In January 2021, we entered into a \$2.0 billion credit agreement which matures in January 2026 and consists of a \$2.0 billion revolving credit facility with a sub-limit of \$360 million available for swing line loans, and a sub-limit of \$175 million available for the issuance of letters of credit.

The sale or issuance of equity or convertible debt securities could result in dilution to current shareholders. Further, we may issue debt securities that have rights and privileges senior to those of holders of ordinary shares, and the terms of this debt could impose restrictions on operations and could increase debt service obligations. This increased indebtedness could limit our flexibility as a result of debt service requirements and restrictive covenants, potentially affect our credit ratings, and may limit our ability to access additional capital or execute our business strategy. Any downgrades in credit ratings could adversely affect our ability to borrow as a result of more restrictive borrowing terms. We continue to assess our capital structure and evaluate the merits of redeploying available cash to reduce existing debt or repurchase ordinary shares.

Under our current share repurchase program, our Board of Directors authorized repurchases of our outstanding ordinary shares for up to \$1 billion in accordance with the share purchase mandate approved by our shareholders at the date of the most recent Annual General Meeting which was held on August 4, 2021. During fiscal year 2022, we paid \$686 million to repurchase shares under the current and prior repurchase plans at an average price of \$17.97 per share. As of March 31, 2022, shares in the aggregate amount of \$496 million were available to be repurchased under the current plan.

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

Bank borrowings and long-term debt are as follows:

	As of March 31,	
	2022	2021
	(In millions)	
5.000% Notes due February 2023	\$ 500	\$ 500
Term Loan due April 2024 - three-month TIBOR plus 0.43%	273	305
4.750% Notes due June 2025	598	598
3.750% Notes due February 2026	690	694
4.875% Notes due June 2029	659	661
4.875% Notes due May 2030	690	694
Euro Term Loans	389	168
3.600% HUF Bonds due December 2031	301	—
India Facilities	84	133
Other	31	51
Debt issuance costs	(18)	(21)
	4,197	3,783
Current portion, net of debt issuance costs	(949)	(268)
Non-current portion	\$ 3,248	\$ 3,515

Refer to the discussion in note 9 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further details of our debt obligations.

In addition, we have leased certain of our property and equipment under finance lease commitments, and certain of our facilities and equipment under operating lease commitments. Future payments due under our debt including finance leases and related interest obligations and operating leases are as follows (amounts may not sum due to rounding):

	Total	Less Than 1 Year	1 - 3 Years	4 - 5 Years	Greater Than 5 Years
	(In millions)				
Contractual Obligations:					
Bank borrowings, long-term debt and finance lease obligations:					
Bank borrowings and long-term debt	\$ 4,215	\$ 950	\$ 326	\$ 1,288	\$ 1,651
Finance leases	4	2	2	—	—
Interest on long-term debt obligations	744	153	264	154	173
Operating leases, net of subleases	765	148	232	156	229
Restructuring costs	43	42	1	—	—
Total contractual obligations	\$ 5,771	\$ 1,295	\$ 825	\$ 1,598	\$ 2,053

We have excluded \$282 million of liabilities for unrecognized tax benefits from the contractual obligations table as we cannot make a reasonably reliable estimate of the periodic settlements with the respective taxing authorities. See note 15, "Income Taxes" to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further details.

We also have outstanding firm purchase orders with certain suppliers for the purchase of inventory, which are not included in the table above. The majority of the purchase obligations are generally short-term in nature. As of March 31, 2022, our purchase obligations over one year were approximately \$0.9 billion. We generally do not enter into non-cancelable purchase orders for materials until we receive a corresponding purchase commitment from our customer. Our purchase obligations can fluctuate significantly from period to period and can materially impact our future operating asset and liability balances, and our future working capital requirements. We intend to use our existing cash balances, together with anticipated cash flows from operations to fund our existing and future contractual obligations.

On February 1, 2022, we sold Series A Preferred Units, representing a 16.67% interest in Nextracker, to TPG Rise and received proceeds of \$487.5 million, net of \$12.5 million in transaction costs. Because the Series A Preferred Units are redeemable upon the occurrence of conditions not solely within the control of Flex, we classified the redeemable noncontrolling interest as temporary equity on our consolidated balance sheets.

At TPG Rise's election, we are required to repurchase all of the outstanding Series A Preferred Units at their liquidation preference, which shall include all contributed but unreturned capital plus accrued but unpaid dividends, at the earlier of certain change in control events and February 2, 2028. Additionally, if Nextracker has not completed a qualified initial public offering prior to February 2, 2027, then TPG Rise may cause us to repurchase all of the outstanding Series A Preferred Units at their fair market value. We do not believe that it is probable as of March 31, 2022, that the noncontrolling interest will become redeemable given the anticipated Qualified Public Offering of Nextracker. See note 7, "Redeemable Noncontrolling Interest" to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for further details.

RECENT ACCOUNTING PRONOUNCEMENTS

Refer to note 2 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data" for recent accounting pronouncements.

ITEM 7A. **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

INTEREST RATE RISK

A portion of our exposure to market risk for changes in interest rates relates to our highly liquid investment portfolio, with maturities of three months or less from original dates of purchase and are classified as cash equivalents on our consolidated balance sheet. We do not use derivative financial instruments in our highly liquid investment portfolio. We place cash and cash equivalents with various major financial institutions and highly rated money market accounts. Our investment policy has strict guidelines focusing on preservation of capital. The portfolio is comprised of various instruments including term deposits with banks, marketable securities and money market accounts. Our cash is principally invested in the U.S. dollar and China renminbi serving as a natural hedge of our renminbi denominated costs. As of March 31, 2022, the outstanding amount in the highly liquid investment portfolio was \$2.3 billion, the largest components of which were U.S. dollar, Indian rupee, Brazilian real, Israeli new shekel and China renminbi denominated money market accounts with an average return of 1%. A hypothetical 10% change in interest rates would not be expected to have a material effect on our financial position, results of operations and cash flows over the next fiscal year.

We had variable rate debt outstanding of approximately \$0.4 billion as of March 31, 2022. Variable rate debt obligations consisted of borrowings under our term loans. Interest on these obligations is discussed in note 9 to the consolidated financial statements in Item 8, "Financial Statements and Supplementary Data".

Our variable rate debt instruments create exposures for us related to interest rate risk. A hypothetical 10% change in interest rates would not be expected to have a material effect on our financial position, results of operations and cash flows over the next fiscal year.

As of March 31, 2022, the approximate average fair value of our debt outstanding under our Notes due February 2023, June 2025, February 2026, June 2029, and May 2030 was 102.6% of the face value of the debt obligations based on broker trading prices.

In July 2017, the U.K.'s Financial Conduct Authority ("FCA"), which regulates LIBOR, announced the publication cessation dates for all U.S. Dollar and non-U.S. Dollar LIBOR settings. Most settings ceased at the end of December 2021 and the remaining U.S. Dollar settings (overnight and one-, three-, six- and twelve-month U.S. Dollar LIBOR) will cease at the end of June 2023. Although significant progress has been made by regulators, industry bodies, and market participants to introduce and implement the Secured Overnight Financing Rate ("SOFR") as a replacement rate for U.S. dollar LIBOR, there is no assurance that an alternative reference rate such as SOFR will achieve sufficient market acceptance when the publication of the principal tenors of U.S. Dollar LIBOR is discontinued, or that market participants will otherwise implement effective transitional arrangements to address that discontinuation. Such failure to implement an alternative reference rate could result in widespread dislocation in the financial markets and volatility in the pricing of debt facilities negatively affecting our access to the borrowing of additional funds. Furthermore, while contractual arrangements in connection with certain of our debt facilities contemplate the transition from LIBOR to an alternative reference rate (including SOFR), the consequences of such transition cannot be entirely predicted and could result in an increase in the cost of our borrowings on our variable rate debt, which could adversely impact our interest expense, results of operations, and cash flows. For risks related to the discontinuation of LIBOR, see the following risk factor in Item IA: "*Changes in our credit rating may make it more expensive for us to raise additional capital or to borrow additional funds. We are also exposed to interest rate fluctuations on our outstanding borrowings and investments.*"

FOREIGN CURRENCY EXCHANGE RISK

We transact business in various foreign countries and are, therefore, subject to risk of foreign currency exchange rate fluctuations. We have established a foreign currency risk management policy to manage this risk. To the extent possible, we manage our foreign currency exposure by evaluating and using non-financial techniques, such as currency of invoice, leading and lagging payments and receivables management. In addition, we may borrow in various foreign currencies and enter into short-term and long-term foreign currency derivative contracts, including forward, swap, and option contracts to hedge only those currency exposures associated with certain assets and liabilities, mainly accounts receivable, accounts payable, debt, and cash flows denominated in non-functional currencies.

We endeavor to maintain a partial or fully hedged position for certain transaction exposures. These exposures are primarily, but not limited to, revenues, customer and vendor payments and inter-company balances in currencies other than the functional currency of the operating entity. The credit risk of our foreign currency derivative contracts is minimized since all contracts are with large financial institutions and accordingly, fair value adjustments related to the credit risk of the counterparty financial institutions were not material. The gains and losses on foreign currency derivative contracts generally offset the losses and gains on the assets, liabilities and transactions hedged. The fair value of currency derivative contracts is reported on the balance sheet. The aggregate notional amount of outstanding contracts as of March 31, 2022 amounted to \$11.6 billion and

the recorded fair values of the associated assets and liabilities were not material. The majority of these foreign exchange contracts expire in less than three months. They will settle primarily in the Brazilian real, British pound, China renminbi, Euro, Hungarian forint, Indian rupee, Israeli shekel, Malaysian ringgit, Mexican peso, and U.S. dollar.

Based on our overall currency rate exposures as of March 31, 2022, including the derivative financial instruments intended to hedge the nonfunctional currency-denominated monetary assets, liabilities and cash flows, and other factors, a 10% appreciation or depreciation of the U.S. dollar from its cross-functional rates would not be expected, in the aggregate, to have a material effect on our financial position, results of operations and cash flows in the near-term.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Flex Ltd., Singapore

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Flex Ltd. and subsidiaries (the "Company") as of March 31, 2022 and 2021, and the related consolidated statements of operations, comprehensive income, redeemable noncontrolling interest and shareholders' equity, and cash flows for each of the three years in the period ended March 31, 2022, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2022 and 2021, and the results of its operations and its cash flows for each of the three years in the period ended March 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of March 31, 2022, based on the criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated May 20, 2022, expressed an unqualified opinion on the Company's internal control over financial reporting.

Basis of Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the US federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our audits also included assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Revenue - Customer Contracts and Related Obligations - Refer to Notes 2 and 4 to the financial statements

Critical Audit Matter Description

Certain of the Company's customer agreements include potential price adjustments which are accounted for as variable consideration under the relevant accounting literature. For arrangements that include potential price adjustments the Company limits the amount of revenue recognized to that amount which is not probable of significant reversal, considering potential refunds required by the contract, historical experience and other surrounding facts and circumstances. The amount of variable consideration that is deferred is recorded in 'customer-related accruals' on the consolidated balance sheets, which totaled \$227.4 million as of March 31, 2022.

Auditing the Company's estimates of variable consideration required extensive audit effort and a high degree of auditor judgment. For these reasons we identified the measurement of variable consideration and the associated customer-related accruals as a critical audit matter.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to variable consideration and associated customer related accruals included the following, among others:

- We tested the effectiveness of controls the Company has in place relating to reviewing customer contracts to identify price adjustment clauses, estimating variable consideration and assessing the reasonableness of customer related accrual balances.
- We evaluated the Company's accounting policy with respect to variable consideration, as well as its process for identifying contracts that include potential price adjustment clauses.
- We selected a sample of contracts with customers that included potential price adjustment clauses and performed the following:
 - We read the customer contracts to develop an understanding of clauses that could give rise to variable consideration and evaluated whether the Company's accounting conclusions with respect to those clauses were reasonable.
 - We obtained and tested the mathematical accuracy of the Company's calculations of customer related accruals and evaluated the Company's judgments regarding the amount of variable consideration that should be deferred. In making this evaluation we considered both the terms included in the customer contract and the Company's historical experience in settling amounts with the customer.

/s/ DELOITTE & TOUCHE LLP

San Jose, California

May 20, 2022

We have served as the Company's auditors since 2002.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION OF THE COMPANY

Flex Ltd. ("Flex" or the "Company") is the diversified manufacturing partner of choice that helps market-leading brands design, build and deliver innovative products that improve the world. Through the collective strength of a global workforce across approximately 30 countries with responsible, sustainable operations, Flex delivers advanced manufacturing solutions and operates one of the most trusted global supply chains, supporting the entire product lifecycle with fulfillment, after-market, and circular economy solutions for diverse industries including cloud, communications, enterprise, automotive, industrial, consumer devices, lifestyle, healthcare, and energy. Beginning in the fourth quarter of fiscal year 2022, as a result of the sale of certain Series A preferred units in Nextracker LLC ("Nextracker LLC" or "Nextracker") to a third party (see note 7) and the Company's continuing evaluation to separate the Nextracker business and consistent with how the Company's chief operating decision maker ("CODM") allocates resources, assesses performance and makes strategic and operational decisions, Flex now reports Nextracker as a separate operating and reportable segment. Nextracker was previously included in the Industrial reporting unit within the Flex Reliability Solutions segment. Flex's three operating and reportable segments are:

- Flex Agility Solutions ("FAS"), which is comprised of the following end markets:
 - *Communications, Enterprise and Cloud*, including data infrastructure, edge infrastructure and communications infrastructure;
 - *Lifestyle*, including appliances, consumer packaging, floorcare, micro mobility and audio; and
 - *Consumer Devices*, including mobile and high velocity consumer devices.
- Flex Reliability Solutions ("FRS"), which is comprised of the following end markets:
 - *Automotive*, including next generation mobility, autonomous, connectivity, electrification, and smart technologies;
 - *Health Solutions*, including medical devices, medical equipment, and drug delivery; and
 - *Industrial*, including capital equipment, industrial devices, and renewables and grid edge.
- Nextracker, the leading provider of intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world. Nextracker's products enable solar panels to follow the sun's movement across the sky and optimize plant performance.

The Company's service offerings include a comprehensive range of value-added design and engineering services that are tailored to the various markets and needs of its customers. Other focused service offerings relate to manufacturing (including enclosures, metals, plastic injection molding, precision plastics, machining, and mechanicals), system integration and assembly and test services, materials procurement, inventory management, logistics and after-sales services (including product repair, warranty services, re-manufacturing and maintenance), supply chain management software solutions and component product offerings (including flexible printed circuit boards and power adapters and chargers). The Company also provide intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF ACCOUNTING POLICIES***Basis of Presentation and Principles of Consolidation***

The accompanying consolidated financial statements include the accounts of Flex and its majority-owned subsidiaries, after elimination of intercompany accounts and transactions. Amounts included in these consolidated financial statements are expressed in U.S. dollars unless otherwise designated. The Company consolidates its majority-owned subsidiaries and investments in entities in which the Company has a controlling interest. For the consolidated majority-owned subsidiaries in which the Company owns less than 100%, the Company recognizes a noncontrolling interest for the ownership of the noncontrolling owners. The associated noncontrolling owners' interest in the income or losses of these companies is not material to the Company's results of operations for all periods presented, and is classified as a component of other charges (income), net, in the consolidated statements of operations. Noncontrolling interest that is redeemable upon the occurrence of conditions outside of the control of the Company is reported as temporary equity in the consolidated balance sheets. The amount of consolidated net income attributable to Flex Ltd. and to the redeemable noncontrolling interest is presented in the consolidated statements of operations. Refer to note 7 Redeemable Noncontrolling Interest for additional information.

Certain prior period presentations and disclosures were reclassified to ensure comparability with the current period presentation. In fiscal year 2022, the Company elected to include operating income as a subtotal in the consolidated statements of operations. In addition, deferred revenue and customer working capital advances, previously included within other current liabilities, have been separately presented as deferred revenue and customer working capital advances in the current liabilities section of the consolidated balance sheets. Further, certain unbilled receivables previously presented as part of accounts receivable, net of allowance for doubtful accounts are now being presented as contract assets on the consolidated balance sheets as billing is to occur subsequent to revenue recognition and is conditional upon other than the passage of time. The Company reclassified \$146.8 million of unbilled receivables from accounts receivable, net of allowance for doubtful accounts to contract assets for the period ended March 31, 2021 in order to align with the current year presentation. The Company also recast fiscal year 2021 and 2020 consolidated statements of cash flows reflecting similar reclassifications between changes in contract assets and accounts receivable, net of allowance for doubtful accounts to align with the current year presentation. The reclassifications had no effect on the previously reported results of operations or cash flows from operating activities.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates are used in accounting for, among other things: allowances for doubtful accounts; inventory write-downs; valuation allowances for deferred tax assets; uncertain tax positions; valuation and useful lives of long-lived assets including property, equipment, and intangible assets; valuation of goodwill; valuation of investments in privately held companies; asset impairments; fair values of financial instruments, notes receivable and derivative instruments; restructuring charges; contingencies; warranty provisions; incremental borrowing rates in determining the present value of lease payments; accruals for potential price adjustments arising from customer contracts; fair values of assets obtained and liabilities assumed in business combinations; and the fair values of stock options and restricted share unit awards granted under the Company's stock-based compensation plans. Due to the COVID-19 pandemic and geopolitical conflicts (including the Russian invasion of Ukraine), there has been and will continue to be uncertainty and disruption in the global economy and financial markets. The Company has made estimates and assumptions taking into consideration certain possible impacts due to the COVID-19 pandemic and the Russian invasion of Ukraine. These estimates may change, as new events occur, and additional information is obtained. Actual results may differ from previously estimated amounts, and such differences may be material to the consolidated financial statements. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the period they occur.

Translation of Foreign Currencies

The financial position and results of operations for certain of the Company's subsidiaries are measured using a currency other than the U.S. dollar as their functional currency. Accordingly, all assets and liabilities for these subsidiaries are translated into U.S. dollars at the current exchange rates as of the respective balance sheet dates. Revenue and expense items are translated at the average exchange rates prevailing during the period. Cumulative gains and losses from the translation of these subsidiaries' financial statements are reported as other comprehensive income (loss), a component of shareholders' equity. Foreign exchange gains and losses arising from transactions denominated in a currency other than the functional currency of the entity involved, and re-measurement adjustments for foreign operations where the U.S. dollar is the functional currency, are included in operating results. Non-functional currency transaction gains and losses, and re-measurement adjustments were not

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

material to the Company's consolidated results of operations for all periods presented, and have been classified as a component of other charges (income), net in the consolidated statements of operations.

Revenue Recognition

In determining the appropriate amount of revenue to recognize, the Company applies the following steps: (i) identifies the contracts with the customers; (ii) identifies performance obligations in the contracts; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations per the contracts; and (v) recognizes revenue when (or as) the Company satisfies a performance obligation. Further, the Company assesses whether control of the products or services promised under the contract is transferred to the customer at a point in time (PIT) or over time (OT). The Company is first required to evaluate whether its contracts meet the criteria for OT recognition. The Company has determined that for a portion of its contracts, the Company is manufacturing products for which there is no alternative use (due to the unique nature of the customer-specific product and intellectual property restrictions) and the Company has an enforceable right to payment including a reasonable profit for work-in-progress inventory with respect to these contracts. For certain other contracts, the Company's performance creates and enhances an asset that the customer controls as the Company performs under the contract. As a result, revenue is recognized under these contracts OT based on the cost-to-cost method as it best depicts the transfer of control to the customer measured based on the ratio of costs incurred to date as compared to the total estimated costs at completion of the performance obligation. For all other contracts that do not meet these criteria, the Company recognizes revenue when it has transferred control of the related manufactured products which generally occurs upon delivery and passage of title to the customer. Certain of the Company's customer agreements include potential price adjustments which may result in variable consideration. These price adjustments include, but are not limited to, sharing of cost savings, committed price reductions, material margins earned over the period that are contractually required to be paid to the customers, rebates, refunds tied to performance metrics such as on-time delivery, and other periodic pricing resets that may be refundable to customers. The Company recognizes estimates of this variable consideration that are not expected to result in a significant revenue reversal in the future, primarily based on the amount of potential refunds required by the contract, historical experience and other surrounding facts and circumstances. Refer to note 4 "Revenue" for further details.

Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk are primarily accounts receivable, derivative instruments, and cash and cash equivalents.

Customer Credit Risk

The Company has an established customer credit policy, through which it manages customer credit exposures through credit evaluations, credit limit setting, monitoring, and enforcement of credit limits for new and existing customers. The Company performs ongoing credit evaluations of its customers' financial condition and makes provisions for doubtful accounts based on the outcome of those credit evaluations. The Company evaluates the collectability of its accounts receivable based on specific customer circumstances, current economic trends, historical experience with collections and the age of past due receivables. To the extent the Company identifies exposures as a result of credit or customer evaluations, the Company also reviews other customer related exposures, including but not limited to inventory and related contractual obligations.

The following table summarizes the activity in the Company's allowance for doubtful accounts during fiscal years 2022, 2021 and 2020:

	Balance at Beginning of Year	Charged to Costs and Expenses (1)	Deductions/ Write-Offs	Balance at End of Year
	(In millions)			
Allowance for doubtful accounts:				
Year ended March 31, 2020	\$ 91	\$ 24	\$ (19)	\$ 96
Year ended March 31, 2021	96	5	(40)	61
Year ended March 31, 2022	61	(3)	(2)	56

(1) Charges incurred and recoveries during fiscal years 2022, 2021 and 2020 are primarily for costs and expenses or bad debt recoveries related to various distressed customers.

No customer accounted for greater than 10% of the Company's net sales in fiscal years 2022, 2021 and 2020. No customer accounted for greater than 10% of the Company's total balance of accounts receivable, net as of fiscal year ended

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March 31, 2022. One customer within the Company's FAS segment accounted for approximately 11% of the Company's total balance of accounts receivable, net as of fiscal year ended March 31, 2021. A different customer within the Company's FAS segment accounted for approximately 10% of the Company's total balances of accounts receivable, net as of fiscal year ended March 31, 2020.

The Company's ten largest customers accounted for approximately 34%, 36% and 39%, of its net sales in fiscal years 2022, 2021 and 2020, respectively.

Derivative Instruments

The amount subject to credit risk related to derivative instruments is generally limited to the amount, if any, by which a counterparty's obligations exceed the obligations of the Company with that counterparty. To manage counterparty risk, the Company limits its derivative transactions to those with recognized financial institutions. See additional discussion of derivatives in note 10.

Cash and Cash Equivalents

The Company maintains cash and cash equivalents with various financial institutions that management believes to be of high credit quality. These financial institutions are located in many different locations throughout the world. The Company's investment portfolio, which consists of short-term bank deposits and money market accounts, is classified as cash equivalents on the consolidated balance sheets.

All highly liquid investments with maturities of three months or less from original dates of purchase are carried at cost, which approximates fair market value, and are considered to be cash equivalents. Cash and cash equivalents consist of cash deposited in checking accounts, money market funds and time deposits.

Cash and cash equivalents consisted of the following:

	As of March 31,	
	2022	2021
	(In millions)	
Cash and bank balances	\$ 679	\$ 1,130
Money market funds and time deposits	2,285	1,507
	\$ 2,964	\$ 2,637

Inventories

Inventories are stated at the lower of cost (on a first-in, first-out basis) or net realizable value. The stated cost is comprised of direct materials, labor and overhead. The components of inventories, net of applicable lower of cost or net realizable value write-downs, were as follows:

	As of March 31,	
	2022	2021
	(In millions)	
Raw materials	\$ 5,290	\$ 2,831
Work-in-progress	602	459
Finished goods	688	605
	\$ 6,580	\$ 3,895

Property and Equipment, Net

Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are recognized on a straight-line basis over the estimated useful lives of the related assets, with the exception of building leasehold improvements, which are depreciated over the term of the lease, if shorter. Repairs and maintenance costs are expensed as incurred. Property and equipment is comprised of the following:

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	Depreciable Life (In Years)	As of March 31,	
		2022	2021
(In millions)			
Machinery and equipment	2 - 10	\$ 3,540	\$ 3,381
Buildings	30	1,123	1,103
Leasehold improvements	Shorter of lease term or useful life of the improvement	564	500
Furniture, fixtures, computer equipment and software	3 - 7	503	491
Land	—	113	113
Construction-in-progress	—	261	255
		<u>6,104</u>	<u>5,843</u>
Accumulated depreciation and amortization		(3,979)	(3,746)
Property and equipment, net		<u>\$ 2,125</u>	<u>\$ 2,097</u>

Total depreciation expense associated with property and equipment was approximately \$408.9 million, \$422.3 million and \$422.4 million in fiscal years 2022, 2021 and 2020, respectively.

The Company reviews property and equipment for impairment at least annually and whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of property and equipment is determined by comparing its carrying amount to the lowest level of identifiable projected undiscounted cash flows the property and equipment are expected to generate. An impairment loss is recognized when the carrying amount of property and equipment exceeds its fair value.

Deferred Income Taxes

The Company provides for income taxes in accordance with the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the tax consequences of temporary differences between the carrying amount and the tax basis of existing assets and liabilities by applying the applicable statutory tax rate to such differences. Additionally, the Company assesses whether each income tax position is "more likely than not" of being sustained on audit, including resolution of related appeals or litigation, if any. For each income tax position that meets the "more likely than not" recognition threshold, the Company would then assess the largest amount of tax benefit that is greater than 50% likely of being realized upon effective settlement with the tax authority.

Accounting for Business and Asset Acquisitions

The Company has strategically pursued business and asset acquisitions, which are accounted for using the acquisition method of accounting. The fair value of the net assets acquired and the results of the acquired businesses are included in the Company's consolidated financial statements from the acquisition dates forward. The Company is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and results of operations during the reporting period. Estimates are used in accounting for, among other things, the fair value of acquired net operating assets, property and equipment, intangible assets and related deferred tax liabilities, useful lives of plant and equipment and amortizable lives for acquired intangible assets. Any excess of the purchase consideration over the fair value of the identified assets and liabilities acquired is recognized as goodwill.

The Company estimates the preliminary fair value of acquired assets and liabilities as of the date of acquisition based on information available at that time. Contingent consideration is recorded at fair value as of the date of the acquisition with subsequent adjustments recorded in earnings. Changes to valuation allowances on acquired deferred tax assets are recognized in the provision for, or benefit from, income taxes. The valuation of these tangible and identifiable intangible assets and liabilities is subject to further management review and may change materially between the preliminary allocation and end of the purchase price allocation period. Any changes in these estimates may have a material effect on the Company's consolidated operating results or financial position.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Goodwill

In accordance with accounting guidance on goodwill, the Company evaluates goodwill for impairment at the reporting unit level annually, and in certain circumstances such as a change in reporting units or whenever there are indications that goodwill might be impaired. The Company performed its annual goodwill impairment assessment on January 1, 2022 and as a result of the quantitative assessment of its goodwill, the Company determined that no impairment existed as of the date of the impairment test because the fair value of each one of its reporting units exceeded its respective carrying value. As described in note 1 and note 7, during the fourth quarter of fiscal year 2022, as a result of the sale of certain Series A preferred units in Nextracker to a third party and the Company's continuing evaluation to separate the Nextracker business and consistent with how the Company's CODM allocates resources, assesses performance and makes strategic and operational decisions, Flex now reports its financial performance based on three operating and reportable segments. With these changes, the Company also revised its reporting units, separating Nextracker from the Industrial reporting unit. Accordingly, the Company reallocated total Industrial goodwill between Nextracker and the updated Industrial reporting unit (excluding the Nextracker business) based on each reporting unit's relative fair value as of February 1, 2022.

Recoverability of goodwill is measured at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit, which typically is measured based upon, among other factors, market multiples for comparable companies as well as a discounted cash flow analysis. These approaches use significant unobservable inputs, or Level 3 inputs, as defined by the fair value hierarchy and require management to make various judgmental assumptions about sales, operating margins, growth rates and discount rates which consider the Company's budgets, business plans and economic projections, and are believed to reflect market participant views. Some of the inherent estimates and assumptions used in determining fair value of the reporting units are outside the control of management, including interest rates, cost of capital, tax rates, market EBITDA comparables and credit ratings. While the Company believes it has made reasonable estimates and assumptions to calculate the fair value of the reporting units, it is possible a material change could occur. If the actual results are not consistent with management's estimates and assumptions used to calculate fair value, it could result in material impairments of the Company's goodwill.

If the recorded value of the assets, including goodwill, and liabilities ("net book value") of any reporting unit exceeds its fair value, an impairment loss may be required to be recognized.

The Company completed its acquisition of Anord Mardix in December 2021. The acquisition generated \$272 million of goodwill in the Industrial reporting unit and primarily related to value placed on the acquired employee workforce, service offerings and capabilities of the acquired business. The goodwill is not deductible for income tax purposes. Refer to note 19 for more information.

The following table summarizes the activity in the Company's goodwill during fiscal years 2022 and 2021:

	FAS	FRS	Nextracker	Total
	(In millions)			
Balance at March 31, 2020	\$ 370	\$ 695	\$ —	\$ 1,065
Divestitures	—	(1)	—	(1)
Foreign currency translation adjustments	1	25	—	26
Balance at March 31, 2021	\$ 371	\$ 719	\$ —	\$ 1,090
Reporting unit reallocation	—	(204)	204	—
Acquisitions	—	272	—	272
Foreign currency translation adjustments	—	(20)	—	(20)
Balance at March 31, 2022	<u>\$ 371</u>	<u>\$ 767</u>	<u>\$ 204</u>	<u>\$ 1,342</u>

Other Intangible Assets

The Company's acquired intangible assets are subject to amortization over their estimated useful lives and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an intangible asset may not be recoverable. An impairment loss is recognized when the carrying amount of an intangible asset exceeds its fair value. The

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Company reviewed the carrying value of its intangible assets as of March 31, 2022 and concluded that such amounts continued to be recoverable.

Intangible assets are comprised of customer-related intangible assets that include contractual agreements and customer relationships, and licenses and other intangible assets that are primarily comprised of licenses, patents and trademarks, and developed technologies. Generally, both customer-related intangible assets and licenses and other intangible assets are amortized on a straight-line basis, over a period of up to ten years. No residual value is estimated for any intangible assets. The fair value of the Company's intangible assets purchased through business combinations is determined based on management's estimates of cash flow and recoverability.

During fiscal year 2022, the total value of intangible assets increased by \$273.0 million as a result of the Company's initial estimated value of intangible assets from the Anord Mardix acquisition. This acquisition contributed an additional \$147.0 million in customer-related intangible assets, and \$126.0 million in licenses and other intangibles assets such as trade names and technology. Refer to note 19 for additional information.

The components of acquired intangible assets are as follows:

	As of March 31, 2022			As of March 31, 2021			
	Weighted-Average Remaining Useful life (in Years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
							(In millions)
Intangible assets:							
Customer-related intangibles	6.8	\$ 385	\$ (157)	\$ 228	\$ 276	\$ (154)	\$ 122
Licenses and other intangibles	6.8	319	(136)	183	250	(159)	91
Total		\$ 704	\$ (293)	\$ 411	\$ 526	\$ (313)	\$ 213

Total intangible asset amortization expense recognized in operations during fiscal years 2022, 2021 and 2020 was \$67.9 million, \$61.8 million and \$64.1 million, respectively. The gross carrying amounts of intangible assets are removed when fully amortized. During fiscal year 2022, the gross carrying amounts of fully amortized intangible assets totaled \$81.4 million. The Company also recorded \$7.1 million of foreign currency translation adjustments during fiscal year 2022, as the U.S. Dollar fluctuated against foreign currencies for certain intangibles. The estimated future annual amortization expense for acquired intangible assets is as follows:

Fiscal Year Ending March 31,	Amount (In millions)
2023	\$ 87
2024	72
2025	65
2026	44
2027	37
Thereafter	106
Total amortization expense	\$ 411

The Company owns or licenses various United States and foreign patents relating to a variety of technologies. For certain of the Company's proprietary processes, inventions, and works of authorship, the Company relies on trade secret or copyright protection. The Company also maintains trademark rights (including registrations) for the Company's corporate name and several other trademarks and service marks that the Company uses in the Company's business in the United States and other countries throughout the world. The Company has implemented appropriate policies and procedures (including both technological means and training programs for the Company's employees) to identify and protect the Company's intellectual property, as well as that of the Company's customers and suppliers. As of March 31, 2022 and 2021, the carrying value of the Company's intellectual property was not material.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Derivative Instruments and Hedging Activities

All derivative instruments are recognized on the consolidated balance sheets at fair value. If the derivative instrument is designated as a cash flow hedge, effectiveness is tested monthly using a regression analysis of the change in spot currency rates and the change in present value of the spot currency rates. The spot currency rates are discounted to present value using functional currency Inter-bank Offering Rates over the maximum length of the hedge period. The effective portion of changes in the fair value of the derivative instrument (excluding time value) is recognized in shareholders' equity as a separate component of accumulated other comprehensive income (loss), and recognized in the consolidated statements of operations when the hedged item affects earnings. Ineffective and excluded portions of changes in the fair value of cash flow hedges are recognized in earnings immediately. If the derivative instrument is designated as a fair value hedge, the changes in the fair value of the derivative instrument and of the hedged item attributable to the hedged risk are recognized in earnings in the current period. Cash receipts and cash payments related to derivative instruments are recorded in the same category as the cash flows from the items being hedged on the consolidated statements of cash flows. Additional information is included in note 10.

Investments

The Company has an investment portfolio that consists of strategic investments in privately held companies, and certain venture capital funds which are included within other assets. These privately held companies range from startups to more mature companies with established revenue streams and business models. As of March 31, 2022, and March 31, 2021, the Company's investments in non-consolidated companies totaled \$131.3 million and \$102.8 million, respectively.

During fiscal year 2022, the Company recognized \$61.0 million of equity in earnings, associated with its equity method investments, in other charges (income), net on the consolidated statement of operations. Additional information is included in note 17.

During fiscal year 2021, the Company recognized \$83.5 million of equity in earnings, associated with its equity method investments in other charges (income), net on the consolidated statement of operations. Also during fiscal year 2021, in connection with the Company's ongoing assessment of recoverability of its investment portfolio, the Company concluded that the carrying amounts of certain non-core investments were other than temporarily impaired and recognized a \$36.5 million total impairment in other charges (income), net on the consolidated statement of operations primarily related to the Company's investment in Bright Machines.

Non-consolidated investments in entities are accounted for using the equity method when the Company has an investment in common stock or in-substance common stock, and either (a) has the ability to significantly influence the operating decisions of the issuer, or (b) if the Company has a voting percentage generally equal to or greater than 20% but less than 50%, and for non-majority-owned investments in partnerships when generally greater than 5%. Cost method is used for investments where the Company does not have the ability to significantly influence the operating decisions of the investee, or if the Company's investment is in securities other than common stock or in-substance common stock.

The Company monitors these investments for impairment indicators and makes appropriate reductions in carrying values as required whenever events or changes in circumstances indicate that the assets may be impaired. The factors the Company considers in its evaluation of potential impairment of its investments include, but are not limited to, a significant deterioration in the earnings performance or business prospects of the investee, or factors that raise significant concerns about the investee's ability to continue as a going concern, such as negative cash flows from operation or working capital deficiencies. Fair values of these investments, when required, are estimated using unobservable inputs, or Level 3 inputs, as defined by the fair value hierarchy, and require management to make various judgmental assumptions primarily about comparable company multiples and discounted cash flow projections. Some of the inherent estimates and assumptions used in determining the fair value of the investments are outside the control of management. While the Company believes it has made reasonable estimates and assumptions to calculate the fair value of the investments, it is possible a material change could occur. If the actual results are not consistent with management's estimates and assumptions used to calculate fair value, it could result in material impairments of investments.

For investments accounted for under the cost method that do not have readily determinable fair values, the Company measures them at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Customer Working Capital Advances

Customer working capital advances were \$1.4 billion and \$471.5 million, as of March 31, 2022 and 2021, respectively. Customer working capital advances are not interest-bearing, do not generally have fixed repayment dates and are generally reduced as the underlying working capital is consumed in production.

Other Current Liabilities

Other current liabilities include customer-related accruals of \$227.4 million and \$242.0 million as of March 31, 2022 and 2021, respectively.

Leases

The Company is a lessee with several non-cancellable operating leases, primarily for warehouses, buildings, and other assets such as vehicles and equipment. The Company determines if an arrangement is a lease at contract inception. A contract is a lease or contains a lease when (1) there is an identified asset, and (2) the Company has the right to control the use of the identified asset. Beginning with the adoption of ASC 842 on April 1, 2019, the Company elected to adopt the package of transition practical expedients and, therefore, has not reassessed (1) whether then-existing or expired contracts contain a lease, (2) lease classification for then-existing or expired leases or (3) the accounting for initial direct costs that were previously capitalized. The Company recognizes a right-of-use ("ROU") asset and a lease liability at the lease commencement date for the Company's operating leases. For operating leases, the lease liability is initially measured at the present value of the unpaid lease payments at the lease commencement date. The Company has elected the short-term lease recognition and measurement exemption for all classes of assets, which allows the Company to not recognize ROU assets and lease liabilities for leases with a lease term of 12 months or less and with no purchase option the Company is reasonably certain of exercising. The Company has also elected the practical expedient to account for the lease and non-lease components as a single lease component, for all classes of underlying assets. Therefore, the lease payments used to measure the lease liability include all of the fixed considerations in the contract. Lease payments included in the measurement of the lease liability comprise the following: fixed payments (including in-substance fixed payments), and variable payments that depend on an index or rate (initially measured using the index or rate at the lease commencement date). As the Company cannot determine the interest rate implicit in the lease for the Company's leases, the Company uses the Company's estimate of the incremental borrowing rate as of the commencement date in determining the present value of lease payments. The Company's estimated incremental borrowing rate is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms. The lease term for all of the Company's leases includes the non-cancellable period of the lease plus any additional periods covered by either an option to extend (or not to terminate) the lease that the Company is reasonably certain to exercise, or an option to extend (or not to terminate) the lease controlled by the lessor.

The adoption of ASC 842 had a material impact to the Company's consolidated balance sheet, but did not materially impact the consolidated statement of operations or consolidated statement of cash flows. The most significant changes to the consolidated balance sheet relate to the recognition of ROU assets and lease liabilities for operating leases. The Company's accounting for finance leases remains substantially unchanged and the balances are not material for any periods presented.

As of March 31, 2022 and 2021, current operating lease liabilities were \$132.4 million and \$127.6 million, respectively, which are included in other current liabilities on the consolidated balance sheets.

Restructuring Charges

The Company recognizes restructuring charges related to its plans to close or consolidate excess manufacturing facilities and rationalize administrative functions. In connection with these activities, the Company records restructuring charges for employee termination costs, long-lived asset impairment and other exit-related costs.

The recognition of restructuring charges requires the Company to make certain judgments and estimates regarding the nature, timing and amount of costs associated with the planned exit activity. To the extent the Company's actual results differ from its estimates and assumptions, the Company may be required to revise the estimates of future liabilities, requiring the recognition of additional restructuring charges or the reduction of liabilities already recognized. Such changes to previously estimated amounts may be material to the consolidated financial statements. At the end of each reporting period, the Company evaluates the remaining accrued balances to ensure that no excess accruals are retained, and the utilization of the provisions are for their intended purpose in accordance with developed restructuring plans. See note 16 for additional information regarding restructuring charges.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Recently Adopted Accounting Pronouncements

In August 2020, the FASB issued ASU 2020-06 "Debt - Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity", which simplifies the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity's own equity. The guidance is effective for the Company beginning in the first quarter of fiscal year 2023 with early adoption permitted. The Company early adopted the guidance during the fourth quarter of fiscal year 2022 using the modified retrospective approach with an immaterial impact to its consolidated financial statements.

In October 2021, the FASB issued ASU 2021-08 "Business Combinations (Topic 805) - Accounting for Contract Assets and Contract Liabilities From Contracts With Customers", which requires an acquirer to recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with FASB Accounting Standards Codification (ASC) 606, Revenue from Contracts with Customers. The guidance is effective prospectively for the Company beginning in the first quarter of fiscal year 2024 with early adoption permitted. The Company early adopted the guidance during the third quarter of fiscal year 2022 with an immaterial impact to its consolidated financial statements.

In October 2020, the FASB issued ASU 2020-10 "Codification Improvements", which improves consistency by amending the Codification to include all disclosure guidance in the appropriate disclosure sections and clarifies application of various provisions in the Codification by amending and adding new headings, cross referencing to other guidance, and refining or correcting terminology. The Company adopted the guidance during the first quarter of fiscal year 2022 with an immaterial impact on its consolidated financial statements.

In January 2020, the FASB issued ASU 2020-01 "Investments - Equity Securities (Topic 321), Investments - Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815): Clarifying the Interactions Between Topic 321, Topic 323, and Topic 815 — a consensus of the FASB Emerging Issues Task Force", which makes improvements related to the following two topics: (1) accounting for certain equity securities when the equity method of accounting is applied or discontinued, and (2) scope considerations related to forward contracts and purchased options on certain securities. The Company adopted the guidance during the first quarter of fiscal year 2022 with an immaterial impact on its consolidated financial statements.

In December 2019, the FASB issued ASU 2019-12 "Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes," which removes certain exceptions for recognizing deferred taxes for investments, performing intra-period allocation and calculating income taxes in interim periods. The ASU also adds guidance to reduce complexity in certain areas, including recognizing deferred taxes for tax goodwill and allocating taxes to members of a consolidated group. The Company adopted the guidance during the first quarter of fiscal year 2022 with an immaterial impact on its consolidated financial statements.

Recently Issued Accounting Pronouncements

In November 2021, the FASB issued ASU 2021-10 "Government Assistance (Topic 832): Disclosures by Business Entities about Government Assistance," which aims to provide increased transparency by requiring business entities to disclose information about certain types of government assistance they receive in the notes to the annual financial statements. The guidance is effective for the Company beginning in fiscal year 2023 with early adoption permitted. The Company expects the new guidance will have an immaterial impact on its consolidated financial statements, and intends to adopt the guidance when it becomes effective in fiscal year 2023.

In July 2021, the FASB issued ASU 2021-05 "Leases (Topic 842): Lessors - Certain Leases with Variable Lease Payments", which requires a lessor to classify a lease with variable lease payments that don't depend on an index or a rate as an operating lease on the commencement date of the lease if specified criteria are met. The guidance is effective for the Company beginning in the first quarter of fiscal year 2023 with early adoption permitted. The Company expects the new guidance will have an immaterial impact on its consolidated financial statements, and intends to adopt the guidance when it becomes effective in the first quarter of fiscal year 2023.

3. LEASES

The Company has several commitments under operating leases for warehouses, buildings, and equipment. The Company also has a minimal number of finance leases with an immaterial impact on its consolidated financial statements. Leases have lease terms ranging from 1 year to 18 years.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The components of lease cost recognized under ASC 842 were as follow (in millions):

<u>Lease cost</u>	<u>Fiscal Year Ended</u>	
	<u>March 31, 2022</u>	<u>March 31, 2021</u>
Operating lease cost	\$ 156	\$ 152

Amounts reported in the consolidated balance sheet as of the periods ended March 31, 2022 and 2021 were (in millions, except weighted average lease term and discount rate):

	<u>As of March 31, 2022</u>	<u>As of March 31, 2021</u>
<i>Operating Leases:</i>		
Operating lease right of use assets	\$ 637	\$ 642
Operating lease liabilities	683	690
<i>Weighted-average remaining lease term (In years)</i>		
Operating leases	7.1	7.5
<i>Weighted-average discount rate</i>		
Operating leases	3.6 %	3.9 %

Other information related to leases was as follow (in millions):

	<u>Fiscal Year Ended</u>	
	<u>March 31, 2022</u>	<u>March 31, 2021</u>
<i>Cash paid for amounts included in the measurement of lease liabilities:</i>		
Operating cash flows from operating leases	\$ 158	\$ 152
<i>Right-of-use assets obtained in exchange for lease liabilities</i>		
Operating Lease	\$ 78	\$ 159

Future lease payments under non-cancellable leases as of March 31, 2022 are as follows (in millions):

<u>Fiscal Year Ended March 31,</u>	<u>Operating Leases</u>
2023	\$ 151
2024	128
2025	107
2026	84
2027	72
Thereafter	229
Total undiscounted lease payments	771
Less: imputed interest	88
Total lease liabilities	<u>\$ 683</u>

Total rent expense amounted to \$180.3 million, \$179.8 million, and \$186.9 million in fiscal years 2022, 2021 and 2020, respectively.

4. REVENUE

Revenue Recognition

The Company provides a comprehensive suite of services for its customers that range from advanced product design to manufacturing and logistics to after-sales services. The first step in its process for revenue recognition is to identify a contract

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

with a customer. A contract is defined as an agreement between two parties that creates enforceable rights and obligations and can be written, verbal, or implied. The Company generally enters into master supply agreements (“MSAs”) with its customers that provide the framework under which business will be conducted. This includes matters such as warranty, indemnification, transfer of title and risk of loss, liability for excess and obsolete inventory, pricing formulas, payment terms, etc., and the level of business under those agreements may not be guaranteed. In those instances, the Company bids on a program-by-program basis and typically receives customer purchase orders for specific quantities and timing of products. As a result, the Company considers its contract with a customer to be the combination of the MSA and the purchase order, or any other similar documents such as a statement of work, product addendum, emails or other communications that embody the commitment by the customer.

In determining the appropriate amount of revenue to recognize, the Company applies the following steps: (i) identifies the contracts with the customers; (ii) identifies performance obligations in the contracts; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations per the contracts; and (v) recognizes revenue when (or as) the Company satisfies a performance obligation. Further, the Company assesses whether control of the products or services promised under the contract are transferred to the customer at a point in time (PIT) or over time (OT). The Company is first required to evaluate whether its contracts meet the criteria for OT recognition. The Company has determined that for a portion of its contracts the Company is manufacturing products for which there is no alternative use (due to the unique nature of the customer-specific product and intellectual property restrictions) and the Company has an enforceable right to payment including a reasonable profit for work-in-progress inventory with respect to these contracts. For certain other contracts, the Company’s performance creates and enhances an asset that the customer controls as the Company performs under the contract. As a result, revenue is recognized under these contracts OT based on the cost-to-cost method as it best depicts the transfer of control to the customer measured based on the ratio of costs incurred to date as compared to the total estimated costs at completion of the performance obligation. For all other contracts that do not meet these criteria, the Company recognizes revenue when it has transferred control of the related manufactured products which generally occurs upon delivery and passage of title to the customer.

Customer Contracts and Related Obligations

Certain of the Company’s customer agreements include potential price adjustments which may result in variable consideration. These price adjustments include, but are not limited to, sharing of cost savings, committed price reductions, material margins earned over the period that are contractually required to be paid to the customers, rebates, refunds tied to performance metrics such as on-time delivery, and other periodic pricing resets that may be refundable to customers. The Company estimates the variable consideration related to these price adjustments as part of the total transaction price and recognizes revenue in accordance with the pattern applicable to the performance obligation, subject to a constraint. The Company constrains the amount of revenues recognized for these contractual provisions based on its best estimate of the amount which will not result in a significant reversal of revenue in a future period. The Company determines the amounts to be recognized based on the amount of potential refunds required by the contract, historical experience and other surrounding facts and circumstances. Often these obligations are settled with the customer in a period after shipment through various methods which include reduction of prices for future purchases, issuance of a payment to the customer, or issuance of a credit note applied against the customer’s accounts receivable balance. In many instances, the agreement is silent on the settlement mechanism. Any difference between the amount accrued for potential refunds and the actual amount agreed to with the customer is recorded as an increase or decrease in revenue. These potential price adjustments are included as part of other current liabilities on the consolidated balance sheet and disclosed as part of customer-related accruals in note 2.

Performance Obligations

The Company derives its revenues primarily from manufacturing services, and to a lesser extent, from innovative design, engineering, and supply chain services and solutions.

A performance obligation is an implicitly or explicitly promised good or service that is material in the context of the contract and is both capable of being distinct (customer can benefit from the good or service on its own or together with other readily available resources) and distinct within the context of the contract (separately identifiable from other promises). The Company considers all activities typically included in its contracts, and identifies those activities representing a promise to transfer goods or services to a customer. These include, but are not limited to, design and engineering services, prototype products, tooling, etc. Each promised good or service with regards to these identified activities is accounted for as a separate performance obligation only if it is distinct - i.e., the customer can benefit from it on its own or together with other resources that are readily available to the customer. Certain activities on the other hand are determined not to constitute a promise to transfer goods or service, and therefore do not represent separate performance obligations for revenue recognition (e.g., procurement of materials and standard workmanship warranty).

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. The majority of the Company's contracts have a single performance obligation as the promise to transfer the individual good or service is not separately identifiable from other promises in the contract and is, therefore, not distinct. Promised goods or services that are immaterial in the context of the contract are not separately assessed as performance obligations. In the event that more than one performance obligation is identified in a contract, the Company is required to allocate the transaction price between the performance obligations. The allocation would generally be performed on the basis of a relative standalone price for each distinct good or service. This standalone price most often represents the price that the Company would sell similar goods or services separately.

Contract Balances

A contract asset is recognized when the Company has recognized revenue, but not issued an invoice for payment. Contract assets are classified separately on the consolidated balance sheets and transferred to receivables when rights to payment become unconditional.

A contract liability is recognized when the Company receives payments in advance of the satisfaction of performance. Contract liabilities, identified as deferred revenue, were \$704.3 million and \$435.4 million as of March 31, 2022 and 2021, respectively, of which \$615.5 million and \$376.5 million, respectively, is included in deferred revenue and customer working capital advances under current liabilities.

Disaggregation of Revenue

The following table presents the Company's revenue disaggregated based on timing of transfer - point in time and over time for the fiscal years ended March 31, 2022, 2021 and 2020:

	Fiscal Year Ended March 31,		
	2022	2021	2020
Timing of Transfer	(In millions)

5. SHARE-BASED COMPENSATION

Equity Compensation Plans

The Company's primary plan used for granting equity compensation awards is the Company's 2017 Equity Incentive Plan (the "2017 Plan").

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Share-Based Compensation Expense

The following table summarizes the Company's share-based compensation expense for all equity incentive plans:

	Fiscal Year Ended March 31,		
	2022	2021	2020
	(In millions)		
Cost of sales	\$ 24	\$ 20	\$ 15
Selling, general and administrative expenses	67	59	56
Total share-based compensation expense	<u>\$ 91</u>	<u>\$ 79</u>	<u>\$ 71</u>

Cash flows resulting from excess tax benefits (tax benefits related to the excess of proceeds from employee exercises of share options over the share-based compensation cost recognized for those options) are classified as operating cash flows. During fiscal years 2022, 2021 and 2020, the Company did not recognize any excess tax benefits as an operating cash inflow.

As of March 31, 2022, the Company had approximately 19.4 million shares available for grant under the 2017 Plan. The Company no longer issues options to employees under all plans. The number of outstanding and exercisable options are immaterial and the compensation cost related to options granted to employees under all plans has been fully recognized as of March 31, 2022.

The Company also grants restricted share unit ("RSU") awards under its 2017 Plan. RSU awards are rights to acquire a specified number of ordinary shares for no cash consideration in exchange for continued service with the Company. RSU awards generally vest in installments over a two to four-year period and unvested RSU awards are generally forfeited upon termination of employment.

Vesting for certain RSU awards is contingent upon both service and market conditions or both service and performance conditions.

As of March 31, 2022, the total unrecognized compensation cost related to unvested RSU awards under all plans was approximately \$148.4 million. These costs will be amortized generally on a straight-line basis over a weighted-average period of approximately 2.0 years. Approximately \$16.0 million of the total unrecognized compensation cost is related to RSU awards granted to certain key employees whereby vesting is contingent on meeting certain market conditions. Approximately \$5.5 million of the total unrecognized compensation cost is related to RSU awards granted to certain key employees whereby vesting is contingent on meeting certain performance conditions.

Determining Fair Value - RSU awards

Valuation and Amortization Method—The fair market value of RSU awards granted, other than those awards with a market condition, is the closing price of the Company's ordinary shares on the date of grant and is generally recognized as compensation expense on a straight-line basis over the respective vesting period.

Determining Fair Value - RSU awards with service and market conditions

Valuation and Amortization Method—The Company estimates the fair value of RSU awards granted under the 2017 Plan whereby vesting is contingent on meeting certain market conditions using Monte Carlo simulation. This fair value is then amortized on a straight-line basis over the vesting period, which is the service period.

Expected volatility of Flex—Volatility used in a Monte Carlo simulation is derived from the historical volatility of Flex's stock price over a period equal to the service period of the RSU awards granted. The service period is three years for those RSU awards granted in fiscal years 2022, 2021, and 2020.

Average peer volatility—Volatility used in a Monte Carlo simulation is derived from the historical volatilities of Flex's peer companies for the RSU awards granted in fiscal years 2022, and volatility used in a Monte Carlo simulation is derived from the historical volatility of the Standard and Poor's ("S&P") 500 index for the RSU awards granted in fiscal years 2021 and 2020.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Average Peer Correlation—Correlation coefficients were used to model the movement of Flex's stock price relative to Flex's peer companies for the RSU awards granted in fiscal years 2022, and correlation coefficients were used to model the movement of Flex's stock price relative to the S&P 500 index for the RSU awards granted in fiscal years 2021 and 2020.

Expected Dividend—The Company has never paid dividends on its ordinary shares and accordingly the dividend yield percentage is zero for all periods.

Risk-Free Interest Rate assumptions—The Company bases the risk-free interest rate used in the Monte Carlo simulation on the implied yield currently available on U.S. Treasury constant maturities issued with a term equivalent to the expected term of the RSU awards.

The fair value of the Company's RSU awards under the 2017 Plan, whereby vesting is contingent on meeting certain market conditions, for fiscal years 2022, 2021, and 2020 was estimated using the following weighted-average assumptions:

	Fiscal Year Ended March 31,		
	2022	2021	2020
Expected volatility	54.6 %	52.8 %	38.8 %
Average peer volatility	39.8 %	35.9 %	24.9 %
Average peer correlation	0.4	0.7	0.5
Expected dividends	— %	— %	— %
Risk-free interest rate	0.3 %	0.3 %	1.8 %

Share-Based Awards Activity

Option activity for all plans is immaterial for all periods presented.

Cash received from option exercises under all plans, which was reflected within other financing activities in the consolidated statement of cash flows, was immaterial for fiscal years 2022, 2021, and 2020.

The following table summarizes the Company's RSU award activity under all plans ("Price" reflects the weighted-average grant-date fair value):

	Fiscal Year Ended March 31,					
	2022		2021		2020	
	Shares	Price	Shares	Price	Shares	Price
Unvested RSU awards outstanding, beginning of fiscal year	17,308,625	\$11.14	16,050,640	\$11.87	14,903,886	\$13.76
Granted	7,276,643	18.48	10,982,109	11.04	8,259,272	9.81
Vested	(5,933,605)	10.87	(5,520,005)	11.64	(4,222,524)	13.33
Forfeited	(1,632,104)	12.42	(4,204,119)	11.92	(2,889,994)	12.89
Unvested RSU awards outstanding, end of fiscal year	<u>17,019,559</u>	<u>\$14.13</u>	<u>17,308,625</u>	<u>\$11.14</u>	<u>16,050,640</u>	<u>\$11.87</u>

Of the 7.3 million unvested RSU awards granted in fiscal year 2022, approximately 6.4 million are plain-vanilla unvested RSU awards with no performance or market conditions with an average grant date price of \$18.02 per share. Further, approximately 0.4 million of these unvested RSU awards granted in fiscal year 2022 represents the target amount of grants made to certain key employees whereby vesting is contingent on certain market conditions, with an average grant date fair value estimated to be \$25.86 per award calculated using a Monte Carlo simulation. Vesting information for these shares is further detailed in the table below.

Of the 17.0 million unvested RSU awards outstanding under all plans as of the fiscal year ended March 31, 2022, approximately 2.9 million unvested RSU awards represent the target amount of grants made to certain key employees whereby vesting is contingent on meeting certain market conditions summarized as follows:

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Year of grant	Targeted number of awards as of March 31, 2022 (in shares)	Average grant date fair value (per share)	Range of shares that may be issued (1)		Assessment dates
			Minimum	Maximum	
Fiscal 2022	409,526	\$ 25.86	—	819,052	June 2024
Fiscal 2021	1,243,848	15.03	—	2,487,696	June 2023
Fiscal 2020	1,200,639	11.92	—	2,401,278	June 2022
Totals	<u>2,854,013</u>			<u>5,708,026</u>	

- (1) Vesting ranges from zero to 200% based on measurement of Flex's total shareholder return against Flex's peer companies for RSU awards granted in fiscal year 2022 and based on measurement of Flex's total shareholder return against the Standard and Poor's ("S&P") 500 Composite Index for RSU awards granted in fiscal years 2021 and 2020.

The Company will continue to recognize share-based compensation expense for awards with market conditions regardless of whether such awards will ultimately vest. During fiscal year 2022, no shares vested in connection with the RSU awards with market conditions granted in fiscal year 2019.

Approximately 0.4 million of these unvested RSU awards granted in fiscal year 2022 represents the target amount of grants made to certain key employees whereby vesting is contingent on certain performance conditions, with an average grant date price of \$18.24 per share. Vesting information for these shares is further detailed in the table below.

Of the 17.0 million unvested RSU awards outstanding under all plans as of the fiscal year ended March 31, 2022, approximately 0.4 million unvested RSU awards represent the target amount of grants made to certain key employees whereby vesting is contingent on meeting certain performance conditions summarized as follows:

Year of grant	Targeted number of awards as of March 31, 2022 (in shares)	Average grant date fair value (per share)	Range of shares that may be issued (1)		Assessment date
			Minimum	Maximum	
Fiscal 2022	409,524	\$ 18.24	—	819,048	Mar 2024

- (1) Vesting ranges from zero to 200% based on performance of Flex's average earnings per share growth.

The total intrinsic value of RSU awards vested under all the Company's plans was \$108.1 million, \$68.6 million and \$41.7 million during fiscal years 2022, 2021 and 2020, respectively, based on the closing price of the Company's ordinary shares on the date vested.

In April 2022, Nextracker granted 11.2 million equity-based compensation awards to its employees under the 2022 Nextracker LLC Equity Incentive Plan (the "2022 Nextracker Plan"). Vesting for the awards granted under the 2022 Nextracker Plan is contingent upon continued employee service and certain performance conditions, including a liquidity event such as the occurrence of an initial public offering or the sale of Nextracker.

6. EARNINGS PER SHARE

Basic earnings per share excludes dilution and is computed by dividing net income by the weighted-average number of ordinary shares outstanding during the applicable periods.

Diluted earnings per share reflects the potential dilution from stock options and RSU awards. The potential dilution from stock options exercisable into ordinary share equivalents and restricted share unit awards was computed using the treasury stock method based on the average fair market value of the Company's ordinary shares for the period.

The following table reflects the basic weighted-average ordinary shares outstanding and diluted weighted-average ordinary share equivalents used to calculate basic and diluted income per share:

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	Fiscal Year Ended March 31,		
	2022	2021	2020
	(In millions, except per share amounts)

Net income attributable to Flex Ltd.	<u>\$ 936</u>	<u>\$ 613</u>	<u>\$ 88</u>
Shares used in computation:			
Weighted-average ordinary shares outstanding	476	499	509
Weighted-average ordinary share equivalents from stock options and RSU awards (1)	7	7	3
Weighted-average ordinary shares and ordinary share equivalents outstanding	483	506	512
Diluted earnings per share	<u>\$ 1.94</u>	<u>\$ 1.21</u>	<u>\$ 0.17</u>

- (1) An immaterial amount of options to purchase ordinary shares and RSU awards during fiscal years 2022, 2021, and 2020, respectively were excluded from the computation of diluted earnings per share due to their anti-dilutive impact on the weighted average ordinary shares equivalents.

7. REDEEMABLE NONCONTROLLING INTEREST

On February 1, 2022, the Company sold redeemable preferred units (“Series A Preferred Units”), representing a 16.67% interest in its subsidiary Nextracker LLC (“Nextracker”), to TPG Rise Flash, L.P. (“TPG Rise”) and received proceeds of \$487.5 million, net of \$12.5 million in transaction costs. Because the Series A Preferred Units are redeemable upon the occurrence of conditions not solely within the control of the Company, the Company classified the redeemable noncontrolling interest as temporary equity on its consolidated balance sheets.

The Series A Preferred Units have a dividend rate of 5% per annum, payable semi-annually, up to 100% of which may be paid by the issuance of additional Series A Preferred Units (“payable-in-kind”) during the first two years following the closing of the sale to TPG Rise, and 50% of which may be payable-in-kind thereafter. The Series A Preferred Units will vote together with the common units of Nextracker as a single class in all matters that are subject to a vote by common unitholders. The Series A Preferred Units provide TPG Rise the right to designate two members of the Board of Nextracker; if, however, TPG Rise owns Series A Preferred Units or common units with a fully diluted ownership percentage of less than 10% but more than 5%, the number of Board members that TPG Rise will be entitled to designate will be reduced to one. So long as at least 51% of the Series A Preferred Units remain outstanding, the consent of the holders of the Series A Preferred Units must be obtained prior to taking certain actions regarding Nextracker.

The Series A Preferred Units will be automatically converted into common units of Nextracker upon a qualified initial public offering (a “Qualified Public Offering”) and TPG Rise may elect to convert the Series A Preferred Units into common units at any time after March 31, 2023. Subject to certain exceptions, for any mandatory or optional conversion, the conversion ratio for each Series A Preferred Unit will be based on a deemed value of Nextracker equal to the lesser of \$3.00 billion and the implied equity valuation of Nextracker determined by the underwriters engaged in connection with a Qualified Public Offering. If a Qualified Public Offering occurs by March 31, 2023 with an implied equity valuation greater than \$3.75 billion, then the conversion ratio will be adjusted upwards based on a deemed value of Nextracker equal to \$3.20 billion. If a Qualified Public Offering occurs after March 31, 2023 with an implied equity valuation between \$2.70 billion and \$3.00 billion, then the conversion ratio will be based on a deemed value of Nextracker equal to \$3.00 billion. If a Qualified Public Offering occurs

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

after March 31, 2023 with an implied equity valuation of less than \$2.70 billion, then the conversion ratio will be based on a deemed value equal to the implied equity valuation of Nextracker in the Qualified Public Offering divided by 90%. If TPG Rise elects to convert the Series A Preferred Units prior to an initial public offering, the conversion ratio shall be based on a deemed value of Nextracker equal to \$3.00 billion.

At TPG Rise's election, the Company is required to repurchase all of the outstanding Series A Preferred Units at their liquidation preference, which shall include all contributed but unreturned capital plus accrued but unpaid dividends, at the earlier of certain change in control events and February 2, 2028. Additionally, if Nextracker has not completed a Qualified Public Offering prior to February 2, 2027, then TPG Rise may cause the Company to repurchase all of the outstanding Series A Preferred Units at their fair market value.

In connection with any voluntary or involuntary liquidation, dissolution, or winding up of Nextracker, each outstanding Series A Preferred Unit will be entitled to receive cash equal to the liquidation preference prior to distributions made to any other units.

The Company has determined that a Qualified Public Offering is likely and that the change in control is not probable as of March 31, 2022 and as such, it is not probable that the noncontrolling interest will become redeemable as of March 31, 2022.

8. SUPPLEMENTAL CASH FLOW DISCLOSURES

The weighted-average interest rates for the Company's long-term debt were 4.0% and 4.3% as of March 31, 2022 and 2021, respectively.

Scheduled repayments of the Company's bank borrowings and long-term debt are as follows:

<u>Fiscal Year Ending March 31,</u>	<u>Amount</u>
	(In millions)
2023	\$ 950
2024	53
2025	273
2026	1,288
2027	—
Thereafter	1,651
Total	\$ 4,215

HUF Bonds due December 2031

In December 2021, the Company issued HUF 100 billion (approximately \$301.4 million as of March 31, 2022) in aggregate principal amount of bonds under the National Bank of Hungary's Bond Funding for Growth Scheme. The bonds mature in December 2031 and amortize in an amount equal to 10% of the original principal amount thereof on each of the seventh, eighth, and ninth anniversaries of the bonds, with the remaining 70% due upon maturity. The outstanding principal amount of the bonds bear interest at 3.60% per annum. Interest is due and payable annually in arrears. The proceeds of the bonds were used for general corporate purposes.

The bonds are unsecured and unsubordinated obligations of the Company and rank equally with all of the Company's other existing and future unsecured and unsubordinated obligations. The bonds contain a customary negative pledge covenant restricting the ability of the Company to incur liens to secure indebtedness without ratably and equally securing the bonds. This covenant is subject to a number of exceptions and limitations. The bonds also provide for customary events of default, including, but not limited to, cross defaults to certain specified other debt of the Company. Except in limited circumstances resulting from adverse changes in applicable tax laws, the bonds are not voluntarily redeemable. The bonds are listed for

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

trading on the XBond multilateral trading facility operated by the Budapest Stock Exchange. As of March 31, 2022, the Company was in compliance with the covenants under the HUF bond agreement.

The 2026 Credit Facility

In January 2021, the Company entered into a new \$2.0 billion credit agreement which matures in January 2026 (the "2026 Credit Facility") and consists of a \$2.0 billion revolving credit facility with a sub-limit of \$360 million available for swing line loans, and a sub-limit of \$175 million available for the issuance of letters of credit. The 2026 Credit Facility replaced the previous \$1.75 billion revolving credit facility, which was due to mature in June 2022 (the "2022 Credit Facility"). The Company determined that effectively increasing the borrowing capacity of the former revolving arrangement qualified as a debt modification and consequently all unamortized debt issuance costs related to the 2022 Credit Facility remain capitalized and are being amortized over the term of the 2026 Credit Facility.

Borrowings under the 2026 Credit Facility bear interest, at the Company's option, either at (i) the Base Rate, which is defined as the greatest of (a) the Administrative Agent's prime rate, (b) the federal funds effective rate, plus 0.50% and (c) the LIBOR (the London Interbank Offered Rate) rate plus 1.0%; plus, in the case of each of clauses (a) through (c), an applicable margin ranging from 0.250% to 0.875% per annum, based on the Company's credit ratings (as determined by Standard & Poor's Financial Services LLC, Moody's Investors Service, Inc. and Fitch Ratings Inc.) or (ii) LIBOR plus the applicable margin for LIBOR loans ranging between 1.250% and 1.875% per annum, based on the Company's credit ratings. Interest on the outstanding borrowings is payable, (i) in the case of borrowings at the Base Rate, on the last business day of March, June, September and December of each calendar year and (ii) in the case of borrowings at the LIBOR rate, on the last day of the applicable interest period selected by the Company, which date shall be no later than the last day of every third month. The Company is required to pay a quarterly commitment fee on the unutilized portion of the revolving credit commitments under the 2026 Credit Facility ranging from 0.15% to 0.30% per annum, based on the Company's credit ratings. The Company is also required to pay letter of credit usage fees ranging from 1.250% to 1.875% per annum (based on the Company's credit ratings) on the amount of the daily average outstanding letters of credit and a fronting fee of 0.125% per annum on the undrawn and unexpired amount of each letter of credit.

Under the 2026 Credit Facility, the interest rate margins, commitment fee and letter of credit usage fee are subject to upward or downward adjustments if the Company achieves, or fails to achieve, certain specified sustainability targets with respect to workplace safety and greenhouse gas emissions. Such upward or downward sustainability adjustments may be up to 0.05% per annum in the case of the interest rate margins and letter of credit usage fee and up to 0.01% per annum in the case of the commitment fee.

The 2026 Credit Facility is unsecured, and contains customary restrictions on the ability of the Company and its subsidiaries to (i) incur certain debt, (ii) make certain acquisitions of other entities, (iii) incur liens, (iv) dispose of assets and (v) engage in transactions with affiliates. These covenants are subject to a number of significant exceptions and limitations. The 2026 Credit Facility also requires that the Company maintains a maximum ratio of total indebtedness to EBITDA (earnings before interest expense, taxes, depreciation and amortization) and a minimum interest coverage ratio. As of March 31, 2022, the Company was in compliance with the covenants under the 2026 Credit Facility agreement.

Notes

Notes due February 2023

In February 2013, the Company issued \$500 million of 5.000% notes due February 15, 2023 in a private offering pursuant to Rule 144A and Regulation S under the Securities Act. In July 2013, the Company exchanged these notes for new notes (the "2023 Notes") with substantially similar terms and completed the registration of the 2023 Notes with the Securities and Exchange Commission.

Notes due June 2025

In June 2015, the Company issued \$600 million of 4.750% notes due June 15, 2025 in a private offering pursuant to Rule 144A and Regulation S under the Securities Act, at 99.213% of face value, and an effective yield of approximately 4.850%. The Company received net proceeds of approximately \$595.3 million from the issuance which was used for general corporate purposes. During January 2016, the Company exchanged these notes for new notes (the "2025 Notes") with substantially similar terms and completed the registration of the 2025 Notes with the Securities and Exchange Commission.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Notes due February 2026 and May 2030

In May 2020, the Company issued \$425 million aggregate principal amount of 3.750% Notes due February 2026 (the "Existing 2026 Notes"), at 99.617% of face value and \$325 million aggregate principal amount of 4.875% Notes due May 2030 (the "Existing 2030 Notes" and, together with the Existing 2026 Notes, the "Existing Notes"), at 99.562% of face value. In August 2020, as a further issuance of the Existing Notes, the Company issued under the same terms (other than the initial interest accrual date and first interest payment date for the additional 2026 Notes, and the initial offering price and the issue date for the additional 2026 and 2030 Notes), an additional \$250 million of 3.750% Notes due February 2026 (together with the Existing 2026 Notes, the "2026 Notes"), at 109.294% of face value, and \$325 million of 4.875% Notes due May 2030 (together with the Existing 2030 Notes, the "2030 Notes"), at 114.863% of face value. Immediately after the issuance of the additional notes issued in August 2020, the Company has \$675 million aggregate principal amount of 3.750% 2026 Notes outstanding and \$650 million aggregate principal amount of 4.875% 2030 Notes outstanding. The Company received in aggregate, proceeds of approximately \$1.4 billion, net of discounts and after premiums, from the issuances, which were used for working capital and other general corporate purposes.

Notes due June 2029

In June 2019, the Company issued \$450 million of 4.875% Notes due June 15, 2029 (the "Existing 2029 Notes"), at 99.607% of face value. In November 2019, as a further issuance of the Existing 2029 Notes, the Company issued under the same terms, an additional \$200 million of 4.875% Notes due June 15, 2029 (together with the "Existing 2029 Notes", the "2029 Notes"), at 107.289% of face value. Immediately after the issuance of the notes issued in November 2019, the Company has \$650 million aggregate principal amount of 4.875% 2029 Notes outstanding. The Company received in aggregate, proceeds of approximately \$662.8 million, net of discount and premium, from the issuances which were used, together with available cash, to refinance certain other outstanding debt.

Interest on the 2023 Notes, 2025 Notes, 2026 Notes, 2029 Notes, 2030 Notes (collectively the "Notes") is payable semi-annually. The Notes are senior unsecured obligations of the Company and rank equally with all of the Company's other existing and future senior and unsecured debt obligations.

At any time up to three months prior to the maturity date of the respective Notes, the Company may redeem some or all of the Notes at a redemption price equal to 100% of the principal amount of the Notes redeemed, plus an applicable premium accrued and unpaid interest, if any, to the applicable redemption date. Upon the occurrence of a change of control repurchase event (as defined in the indentures of the respective Notes), the Company must offer to repurchase the respective Notes at a repurchase price equal to 101% of the principal amount of these Notes, plus accrued and unpaid interest, if any, to the applicable repurchase date.

The indentures governing the Notes contain covenants that, among other things, restrict the ability of the Company and certain of the Company's subsidiaries to create liens; enter into sale-leaseback transactions; and consolidate or merge with, or convey, transfer or lease all or substantially all of the Company's assets to, another person, or permit any other person to consolidate, merge, combine or amalgamate with or into the Company. These covenants are subject to a number of significant limitations and exceptions set forth in the indentures. The indentures also provide for customary events of default, including, but not limited to, cross defaults to certain specified other debt of the Company and its subsidiaries. In the case of an event of default arising from specified events of bankruptcy or insolvency, all outstanding Notes will become due and payable immediately without further action or notice. If any other events of default under the indentures occur or are continuing, the trustee or holders of at least 25% in aggregate principal amount of the then outstanding Notes may declare all of the Notes to be due and payable immediately, but upon certain conditions such declaration and its consequences may be rescinded and annulled by the holders of a majority in principal amount of the Notes. As of March 31, 2022, the Company was in compliance with the covenants in the indentures governing the Notes.

Term Loan due April 2024

In April 2019, the Company entered into a JPY 33.525 billion term loan agreement due April 2024, at three-month TIBOR plus 0.43%, which was then swapped to U.S. dollars. The term loan, which is due at maturity and subject to quarterly interest payments, was used to fund general operations and refinance certain other outstanding debts.

This term loan is unsecured, and contains customary restrictions on the ability of the Company and its subsidiaries to (i) incur certain debt, (ii) make certain investments, (iii) make certain acquisitions of other entities, (iv) incur liens, (v) dispose of assets, (vi) make non-cash distributions to shareholders, and (vii) engage in transactions with affiliates. These covenants are subject to a number of exceptions and limitations. This term loan agreement also requires that the Company maintains a

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

maximum ratio of total indebtedness to EBITDA, and a minimum interest coverage ratio, as defined therein, during its term. As of March 31, 2022, the Company was in compliance with the covenants under this term loan agreement.

Other Borrowings

In December 2021, the Company borrowed €350 million (approximately \$388.6 million as of March 31, 2022), under a 1-year term-loan agreement. Of this amount, €250 million is due December 9, 2022 and €100 million is due December 30, 2022. The proceeds of the term loan was used to refinance certain other outstanding debt and for other general corporate purposes. Borrowings under this term loan bear interest at (0.18)% per annum, which is payable in full at maturity. The term loan is repayable upon maturity, and the borrowings have been included as bank borrowings and current portion of long-term debt under the consolidated balance sheet.

In July 2018, a subsidiary of the Company entered into a \$200 million term loan facility (the "India Facility"), under which there was \$84.1 million in borrowings outstanding as of March 31, 2022. The India Facility was used to fund capital expenditures to support the Company's expansion plans for India. The availability period during which drawdowns can be made was from the date of the agreement to and including January 2020. The maximum maturity of each drawdown will be 5 years from the funded Capex shipment date. As a result, the longest maturity date of any drawdown under the India Facility is June 2023. Borrowings under this term loan bear interest at LIBOR plus a margin of 0.90% to 1.15% depending on loan duration.

In January 2017, the Company borrowed €100 million, under a 5-year, term-loan agreement due January 2, 2022. Borrowings under this term loan bear interest at EURIBOR minus 0.1% plus the applicable margin ranging between 0.40% and 1.35%, based on the Company's credit ratings. During the fourth quarter of fiscal year 2021, the Company repaid the loan and immediately borrowed the same amount at a fixed interest rate of (0.16)%, while maintaining the January 2, 2022 maturity date. As of March 31, 2022, the borrowings under this term-loan have been paid in full.

These term loans are unsecured. As of March 31, 2022, the Company was in compliance with the covenants under these term loan agreements.

As of March 31, 2022, the Company and certain of its subsidiaries had various uncommitted revolving credit facilities, lines of credit and other credit facilities in the amount of \$325 million in the aggregate. There were no borrowings outstanding under these facilities as of March 31, 2022 and 2021. These unsecured credit facilities, and lines of credit and other credit facilities bear annual interest at the respective country's inter-bank offering rate, plus an applicable margin.

10. FINANCIAL INSTRUMENTS***Foreign Currency Contracts***

The Company transacts business in various foreign countries and is therefore exposed to foreign currency exchange rate risk inherent in forecasted sales, cost of sales, and monetary assets and liabilities denominated in non-functional currencies. The Company has established risk management programs to protect against volatility in the value of non-functional currency denominated monetary assets and liabilities, and of future cash flows caused by changes in foreign currency exchange rates. The Company tries to maintain a partial or fully hedged position for certain transaction exposures, which are primarily, but not limited to, revenues, customer and vendor payments and inter-company balances in currencies other than the functional currency of the operating entity. The Company enters into short-term and long-term foreign currency derivative contracts, including forward, swap, and option contracts to hedge only those currency exposures associated with certain assets and liabilities, primarily accounts receivable, accounts payable, debt, and cash flows denominated in non-functional currencies. Gains and losses on the Company's derivative contracts are designed to offset losses and gains on the assets, liabilities and transactions hedged, and accordingly, generally do not subject the Company to risk of significant accounting losses. The Company hedges committed exposures and does not engage in speculative transactions. The credit risk of these derivative contracts is minimized since the contracts are with large financial institutions and accordingly, fair value adjustments related to the credit risk of the counterparty financial institution were not material.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As of March 31, 2022, the aggregate notional amount of the Company's outstanding foreign currency derivative contracts was \$11.6 billion as summarized below:

<u>Currency</u>	<u>Foreign Currency Amount</u>		<u>Notional Contract Value in USD</u>

			5,398	4,129
Total Notional Contract Value in USD			\$ 7,361	\$ 4,263

As of March 31, 2022 and 2021, the fair value of the Company's short-term foreign currency contracts was included in other current assets or other current liabilities, as applicable, in the consolidated balance sheets. Certain of these contracts are designed to economically hedge the Company's exposure to monetary assets and liabilities denominated in a non-functional currency and are not accounted for as hedges under the accounting standards. Accordingly, changes in the fair value of these instruments are recognized in earnings during the period of change as a component of other charges (income), net in the consolidated statements of operations. The Company also has included net deferred gains and losses in accumulated other comprehensive loss, a component of shareholders' equity in the consolidated balance sheets, relating to changes in fair value of its foreign currency contracts that are accounted for as cash flow hedges. Deferred losses were \$40.9 million as of March 31, 2022, and are expected to be recognized primarily as a component of cost of sales in the consolidated statement of operations primarily over the next twelve-month period, except for the USD JPY cross currency swap, and the USD HUF cross currency swaps, which are further discussed below.

The Company entered into a USD JPY cross currency swap to hedge the foreign currency risk on the JPY term loan due April 2024, and the fair value of the cross currency swap was included in other liabilities and other assets as of March 31, 2022, and March 31, 2021, respectively. Additionally, the Company entered into USD HUF cross currency swaps to hedge the foreign currency risk on the HUF bonds due December 2031, and the fair value of the cross currency swaps was included in other liabilities as of March 31, 2022. The changes in fair value of the USD JPY cross currency swap and the USD HUF cross currency swaps are reported in accumulated other comprehensive loss. In addition, corresponding amounts are reclassified out

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

of accumulated other comprehensive loss to other charges (income), net to offset the remeasurements of the underlying JPY loan principal and HUF bond principal, which also impact the same line.

The following table presents the fair value of the Company's derivative instruments utilized for foreign currency risk management purposes at March 31, 2022 and 2021:

Fair Values of Derivative Instruments						
Asset Derivatives			Liability Derivatives			
Balance Sheet Location	Fair Value		Balance Sheet Location	Fair Value		
	March 31, 2022	March 31, 2021		March 31, 2022	March 31, 2021	
(In millions)						
Derivatives designated as hedging instruments						
Foreign currency contracts	Other current assets	\$ 22	\$ 23	Other current liabilities	\$ 35	\$ 16
Foreign currency contracts	Other assets	—	5	Other liabilities	61	—
Derivatives not designated as hedging instruments						
Foreign currency contracts	Other current assets	\$ 21	\$ 31	Other current liabilities	\$ 26	\$ 32

The Company has financial instruments subject to master netting arrangements, which provide for the net settlement of all contracts with a single counterparty. The Company does not offset fair value amounts for assets and liabilities recognized for derivative instruments under these arrangements, and as such, the asset and liability balances presented in the table above reflect the gross amounts of derivatives in the consolidated balance sheets. The impact of netting derivative assets and liabilities is not material to the Company's financial position for any of the periods presented.

11. ACCUMULATED OTHER COMPREHENSIVE LOSS

The changes in accumulated other comprehensive loss by component, net of tax, during fiscal years ended March 31, 2022, 2021 and 2020 are as follows:

	Unrealized loss on derivative instruments and other	Foreign currency translation adjustments	Total
	(In millions)		
Beginning balance on March 31, 2019	\$ (42)	\$ (109)	\$ (151)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Net (gains) losses reclassified from accumulated other comprehensive loss was \$30 million loss during fiscal year 2022, and were immaterial during fiscal years 2021 and 2020.

The tax impact to other comprehensive loss was immaterial for all periods presented.

12. TRADE RECEIVABLES SECURITIZATION

The Company sells trade receivables under two asset-backed securitization programs and an accounts receivable factoring program.

Asset-Backed Securitization Programs

The Company has historically sold designated pools of trade receivables under its Global Asset-Backed Securitization Agreement (the "Global Program") and its North American Asset-Backed Securitization Agreement (the "North American Program," and together with the Global Program, the "ABS Programs") to affiliated special purpose entities, each of which in turn sells a fraction of the receivables to unaffiliated financial institutions, based on the Company's requirements. Under these programs, the entire purchase price of sold receivables are paid in cash. The ABS Programs contain guarantees of payment by the special purpose entities, in amounts equal to approximately the net cash proceeds under the programs, and are collateralized by certain receivables held by the special purpose entities. The fair value of the guarantee obligation was zero as of March 31, 2022 and March 31, 2021, respectively. The accounts receivable balances sold under the ABS Programs were removed from the consolidated balance sheets and the cash proceeds received by the Company were included as cash provided by operating activities in the consolidated statements of cash flows.

Following the transfer of the receivables to the special purpose entities, the transferred receivables are legally isolated from the Company and its affiliates, and upon the sale of the receivables from the special purpose entities to the unaffiliated financial institutions, effective control of the transferred receivables is passed to the unaffiliated financial institutions, which have the right to pledge or sell the receivables. Although the special purpose entities are consolidated by the Company, they are separate corporate entities and their assets are available first to satisfy the claims of their creditors. The investment limits set by the financial institutions are uncommitted and amount to \$500 million for the Global Program and \$250 million for the North American Program.

The Company services, administers and collects the receivables on behalf of the special purpose entities and receives a servicing fee of 0.1% to 0.5% of serviced receivables per annum. Servicing fees recognized were zero during fiscal year ended March 31, 2022 and were not material during fiscal years ended March 31, 2021 and 2020 and are included in interest, net within the consolidated statements of operations. As the Company estimates the fee it receives in return for its obligation to service these receivables is at fair value, no servicing assets or liabilities are recognized.

As of March 31, 2022 and March 31, 2021, no accounts receivable had been sold under the ABS programs.

For the fiscal year ended March 31, 2021, cash flows from sales of receivables to the special purpose entities under the ABS Programs consisted of approximately \$8.7 billion, for transfers of receivables. Further, cash flows from sales of receivables from the special purpose entities to unaffiliated financial institutions, during fiscal year 2021, consisted of approximately \$0.6 billion for transfers of receivables. For the fiscal year ended March 31, 2020, cash flows from sales of receivables under the ABS Programs consisted of approximately \$7.6 billion, for transfers of receivables, and approximately \$2.6 billion for collections on deferred purchase price receivables (effective November 2019, upon amending the previous ABS programs, the Company no longer holds a deferred purchase price receivables balance). The Company's cash flows from transfers of receivables consist primarily of proceeds from collections reinvested in revolving-period transfers. Cash flows from new transfers were not significant for all periods presented.

Trade Accounts Receivable Sale Programs

The Company also sold accounts receivables to certain third-party banking institutions. The outstanding balance of receivables sold and not yet collected on accounts where the Company has continuing involvement was approximately \$0.6 billion and \$0.2 billion as of March 31, 2022 and 2021, respectively. For the fiscal years ended March 31, 2022, 2021 and 2020, total accounts receivable sold to certain third party banking institutions was approximately \$1.6 billion, \$0.8 billion and \$1.6 billion, respectively. The receivables that were sold were removed from the consolidated balance sheets and the cash received was included as cash provided by operating activities in the consolidated statements of cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

13. FAIR VALUE MEASUREMENT OF ASSETS AND LIABILITIES

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact, and it considers assumptions that market participants would use when pricing the asset or liability. The accounting guidance for fair value establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is as follows:

Level 1 - Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities. There were no balances classified as level 1 in the fair value hierarchy as of March 31, 2022.

Level 2 - Applies to assets or liabilities for which there are inputs other than quoted prices included within level 1 that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets) such as cash and cash equivalents and money market funds; or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

The Company values foreign exchange forward contracts using level 2 observable inputs which primarily consist of an income approach based on the present value of the forward rate less the contract rate multiplied by the notional amount.

The Company's cash equivalents are comprised of bank time deposits and money market funds, which are valued using level 2 inputs, such as interest rates and maturity periods. Due to their short-term nature, their carrying amount approximates fair value.

The Company has deferred compensation plans for its officers and certain other employees. Amounts deferred under the plans are invested in hypothetical investments selected by the participant or the participant's investment manager. The Company's deferred compensation plan assets are included in other assets on the consolidated balance sheets and include money market funds, mutual funds, corporate and government bonds and certain convertible securities that are valued using prices obtained from various pricing sources. These sources price these investments using certain market indices and the performance of these investments in relation to these indices. As a result, the Company has classified these investments as level 2 in the fair value hierarchy. There were no investments classified as level 1 in the fair value hierarchy as of March 31, 2022.

Level 3 - Applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company has accrued for contingent consideration in connection with its business acquisitions as applicable, which is measured at fair value based on certain internal models and unobservable inputs. There were no contingent consideration liabilities outstanding as of March 31, 2022 and 2021.

There were no transfers between levels in the fair value hierarchy during fiscal years 2022 and 2021.

Financial Instruments Measured at Fair Value on a Recurring Basis

The following table presents the Company's assets and liabilities measured at fair value on a recurring basis as of March 31, 2022 and 2021:

FLEX LTD.

4.875% Notes due June 2029	659	687	661	756	Level 1
4.875% Notes due May 2030	690	713	694	800	Level 1
Euro Term Loans	389	389	168	168	Level 2
3.600% HUF Bonds due December 2031	301	301	—	—	Level 2
India Facilities	84	84	133	133	Level 2

The Notes due February 2023, June 2025, February 2026, June 2029 and May 2030 are valued based on broker trading prices in active markets.

The Company values its Term Loan due April 2024, India Facilities, Euro Term Loans and HUF Bonds, based on the current market rate, and as of March 31, 2022, the carrying amounts approximate fair values.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

14. COMMITMENTS AND CONTINGENCIES*Commitments*

As of March 31, 2022 and 2021, the gross carrying amount and associated accumulated depreciation of the Company's property and equipment financed under finance leases, and the related obligations was not material. The Company also leases certain of its facilities and equipment under non-cancelable operating leases. These operating leases expire in various years through 2038. Refer to note 3 for additional details on the minimum lease payments.

Litigation and other legal matters

In connection with the matters described below, the Company has accrued for loss contingencies where it believes that losses are probable and estimable. Although it is reasonably possible that actual losses could be in excess of the Company's accrual, the Company is unable to estimate a reasonably possible loss or range of loss in excess of its accrual, due to various reasons, including, among others, that: (i) the proceedings are in early stages or no claims have been asserted, (ii) specific damages have not been sought in all of these matters, (iii) damages, if asserted, are considered unsupported and/or exaggerated, (iv) there is uncertainty as to the outcome of pending appeals, motions, or settlements, (v) there are significant factual issues to be resolved, and/or (vi) there are novel legal issues or unsettled legal theories presented. Any such excess loss could have a material adverse effect on the Company's results of operations or cash flows for a particular period or on the Company's financial condition.

In addition, the Company provides design and engineering services to its customers and also designs and makes its own products. As a consequence of these activities, its customers are requiring the Company to take responsibility for intellectual property to a greater extent than in its manufacturing and assembly businesses. Although the Company believes that its intellectual property assets and licenses are sufficient for the operation of its business as it currently conducts it, from time to time third parties do assert patent infringement claims against the Company or its customers. If and when third parties make assertions regarding the ownership or right to use intellectual property, the Company could be required to either enter into licensing arrangements or to resolve the issue through litigation. Such license rights might not be available to the Company on commercially acceptable terms, if at all, and any such litigation might not be resolved in the Company's favor. Additionally, litigation could be lengthy and costly and could materially harm the Company's financial condition regardless of the outcome. The Company also could be required to incur substantial costs to redesign a product or re-perform design services.

From time to time, the Company enters into intellectual property licenses (e.g., patent licenses and software licenses) with third parties which obligate the Company to report covered behavior to the licensor and pay license fees to the licensor for certain activities or products, or that enable the Company's use of third-party technologies. The Company may also decline to enter into licenses for intellectual property that it does not think is useful for or used in its operations, or for which its customers or suppliers have licenses or have assumed responsibility. Given the diverse and varied nature of its business and the location of its business around the world, certain activities the Company performs, such as providing assembly services in China and India, may fall outside the scope of those licenses or may not be subject to the applicable intellectual property rights. The Company's licensors may disagree and claim royalties are owed for such activities. In addition, the basis (e.g., base price) for any royalty amounts owed are audited by licensors and may be challenged. Some of these disagreements may lead to claims and litigation that might not be resolved in the Company's favor. Additionally, litigation could be lengthy and costly and could materially harm the Company's financial condition regardless of the outcome.

On May 8, 2018, a putative class action was filed in the Northern District of California against the Company and certain officers alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5, promulgated thereunder, alleging misstatements and/or omissions in certain of the Company's financial results, press releases and SEC filings made during the putative class period of January 26, 2017 through April 26, 2018. On October 1, 2018, the Court appointed lead plaintiff and lead plaintiff's counsel in the case. On November 28, 2018, lead plaintiff filed an amended complaint alleging misstatements and/or omissions in certain of the Company's SEC filings, press releases, earnings calls, and analyst and investor conferences and expanding the putative class period through October 25, 2018. On April 3, 2019, the Court vacated its prior order appointing lead plaintiff and lead plaintiff's counsel and reopened the lead plaintiff appointment process. On September 26, 2019, the Court appointed a new lead plaintiff, National Elevator Industry Pension Fund, and lead plaintiff's counsel in the case. On November 8, 2019, lead plaintiff filed a further amended complaint. On December 4, 2019, defendants filed a motion to dismiss the amended complaint. On May 29, 2020, the Court granted defendants' motion to dismiss without prejudice and gave lead plaintiff 30 days to amend. On June 29, 2020, lead plaintiff filed a further amended complaint. On July 27, 2020, defendants filed a motion to dismiss the amended complaint. On December 10, 2020, the Court granted defendants' motion to dismiss with prejudice and entered judgment in favor of defendants. On January 7, 2021, lead plaintiff filed a notice

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

of appeal to the Ninth Circuit Court of Appeals. On December 21, 2021, the Court of Appeals affirmed the dismissal with prejudice of the case. The Court of Appeals' decision took effect on January 12, 2022. The time for plaintiffs to seek review by the U.S. Supreme Court lapsed on March 21, 2022. This matter is now fully resolved.

On April 21, 2016, SunEdison, Inc. (together with certain of its subsidiaries, "SunEdison") filed for protection under Chapter 11 of the U.S. Bankruptcy Code. During the fiscal year ended March 31, 2016, the Company recognized a bad debt reserve charge of \$61.0 million associated with its outstanding SunEdison receivables and accepted return of previously shipped inventory of approximately \$90.0 million. SunEdison stated in schedules filed with the Bankruptcy Court that, within the 90 days preceding SunEdison's bankruptcy filing, the Company received approximately \$98.6 million of inventory and cash transfers of \$69.2 million, which in aggregate represents the Company's estimate of the maximum reasonably possible contingent loss. On April 15, 2018, a subsidiary of the Company together with its subsidiaries and affiliates, entered into a tolling agreement with the trustee of the SunEdison Litigation Trust to toll any applicable statute of limitations or other time-related defense that might exist in regards to any potential claims that either party might be able to assert against the other for a period that will end at the earlier to occur of: (a) 60 days after a party provides written notice of termination; (b) six years from the effective date of April 15, 2018; or (c) such other date as the parties may agree in writing. The parties reached a cash settlement, that is fully provided for as of March 31, 2022, whereby the SunEdison Litigation Trust released all potential claims against the Company.

One of the Company's Brazilian subsidiaries has received assessments for certain sales and import taxes. There were originally six tax assessments totaling the updated amount of 373.7 million Brazilian reals (approximately USD \$78.7 million based on the exchange rate as of March 31, 2022). Five of the assessments are in various stages of the review process at the administrative level; the Company successfully defeated one of the six assessments in September 2019 (totaling approximately the updated amount of 60.6 million Brazilian reals or USD \$12.8 million); that assessment remains subject to appeal and no tax proceeding has been finalized yet. The Company was unsuccessful at the administrative level for one of the assessments and filed an annulment action in federal court in Brasilia, Brazil on March 23, 2020; the updated value of that assessment is 33.9 million Brazilian reals (approximately USD \$7.1 million). The Company believes there is no legal basis for any of these assessments and that it has meritorious defenses. The Company will continue to vigorously oppose all of these assessments, as well as any future assessments. The Company does not expect final judicial determination on any of these claims in the next four years.

On February 14, 2019, the Company submitted an initial notification of voluntary disclosure to the U.S. Department of the Treasury, Office of Foreign Assets Control ("OFAC") regarding possible noncompliance with U.S. economic sanctions requirements among certain non-U.S. Flex-affiliated operations. On September 28, 2020, the Company made a submission to OFAC that completed the Company's voluntary disclosure based on the results of an internal investigation regarding the matter. On June 11, 2021, the Company notified OFAC that it had identified possible additional relevant transactions at one non-U.S. Flex-affiliated operation. The Company submitted an update to OFAC on November 16, 2021 reporting on the results of its review of those transactions. The Company intends to continue to cooperate fully with OFAC in this matter going forward. Nonetheless, it is reasonably possible that the Company could be subject to penalties that could have a material adverse effect on the Company's financial position, results of operations or cash flows.

A foreign Tax Authority ("Tax Authority") has assessed a cumulative total of approximately \$163.9 million in taxes owed for multiple Flex legal entities within its jurisdiction for various fiscal years ranging from fiscal year 2010 through fiscal year 2018. The assessed amounts related to the denial of certain deductible intercompany payments. The Company disagrees with the Tax Authority's assessments and is actively contesting the assessments through the administrative and judicial processes.

As the final resolution of the above outstanding tax item remains uncertain, the Company continues to provide for the uncertain tax positions based on the more likely than not standard. While the resolution of the issues may result in tax liabilities, interest and penalties, which may be significantly higher than the amounts accrued for these matters, management currently believes that the resolution will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

In November 2019, the Company received a favorable ruling from the Brazilian Supreme Court in a case against the Brazilian tax authorities regarding the right to exclude the value of a state tax referred to as ICMS from the calculation of a federal operational tax basis referred to as PIS/COFINS. The ruling allowed the Company the right to recover amounts unduly paid from February 2003 to December 2019. As a result, the Company recorded an immaterial gain in fiscal year 2020 for the recovery of taxes. The Receita Federal, a tax authority in Brazil, filed a Motion of Clarification on a leading case with the Brazilian Supreme Court previously in 2017 and in May 2021, the Brazilian Supreme Court ruled in favor of the taxpayers and specifically clarified that the ICMS taxes to be excluded from the PIS/COFINS tax basis are to be based on the amount stated

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

on the sales invoice irrespective of any further discounts received from the state. As a result of this ruling, which further reinforced the favorable ruling received in November 2019, the Company initiated the request for "Credit Habilitation" with the tax authorities in June 2021 to request additional PIS/COFINS credit in the amount of 776.7 million Brazilian reais (approximately USD \$154.8 million based on the exchange rate as of July 2, 2021). However, the nature of the Company's credits requested for Habilitation were not specifically addressed by the May 2021 ruling, and accordingly there remained uncertainty regarding the Company's ability to recognize these credits. The Company considered the recognition of these credits to be a contingent gain in accordance with ASC 450, Contingencies, and did not record a gain for such credits in the three-month period ended July 2, 2021 as it had not resolved all contingencies to conclude a realized or realizable amount. In September 2021, the Credit Habilitation request was approved by the tax authorities and the Company recognized a gain of 809.6 million Brazilian reais (approximately USD \$149.3 million based on the exchange rate as of October 1, 2021) included in other charges (income), net in the consolidated statements of operations for the twelve-month period ended March 31, 2022. The total gain recorded included credits from February 2003 to September 2021, net of additional taxes, as the Credit Habilitation received covering the period from February 2003 to December 2019 resolved any uncertainty regarding the Company's ability to claim such credits. This gain is non-cash and can only be used to offset certain current and future tax obligations. As of March 31, 2022, credits totaling 378.7 million Brazilian reais (approximately USD \$79.8 million based on the exchange rate as of March 31, 2022) are included in other current assets.

In addition to the matters discussed above, from time to time, the Company is subject to legal proceedings, claims, and litigation arising in the ordinary course of business. The Company defends itself vigorously against any such claims. Although the outcome of these matters is currently not determinable, management expects that any losses that are probable or reasonably possible of being incurred as a result of these matters, which are in excess of amounts already accrued in the Company's consolidated balance sheets, would not be material to the financial statements as a whole.

15. INCOME TAXES

The domestic (Singapore) and foreign components of income before income taxes were comprised of the following:

	Fiscal Year Ended March 31,		
	2022	2021	2020
	(In millions)

Tax impacts related to sale of Nextracker Series A Preferred Units	13	—	—
APB23 tax liability	1	1	9
Other	12	10	11
Provision for income taxes	<u>\$ 105</u>	<u>\$ 101</u>	<u>\$ 71</u>

A number of countries in which the Company is located allow for tax holidays or provide other tax incentives to attract and retain business. In general, these holidays were secured based on the nature, size and location of the Company's operations. The aggregate dollar effect on the Company's income resulting from tax holidays and tax incentives to attract and retain business for the fiscal years ended March 31, 2022, 2021 and 2020 was \$22.5 million, \$21.2 million and \$15.6 million, respectively. For the fiscal year ended March 31, 2022, the effect on basic and diluted earnings per share was \$0.05 and \$0.05, respectively, and the effects on basic and diluted earnings per share during fiscal years 2021 and 2020 were \$0.04 and \$0.04, and \$0.03 and \$0.03, respectively. Unless extended or otherwise renegotiated, the Company's existing holidays will expire in various years through the end of fiscal year 2028.

The Company provides a valuation allowance against deferred tax assets that in the Company's estimation are not more likely than not to be realized. During fiscal year 2022, 2021 and 2020, the Company released valuation allowances totaling \$26.3 million, \$24.5 million and \$1.1 million, respectively. For fiscal year 2022, \$7.7 million valuation allowance release was mainly related to certain operations in Canada and Hungary, as these amounts were deemed to be more likely than not to be realized due to the sustained profitability during the past three fiscal years as well as continued forecasted profitability of those operations. The remaining \$18.6 million valuation allowance release relates to deferred tax assets in the United States deemed realizable due to purchase accounting related to the Anord Mardix acquisition. Various other valuation allowance positions were also reduced due to varying factors such as recognition of uncertain tax positions impacting deferred tax assets, one-time income recognition in loss entities, and foreign exchange impacts on deferred tax balances. Lastly, these valuation allowance reductions and eliminations were offset by current period valuation allowance additions due to increased deferred tax assets as a result of current period losses in legal entities with existing full valuation allowance positions. For fiscal years ended March 31, 2022, 2021 and 2020, the offsetting amounts totaled \$38.7 million, \$60.0 million and \$90.2 million, respectively.

Under its territorial tax system, Singapore generally does not tax foreign sourced income until repatriated to Singapore. The Company has included the effects of Singapore's territorial tax system in the rate differential line above. The tax effect of foreign income not repatriated to Singapore for the fiscal years ended March 31, 2022, 2021 and 2020 were \$104.5 million, \$57.3 million and \$27.9 million, respectively.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The components of deferred income taxes are as follows:

	As of March 31,	
	2022	2021
	(In millions)	
Deferred tax liabilities:		
Fixed assets	\$ (49)	\$ (69)
Intangible assets	(89)	(45)

Others	201	190
Total deferred tax assets	<u>1,874</u>	<u>1,958</u>
Valuation allowances	<u>(1,631)</u>	<u>(1,726)</u>
Total deferred tax assets, net of valuation allowances	<u>243</u>	<u>232</u>
Net deferred tax asset	<u>\$ 91</u>	<u>\$ 105</u>
The net deferred tax asset is classified as follows:		
Long-term asset	\$ 177	\$ 165
Long-term liability	(86)	(60)
Total	<u>\$ 91</u>	<u>\$ 105</u>

Utilization of the Company's deferred tax assets is limited by the future earnings of the Company in the tax jurisdictions in which such deferred assets arose. As a result, management is uncertain as to when or whether these operations will generate sufficient profit to realize any benefit from the deferred tax assets. The valuation allowance provides a reserve against deferred tax assets that are not more likely than not to be realized by the Company. However, management has determined that it is more likely than not that the Company will realize certain of these benefits and, accordingly, has recognized a deferred tax asset from these benefits. The change in valuation allowance is net of certain increases and decreases to prior year losses and other carryforwards that have no current impact on the tax provision.

The Company has recorded deferred tax assets of approximately \$1.7 billion related to tax losses and other carryforwards against which the Company has recorded a valuation allowance for all but \$84.2 million of the deferred tax assets. These tax losses and other carryforwards will expire at various dates as follows:

Expiration dates of deferred tax assets related to operating losses and other carryforwards	
Fiscal year	(In millions)
2023 - 2028	\$ 555
2029 - 2034	274
2035 and post	120
Indefinite	706
	<u>\$ 1,655</u>

The amount of deferred tax assets considered realizable, however, could be reduced or increased in the near-term if facts, including the amount of taxable income or the mix of taxable income between subsidiaries, differ from management's estimates.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company does not provide for income taxes on approximately \$1.6 billion of undistributed earnings of its subsidiaries which are considered to be indefinitely reinvested outside of Singapore as management has plans for the use of such earnings to fund certain activities outside of Singapore. The estimated amount of the unrecognized deferred tax liability on these undistributed earnings is approximately \$147.5 million. As a result, as of March 31, 2022, the Company has provided for earnings in foreign subsidiaries that are not considered to be indefinitely reinvested and therefore subject to withholding taxes on \$10.0 million of undistributed foreign earnings, recording a deferred tax liability of approximately \$0.5 million thereon.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	Fiscal Year Ended March 31,	
	2022	2021
	(In millions)	
Balance, beginning of fiscal year	\$ 266	\$ 246
Additions based on tax position related to the current year	27	16
Additions for tax positions of prior years	15	14
Reductions for tax positions of prior years	(7)	(8)
Reductions related to lapse of applicable statute of limitations	(16)	(16)
Impact from foreign exchange rates fluctuation	(3)	14
Balance, end of fiscal year	\$ 282	\$ 266

The Company's unrecognized tax benefits are subject to change over the next twelve months primarily as a result of the expiration of certain statutes of limitations and as audits are settled. The Company believes it is reasonably possible that the total amount of unrecognized tax benefits could decrease by an additional approximate \$93.2 million within the next twelve months primarily due to potential settlements of various audits and the expiration of certain statutes of limitations.

The Company and its subsidiaries file federal, state, and local income tax returns in multiple jurisdictions around the world. With few exceptions, the Company is no longer subject to income tax examinations by tax authorities for years before 2008.

Of the \$282.2 million of unrecognized tax benefits at March 31, 2022, \$189.8 million will affect the annual effective tax rate (ETR) if the benefits are eventually recognized. The amount that doesn't impact the ETR relates to positions that would be settled with a tax loss carryforward previously subject to a valuation allowance.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits within the Company's tax expense. During the fiscal years ended March 31, 2022, 2021 and 2020, the Company recognized interest and penalties of approximately \$2.1 million, \$2.1 million and (\$0.9) million, respectively. The Company had approximately \$16.4 million, \$14.4 million and \$12.3 million accrued for the payment of interest and penalties as of the fiscal years ended March 31, 2022, 2021 and 2020, respectively.

16. RESTRUCTURING CHARGES

Fiscal Year 2022

The Company continues to identify certain structural changes to restructure the business throughout fiscal year 2022. During fiscal year 2022, the Company recognized approximately \$15 million of restructuring charges, most of which related to employee severance. Restructuring charges are not included in segment income, as disclosed further in note 21.

Fiscal Year 2021

In order to support the Company's strategy and build a sustainable organization, and after considering that the economic recovery from the pandemic would be slower than anticipated, the Company identified certain structural changes to restructure the business. These restructuring actions eliminated non-core activities primarily within the Company's corporate function, aligned the Company's cost structure with its reorganizing and optimizing of its operations model along its reporting segments, and further sharpened its focus to winning business in end markets where it has competitive advantages and deep domain expertise. During fiscal year 2021, the Company recognized approximately \$101.3 million of restructuring charges, most of which related to employee severance.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Fiscal Year 2020

During the first half of fiscal year 2020 in connection with the geopolitical developments and uncertainties at the time, primarily impacting one customer in China, the Company experienced a reduction in demand for products assembled for that customer. As a result, the Company accelerated its strategic decision to reduce its exposure to certain high-volatility products in both China and India. The Company also initiated targeted activities to restructure its business to further reduce and streamline its cost structure. During fiscal year 2020, the Company recognized \$216.4 million of restructuring charges. The Company incurred cash charges of approximately \$159.3 million, that were predominantly for employee severance, in addition to non-cash charges of \$57.1 million, respectively, primarily related to asset impairments.

	Severance	Long-Lived Asset Impairment	Other Exit Costs	Total

17. OTHER CHARGES (INCOME), NET

Other charges (income), net for the fiscal years ended March 31, 2022, 2021 and 2020 are primarily comprised of the following:

	Fiscal Year Ended March 31		
	2022	2021	2020
	(In millions)		
Gain on foreign exchange transactions	\$ (32)	\$ (21)	\$ (10)
Equity in earnings (1)	(61)	(83)	(5)
Impairments and (gain) loss on sale of investments (2)	2	37	98
Brazil tax credit (3)	(150)	—	—

- (1) Represents gains on strategic investments in privately held companies accounted under equity method. During fiscal years 2022 and 2021, the Company recognized \$61 million and \$83 million of equity in earnings, respectively, driven by the value increase in certain investment funds primarily resulting from discrete market events such as initial public offerings of certain companies included in the funds. Out of the total gain on investments recorded in fiscal years 2022 and 2021, the Company realized approximately \$17 million and \$48 million of cash proceeds as it sold certain shares received as a distribution from one of its funds' investments.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- (2) During fiscal years 2022, 2021 and 2020, and in connection with the Company's ongoing assessment of recoverability of its investment portfolio, the Company concluded that the carrying amounts of certain non-core investments were other than temporarily impaired and recognized \$3.0 million, \$36.5 million and \$97.7 million of total impairment charges, respectively (See note 2 for additional information).
- (3) The Company recognized a \$150.0 million gain related to a certain tax credit upon approval of a "Credit Habilitation" request by the relevant Brazil tax authorities for fiscal year 2022. Refer to note 14 for further information.

18. INTEREST, NET

Interest, net for the fiscal years ended March 31, 2022, 2021 and 2020 are primarily comprised of the following:

	Fiscal Year Ended March 31		
	2022	2021	2020
	(In millions)		
Interest expenses on debt obligations (1)	\$ 153	\$ 150	\$ 146
Interest income	(14)	(14)	(19)
ABS and AR sales programs related expenses	5	11	43

- (1) Interest expense on debt obligations for fiscal year 2020 includes debt extinguishment costs of \$7.2 million, related to the full repayments of the Notes due February 2020 and the Term Loan due November 2021. Debt extinguishment costs incurred during fiscal years 2022 and 2021 were immaterial.

19. BUSINESS AND ASSET ACQUISITIONS & DIVESTITURES

Fiscal 2022 Business acquisition

On December 1, 2021, the Company completed the business acquisition of Anord Mardix, a global leader in critical power solutions for an initial purchase consideration of \$522.5 million, net of \$25.1 million cash acquired, with an additional \$16.5 million deferred purchase price paid out in the fourth quarter of fiscal year 2022, for a total purchase consideration of \$539 million. The acquisition adds to the Company's portfolio of Power products and expands its offering in the data center market. For reporting purposes, Anord Mardix is included in the Industrial reporting unit within the FRS segment. The allocation of the purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed was based on their estimated fair values as of the date of acquisition. The excess of the purchase price over the tangible and identifiable intangible assets acquired and liabilities assumed has been allocated to goodwill. The results of operations of the acquisition were included in the Company's consolidated financial results beginning on the date of acquisition, and the total amount of net income and revenue were not material to the Company's consolidated financial results for fiscal year 2022.

The following represents the Company's allocation of the total purchase price to the acquired assets and liabilities of Anord Mardix (in millions):

Current assets	\$ 142
Property and equipment	13
Operating lease right-of-use assets	36
Intangible assets	273
Goodwill	272
Total assets	\$ 736
Current liabilities	\$ 104
Operating lease liabilities and other liabilities, non-current	37
Deferred tax liabilities, non-current	56
Total aggregate purchase price, net of cash acquired	\$ 539

The intangible assets of \$273.0 million are comprised of customer related intangible assets of \$147.0 million and licenses and other intangible assets such as trade names and developed technology of \$126.0 million. Customer related assets are

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

amortized over a weighted-average estimated useful life of 8.7 years while licensed and other intangibles are amortized over a weighted-average estimated useful life of 8.9 years.

Pro-forma results of operations have not been presented because the effects were not material to the Company's consolidated financial results for all periods presented.

The Company is in the process of evaluating the fair value of the assets and liabilities related to this acquisition. Additional information, which existed as of the acquisition date, may become known to the Company during the remainder of the measurement period, a period not to exceed 12 months from the date of acquisition. Changes to amounts recorded as assets and liabilities may result in a corresponding adjustment to goodwill during the respective measurement period.

Fiscal 2020 Business acquisition and divestitures

During fiscal year 2020, the Company completed an acquisition that was not significant to the consolidated financial position, result of operations and cash flows of the Company.

Further, during fiscal year 2020, the Company disposed of two immaterial non-strategic businesses. The net gain on dispositions was not material to the Company's consolidated financial results, and was included in other charges, net in the consolidated statements of operations for fiscal year 2020.

Pro-forma results of operations for the acquisition and divestitures have not been presented because the effects were not individually, nor in the aggregate, material to the Company's consolidated financial results for all periods presented.

20. SHARE REPURCHASE PLAN

During fiscal year 2022, the Company repurchased approximately 38.2 million shares for an aggregate purchase price of approximately \$685.6 million and retired all of these shares.

Under the Company's current share repurchase program, the Board of Directors authorized repurchases of its outstanding ordinary shares for up to \$1.0 billion in accordance with the share repurchase mandate approved by the Company's shareholders at the date of the most recent Annual General Meeting held on August 4, 2021. As of March 31, 2022, shares in the aggregate amount of \$495.6 million were available to be repurchased under the current plan.

21. SEGMENT REPORTING

The Company's Chief Executive Officer is our CODM who evaluates how we allocate resources, assesses performance and make strategic and operational decisions. Based on such evaluation, the Company determined as of and for the period ended March 31, 2022, that Flex has three operating and reportable segments. See note 1 and note 7 for further details on the segment change that took place in the fourth quarter of fiscal year 2022.

The FAS segment is optimized for speed to market based on a highly flexible supply and manufacturing system. FAS is comprised of the following end markets that represent reporting units:

- *Communications, Enterprise and Cloud*, including data infrastructure, edge infrastructure and communications infrastructure;
- *Lifestyle*, including appliances, consumer packaging, floorcare, micro mobility and audio; and
- *Consumer Devices*, including mobile and high velocity consumer devices.

The FRS segment is optimized for longer product lifecycles requiring complex ramps with specialized production models and critical environments. FRS is comprised of the following end markets that represent reporting units:

- *Automotive*, including next generation mobility, autonomous, connectivity, electrification, and smart technologies;
- *Health Solutions*, including medical devices, medical equipment, and drug delivery; and
- *Industrial*, including capital equipment, industrial devices, and renewables and grid edge.

The Nexttracker segment provides solar tracker technologies that optimize and increase energy production while reducing costs for significant plant return on investment.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Nextracker, the leading provider of intelligent, integrated solar tracker and software solutions used in utility-scale and ground-mounted distributed generation solar projects around the world. Nextracker's products enable solar panels to follow the sun's movement across the sky and optimize plant performance.

The determination of the separate operating and reporting segments is based on several factors, including the nature of products and services, the nature of production processes, customer base, delivery channels and similar economic characteristics.

An operating segment's performance is evaluated based on its pre-tax operating contribution, or segment income. Segment income is defined as net sales less cost of sales, and segment selling, general and administrative expenses, and does not include amortization of intangibles, stock-based compensation, customer related asset impairments (recoveries), restructuring charges, legal and other. A portion of depreciation is allocated to the respective segments, together with other general corporate research and development and administrative expenses.

Selected financial information by segment is in the table below. Fiscal year 2021 and 2020 historical information has been recast to reflect the new operating and reportable segments, in the table below and in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

	Fiscal Year Ended March 31,		
	2022	2021	2020
(In millions)			
Net sales:			
Flex Agility Solutions	\$ 14,027	\$ 13,493	\$ 14,053
Flex Reliability Solutions	10,603	9,495	9,053
Nextracker	1,458	1,195	1,171
Intersegment eliminations	(47)	(59)	(67)
	<u>\$ 26,041</u>	<u>\$ 24,124</u>	<u>\$ 24,210</u>
Segment income and reconciliation of operating income:			
Flex Agility Solutions	\$ 605	\$ 449	\$ 369
Flex Reliability Solutions	546	484	474
Nextracker	90	178	168
Corporate and Other	(72)	(80)	(113)
Total segment income	1,169	1,031	898
Reconciling items:			
Intangible amortization	68	62	64
Stock-based compensation	91	79	71
Customer related asset impairments (recoveries) (1)	—	(7)	106
Restructuring charges (Note 16)	15	101	216
Legal and other (2)	23	1	26
Operating income	<u>\$ 972</u>	<u>\$ 795</u>	<u>\$ 415</u>

- (1) Customer related asset impairments (recoveries) for fiscal years 2022 and 2021 were not material.

Customer related asset impairments for fiscal year 2020 primarily relate to non-cash impairments of certain property and equipment for customers from whom we have disengaged or were in the process of disengaging, additional provision for doubtful accounts receivable, charges for other asset impairments, and reserves for excess and obsolete inventory for certain customers experiencing financial difficulties and/or related to inventory that will not be recovered due to significant reductions in future customer demand.

- (2) Legal and other consists of costs not directly related to core business results and may include matters relating to commercial disputes, government regulatory and compliance, intellectual property, antitrust, tax, employment or shareholder issues, product liability claims and other issues on a global basis as well as acquisition related costs and customer related asset recoveries. During the fourth quarter of fiscal year 2022, the Company accrued for certain loss contingencies where losses are considered probable and estimable offset by a gain upon successful settlement of certain supplier claims.

FLEX LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Legal and other during fiscal year 2021 primarily consists of costs accrued for certain loss contingencies where losses are considered probable and estimable, offset by a gain on the sale of real estate in the fourth quarter of fiscal year 2021 exited as a result of the disengagement of a certain customer in fiscal year 2020.

Legal and other during fiscal year 2020 primarily consists of direct and incremental costs associated with certain wind-down activities related to the disengagement of a certain customer primarily in China and India, offset by certain gains resulting from the recognition of prior year expenses paid to a government now considered probable of recovery and reasonably estimable due to a favorable tax ruling.

Corporate and other primarily includes corporate services costs that are not included in the CODM's assessment of the performance of each of the identified reporting segments.

The Company provides an overall platform of assets and services, which the segments utilize for the benefit of their various customers. The shared assets and services are contained within the Company's global manufacturing and design operations and include manufacturing and design facilities. Most of the underlying manufacturing and design assets are co-mingled in the operating campuses and are compatible to operate across segments and highly interchangeable throughout the platform. Given the highly interchangeable nature of the assets, they are not separately identified by segment nor reported by segment to the Company's CODM.

Property and equipment on a segment basis is not disclosed as it is not separately identified and is not internally reported by segment to the Company's CODM as described above. During fiscal years 2022, 2021 and 2020, depreciation expense included in the segments' measure of operating performance above is as follows.

	Fiscal Year Ended March 31,		
	2022	2021	2020
	(In millions)		
Depreciation expense:			
Flex Agility Solutions	\$ 184	\$ 185	\$ 218
Flex Reliability Solutions	204	210	170
Nextracker	3	2	3
Corporate and Other	18	25	31
Total depreciation expense	<u>\$ 409</u>	<u>\$ 422</u>	<u>\$ 422</u>

Geographic information of net sales is as follows:

	Fiscal Year Ended March 31,					
	2022		2021		2020	
	(In millions)					
Net sales by region:						
Americas	\$ 10,839	42 %	\$ 9,672	40 %	\$ 10,066	42 %

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of March 31, 2022. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2022, the Company's disclosure controls and procedures were effective in ensuring that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management's evaluation excluded an assessment of those disclosure controls and procedures of Anord Mardix that are subsumed by internal control over financial reporting, described under paragraph (b) below.

(b) Management's Annual Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act. Internal control over financial reporting consists of policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) are designed and operated to provide reasonable assurance regarding the reliability of the Company's financial reporting and the Company's process for the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements. Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance and may not prevent or detect misstatements or prevent or detect instances of fraud. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls may be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

On December 1, 2021, the Company acquired Anord Mardix. Management's annual assessment of the effectiveness of internal control over financial reporting as of March 31, 2022 excluded the internal control over financial reporting at Anord Mardix, which constitutes, in the aggregate, less than 1% of the total assets and net sales of the related consolidated financial statement amounts as of, and for the fiscal year ended March 31, 2022.

As of March 31, 2022, under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer, an evaluation was conducted of the effectiveness of the Company's internal control over financial reporting based on the framework in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on that evaluation, management concluded that the Company's internal control over financial reporting was effective as of March 31, 2022.

(c) Attestation Report of the Registered Public Accounting Firm

The effectiveness of the Company's internal control over financial reporting as of March 31, 2022 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which appears in this Item under the heading "Report of Independent Registered Public Accounting Firm."

(d) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the fourth quarter ended March 31, 2022 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

We have not experienced any material impact to our internal control over financial reporting despite the fact that most of our employees are working remotely for their health and safety during the COVID-19 pandemic. We are continually monitoring

and assessing the potential impact of COVID-19 on our internal controls to minimize the impact on their design and operating effectiveness.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and the Shareholders of Flex Ltd., Singapore

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Flex Ltd. and subsidiaries (the "Company") as of March 31, 2022, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of March 31, 2022, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by COSO.

As indicated in the accompanying Management's Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls at Anord Mardix (as defined in Note 19), which is included in the 2022 consolidated financial statements of the Company and constituted less than 1% of total assets as of March 31, 2022 and less than 1% of net sales for the year then ended. Our audit of internal control over financial reporting of the Company also did not include an evaluation of the internal control over financial reporting at Anord Mardix.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended March 31, 2022 of the Company and our report dated May 20, 2022, expressed an unqualified opinion on those financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting, may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

FORWARD LOOKING STATEMENTS

This proxy statement contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. All statements other than statements of historical or current facts, including statements regarding our future business expectations and our environmental and other sustainability plans and goals, and related timeframes made in this document are forward-looking. The words "will," "may," "designed to," "believe," "should," "would," "could," "anticipate," "plan," "expect," "intend," "estimate," "goals," "opportunity," "future," "to be," "achieve," "grow," "committed," "seeks," "targets," "continues," "likely," "possible," "might," "potentially," "will," "on track," "working to," "encourage," "continue," "strive," "endeavor," "looking forward," "efforts, aim," and variations of such words and similar expressions identify forward-looking statements, which speak only as of the date of this proxy statement. Because these forward-looking statements are subject to risks and uncertainties, actual results could differ materially from the expectations expressed in the forward-looking statements. Important factors that could cause actual results to differ materially from the expectations reflected in the forward-looking statements include those described in Item 1A, "Risk Factors" and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, and in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K that we file with the U.S. Securities and Exchange Commission. In addition, new risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. Given these risks and uncertainties, the reader should not place undue reliance on these forward-looking statements. We undertake no obligation to update or revise these forward-looking statements to reflect subsequent events or circumstances.
